An Unfortunate Accident.

Mr. Jas. Tighe, Union street, met with a serious and painful accident yesterday afternoon while splitting wood in a shed. He was busily swinging the axe when by some means the helve struck a clothes line over his head and stayed the downward motion of the blow. The result was that the axe swerved and the blow fell upon his head inflicting a deep and painful wound. Dr. Fife was called in and put four stitches in the gash. Had the blade penetrated half an inch farther it would have entered the brain. The injured man is resting favourably to-day.

Our National Game.

Lacrosse is likely to have a big boom this year, and the boys are busy making active preparations for a lively season. In order to give an extra spurt to the game in town, the popular clothing firm of H. LeBrun & Co. will give away free a dandy lacrosse stick and ball to every boy buying a suit of clothing at the City Clothing Store. This will no doubt prove a very tempting inducement to the boys—more especially as Messrs. LeBrun & Co are so well known to excel in boys' suits, which are always good value at the prices offered, without the present of the lacrosse outfit. It is quite evident that Mr. Harry L. Brun, the senior member of the firm, is still retaining his old time enthusiasm for our national game, which led to his being chosen President of the Dominion Lacrosse Association. d98w17tf

Mining Note.

The Bridgewater correspondent of the Madoc *Review* writes: "Mining operations in this section promises to be brisk this season. President Campbell, of the "Standard Asbestos Co., owner of the Bull Mines, writes under recent date, that they intend to begin active operations in the spring. The Peebles Actinolite Mines are also expected to be operated this season.

Keep Next Friday Night Clear.

A splendid entertainment will be given under the auspices of the St. Andrew's Sunday school on Friday evening next, the 29th inst. It will take place in the Sunday school room of St. Andrew's church. A good programme consisting of instrumental and vocal solos, duets, trios, readings, recitations, etc., will be presented by the best local talent of Peterborough. All are cordially invited. Admission 25 cents, children 10 cents. Keep next Friday night clear. 3396

Another Petty Theft.

Some thieves in search of provisions entered the residence of Mr. J. J. Lundy, Ashburnham, on Friday night last. They took out a window in the kitchen, thereby gaining ingress. The thieves, who were likely tramps in search of something to eat, went into the pantry and stole a quantity of roast beef, plum pudding and other delicacies. They also entered the dining room, but took nothing from the residence except what they could devour. *This is* about the sixth case of pilfering perpetrated in Peterborough within the last month.

Sale of "Inglewood."

Remember the auction sale of "Inglewood" which takes place on Friday, the 29th of April, at three o'clock p.m., on the premises. "Inglewood," with the grounds attached, consists of ten acres of land, well stocked with fruit and ornamental trees, etc. The residence commands a beautiful view of the town, and is a fine large two-story brick building, containing ten rooms, besides bath room, closets, pantries, kitchens, hot and cold water upstairs and down, and is heated by a modern hot air coal furnace. There are also brick stables, coach house, cow stables, driving sheds, etc., all in good repair. Premises may be examined any day between 2 and 6 p.m. Further particulars on application to Messrs. Hall & Hayes, solicitors. 2398 tu th

Pleads Not Guilty.

Wm. Leeper who was arrested at Roseneath on Sunday by Chief of Police Rankin, of Cobourg, was brought to town yesterday by Constable Adams and lodged in the cells. This morning he was brought up before the magistrate, charged with purchasing from one, F. C. Austin, counterfeit bank notes, contrary to the statutes in that behalf. He pleaded not guilty and the case was enlarged until Friday at ten o'clock. The prisoner like his predecessor, F. C. Austin alias W. J. Young, is a young man who has evidently intended to grasp wealth by the back of the neck, by investing $10 for $100 in green goods, which were fully set forth in the epistle sent the prisoner by Austin. It is alleged that Leeper was in town a few days ago and inquired at the post office for a man named Austin. He told the clerk that Austin was a friend of his and that he wanted to know where to find him.

Bishop Hawkins' Life Story.

A large attendance numbering over eight hundred people assembled in George street Methodist church last night to hear Bishop Hawkins give a recital of the adventures of his slave life. Rev. Mr. Locke occupied the chair and in a few words introduced the speaker. Bishop Hawkins gave an hour and a half interesting account of his experiences when in the thraldom of slavery, his many escapes, many adventures and many trials. The story of his slave life as he repeated it in a lively and entertaining style thrilled his hearers through and through, and he held their rapt attention during its whole delivery. He related many strange and peculiar anecdotes in connection with wonderful escapes from his master in Virginia when about to be sold under the auction block in 1839, of his ultimate escape to Baltimore and Philadelphia, of his thirty years of slave life and the history of his fathers and grand-fathers whose ancestory was all one of slavery. The bishop is now residing with his sister in Chatham. She is 85 years of age, and is still, as he expressed it, young and buoyant as a girl of 16. During the evening he sang four plantation songs in a rich tenor voice whose sweetness and melody charmed all present. At the close a vote of thanks was moved by Mr. D. W. Dumble, and seconded by Mr. H. S. Griffin, thanking Bishop Hawkins for his kindness in coming to Peterborough, and for his very interesting sermons of Sunday and for his thrilling lecture. The coloured divine responded to the vote of thanks tendered him by Mr. Locke, by leading the congregation in singing "Shall we meet at Jesus' feet?" The proceeds of the evening amounted to $90

High Court of Justice.

Continuation of Assize Court Proceedings.
TUESDAY, April 26th.

Yesterday afternoon the trial of the action, Standard Agency Company, Montreal, vs. Dickson Co., was held by the judge without a jury. The taking of evidence continued till 7 o'clock, when His Lordship said that to save the county expense he would postpone the further hearing till after the jury cases were disposed of. This morning the first case to engage the court's attention was

J. J. BEALY VS WM SWINTON, J. L. WALTON and ANDREW YOUNG—In this case the plaintiff brings suit to recover $2,000 damages for assault and battery committed by defendants upon plaintiff on January 18th last. This it will be remembered was in connection with the troubles arising between the parties, out of the disputed possession of the Grange Hall, North Monaghan. The particulars of the case, and the reports of mainly the same, evidence have been given in the EXAMINER in connection with the preliminary and other hearings. At the trial to day the evidence of of professional men was added. Dr. Yelland, Dr. Halliday, Dr. Boucher and Dr. Fife gave evidence touching the relation of the assault to the illness which the plaintiff suffered. After the address of the counsel, His Lordship in addressing the jury, spoke strongly of the improper character of the assault, and he intimated plainly that he would see that there was further legal investigation. He then considered the evidence and substantially charged in favour of the jury awarding damages to the plaintiff, intimating at the same time that the question of damages should be considered in connection with the questions as to whether Bealey had by his own actions justified the assault, and as to whether the illness from which he suffered was due to the assault or to mental anxiety in connection with the several police court cases operating upon a weak constitution. He the give the case to the jury.

THE GRAND JURY

made the following findings:—
QUEEN VS MATTHEW WYNN—Felonious assault.—True bill,
QUEEN VS. WALTER NORTHCOTT—Robbery.—True bill,
QUEEN VS EDWARD SMYLIE—Perjury.—True bill,
QUEEN VS GOLDSMITH ENGLISH—Embezzlement. No bills.

Wynn and Northcott were arraigned and pleaded not guilty.

The civil business was resumed and the jury was called in the case of Carton vs. Bradburn which is now in progress.

A Distinguished Canadian Quintette.

Yesterday Mr. James Stevenson, M. P., was in Toronto, and procured a splendid bust portrait of Hon. George Brown, by Hamilton McCarthy, R. A., which arrived by express to-day and was placed in position in the Collegiate Institute. This completes the quintette of distinguished Canadians whose busts Mr. Stevenson has generously presented to the Institute These are those of Sir John Macdonald, Hon. Edward Blake, Sir Daniel Wilson, Dr. Ryerson and Hon. Geo. Brown. Hon. Mr. Brown's portrait is an excellent one, as are all the others, which will long remain as monuments to Mr. Stevenson's liberality and interest in the promotion of local educational interests, as well as object lessons to the pupils to emulate the examples afforded by the contemplation of the lives of these five great Canadians.

HOOD'S
Sarsaparilla

Mr. R. J. Brundage of Norwalk, Ct., of the firm of Buxton & Brundage, expressmen, 159 Main Street, writes his experience below:

"For a long time I have been troubled with a weak stomach, followed by

Indigestion and Dyspepsia

A short time ago I began taking Hood's Sarsaparilla and took three or four bottles. Result, I have not felt so well all over for years. My food seldom troubles me now. My sister, who was troubled about the same way as myself, took Hood's Sarsaparilla with very pleasing results. I do not wonder that matrons all along the line speak so well of Hood's Sarsaparilla. Don't see how they can help it." R. J. BRUNDAGE, Norwalk, Ct.

"I send this unsolicited as I feel to congratulate myself that I used Hood's Sarsaparilla. Six months ago my digestion was very bad, and I had almost a case of

Chronic Dyspepsia

I was also broken down by over-work, so that I could not sleep nights. My stomach is now perfect, my nerves in excellent shape, and I have gained 10 pounds in 6 months. For all this benefit my gratitude is due Hood's Sarsaparilla. Accept my best wishes for

NECKWEAR!

Our Neckwear has become noted. It commends itself to the buyer who is in search of originality and good taste.

We call attention to our New Scarf for Spring wear, in a variety of quiet, good shades It is quite different from any Scarf made, on account of the new and unique arrangement of the pleats.

In Silk Neckwear we show many new combinations that are a symphony in color. Also, some very choice weaves that are duplicates of novelties, fashionable in London and Paris.

Attention is also directed to our new assortment of Fancy Braces, in Silk, Figured and Embroidered, which are unsurpassed for elasticity, comfort and originality of design in Buckles and Mountings.

A. MERCER & CO.,
Tailors and Outfitters.

In the art of Watch Repairing, there are many elements which go to make successful work. The cleaning and regulating is easily performed, but the replacing of any broken parts is far more difficult and it takes a workman of long experience and first class practical ability to make a new piece which is as well finished and fitted as the original was. MUNCASTER invariably finishes his work equal to new. The New Store is next to the "Examiner" Office.

Imagination or speculation has been running riot with some people. For the past ten days we have had hosts of visitors inquiring if we had seen the plans for the changes in our building to accommodate the Bank of Commerce, which it is rumoured will be placed in the store we now occupy. Incidental with this we are told with a Solomon-like look, that there are more changes to occur before long and that when the World's Fair is held in Peterborough, things will look so different that the "old residents" will find it hard to remember when and how these changes occurred. Our visitors generally finish their conversation by asking if goods are any cheaper on account of these SUPPOSED CHANGES, and, as we are always alive and ready to do business, we find Dame Rumour has been of immense benefit to us lately. We will say that what we most desire just now is

CHANGE,

Change in our cash drawer especially and for that reason we are now offering many inducements. Our facilities for doing business are greater than ever this season. The Ready Made Clothing Department has never been so large or as prominent in bright new goods. Faultless in cut and style, they are sellers always. LeBRUN'S OLD STAND,

GEORGE STREET.

An Unanimous Choice.

Rev. Prof. Symonds of Trinity College Selected for the Rectorship of St. Luke's Church, Ashburnham, in Succession to Rev. J. W. McCleary.

The committee appointed at the Easter Vestry meeting of St Luke's to consider the selection of a successor to Rev. J. W. McCleary, resigned, met the congregation last evening to receive and deal with their report. The committee, it will be remembered, consisted of the following gentlemen: Messrs. John Burnham, M.P., H. C. Strickland, R. B Rogers, Frank Adams, H. Nesbitt, F. J Jameson, A. Dawson, R. W. McFadden, E. A. Peck, Mark Curtis, H. C. Rogers and W. Manlece Several applications had been made, but the committee hearing that there was a possibility of Rev. Herbert Symonds, Professor of Theology in Trinity College, Toronto, accepting the position if it were offered him, a deputation waited upon Rev. Prof. Symonds in Toronto last week, and the result of the interview was that at the meeting last night, Mr. H. C, Rogers, chairman of the committee, reported to the congregation recommending the selection of Rev. Prof. Symonds for the vacant rectorship. The congregation heartily and unanimously concurred in the recommendation of the committee, and it is understood that the Bishop of the Diocese of Toronto is willing to agree to the wishes of the congregation and appoint their selection Rector of St. Luke's. Rev. Prof. Symonds is a young man of the unusual ability implied by his appointment to the important position which he now holds, and which he fills with satisfaction to all concerned, and which he might continue to fill did not his preference lie in the direction of parish work. Rev. Mr. Symonds is a native of England and came to Canada some eight or nine years since. On his arrival in Canada he was the guest of Mr. J. E Belcher, C. E., for a few months. He afterwards went to Bobcaygeon where he pursued theological studies. He subsequently took a course in theology and graduated in arts at Trinity University and took the post graduate course in theology at Trinity College, Cambridge. On the completion of his studies he accepted the position of professor of theology in Trinity College, Toronto, whose duties he has filled in a manner to win the warm commendation of the faculty and senate of Trinity, who will regard his removal from his chair with genuine regret. Rev. Mr. Symonds will be at liberty to retire from his present position in June. It is probable that he will be in town on Saturday and take the services at St. Luke's on Sunday.

Personal.

Mr. William Devlin, one of the early pioneers of Galway, and one of the oldest settlers in it, who made a home for himself and lived there about thirty years, has, on account of ill health, disposed of his farm, and removed to the township of Otonabee (from whence he formally came) to reside with his nephew, Mr. Roger Devlin. He was generally respected by all who knew him, and will be missed by his many friends

News Nuggets.

—There was no arrests last night.

—The newly-furnished officers' room of the 58th Battalion will be formally opened and occupied to-night.

—A new fence is being erected around St, Andrew's Presbyterian church. It is a light and handsome structure, and is made in order to keep pedestrians off the fine grass plot in front of the church.

—The cricket club have decided to accept the challenges of Port Hope, to play on May 24th, and of Ottawa, to play during the first week in July. The Peterborough club will then go to Port Hope and Ottawa to play.

—Regular company drill will be held in the drill shed to-night. There should be a large attendance of the men in the various companies. Capt. Loch requests all the men of No. 4 Company to meet at the armoury this evening without fail.

—The plan of the Philarmonic Society's concert to be given in the opera house May 3rd, will be open to-morrow at Thompson & Co.'s book store for honorary members of the Society, and after to morrow for all who are desirous of hearing high class music and recognized ability.

—The Collegiate Institute Baseball Club held their first practice on the P. A. A. A. grounds yesterday afternoon. The boys have some good material among them, and expect to put a strong team on the diamond. They are ready to receive challenges. Mr. W. J Ritchie is the secretary.

—The Lindsay *Post* says:—Grave fears are entertained by lumbermen that low water in the northern creeks and rivers will prevent the getting out of much forest produce. Already the level is almost down to that of July, although every care has been taken to preserve it; and unless heavy rains set in at once the consequences will be serious. M. M. Boyd & Co. of Bobcaygeon have about 100,000 logs, cut during the past three seasons, awaiting a chance to float them out; and the season's cut of Sadler, Dundas & Co. and the Ratsburn Co, are in danger of being stranded.

The Largest Animal Ever Seen in the Calgary District.

CALGARY, April 26. Messrs. Ings and Hicks of High River went out looking for some stock accompanied by four hounds, when they came all of a sudden on a large timber wolf in a bluff fighting for a calf, over which the mother stood, defending it with all her might.

After a scuffle with the dogs the wolf bolted and off went the dogs and horsemen in full hue and cry for half a mile.

A hound made a grab and bowled the wolf over. The wolf, seizing the dog by the nose, drove his teeth right through, while another dog caught the wolf behind the cheek and held on. The drivers immediately dismounted, but having neither revolver nor stick, could only encourage the dogs by hand and voice until after a prolonged and fierce fight they were victorious.

The savage animal measured six feet nine inches in length and weighed 183 lbs. The head is one of the largest ever seen in the district.

Lor Talbot's Arrest.

OTTAWA, April 26. At the Assize Court yesterday Justice MacMahon took his seat precisely at 10 o'clock, and immediately afterwards the usher called "Horace Talbot." There was no answer. A NOTORIOUS WITNESS.

The Man Whose Evidence Hanged Whelan Figures in a Disreputable Role.

OTTAWA, April 26.—Baptiste Lacroix, who has been a conspicuous witness in many important cases before the tribunal of justice in this city, was yesterday placed behind the bars on a charge of having committed an indecent assault upon a 4-year old daughter of Mrs. Paris, of York-street.

In the trial of Whelan for the murder of Darcy McGee, Lacroix swore that he had seen Whelan following the victim on Sparks-street on the morning the latter was shot. It was principally on this evidence that Whelan was convicted.

HIS LOTS WERE UNDER THE LAKE.

A Notorious but Lucky Chicago Swindler Goes to Prison at Last.

CHICAGO, ILL., April 26.—Edward A. Trask, a notorious swindler, was convicted yesterday and given eighteen years in the penitentiary.

His operations have been chiefly in real estate. He has been selling lots under the lake for years. The complainants in the present case were E. L. Negley and his son, of the Negley watch company. Trask bought two watches and chains and offered in payment a draft for $250, drawn on C. C. Best & Co., of 115 Broadway, New York. The draft was protested; there was no such concern.

Trask's luck has been phenomenal. Though indicted scores of times he has until now escaped punishment.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,083 in amount. Of these, 136 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,583, upon 2,371 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,-191.06.

At 31st December last there were in force $56,218,318 03 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,-124 87, having being increased during the year by $1,041.684 78.

The death claims for the year were upon 192 lives under 243 policies for $511,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized.

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M. G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq, New York State.

(Signed), A. G. RAMSAY, President,
R. HILLS, Secretary.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting. I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,-256,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and, in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the companys assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,184.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 82 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperity as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen.—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of carefnl management in the interest of the company. I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest. I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Farrie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

"German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees. The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expells them, heals the places they leave, and so nourish and soothe that, in a short time consumptives become germ-proof and well.

A Germ Disease.

THE GUIDING STAR TO HEALTH.

BURDOCK BLOOD BITTERS

Regulates the stomach, liver and bowels, unlocking the clogged secretions and carrying off all foul humors and impurities from the system, thus curing dyspepsia, biliousness, constipation, headache, scrofula, salt rheum, sour stomach, dizziness, heartburn, rheumatism, and all diseases of the stomach, liver, bowels and blood. It antagonizes all blood poison, removing all impurities from a common pimple to the most scrofulous sore.

ITS EFFECTS IN HEADACHE are truly surprising, having made complete cures in obstinate cases of more than 20 years' standing, which had resisted all other treatment. As a

SPRING BLOOD PURIFIER

it has long held first place, and continues to be esteemed by press and people, the best and purest remedy ever devised to remove tired feeling, restore elasticity and buoyancy to the constitution, and tone up the entire system to bounding health and strength.

Ottawa Gossip.

OTTAWA, April 25.—The report that Horace Talbot, late of the Public Works Department, awaiting trial for boodling, had fled to the United States, is pronounced by his counsel to be incorrect, and that Talbot will appear to answer the charges against him at the Assize Court to-day.

Trouble in the Grenadiers.

A question that is causing discussion in the War Department and among military members of the House, and even threatens to get into the Cabinet, concerns the internal administration of one of Toronto's crack regiments, the Grenadiers. From what I can learn the commanding officer has held back for almost a year in recommending a promotion to the vacant majority; recently he has sent in a name, that of a captain who is not the senior officer, and objection on this ground has been taken, by whom I cannot at present learn.

A New Petroleum Engine.

In a petroleum engine lately constructed in England on a principle which is claimed to overcome the objections heretofore met with in similar attempts, the plan pursued is that of injecting oil directly into compressed and heated air in a vessel which acts as vaporizer and combustion chamber combined. A valuable advantage secured in this construction is that the gear for firing the charge is dispensed with, and heavy intermediate oil is ignited and completely burned, when injected into the compressed and heated air in the red-hot vaporizer. This chamber is heated up at the start with a special lamp supplied with air blast by a small fan; and every charge of oil is forced by a pump into the vaporizer at the proper moment for ignition, just after the hot air has been compressed and the piston is on the return stroke. The oil supply is regulated by a governor, and runs at 210 revolutions per minute, working very steadily. In some preliminary experiments with a six-horse power engine, during a run of about three hours, using oil of specific gravity .854 and flashing point 220° F., the consumption was less than a pint per brake-horse power per hour.

NORMAN, Ont., January 15, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

A Majority Report of the Committee Exonerates the Members.

HALIFAX, N.S., April 25. The Committee on Privileges of the Nova Scotia House of Assembly, which has been hearing the evidence in regard to the charges brought by Mr. Cahan, leader of the Opposition, against McDonald and McPherson of Cape Breton County and Fraser of Victoria, presented their reports Saturday, accompanied by an enormous amount of evidence.

The committee report that a certain amount of evidence had been given, showing a large amount of irregularity and looseness in connection with the road expenditure in these counties, but that none of the serious charges made by Cahan had been established in any way affecting the honor of the three members.

Mr. Webster presented a minority report, expressing his belief that there was some evidence tending to establish one of the more serious charges against McDonald, to the effect that he had connived at the making of solemn declaration when the declarant was not present.

Sent the Mayor to Jail

HALIFAX, N.S., April 25. Mayor Thomas of Truro two days ago ran away from the sergeant-at-arms, who had attempted to bring him before the bar of the Provincial Legislature to answer to a charge of contempt. Saturday he was captured and taken before the bar of the House to answer for his conduct. The mayor was sentenced to 48 hours imprisonment.

Says It's a Case of Mistaken Identity.

ST. PAUL, Minn., April 25.—Edward Phalling, arrested by Ontario Government Detective Murray on a charge of passing a $1000 forged cashier's draft upon W. J. Scott & Co., bankers, of Listowel, Ont., on Sept. 24, 1888, has been remanded to give him a chance to secure legal advice. He claims that it is a case of mistaken identity. Phalling is said to have a few score of aliases at his command, and to have defrauded many persons at different times during his criminal career.

The game usually worked upon the unsuspecting is said to have been that of the "rich live stock buyer." With a farmer's make-up he would visit a locality in pretended search for horses and cattle. After getting acquainted with some of the leading stock growers, he would be introduced at a local bank and have a draft cashed.

Improved Heating of Schoolhouses.

An improved system of heating and ventilation is being introduced in the Boston schoolhouses, the result of inventions which have for a long time been carried on by experts and engineers, and which is believed to solve one of the most important architectural and sanitary questions. This new system is, in a word, simply one of direct and indirect ventilation, and in carrying it out the radiators connected by piping with a sectional boiler are located in the ventilating shaft, divided into two compartments. The pure air is drawn into the lower shaft at the bottom of the building by means of a fan operated by a water motor, and distributed into the rooms after being heated as hot air; the ventilated air is drawn out at the bottom of the room by certain mechanical appliances and forced into the upper section of the ventilating shaft, and out through its apertures over the top of the building. To thoroughly determine the value of this system the preliminary plan was adopted of taking the quality of the air in the building prior to the school session, also during the session, when some 200 children were in the building, and at its close, in each case the air being found free from carbonic gas and as pure as that outside.

How to Preserve Potatoes.

The French Minister of Agriculture publishes the details of the process in the official Bulletin du Ministere de l'Agriculture. The following is a translation of the essential part of the scheme:

1. The method of preservation consists in plunging the tubers, before storing them away, for ten hours into a 2 per cent. solution of commercial sulphuric acid in water; two parts of acid to 100 parts of water.

2. The acid penetrates the eyes to the depth of about one-fortieth inch (two millimeters), which serves to destroy their sprouting power; it does not have any appreciable effect upon the skin of the potatoes.

3. After remaining in the liquid ten hours the tubers must be thoroughly dried before storing away.

4. The same liquid may be used any number of times with equally good results.

5. A barrel or tank of any kind will do for the treatment. The acid is so dilute it does not affect the wood.

6. Chemical analysis shows that potatoes treated by this process are as nutritious and healthful after eighteen months as when fresh dug.

7. Potatoes thus treated are of course worthless for planting.—Gerard McCarthy, N.C. Experiment Station, Raleigh.

A Good Reason for Living.

"She lives to love and loves to live,
She loves to live because she lives to love."

Many think it is a sin to be sick; being so one cannot bestow their affections on others as the Creator intended; being so, it certainly is a duty to cure yourself. Most women, these days, need an invigorating tonic. Worn out teachers, "shop-girls," dressmakers, milliners, and those subject to tiresome labor, have found a boon in Dr. Pierce's Favorite Prescription. It is a soothing and strengthening nervine, inducing refreshing sleep, relieves despondency and restores to full use all the appetites and affections of one's nature. It is sold, by druggists, under a *guarantee* from its makers that it will, in every case, give satisfaction, or price ($1.00) will be promptly refunded. b

Makes Flesh and Blood.

When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always work wonders, because it is a flesh and blood maker, and contains all the constituent for nourishment found in wheat, in fact Miller's Emulsion is a perfect "staff of life" and has saved and cured thousands. In big bottles, 50 cents and $1—At Peterborough Drug Stores. dw

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

A Suitable Gift

MR M'NEIL'S MOTION ADOPTED BY THE HOUSE

Canada to Reduce Duties on British Manufactured Goods as Soon as Great Britain Grants Canada Preferential Trade Dr. Weir for East York

OTTAWA, April 26. Yesterday was a great day for Imperial Federation, and from 4 o'clock to midnight the House was treated to a series of speeches on the following resolution of Mr. McNeil.

"That if and when the Parliament of Great Britain and Ireland admits Canadian products to the markets of the United Kingdom upon more favorable terms than it accords to the products of foreign countries, the Parliament of Canada will be prepared to accord corresponding advantages by a reduction in the duties it imposes upon British manufactured goods."

The resolution was supported by Messrs. Desjardins (Lislet), Kenny, Hazen, Davin and others, and about 11 Mr. Foster, on behalf of the Government approved of the resolution.

Mr. Davies followed in opposition to the resolution as being impracticable.

The debate was continued until 1 o'clock, when the amendment was lost by a vote of 64 for, 98 against. The main motion was then carried on the same majority and the House adjourned at 1.50. Both divisions straight party.

The writ for East York was issued today. Nomination on May 4, polling May 11.

Newfoundland seems determined to remain in bad humor with this country and obstinately refuses to accept the olive branch held out by the Canadian Government. To-day a reply was received to the despatch sent some time ago, in which Canada proposed a conference and suggested that in the meantime Newfoundland suspend her unfriendly action and Canada would again allow Newfoundland fish to enter Canada free. The answer is unfortunately not made in a friendly or conciliatory spirit, but is simply an intimation that no concession can be made unless Canada first agrees to withdraw all opposition to the ratification of the Bond-Blaine treaty. This leaves matters as they were and for the moment there does not seem much immediate hope of any change in the unfriendly attitude of our sister colony.

SAVED A LIFE AND LOST HIS OWN.

Fred Burke Proved Himself a Hero Before He Drowned.

PORTSMOUTH, N. H., April 26 Rose Foster, Ethel Gray, Oscar Trefethen and Fred Burke, all of this city, started up the Piscataqua River in a sailboat this morning with the intention of going for May flowers. When near the Portsmouth and Kittery Bridge the strong current capsized the boat and all four occupants were thrown into the river.

Trefethen caught hold of a spile of the bridge and pulled himself out. The others were swept by the tide through the bridge up the river. Burke tried to support both of the girls, but finding than he could not, he relinquished his hold on Miss Gray, who, with rare presence of mind, turned on her back and floated in the water. Trefethen called for help and two boats put out from two schooners lying at the draw pier.

One boat reached the Gray girl, who had floated half a mile up the river, and picked her up unharmed The other boat proceeded after Burk and his companion, but just before the boat reached them Burke, exhausted, sank and was drowned.

The Foster girl was sinking for the third time when she was seized by the rescuers. She was taken ashore, and after being unconscious nearly two hours recovered her senses, but has been in a very precarious condition all day.

A Human Money Bank

POTTSTOWN, Pa., April 26.—The 5-year-old daughter of James P. Roe, who swallowed a five-cent nickel a week ago, is dead, the doctors being unable to remove the coin. The child suffered great pain. A post-mortem examination showed that the nickel had lodged in the passage-way to the stomach, the membranes of which were greatly diseased.

Suffocated their Babe.

NEW WESTMINSTER, April 26. Alexander Gardner and Kate Gardner, husband and wife, have been placed under arrest and are in the provincial jail. Yesterday morning their infant child, aged 7 months, died suddenly. A post mortem showed that the child died from suffocation.

Lacrosse at the World's Fair.

CHICAGO, April 26.—The season being about to open, the Chicago Lacrosse Club intends promoting the game to a higher standing the present season than it has held in the past. Lacrosse is too exciting to be neglected while there are so many adepts at the game and lovers of the sport in this city.

It is understood that during the World's Fair several Canadian teams will invade the city to compete for prizes, so Chicago players cannot organize any too soon in order to be prepared to meet them.

The Chicagos will hold a lacrosse reunion Thursday evening. All interested in the game are cordially invited.

THE QUEEN'S DEPARTURE

She is Given a Cordial Send-Off - Princess Mary of Teck Excites Curiosity.

HYERES, France, April 26.—Queen Victoria's visit to Coste Belle has been brought to a close. Accompanied by the Prince and Princess Battenburg, Her Majesty started for Darmstadt, where she will visit the ducal family. It is said she will meet at Darmstadt her daughter, Empress Frederick, and perhaps Emperor William. An enormous crowd assembled at the railway station to witness the departure of the royal party. The prefect and Mayor presented bouquets to the Queen and other members of the party. A band was present and played the British anthem and a royal salute of 100 guns was fired by a battery. The Mayor made a short address, in the course of which he wished the Queen a prosperous journey. The Queen, in reply, said she was very sorry to leave. Her Majesty remained standing at a window of her carriage as the train departed. She repeatedly smiled and bowed as the people cheered her. The whole scene was in striking contrast to the custom that prevailed in England when the Queen starts on a journey. There everybody is excluded from the station platform and the windows of the Queen's carriage are covered with blinds. Here anyone was allowed to enter the station as upon ordinary occasions and no attempt was made to hide the interior of the carriage. The only difference was that the station was beautifully decorated with flowers. The Prince and Princess of Wales will remain at Cape Martin for a little while longer. They were at the station to-day to bid farewell to the Queen. They were accompanied by Princess Mary of Teck and considerable curiosity was manifested to see the latter, whose engagement to Prince George of Wales, well-informed rumor has it, will shortly be announced.

ASKED FOR $25,000

Audacious Attempt to Rob a Bank Single-Handed.

SALT LAKE, Utah, April 24.—W. C Austin, a peripatetic newspaper man, made a most audacious though unsuccessful attempt to rob the Utah National Bank yesterday. His act is only paralleled by that of the man who three years ago held up David Moffett, president of the First National Bank of Denver, for $21,000.

Austin entered the bank with the utmost nonchalance, walked up to the desk and wrote this extraordinary demand on the back of a blank check: "Give me $25,000 instantly or I will blow your brains out."

The paying-teller, whom he covered with a revolver concealed by his overcoat, which hung over his arm, believing he had to deal with a lunatic, reached for some currency to meet the demand. Then he remembered that the counter was made of stone and he dropped behind it, yelling, "Arrest the robber!" Austin, seeing he was foiled, fled, but was shortly after arrested He is believed to be crazy. For years he has been a tramp journalist and has worked on a score of leading papers between Chicago and the Pacific Coast.

SEEDS

Purchasers of Seeds must now be convinced of the disappointment experienced in buying Seeds from boxes or packets already put up and placed in stores on examination, and in many instances transferred from place to place for years before being sold, the disappointment experienced not only from their non vegetative power, but from the small quantity contained in each paper. To prevent these disappointments, Messrs. Ormond and Walsh sell the whole of their Seeds by weight at a fair and moderate price, with a guarantee of their FRESHNESS and VEGETATIVE POWER.

GRAFTON & CO.

Sell the best Clothing for the money that it is possible to buy in this town, or elsewhere.

It can't be termed simply cheap clothing and passed by with a sneer, though 'tis cheap by comparison in price with the same goods for sale elsewhere, for the Cloth is bought from the Best Makers, cut by the Best Talent procurable, and made up in the best manner.

Then the price is marked just a shade above the cost of manufacture, and away below the lowest price the same goods are selling for at any other store; hence our confidence that a dollar here goes as far as a half more elsewhere Without a shadow of a doubt we give the most value for the least money.

Every Boy's Mother should see our Boys' Clothing. We believe we can interest the most critical people in Boys' Suits. Good Pocket Knife or Fat and Ball free with every Boys' Suit.

RAVACHOL CONVICTED

AND SENTENCED TO PENAL SERVITUDE FOR LIFE.

The Notorious Paris Anarchist Escapes the Guillotine—Many of His Alleged Accomplices Acquitted—Further Concerning the Explosion in Very's Restaurant.

PARIS, April 27.—Ravachol and Simon, the Anarchists, were found guilty of the crimes with which they were charged in the indictment and were sentenced to penal servitude for life. The other prisoners were acquitted.

The Indictment.

The following prisoners were tried: 1. Konigstein (Francois Claudius), called Ravachol, who has also gone under the names of Leou Lefer, Roch and Richard Laurent, born at St Chamond Oct. 14, 1859; prosecuted at this moment for another crime, in custody. 2. Simon (Charles Achille), called "Biscuit," born at St. Jean le Blanc May 11, 1873; already convicted, in custody. 3. Jao Beala (Joseph Marius), born at Firminy April 15, 1865, never convicted—in custody. 4. Chaumartin (Charles Ferdinand), born at Vienna Nov. 28, 1857; never convicted—in custody. The girl Soubere (Rosalie), known as Mariette, born at St. Etienne Sept. 21, 1868; never convicted—in custody.

The indictment then goes on to recite the history of the conspiracy from April 28, 1891, giving in detail all the facts that led up to the various outrages in which the accused persons were implicated.

The indictment against Ravachol concludes as follows: "When Ravachol was in the hands of justice he at first tried to brazen it out and refused to answer questions. Having some days before cut off his long beard he had made himself unrecognizable, and the first attempt at identification left room for some uncertainty. But Chaumartin, who had already made a full confession, prevented him from any longer dissembling. Beala, too, in spite of his reticence, had revealed a large part of the truth Ravachol was therefore obliged to confess his identity and next his crimes. Then, passing from silence to noisy declaration, he tried to pose as a fanatical insurgent, but the cold cruelty of his character, the common law crimes by which he had constantly disgraced himself in order to live without working, the vulgar malefactor's instruments found in his possession did not long allow him to keep up his assumed character and to delude either the public or his judges."

When questioned as to his motive for causing the explosions Ravachol replied, "I felt unfeigned anger at the conviction of Levallois and Perret. I do not think that Benoit and Bulot should have demanded the death of the fathers of families. Then again the brutality of the police when they arrested my comrades revolted my conscience and I determined upon revenge.

The St. Germaine Explosion.

"In regard to the St. Germaine explosion I loaded a bomb that contained 60 cartridges. I dressed myself in broadcloth and went to Benoit's house without attracting any attention. After depositing the machine and lighting the fuse I ran down stairs and reached the pavement just as the explosion occurred.

"The operation in the Rue Clichy was much the same, only I carried the bomb in a bag. A portion of the powder became displaced and thus rendered it extremely dangerous to light the bomb, as it might explode in an instant. I did not hesitate to take the risk. I wish to see Anarchy established and the whole people as one great family, each member ready to share what he has with his brethren.

"I committed these outrages in order to draw the attention of the public to the needs of the Anarchists."

Simon was next examined, but no new revelations were obtained from him. He admitted his complicity in the outrages.

To Blow Up the Palace of Justice.

Chaumartin said when questioned that Ravachol stole from Soissy the cartridges which he intended to use in blowing up the Palace of Justice.

The other prisoners tried to exculpate themselves.

The witnesses were then called and their testimony corroborated all the details of the crimes as set forth in the indictment.

During the proceedings the girl prisoner, Rosalie Soubere, frequently bowed her head and wept bitterly.

A Gruesome Collection.

The collection of materials on the table was remarkable. Besides the bombs and the bomb-making machine were large and small pieces of beams that had been broken by the explosions portions of the walls and a bedstead.

When Judge Gues began his examination of the prisoner Ravachol, being extremely deaf, he was brought close to the bench. Ravachol admitted his criminal history so far as it is known to the police, but he added that if he was questioned concerning any crime of which he is suspected and not accused he would not respond.

Judge Gues said: That will naturally be your right, but I will ask you this question: "When you were arrested the sum of 7000 francs was found in your room. Was this money the proceeds of your murder of the old man at Chambles?

"Precisely" answered Ravachol.

"Did you intend to kill the policeman stationed in front of the police station at Clichy the first time you went there to blow up the building?" asked the judge.

"Yes," Ravachol replied, "but my friends prevented me."

Yesterday's Explosion.

From evidence gathered yesterday the police believe that the perpetrators of the outrage at Very's restaurant were three men and three women who dined at the restaurant last night. One of the men carried a parcel. The three women went out before the men and one of the latter lighted a cigar. After lighting the cigar he held it under the table as if to escape the fumes. Then the three men went out in a hurry and were seen running away a short time after they left the restaurant.

Missives Pregnant With Threats.

A waiter who was taken with Very to the hospital says that his master has received no fewer than 50 or 60 threatening letters from Anarchists since Ravachol was arrested. One of them, found by the police in M. Very's desk at the rear of the shop, said:

"SIR,—You have dared to betray Ravachol. Beware! You will learn what his friends can do. Your shop is doomed, and your infamous life will be taken before May 1. Your family is no better than you. We will take care of them, too.

FRIENDS OF RAVACHOL.

At the top of this was printed in red letters, "May I," and the same was printed at the bottom in black letters.

Another letter, with skull and crossbones at the top, apparently referred directly to the present outrage. It said:

"You think you have crushed us because you have one mighty spirit of the revolution. Thousands will rise in his place. Do not try your vile methods upon him. You will hear from us before the trial of Ravachol. You shall suffer the punishment you have earned as a warning to the cowardly bourgeoisie who seek Ravachol's blood. Your doom is at hand; prepare to meet it.

RAVACHOL'S AVENGERS.

Ravachol's Captor Flies in Terror.

L'Heriot, the waiter who denounced Ravachol to the police, and who assisted in his arrest, was not at the wine shop when the bomb exploded, and it is thought that he has fled from the city. This morning he received a letter warning him that he would not live to testify against Ravachol and that the following 24 hours would be his last.

Premier Loubet has visited the persons injured by last night's explosion and assured them of the solicitude of the Government.

La France says: "The people of Paris demand that every suspected person be arrested and that the centres of agitation be unremittingly watched by the police. La France adds that 100 English visitors left Paris to-day on account of the Anarchists' agitation."

NO OUTBREAK IN ROME.

The Workingmen Will Observe May-Day in the Most Orderly Manner Possible.

ROME, April 27.—Reports put in circulation to the effect that disturbances had occurred in this city yesterday and were likely to be renewed to-day and that in consequence of the gravity of the situation the authorities had begun barricading the houses of Government officers and also the banks and the Austrian and other embassies here have been found upon thorough investigation to be pure inventions. There has been no trouble here whatever and none of the extreme precautions which it is alleged the authorities and private persons are taking to resist the imaginary mob are visible on the closest scrutiny.

The Socialists are showing no signs of preparing for violent manifestations. On the contrary everything is quiet and points to a peaceful observance of May-day.

How They Will Observe the Day.

At a largely attended meeting of workingmen held here it was decided that the morning of May-day should be spent in private gatherings, and that in the afternoon meetings should be held in the open country, where, according to the ideas of the leaders, there would be no provocation for the police interfering with the assemblages. At the conclusion of the proposed country meetings those who take part in them will return in small groups to their homes in the city in a quiet and orderly manner. Even the Anarchists are in favor of spending the day in an orderly manner; and at a recent meeting they decided that it would be to their best interests not to hold public meetings on May-day.

There has been no disorder in any of the large cities or towns of Italy and nothing has occurred in Milan, Turin, Pisa or Leghorn, in which places the labor agitation is the strongest, to give the least cause of alarm to the authorities.

The G.T.R. Directors.

LONDON, April 27.—At a meeting of the Grand Trunk shareholders yesterday, Sir Henry Tyler, the president, reported a favorable condition of affairs. Had the company granted the strikers' demands it would have cost £50,000 yearly, while the concessions made cost only £2000. The union of the G.T.R. and C.P.R. has never been brought before the board.

It was objected by some that the expenses were too great and Mr. Baker opposed the re-election of the retiring directors not residing in Canada.

Two Brothers Drowned.

ST. JOHN, N.B., April 27.—Four boys, brothers, named Ganong, went out in a boat on the St. John River, near their home at Oak Point, Queen's County, yesterday. The boat upset and one of the boys was drowned. Another attempting to swim ashore was seized with cramps and went down. The drowned boys, Willie and Edgar Ganong, were 8 and 11 years old.

Let Out to Die.

NIAGARA FALLS, Ont., April 27.—Luther McGrath (colored), who was released from St. Vincent de Paul Penitentiary about three weeks ago, died yesterday.

McGrath's crime was murder, he having nearly severed the head from off a man who insulted his wife, using a razor for the deed.

His case was taken into consideration by Sir John Thompson on representations being made that McGrath could not live long, and the prisoner was accordingly released.

Consumption was the cause of his death.

Fischer's Light Sentence.

DETROIT, April 27.—Albert Fischer, who made dies for counterfeiting silver dollars for the Essex counterfeiters, has been sentenced to 60 days' imprisonment in the House of Correction and to pay a fine of $1000.

DOMINION PARLIAMENT.

DISCUSSING THE DUTY ON BINDER TWINE

The Government Opposes a Motion for The Removal of the Duty Introduced by Mr. Watson and the Proposal is Negatived by a Majority of Forty Four

OTTAWA, April 27.—Yesterday was farmers' day in the House, as the great binder-twine question was under discussion the greater part of the afternoon and all the evening.

The trouble began on Mr. Foster's motion to go into committee of supply, when Bob Watson moved an amendment that binder twine should be placed on the free list. The debate continued until 12.30, when the members were called in and a division taken with the result that the amendment was defeated by a vote of 63 to 107 against.

The House went into supply at 1 o'clock on immigration items, sat five minutes and adjourned.

In the House in the afternoon the bill authorizing the conveyance to the City of Toronto of the site of the immigrant sheds needed for the enlargement of the Cattle Market was read a third time and passed.

The bill to transfer the geological survey from the Interior to some other department passed its third reading this afternoon. The branch may now be hitched on to any department, but will probably be attached to the Agriculture, at least for the present, especially if the Quarantine Branch is to be taken from the department and transferred to Marine and Fisheries.

Capital Notes.

A deputation consisting of Mr. Murray of Toronto, Mr. Strand of Paris, Mr. Doods, representing Armstrong & Co. of Guelph, and Mr. Campbell of Markham had an interview yesterday with the Minister of Finance and urged an increase in the duty on carpets. The deputation was introduced by Mr. Rosamond, M.P., and the Minister gave the usual reply that the matter should receive consideration.

The writ for an election in North Perth to fill the vacancy caused by the unseating of Mr. Grieve, Liberal, has been issued. Nomination takes place May 12 and polling one week later.

The contract of dredging the shoal in Hamilton harbor has been let to Mr. F. B. McNamee of Montreal.

It is understood that the quarantine stations which are now under control of the Department of Agriculture, will shortly be transferred to the Department of Marine and Fisheries, which already has control of the Marine Hospital.

Peterboro Assizes.

PETERBORO, Ont., April 27.—At the Assizes J. J. Bradley obtained a verdict for $175 damages against William Swinton and Joseph L. Walton.

Last January, during a dispute at the Granger Hall in North Monaghan, the two defendants administered to the plaintiff a severe thrashing with a black snake whip, from the effects of which he suffered for some time and was under medical treatment.

Why He Disobeyed The Signal.

NEW YORK, April 27.—The ferry boat Cincinnati of the "Pensy" Railroad dashed head-on at full speed against the pier in the Courtland-street slip yesterday and a panic resulted, many persons, including Plunger Walton, being injured.

The captain rang the signals violently, but they were not obeyed. A deck hand ran below and sent back word that the engineer, John Gray, was dead.

Gray was oiling the machinery when the accident occurred. The piston rod struck him. He was pinned fast and was ground to death in the cylinder head.

Making Flour Out of Bananas.

WASHINGTON, April, 27.—The Bureau of American Republics is informed that a new use has been found for bananas, which will greatly add to the value of that fruit. In several places in Central America flour is now being made from bananas, which, under chemical analysis, is found to contain more nutriment than rice, beans or corn. A manufactory on a large scale is being established at Port Limon, Costa Rica.

Scrimgeour to Oppose Grieve.

Young's Point.

(From Our Own Correspondent.)

The following shows the standing of the pupils in school section No. 8, Smith, for March, as determined by examination. Names are in order of merit:

Fourth class—Annie Young, Ida Kearney, Gertie M. Blewitt, Maggie Northey, Lottie Kearney, Minnie Young, Melinda Wright. Third class—Patrick Angiesyo, Willie Lane, Lillie Quinlan, Andrew Millar, Lsd Young, Vernie McFarlane, Mary Angiesyo, Lucy Hockaday, Frank Walsh, Willie Ayotte. Second class—Mary Walsh, Nora Angiesyo, Charles Wright, Willie Angiesyo, Thomas White, Joseph Ayotte, Eva Hockaday, Lillie Northey and Mary Quinlan equal. First class—Part II—Lena Bullock, Alex. Chalmers, Laura Gordon, Bruce Graham, Mary Bullock, Fred Fitzgerald, Richard Fitzgerald. Part I—Bertie Hurd, Thomas Lane, Peter Ayotte, Laura Ferguson, Daisy Wright.

The steamboat "Mary Ellen" made her first trip of the season on Wednesday last—to Lakefield and return. On Friday she ran to Chemong with lumber for Mr. Young.

Men are engaged running Mr. Young's logs to the mill where they will be sawn into lumber as speedily as possible.

Miss Finlayson's many friends will be pleased to know that she is recovering from her recent illness.

The fishery inspector paid a visit to the Point on Friday last. Salmon fishing is not good this season. These fish are said to be becoming very scarce.

The "Sunbeam," of Lakefield, shone upon us on Saturday last and returned in the afternoon.

The proprietors of the steamers plying on these waters expect a good season's trade.

Summer visitors are already making their arrangements for the warm weather.

The owners of islands are looking up their residences and find that they have all passed through the winter safely.

A large number of new cottages will be erected this summer.

The water in the lake and river is much lower than usual at this season of the year.

The school is being largely attended by pupils and all are progressing favourably.

Meeting of The Otonabee Council.

A petition was presented signed by James Shearer, George Shearer, James Armstrong, James Bowie, John Dinedale and Mrs. Edwards, of the village of Allandale, petitioning the council to be allowed to commute their statute labour for 1892 and 1893 in opening an old drain along the street which has become closed up causing their cellars to be flooded. On motion the petition was granted. Dr. Shaw was appointed Medical Health officer and Richard Matchett, Sanitary Inspector. The following accounts was passed:—Joseph Embirst, $10 60 for arrest of James Dickson, conveying to jail and attending trial; William Anderson and F. J. Johnston each $2.00, for attending a sewerage conference in the town of Peterborough. On motion $1 350 will be expended on the public highways. The clerk was instructed to notify all overseers of highways to see that all noxious weeds growing on the highways within their Division shall be cut down at the proper time to prevent the ripening of their seed. Court of Revision and council adjourned to meet on Thursday the 26th of May.

Your Blood

Undoubtedly needs a thorough cleansing this season to expel impurities, keep up the health-tone and prevent disease. You should take Hood's Sarsaparilla, the best blood purifier and system tonic. It is unequalled in positive medicinal merit.

Hood's Pills are purely vegetable, perfectly harmless, effective, but do not cause pain or gripe. Be sure to get Hood's.

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

Mount Pleasant.

(From a Correspondent.)

The post who wrote the ode to Mount Pleasant which appeared in your issue of the 21st inst. must have had an attack of la gripps, or his political leanings may have led him to picture this town as having no tall chimneys. The oldest inhabitant remembers when our nearest P. O. was at Cavanville, 5 miles distant, and then a weekly mail. The place for holding all public meetings was in the log school house. It was then that the crow was shedding tears on Mt. Nebo, viewing the desolation that existed in the embryo town, Mount Pleasant in 1892 has a brick school house, with its tower and bell, a Presbyterian and Methodist church each built of brick, a brick foundry and machine shop where a number of hands is employed, two grist mills, one saw mill, cheese factory, brick hotel, two stores, two telegraph offices, a daily mail, an M. D., a tannery, and a number of mechanics.

Mr. H. J. McLean, merchant tailor, has received his stock of spring and summer goods.

The raven on Mt. Nebo looks down with surprise now to see the progress this town has made.

Warsaw.

(From Our Own Correspondent.)

The semi-annual meeting of Court Warsaw, No. 220, C.O.F., took place in the court room, Warsaw, on Tuesday evening, April 19th 1892 when the following officers were elected for the ensuing term:—

Paul Payne	C R
Jno. T. Cooper	V.C.R
B. James, jr	Rec. Sec
Fred Morgan	Fin. Sec.
Alex. Watts	Treasurer
S. R. Payne	Chap
T. Crowe	Sr. Woodward
R. G. Moore	Jr. Woodward
Allan Kidd	Sr. Beadle
John Davis	Jr. Beadle
J. A. Couch, M D	Court Physician
J.J. Crowe	Delegate to High Court

The above mentioned officers will be installed on Tuesday evening, May 10th, 1892, by H. Nesbitt and R. Q. Dench, D.D H.C. Rangers.

Warsaw cheese factory will commence operations on Monday, May 2nd, under the able management of Mr. G. Brooks who has by his ability as a first class cheese maker, won the confidence of a great many patrons of other factories which by so doing has caused an enlargement to be made in the factory by placing in another cheese vat. Mr. H. Smith will act as salesman and treasurer, and B. James, Jr. as secretary for the ensuing year.

Warsaw is also adding to its appearance in growth. Mr. H. Clements is busy erecting a first class blacksmith shop opposite the cheese factory, where he expects to have a share of the farmers patronage. "Give the boy a chance."

All the vacant houses are now occupied.

We regret losing one of Warsaw's oldest citizens in Mr. George Garlick, who has opened up a store and post office at South Dummer, but we wish him every prosperity as he well deserves it.

Mr. J Hill, of Detroit, is the guest of Rev. E D. Lewis.

Miss M. Campbell, of Bobcaygeon, has been here during the past week, the guest of Thos. Campbell.

Miss E. L. Shelter, of Belleville, is the guest of Mr. B. James, Jr., where she intends staying for some time. Having taken a thorough course in music at Albert College, Belleville, under Prof. Stanaistreet, and secured a diploma and first class honors, is open to teach pupils either on the organ or piano. Can be found at any time by those wishing instructions in music.

Sugar making is closed and the farmers are busy putting in crops.

How the Field Was Won.

The Victory an Important One

In many respects, Canada is a difficult country to conquer. The difficulty is not owing to the country's impregnable position or defences, or the magnitude of its military organization. The whole power lies in the character of its people, and their peculiar views. Canadians are a very conservative people; in a large degree they are governed by puritanical views of honesty, and never give up what they possess, until assured of something better.

A few years ago Paine's Celery Compound came before the people of our country offering advantages, from a medical point of view, that no other remedy could show or offer. The attack on the country was made at an opportune time—a period when men and women were looking for a more highly potent than anything they knew of to relieve suffering and disease. The new-comer, at first coldly received, soon began its remarkable and wonderful work, and, in a short time, proved to all its claims to respect, admiration and confidence.

The old and antiquated medicines and preparations, that were so free y before, soon were forced to retire and the field was left to the new invader. Instead of spreading fear, disease and danger, Paine's Celery Compound, wherever used, conferred lasting benefit and satisfaction. The dyspeptic, rheumatic, nervous, sleepless, worn and weary were restored to perfect health; and in many a sad and weeping home, joy and consolation were ushered in. This grand work is still going on with vigor in every section of our Dominion, and can only cease when all Canadian sufferers shall have found a new life and a promise of long years.

SCIENCE AND PROGRESS.

INTERESTING PARAGRAPHS CULLED FROM VARIOUS FIELDS.

The Present Process for Sizing Paper—Superiority of the Germans in Soap Products—An Improved System of Heating and Ventilating Schoolhouses.

Remarking upon the present processes resorted to for sizing paper, the Scientific American refers to the advantage of using aluminate of soda for saponifying the rosin used for size, instead of soda ash or caustic soda, as due to the fact that in filling the paper its alumina serves the same purpose as the alumina of the alum generally used, rendering it practicable to dispense with alum entirely, and, in the case of its use together with the aluminate of soda, giving an excess of alumina, which is a valuable addition to the pulp at this stage of its manufacture; the further advantage, too, of using soluble salts of magnesia and calcium instead of alum to decompose the rosin soap is that these salts are neutral, while alum is acid; they are also cheaper than alum, and, in the case of the magnesia salts, the precipitated magnesia is a valuable addition to the pulp. A new method of precipitating alumina in the pulp in the beating engine is closely allied to this process, and consists in adding aluminate of soda to the saponaceous solution of rosin mixed with pulp, together with the sulphate or chloride of magnesia, the chloride of calcium or the sulphate of alumina, used to precipitate the rosin from the soap and form with it the sizing compound—these substances, when used in solution, to be added separately.

German Soap Productions.

A degree of superiority has long been claimed for some of their specialties in soap products by German manufacturers, and especially in the processes of coloring. This latter, however, depends largely for its success or attractiveness on the materials used, these being mainly lard, tallow, cocoanut oil, palm oil, and, to some extent, almond oil. The method of insuring a satisfactory color is thus a matter of discrimination—heavy, earthy, or metallic colors, such as umber or vermillion, being added only when the soap has acquired a thick consistency, while dissolved colors may be added when the soap is still thin. Very few colors only can be made use of before all the lye has been run in and saponification begun; and aniline colors almost disappear at first under the action of the alkali, but return after cooling. The beautiful marbling effects produced is the result of simply stirring up the required color in melted cocoanut oil, running it into a funnel closed at the lower end by a finger, and allowing the contents to run over the soap as it is run in layers into the frame, and, on the frame being full, a stick is drawn in fancy figures, through the soap, to distribute the color. As compared with foreign countries, German manufacturers produce a much larger proportion of their toilet soaps by the cold process.

Inquiries in regard to the pedigree of Ravachol, the Paris Anarchist, have revealed the fact that his grandfather, great grandfather and great great grandfather were all hanged. They belonged to a band of robbers that terrorized certain districts in the Netherlands for many years.

Blood Will Tell

Good blood will show its quality. So will bad blood, the one in a healthy body and ruddy complexion, the other in ill health, blotches, pimples, boils and sores, and frequently in internal forms as ulcers, abscesses erysipelas, scrofulous diseases, salt rheum, etc. Every organ of the body depends upon the blood for force and vitality, and is but scantily served when the blood is impure. No remedy is so potent as a blood purifier or more rapidly produces a new and healthy blood than Burdock Blood Bitters, which neutralizes the various poisons and restores the vitalizing power of this all important fluid. As an instance of this read what Mr. J. S. Neff, of Algoma Mills, Ont., says in a recent letter:

SIRS,—A year ago I was troubled with spots breaking out all over my body, the effect of bad blood. I consulted three different doctors, who gave me medicine but did not cure me. I was advised to try B B B., and after using two bottles I noticed the spots getting less. I continued to use B B B., which entirely cured me giving me a splendid appetite. Sooner than I would no other medicine.

Bad blood breeds divers distressing diseases, Burdock Blood Bitters banishes boils and blotches, with every other symptom arising from bad blood.

Cobourg and the Grand Trunk.

The town of Cobourg and the Grand Trunk are having a set-to just now. The town wanted the railway people to replace the rails from the main line to the wharves, so that the lumber from the Harwood mills (which last season went to Port Hope) would be shipped to Cobourg. This the company refused to do, and now in retaliation the merchants contemplate getting all their goods by boat.

Our National Game.

Lacrosse is likely to have a big boom this year, and the boys are busy making active preparations for a lively season. In order to give an extra spurt to the game in town, the popular clothing firm of H. LeBrun & Co. will give away free a dandy lacrosse stick and ball to every boy buying a suit of clothing at the City Clothing Store. This will no doubt prove a very tempting inducement to the boys—more especially as Messrs. LeBrun & Co. are so well known to excel in boys' suits, which are always good value at the prices offered, without the present of the lacrosse on fit. It is quite evident that Mr. Harry LeBrun, the senior member of the firm, still retains his old time enthusiasm for our national game, which led to his being chosen President of the Dominion Lacrosse Association. d98w17tf

Philharmonic Society's Grand Concert.

A very successful rehearsal of the Peterborough Philharmonic Society was held last night. The choruses to be rendered at their grand concert in the Opera House on Tuesday May 3rd, will be the finest concerted work given in Peterborough for some time. Among others we notice that beautiful selection commonly called the "Anvil chorus," which will be prefaced with full accompaniments. All preparations have been completed for the concert, and it bids fair to be the musical event of the season. Plan of hall now on sale at Thompson & Co.'s book store. This will be the last opportunity given to the public of hearing the celebrated tenor, Mr. Douglas Bird, as he leaves for Chicago immediately after the concert here, to fill the position of tenor soloist in one of the largest churches in that city. Don't fail to hear him. Opera house, Tuesday, May 3rd. 1d

Two Incipient Blazes.

Last night a few minutes after 8 o'clock an alarm of fire was sounded from the central office. The brigade were called out but their services were not needed. A chimney blaze in a rough cast house on Brock street occupied by a family named Blakely was the scene of the fire.

Another alarm was sounded from Box No. 3 at 11.35 this forenoon. The salvage, hook and ladder waggons and the fire engine were called out. The fence in front of Mrs. W. E. Sherwood's residence, "Inglewood," on the boundary line of North Monaghan, caught fire from rubbish burning in the yard and caused quite a smoke. But slight damage was done. This continued calling out of the firemen for practically nothing is altogether too thin.

Midland Railway Directors.

At the annual meeting of the Midland Railway Co. at the head office, Union station, Toronto, on Friday last, the accounts for the year ending December, 1891, were presented and received, and the following gentlemen elected directors:—Messrs. L. J. Seargeant, president; Geo. A. Cox, vice-president; R. Jaffray, H. M. Baird, J. M. Ferrie, E. S. Vinden, W. Wainwright, E. Wragge, C. Percy, and H. P. Dwight.

Market Items.

The market this morning was a small one hardly worthy of the name. The supply of butter and eggs was small, the former selling at 20 cents per pound and the latter at 10 cents per dozen. Three loads of potatoes were on selling at 40c and 45c per bag; apples sold 20c per peck or $2.25 per barrel; veal at 5c and 6c per pound; maple syrup still selling at $1 a gallon hay at $13 per ton and stove wood at $2 per cord.

Two Morning Accidents.

This morning as William O'Keefe, who resides on Lansdowne street, was working a heavy iron hammer in the Peterborough Lock Works he had the misfortune to have the hammer come down its full weight upon the middle finger of the right hand. The tip of the digit was smashed to a jelly.

A rather serious accident befell Theodore McWilliams, eldest son of Mr. J. B. McWilliams, this morning. He was working in the hardware store of McKee & Davidson, and did not notice the descent of the heavy elevator hook. The result was that he had the misfortune to be struck heavily on the head with the iron missle. A fearful gash was the result. The wound is a very serious and painful one.

More Boys Before the Magistrate.

This morning seven boys were brought before Police Magistrate Dumble for creating a nuisance and raising a disturbance on the corner of George and McDonnel streets in front of the George street church on Sunday night last. Complaints have been frequently made of the disgraceful conduct of the boys on that corner, not only Sunday evenings but during the week day nights; they are running, shouting, firing missles, insulting pedestrians and seriously disturbing the services held in the church. The trustees have tried to do everything to stop the nuisance without resorting to harsh means, but on Sunday night the climax was reached, and hence the boys' appearance at the police court this morning. The charge against the boys was proven but a trustee of the church interceded on their behalf and said if they would promise to not congregate on the corner or make disturbances any longer he hoped the court would let them off. The official's appearance saved the boys from a fine.

News Nuggets.

—There were no arrests last night.

—Carswell Lodge, I.O.G.T., will elect officers on Thursday night.

—The Edison club will hold a general meeting at their club rooms to-night.

—There is great scarcity of water in the cisterns about town. Rain is badly needed.

—The Peterborough junior lacrosse club will, it is likely, play the Lindsay club in that town on May 24 h.

—Belleville is negotiating with Mr. Allan MacDougall, Toronto, for the preparation of a plan of sewerage for that city.

—The committee appointed by the Bicycle club last night will please meet at the Edison club rooms to-night at 7 30 o'clock.

—The Court House Park is looking very pretty at present. The grass is growing nicely and presents a beautiful green.

—A regular practice match of the Peterborough Gun club will be held at Riverside Park on Friday afternoon at 3 o'clock.

—The Peterborough Gun club will likely go to Port Hope on May 24th, to shoot off the return match with the gun club of that town.

—The water in the river is unusually low for this season of the year, and it is feared it will be still more so during the summer months.

—The recommendation of the committee of the Belleville city council that the number of electric street lights be reduced to 33 was adopted.

—The Toronto and Kingston Synods meet in St. Paul's Presbyterian church on May 8th and 9th. About two hundred clergymen are expected to be present.

—Belleville has decided to purchase a street sweeping machine — something that would not be bad for Peterborough for use on streets where the watering tanks do not fly.

—Goldsmith English through his solicitor, Mr. E. B. Edwards, has entered suit against the Singer Sewing Machine Company for the recovery of $226 salary, which he claims they still owe him. The case will come up at the General Sessions in June.

—The household effects of Rev. J. W. McCleary, rector of St. Luke's church, Ashburnham, were sold yesterday by public auction. There was a very large attendance and the prices realized were high. Mr. John Haggart was the able auctioneer, and he did his work well.

—Wm. Leeper, who was arrested at Roseneath on Sunday last and brought up at the police court yesterday for purchasing green goods, has been admitted to bail, himself for $1000 and two approved sureties of $500 each. Both Leeper and Young will be tried on Friday at the police court.

—Three large plate glass windows were yesterday placed in front of the brick building on George street, near the C.P.R. station, to be used by Mr. B. F. Ackerman, of Port Perry, for his wholesale harness shop. The interior improvements to the premises are nearly completed and ready for active operations. Mr. Ackerman and his men will remove to town early next week.

—Peterborough Lodge, R. T. of T, held a regular meeting in their hall on Hunter street last night. The usual business was disposed of and two candidates initiated. An excellent programme was carried out. Mrs. (Dr.) Stephenson gave a musical exhibition of calisthenics. Mr. A. Clegg favoured with a splendid reading. Mr. Norman B. Scott volunteered a selection on the mouth organ and was liberally applauded. He responded to an encore.

Peterborough Bicycle Club.

An Enthusiastic Meeting of Wheelers Held in the Edison Club Rooms Last Night Gave a Good Account of Itself.

The meeting called last night at the Edison Club rooms for the purpose of forming a bicycle club was largely and representatively attended. The following well known wheelmen were in attendance:—Messrs. Alex. Gibson, Harry Meredith, W. C. P. Heathcott, Fred Might, Wm. Bradburn, John King, R. E. Layfield, Wm. Crosby, F. Mundweseler, Percy Roper, A. H. Stratton, A. Fraser, T. Connal, J. E. Dolan, Robt. Fife, S. S. Foster, R. B. Rogers, Fred Dixon, T. E. Bell, Ernest Pearse, J. Vickers, Thos. Delaney, W. Brundrette, H. H. Bradburn, Jas. Mokkim, Chas. Gillespie, Colin Brown and others. Mr. R. B. Rogers, ex-President of the Peterborough Bicycle club was appointed chairman and R. C. Layfield, secretary, *pro tem.* After considerable discussion on the part of those present as to the best ways and means of conducting a club, the proper grounds to secure for the season, the election of officers, the constitution, the membership fee, etc, the following officers were elected for the ensuing year:—

HON. PRESIDENT—Henry Calcutt, Esq.
PRESIDENT—R. B. Rogers.
VICE PRESIDENT—Alex. Gibson.
SECRETARY TREASURER—R. E. Layfield.
CAPTAIN—W. C. P. Heathcott.
FIRST LIEUTENANT—F. J. Might.
SECOND LIEUTENANT—J. E. Dolan.
STANDARD BEARER—Wm. Bradburn.
BUGLER—Percy Roper.

A committee consisting of Messrs. Robt. Fife, Colin Brown and A. H. Stratton, were appointed to make arrangements for a first class track and grounds for the club during the year. The committee will hold a meeting to-night to make further arrangements. The first run of the club will be held to-morrow night, from the market square at seven o'clock. All wheelmen, young and old, are invited to get out their "bikes" and go for the first spin of the season with the boys. The prospects for a successful year in cycling were never better, and judging from the enthusiasm and interest manifested last night by those present, the club with its able staff of officers, will enter upon a season of unprecedented success and prosperity.

Mr. and Mrs. Frederick Rejoice Because

Hood's Sarsaparilla Rescued Their Child from Scrofula.

For Scrofula, Salt Rheum, and all other foul humors in the blood of children or adults, Hood's Sarsaparilla is an unequalled remedy. Read this:

"We are so thankful to Hood's Sarsaparilla for what it did for our little girl that we make this statement for the benefit of other anxious parents and

Suffering Children

Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old, sores broke out behind her ears and spread rapidly over her head and forehead down to her eyes, and into her neck. We consulted one of the best physicians in Brooklyn, but nothing did her any good. The doctor said it was caused by a scrofula humor in the blood. Her head became

loathsome to the smell and dreadful to look at. Her general health waned and she would lay in a rocking chair all day without any life or energy. The sores caused **great itching** and burning, so that at times we had to restrain her from scratching. For 3 years she

Suffered Fearfully

Finally we decided to try Hood's Sarsaparilla, which we did so. We soon noticed a change for the better. She had more life and appetite. The sores seemed to dry out more of the time, but it soon began to heal. The itching and burning ceased, the sores on her head became entirely healed, and now perfectly well, all of the humor, and her skin is clear. She seems like an entirely new child in health and general appearance from what she was before taking

Testimonial

We have given Hood's Sarsaparilla a fair trial, considering every day, and we believe it has done our child much good. In the light of our experience we think that the work of an honest medicine can not be beneficent?

NECKWEAR!

Our Neckwear has become noted. It commends itself to the buyer who is in search of originality and good taste.

We call attention to our New Scarf for Spring wear, in a variety of quiet, good shades It is quite different from any Scarf made, on account of the new and unique arrangement of the pleats.

In Silk Neckwear we show many new combinations that are a symphony in color. Also, some very choice weaves that are duplicates of novelties, fashionable in London and Paris.

Attention is also directed to our new assortment of Fancy Braces, in Silk, Figured and Embroidered, which are unsurpassed for elasticity, comfort and originality of design in Buckles and Mountings.

In the art of Watch Repairing, there are many elements which go to make successful work. The cleaning and regulating is easily performed, but the replacing of any broken parts is far more difficult and it takes a workman of long experience and first class practical ability to make a new piece which is as well finished and fitted as the original was. MUNCASTER invariably finishes his work equal to new. The New Store is next to the "Examiner" Office.

Imagination or speculation has been running riot with some people. For the past ten days we have had hosts of visitors inquiring if we had seen the plans for the changes in our building to accommodate the Bank of Commerce, which it is rumoured will be placed in the store we now occupy. Incidental with this we are told with a Solomon-like look, that there are more changes to occur before long and that when the World's Fair is held in Peterborough, things will look so different that the "old residents" will find it hard to remember when and how these changes occurred. Our visitors generally finish their conversation by asking if goods are any cheaper on account of these SUPPOSED CHANGES, and, as we are always alive and ready to do business, we find Dame Rumour has been of immense benefit to us lately. We will say that what we most desire just now is

The Spring Assizes Still Going on. Judgment in the Bradley vs. Swinton et al. Case—The Grand Jury Dismissed Yesterday Afternoon—The Bradburn vs. Carton Case Disposed of.

WEDNESDAY, APRIL 27th.

Yesterday evening the jury in the case of J. J. Bradley vs. Wm. Swinton, J. L. Walton and Andrew Young brought in a verdict for plaintiff and $175, with county court costs. E. B. Stone for plaintiff, and G. M. Roger and E. B. Edwards for defendants. His Lordship bound over all the parties in this case to keep the peace, in sureties of $2 000 each.

Yesterday afternoon at three o'clock the Grand Jury having concluded the business of the assizes made their report to His Lordship:—

To His Lordship, the Hon. Justice Rose:

May it please your Lordship, We, the Grand Jurors of the county of Peterborough for the April assizes assembled, in accordance with your instructions beg leave to report that we have visited the county gaol and find it in a very clean and comfortable condition, which reflects great credit on the gaoler and his assistants. We find confined within the said gaol eighteen prisoners, some of which prisoners committed for no other offence than that of being poor, old and helpless. The unanimous expression of the Grand Jury fully coincides with the very touching remarks of your Lordship with reference to the said inmates. We lament the state of affairs and suggest to the court the advisability of urging upon the County Council the fact that a House of Refuge be provided for this class of the community.

We also suggest that the county of Peterborough should confer with the surrounding counties with reference to a General Home for the said counties, the expense to be known by each county respectfully. All of which is respectfully submitted.

JAS. STEWART,
Foreman.

His Lordship thanked the Grand Jury for their report and the quick manner in which they had concluded the business of the Assizes. He stated that in other counties it was the custom for the Grand Jury to remain until the Assizes were nearly concluded. This was a great expense to the county and he was pleased with the prompt way in which the Grand Jury of Peterborough County had concluded their business, and in such a satisfactory manner. Touching upon the House of Refuge, His Lordship said their recommendation would not be of much practical benefit if the members of the Grand Jury, those who were county councillors and those who were not, did not urge and press upon them the need of such a home for such poor, old and helpless persons as were now confined in the county gaol for no crime at all. All had some influence, and His Lordship expected them all to use it as best they knew how.

CARTON VS. BRADBURN.—An action for damages for $3,000 brought by Michael Carton against Thomas Bradburn for assault and false imprisonment. This suit arose from the well-remembered Bradburn-Carton and Carton-Bradburn counter assault cases which engaged the attention of the police court on May 28th and 29th of last year. The charge against Mr. Bradburn was dismissed, and a fine of $20 and costs imposed upon Mr. Carton. Hence this suit for assault, false imprisonment and *malicious* prosecution. As in the original cases the plaintiff and defendant were the principal witnesses. The jury after a lengthy deliberation returned to the court room at two o'clock and reported that they were unable to agree upon a verdict. The case was therefore traversed to the next assizes. E. B. Edwards for plaintiff, Hatton & Wood and G. H. Watson for defendant.

QUEEN VS. SMYLIE—Perjury—The jury in this case received His Lordship's charge at three o'clock, and are still deliberating as to their verdict as this issue goes to press.

57th Battalion Paragraphs.

The New Rooms of the Officers and Staff Formerly Opened Last Night—Other Jottings Pertaining to the Red Coats.

The officers and staff of the 57th Battalion Peterborough Rangers were in excellent spirits last night and they had just cause to be for they witnessed their new rooms, all furnished and decorated, ready for occupation and to be graced their stalwart and handsome personages. Capt. Langford and Lieut. Schofield were the gentlemen who had the matter of suitably furnishing these rooms, in charge. The officers and staff bear all the expense and out lay themselves for the comfort, ease and elegance, which they now enjoy. The rooms are situated at the rear end of the drill shed and are three in number, an ante room, officers mess and orderly room. To the right and the first one entered is the ante-room. This room is provided with hardwood tables, cane-seated chairs and twenty-five lockers. The lockers are of great convenience to the officers. The colonel and staff each captain and lieutenant has his own locker for his personal stores, wraps, coats, etc. Passing through the ante-room you enter the officers' mess, a richly and gaily decorated snuggery. The furnishings and woodwork of the apartments are very luxurious and costly. The walls and ceiling are handsomely finished in walnut and ash, presenting a charming appearance. A rich brussels carpet covers the floor while the handsome an ornate extension table in the centre of the room and the richly cushioned armchairs are made of oak and highly polished. Two beautiful sofas covered with plush of a deep rich red, line the sides of the apartments. At the windows are strung costly Turkish curtains, swung in graceful folds. A handsome walnut sideboard also adorns the room. Passing through the mess you enter the orderly room, where business of the officers and staff will be transacted. The dignitaries of the 57th Battalion now have quarters which are in keeping with their position and comfort.

NOTES.

The turnout of the men last night was a large and creditable one. They are making good progress in their drill.

Owing to the illness of Capt. Mason last night, Lieut. Tobb ably took charge of No. 1 Company and put them through their various manoeuvres.

A pioneer corps and ambulance corps will soon be organized in connection with the battalion.

Capt. and Adjt. Dennistoun has received word from the 57th Highlanders, the newly organized Scotch regiment of Toronto. They are desirous of coming to Peterborough on 24th of May.

Captain Dennistoun has also got word from Major Galloway, stating that the 14th Battalion, Kingston, would like to come to Peterborough on July 1st, and exchange visits every year. The reason of the 14th being desirous of coming to Peterborough, is that they take a trip one year, and remain home the next. Last year they remained at home. However, in all likelihood, the matter will be arranged, and the 57th will visit Kingston on Dominion Day.

The officers will use the regulation caps this year, which they have ordered, instead of the forage cap.

A sergeant mess will soon be established. The sergeants will receive a grant from the officers and will be allowed this years' extra pay towards furnishing their rooms.

Lt. Col. H. C. Rogers would like to see the drill shed white-washed inside and have Virginia creepers growing up on the outside. If the doors were then thrown open to picnic parties, Central Park would be a great attraction for pleasure seekers.

A battalion parade will be held shortly. The men are fast getting into shape.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following :

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892 :

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,088 in amount. Of these. 136 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,588, upon 2,371 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,-191.06.

At 31st December last there were in force $56,218,318.03 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,-124.87, having being increased during the year by $1,041.684 78.

The death claims for the year were upon 192 lives under 243 policies for $611,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized,

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election : The Hon. Sir Alexander Campbell, K. C. M. G., Toronto ; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq , New York State.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said :—

I beg to move the adoption of the directors report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting, I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,-255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218 318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the companys assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,884.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 82 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperty as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said :—

Mr. Chairman and gentlemen,—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of carefnl management in the interest of the company I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day ; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest, I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said: —It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied :—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Farrie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

"August Flower"

I had been troubled five months with Dyspepsia. The doctors told me it was chronic. I had a fullness after eating and a heavy load in the pit of my stomach. I suffered frequently from a Water Brash of clear matter. Sometimes a deathly Sickness at the Stomach would overtake me. Then again I would have the terrible pains of Wind Colic. At such times I would try to belch and could not. I was working then for Thomas McHenry, Druggist, Cor. Irwin and Western Ave., Allegheny City, Pa., in whose employ I had been for seven years. Finally I used August Flower, and after using just one bottle for two weeks, was entirely relieved of all the trouble. I can now eat things I dared not touch before. I would like to refer you to Mr. McHenry, for whom I worked, who knows all about my condition, and from whom I bought the medicine. I live with my wife and family at 39 James St., Allegheny City, Pa. Signed, JOHN D. COX.

BURDOCK BLOOD BITTERS

Regulates the stomach, liver and bowels, unlocking the clogged secretions and carrying off all foul humors and impurities from the system, thus curing dyspepsia, biliousness, constipation, headache, scrofula, salt rheum, sour stomach, dizziness, heartburn, rheumatism, and all diseases of the stomach, liver, bowels and blood. It antagonizes all blood poison, removing all impurities from a common pimple to the most scrofulous sore.

ITS EFFECTS IN HEADACHE are truly surprising, having made complete cures in obstinate cases of more than 20 years' standing, which had resisted all other treatment. As a

SPRING BLOOD PURIFIER

it has long held first place, and continues to be esteemed by press and people, the best and purest remedy ever devised to remove tired feeling, restore elasticity and buoyancy to the constitution, and tone up the entire system to bounding health and strength.

A Modern Miracle.

Did you ever consider what the production of 1,500 lbs. of milk in one month by a 1,000-lb. cow amounts to? Think of the work this production imposes upon the animal organism. According to Dr. Atwater, if meat free from bone be taken as the standard, and its feed value considered at 100, the food value of the average fresh cow's milk is 33.8. Few growing animals ever made an increase of even 100 lbs. in live weight in one month—hardly equivalent to 50 lbs. of bone-free flesh. And yet here is a little Ayrshire cow, under the stimulus of her wonderfully developed maternal qualities, giving the equivalent of 357 lbs. of bone-free flesh in one month. What an energy is here displayed. What a miracle in this fact. From rough grass and grain, 357 lbs. of flesh are manufactured by one little cow in 31 days, an average of more than 11 lbs. per day.—Prof. William P. Brooks to the Ayrshire Breeders.

Humor.

Sufficient Cause.—Miss Smilax—My, what a bouncing baby that is! Baby's Brother—Yes'm, it ought to bounce. It's just swallowed a rubber ball.—Boston Courier.

"John," said Mrs. Harkins, "there are burglars downstairs." "Very well, my dear. Go tell them to move on." "Why, you awful brute!" "Why? You requested me not to interfere in domestic matters last night. Surely this is one."—Harper's Bazar.

The Way of the World.—Millionaire (to family lawyer)—Well, there! I've made all the bequests I care to and $6,000 remains. Family Lawyer—It will probably take all of that to prove that you were of sound mind when you gave away the rest.—New York Press.

Women in Government.

Women are fast obtaining substantial recognition in the governing of London. There are women members of the Board of Education and various other important bodies, and if women choose there may now be women Dock Commissioners. In a bill before Parliament last week dealing with the election of Dock Commissioners, Mr. Courtney, Chairman of Committees, took a novel, and, as the newspapers describe it, "praiseworthy" step by striking out the words "male persons," so that the franchise might be conferred on women. The promoters of the bill said if the ladies might vote they might also become Commissioners. "And why not," asked Mr. Courtney, "if they are good business women?"

Thirty-six Tons of Pennies.

There are 72,800 pounds of pennies encumbering the vaults of the Sub-Treasury. This is more than thirty-six tons, and coins are still accumulating. There are 10,400 bags, weighing seven pounds each. The accumulation is partly the result of the general establishment of the penny-in-the-slot machines. The headquarters of the companies owning these machines is in this city, and all the pennies are therefore sent here when the agents make their returns. The companies thereupon unload them upon the Sub-Treasury. The Treasury Department will send these pennies to be distributed among the country banks.—Scientific American.

Cleaning Willow Furniture.

Several readers ask how to clean willow furniture.

The simplest method is to wash it with warm water and castile soap, wiping it very dry with a soft cloth, and then drying thoroughly in the sun, or near the fire. If one care to bleach it, have a packing box large enough to hold the willow articles. After washing, put into the box without drying; then into the bottom of the box put a small dish of burning sulphur. Cover the box, and at the end of half an hour take out the article, which will be bleached. Willow and rattan furniture is now stained, giving variety and doing away with the necessity for cleaning.

A Wrinkle in Logging.

As a rule it takes two men to pull a 6 or 7 ft. saw, but this way one man and a small pole will do the work. Cut a small pole the size of a fishing rod about 8 ft. long. Then tie a strong cord 3 ft. long, having a small hook to fasten in the eye of the saw, to the small end. Force the larger end of the pole in the ground on the opposite side of the tree you wish to saw and pull. The spring in the pole will pull the saw back every time.

It is not what its proprietors say, but what Hood's Sarsaparilla does, that makes it sell, and wins the confidence of the people.

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wears in consequences. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flushes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBON, 24 Macdonell ave., Toronto, Canada.

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

HINTS FROM MARIA PARLOA ON SELECTING CARPETS AND RUGS.

Freaks and Frills of Fashion—The Spring Cloak—A Possible Snag—Louise Michel Keeping School—Parsee Girls Who Cook Young Girls' Costumes.

In buying carpets remember that the best are always the cheapest, writes Maria Parloa in her domestic department in the March Ladies' Home Journal. The more limited one's means are, the more essential it is that only a good article shall be purchased. The best quality of body Brussels will outwear two or more of the cheaper tapestry carpets. A finely-woven, smooth ingrain carpet may cost half a dollar more per yard than one of common texture, but it will be cheaper in the end. Rugs for the center of the room can be made from a body Brussels, with a border to match. They should be tacked down. Japanese cotton rugs, pretty and durable, cost from three to six dollars. They are good for bed-rooms, bath-rooms and sitting-rooms. Buy handsome rugs whenever you can afford to. They are a good investment; for, unlike carpets, they do not wear out, and you can hand them down in the family the same as silver or diamonds. A beautiful Oriental rug is a joy forever. In selecting one be particular to see that the colors are rich, and have some brightness. In general, when choosing carpets, have the ground-work rather light, and the colors somewhat neutral. Such a carpet will always look clean, and you will not feel the need of shutting out the sunlight through fear of fading.

The Freaks and Frills of Fashion.

The omnibus jewel is just now the only bijou a la mode which fair and fastidious Parisians are wearing. It may be a diamond or any other precious stone, but it must be set in such a fashion that it can be worn in twenty different ways, from a pendant for the hair to a buckle for the slipper.

As a mantle fabric, black silk is reviving, the rich corded silks with ostrich feather trimmings, or ruched-out silk, being most used. Full bishop sleeves with gauntlets or deep, tight cuffs, and yoked fronts and sacque backs, will alter the fashions of last year very considerably. A double pleating in the back is novel and at the same time effective.

Many of the French model dresses have quite short sleeves for day wear. They reach only to the elbow, very long, full gloves, or lace sleeves, being drawn up to meet them. English models have the lower portion of the sleeve of velvet, or a different material from that of the full upper sleeve, and closely buttoned up from wrist to elbow.

The Prince of Wales' dinner table is, as rule, decorated with the utmost simplicity, as far as flowers are concerned. A small bunch of flowers here and there and a number of tiny glasses with just a few lilies of the valley, the favorite flower of the Princess of Wales, is, on ordinary occasions, the floral total of the Prince's dinner table.

Sashes will be much worn by young women, a carelessly twisted ribbon passed twice around the waist being very popular. A pretty dress of gray diagonal cloth, with touches of white about it, and a neat bodice belted at the waist, has a sash of ribbon tied in a bow between the shoulder blades. The ends of the bow fall almost to the bottom of the skirt.

The Spring Cloak.

The spring cloak is big and clumsy. I know I shall draw upon me the wrath of the manufacturers, but nevertheless it is a fact. When the slim and slender American girl has reduced her proportions to a minimum by adopting t-r-g-h-t-s, making for her dress a clinging poem, why should she destroy the fancy-like illusion by wearing a high-shouldered cloak that is a complete disguise, and which would make her grandmother look old. Why these nightmares of a modiste's imagination should have developed into a repetition of hundreds of thousands nobody knows. There is really no reason for a summer cloak. We jump from winter into summer, and a wrap for boating or riding does not need to be a very elaborate affair. And it seems absurd to reduce the figure by condemning skirts, and then add to it a full-skirted outer garment that is not warm enough for winter, and much too warm for summer. I hope to see a return to the pretty light and useful shoulder capes made after individual tastes.—Myra, in Detroit Free Press.

Thrashed a Man Twice his Size.

The other day a small, harmless looking man entered a new York street car, and accidentally trod on the foot of a big six-footer. He apologized, but the six-footer wasn't satisfied. He talked for some time, and finally invited the little man to leave the car and settle the matter on the sidewalk. Greatly to his astonishment, the latter accepted. Those who witnessed the contest say it did not last long, but that the big fellow had to be carried home in an ambulance, while his diminutive antagonist walked away with a cheerful smile. And so it is with Dr. Pierce's Pleasant Pellets. They're not half as big as most of their rivals, but they do their work quietly and thoroughly. For sick headache, biliousness, constipation, dyspepsia, etc., there is nothing like them. They are the only Liver Pills absolutely sold on trial! Your money back, if they don't give satisfaction!

Makes Flesh and Blood.

When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is shaking feet, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always work wonders, because it is a flesh and blood maker, and contains all the constituent for nourishment found in wheat, in fact Miller's Emulsion is a perfect "staff of life" and has saved and cured thousands. In big bottles, 50c cents and $1—At Peterborough Drug Stores. dw

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

THE NERVOUS SYSTEM.—From the peculiar tendency which alcohol in the blood has to impair the functions of the nervous system arise many disorders of which the most diseases are delirium and insanity. The Father Graves Remedy taken in time will certainly prevent these fatal disasters. 14

GOSSIP OF ROYALTY AND ROYAL PERSONAGES.

Henry Irving Very Ill A Madman Runs Amuck On a Steamer and Slays Several of the Crew Terrible Railway Wreck in New South Wales.

LONDON, April 27.—The Queen arrived at Darmstadt after a 24 hours' journey from Hyeres, and during her visit to the Grand Duke of Hesse Her Majesty will reside at the Residenz Schloss in apartments overlooking the gardens which have always been appropriated for her use. The Queen is to drive to-morrow afternoon to Rosenhohe, in order to visit the mausoleum in which the Grand Duke Ludwig and Princess Alice are buried, and Her Majesty brought wreaths and crosses from the Riviera to place upon their coffins.

To Meet the Queen at Darmstadt.

Empress Frederick and Princess Margaret of Prussia, who returned to the Royal Schloss in Hamburg last Thursday after a few days's visit to Prince and Princess Adolphus Schaumburg-Lippe at Bonn, have gone to Darmstadt to meet the Queen, and will stay there during Her Majesty's visit. This is the first meeting between the Queen and the Empress for more than 13 months. Emperor William is to proceed to Darmstadt to meet the Queen, after attending the funeral of the Grand Duchess Alexandrina at Schwerin, but it is not expected that he will stay more than one day, and the delicate health of the Empress will likely prevent her from waiting upon Her Majesty.

Arranging Royal Marriages.

The visit of the Queen to Darmstadt is directly connected with various projects of marriage which are now concerning the royal family. It is hoped that Prince George will become betrothed to Princess Alix of Hesse and that Grand Duke Ernst will marry Princess Marie of Edinburgh, whose name has been much coupled of late with that of Prince Ferdinand of Hohenzollern-Sigmaringen, Crown Prince of Roumania. But, as I explained several months ago, the interference of the Emperor of Russia stopped that match at a very early stage of the negotiations.

The Holding of the Drawing Rooms

It is exceedingly doubtful whether the Queen will be present at either of the drawing rooms, but the question will not be definitely settled until after her Majesty has returned to Windsor from the Continent. If the Queen does not attend herself, Princess Christian, Princess Louise, Princess Beatrice and the Duchess of Connaught will take the presentations. Even if the Queen does not hold one drawing room herself, her Majesty certainly will not wait for any of the general company, but will leave the throne room directly after she has received the Corps Diplomatique, Ministers and other personages having "privilege entree."

He Used the Royal Carriages.

A friend at Hyeres writes that the Queen's Indian secretary Munshi has attracted far more attention than any other member of the royal party He is a personage of imposing presence and wears a splendid uniform covered with gold lace, and every fine day drives about in the royal carriage and pair with a Hindoo servant in Oriental garb sitting on the box beside the coachman. The general idea amongst natives is that Munshi is an Eastern prince who is kept a prisoner in England and taken about with the court as the outward and visible sign of Her Majesty's dominion throughout India.

Carpets for the Queen.

When the Queen is residing on the Continent her bed, bath, sofa, easy chair and toilet service are always sent out from Windsor. During Her Majesty's stay at Hyeres, however, she used a toilet service that had been expressly manufactured for her at Lyons by order of the proprietor of the Costebelle. It is of cream colored porcelain, and each piece has a pattern of roses, thistles and shamrocks entwined together with the Queen's monogram and the royal arms in gilt.

Not Betrothed to Prince George

Of course there is not a shadow of foundation for the impertinent and most unwarrantable statement that the official intimation of the engagement of Prince George to Princess May is to be promulgated in a few days. Under the circumstances such an announcement must be offensive to the Royal Family, as it cannot fail to cause great pain and annoyance. It is highly reprehensible that such gross fabrications should be recklessly circulated about the country.

A Talented Grand Duchess.

The Grand Duchess Alexandrina of Mecklenburg-Schwerin, who died in Berlin on Thursday evening in her ninetieth year, was a sister of the old Emperor William, with whom she was an immense favorite; and during the last thirty years of his life she lived constantly with him in Berlin, Babelsberg and Ems, where she accompanied him every summer; and he frequently consulted her both on public and private affairs, as he entertained a high opinion of her judgment. The Grand Duchess Alexandrina inherited a large share of the talents of her celebrated mother, Queen Louise of Prussia, and was distinguished not less for her robust common sense and general shrewdness than for her literary and artistic tastes. She was married to the Grand Duke Frederick Francis in May, 1822, and survived her husband more than 50 years. The reigning Grand Duke of Mecklenburg-Schwerin is her grandson and Grand Duchess Vladimir of Russia is her granddaughter. She possessed a large fortune, which she is believed to have left among seven of her grandchildren who are not so well provided for as other members of the family.

The Duke of Clarence's Sarcophagus

The granite sarcophagus in which the coffin of the Duke of Clarence is to be inclosed is now finished and will soon be placed in the Albert Memorial Chapel at Windsor, near the tomb of the Duke of Albany. The Queen, the Prince and Princess of Wales, and other members of the Royal Family are to attend the memorial service in the chapel on the day of the ceremony of placing the coffin in the sarcophagus, at which service the Bishop of Rochester and Canon Dalton will officiate.

Stanley to Be the King's Guest in June

The King of the Belgians goes to Ostend for the summer early in June. The royal chalet has just been redecorated throughout. Several distinguished guests are expected there during the coming season. Mr. Stanley is to visit the King early in June.

A Splendid Dinner Service.

The magnificent silver-gilt dinner service which Napoleon presented to his sister, Princess Pauline Borghese, has been sold to the Prince of Bancina, the well-known Sicilian magnate, for £6280 It is exquisitely wrought and chased and is thought to have been sold very cheap. The Prince of Bancina was anxious to buy the famous white marble statue of Princess Pauline Borghese, by Canova, which nearly every visitor to Rome admires, but it cannot be sold, being an heirloom.

Killed Many of the Crew

LONDON, April 27. A ghastly story is that of the passengers and crew of the English steamship Mequinez, bound to Tangier. Midway between Rabat and Larache a Moorish passenger, supposed to be insane, opened fire on the crew with two revolvers. Two Moors were at the outset shot dead. Mr. Edwards, a passenger, was twice fired at, but escaped with nothing worse than an injury to the knee by a ball during the scramble. The cook was then shot in the mouth, the ball passing through his lower lip and tongue and out through the back of the neck. Another Moor, a son of one of the two previously killed, was then severely wounded by a bullet in the knee. The assassin, after sweeping the deck, screened himself on the forecastle, but was finally secured, and handed over at Tangier to a guard of Moorish soldiers. The murderer, a very strong and well-built man of about forty, is charged in the name of El Haj El Arbi bin Abd el Azeez Baroda of Fez.

A Whistling Witness.

NEWCASTLE, Eng., April 27.—Apparently no place is sacred from the popular ditty "Ta-ra-ra Boom De ay." It crops up on all sides, and yesterday the well known refrain disturbed into the police court at Sunderland. A youth was called to give evidence in the case in which two women had taken out cross-summonses against each other for assault. The boy was the last witness called, and after he had concluded his testimony the bench proceeded to consider their decision. Just as the chairman was about to address the two litigants, the solemn stillness of the court was broken and all present were surprised to hear the familiar refrain, "Ta-ra-ra-boom De ay," whistled with the skill which a small boy alone possesses. All eyes were at once turned in the direction from which the air came, when it was seen that the boy still retained his prominent position in the witness box. He was evidently quite ignorant of the enormity of his offence, for the well-known tune continued to be piped forth in spite of the sensation it caused. The ditty was almost half through before the magistrate's clerk recovered from the shock and gravely said: "There, my boy, that will do." A sergeant of police who stood near then gently withdrew the youth from the box

RAW AS BEEF-STEAK

Baby's Fearful Suffering from Skin Disease Covering Entire Body Cured by Cuticura.

My baby was taken very sick when he was three months old, and in a few days began breaking out. We employed both of the home doctors, and they could do nothing for him. Then we sent for the best doctor in Eaton Rapids, Mich., and he doctored him for two weeks, and he got worse all the time; and then I took him to Jackson, to a doctor who attends especially to skin diseases, and then he got worse than ever. Then I told my husband we had better try the CUTICURA REMEDIES any way; did not have any idea they would do any good, but in less than two months from the time we began giving them to him he was entirely well, and not a spot on him. His hair began growing right off, and we thought he would always be bald-headed. There was not a spot on his whole body, face, and head, only his nose and eyes, but what was as raw as beef-steak. So poor there was not anything but bones, and so weak he could raise neither hand nor head.

DOMINION PARLIAMENT.

THE ELLIOT AND CARON CHARGES DISCUSSED.

Mr. Lister's Motion for a Special Committee Adjourned Until Next Private Members' Day—Mr. Edgar Asks That the Caron Charges Be Referred to the Privileges and Elections Committee.

OTTAWA, April 28.—The impeachment of Judge Elliot occupied the attention of the House yesterday, and when the Speaker left the chair at 6 o'clock it went over until next private members' day, without a vote being reached.

In making his motion to refer the petition from Thomas Hobbs and others to a select committee, Mr. Lister made moderate and temperate speech, and said that "if the charges were true" the usefulness of Judge Elliot was gone and he should be called down from the bench. He claimed that the House had an undoubted right to examine into the petition with a view of invoking the issue of a commission by the Governor-General as provided by the statute in the case of enquiry into the conduct of county judges.

A Defence of Judge Elliot.

Mr. Moncrieff took the ground that the petition did not disclose any misconduct on the part of the judge, as his decision was correct, and even if it was not it would only be an error of judgment, and it would be ridiculous to say that a judge could be impeached for an error of judgment, as if that was admitted the judgments of county judges would be constantly appealed against under the guise of impeachment. With regard to the charge in the petition, that Judge Elliot had written partisan articles for The London Free Press, he said the proper way for Mr. Lister to have proceeded would have been to take the file of The Free Press out of the library and read the articles so that the House could judge whether they were partisan or not.

The Caron Charges.

After recess a few private bills were advanced a stage and the debate on Mr. Edgar's motion that certain charges against Sir Adolphe Caron be referred to the Committee on Privileges and Elections was resumed, Sir Richard Cartwright speaking for an hour. He was followed by Mr. Dickey in opposition to the motion, and Mr. Edgar then made a second speech in support of his motion, devoting himself largely to answering the speech of Sir John Thompson.

Messrs. Curran, Edgar and Mulock also spoke and it was expected that the debate would last all night and a division be reached about daylight, but when Mr. Mulock finished at 1 o'clock it was agreed by Sir John Thompson and Mr. Laurier to adjourn the debate until 3 o'clock Thursday, when it will be resumed and talked out to a finish.

The Missing Hull Postmaster.

Chief Sherwood has received a telegram from San Francisco that argument was heard in the Paquin case yesterday and decision reserved. Paquin's friends in Hull refuse to subscribe for his defence in San Francisco, as they think he will surely be extradited.

The Senate.

The Senate sat yesterday for the first time after Easter recess. Eulogies on Hon. Alexander Mackenzie were delivered by Messrs. Abbott, Scott, Allan and Power. Five bills were advanced a stage and the Senate then adjourned.

Chinese v. White Cooks.

The Victoria, B.C., members had an interview with the Minister of Marine and Fisheries and protested against the employment of Chinese cooks on the Government steamer Quadra. Hon. Mr. Tupper promised to enquire into the matter, but wanted to know what the cost of white cooks would be as compared with Chinese.

Pay of Railway Mail Clerks.

A deputation of 15 railway mail clerks from all parts of the Dominion waited upon the Postmaster-General yesterday and urged an increase of pay and that some scheme of Government insurance be adopted, as on account of the nature of their employment railway mail clerks found it difficult to effect insurance in ordinary companies.

Sir Adolphe said he was afraid it was too late to do anything about salaries this session, but he would see what could be done for next year. With regard to insurance, officers of the department were now making enquiries with reference to the plan adopted in England, and he would see if anything in that direction could be done here.

Immigrants from Martinique.

Mr. Lariviere has received a letter from Ernest De Reynal, a prominent planter of Martinique, asking what inducements are offered settlers in Manitoba. He says that the blacks are getting entire control of the island and the whites will soon be driven out. He wishes to emigrate with his family, and many others would probably follow him.

He Was Awakened by a Tapping on the Window Pane.

BRANTFORD, April 28.—Between 11 and 12 o'clock last night Bernard Douglas, one of the employes of the Bell Telephone Company, heard a rap at his bedroom window in Colborne-street. He had gone to bed, but in response to the knocking arose and went to the window. He had just reached there when the person, who had presumably tapped upon the glass, fired a loaded revolver through the window. The escape of Douglas was miraculous. The bullet went crashing through the window-pane and lodged deeply in the wall opposite. The would-be assassin, whoever he was, made off.

May Have Been Murdered.

BELLEVILLE, April 28.—In the case of Jacob Cronk, who was burned to death on March 11, and whose end was declared by a coroner's jury to be due to accident, affidavits have been made by the widow of deceased, his son Whitfield Cronk and Dr. Curlett to the effect that they believe that the deceased came to his death not accidentally, but by foul play. These affidavits were yesterday forwarded to the Attorney-General. It is also expected that the stomach of the deceased will be sent to Toronto to be analyzed.

A Trolley Trust.

PHILADELPHIA, April 28.—An electric trust, having for its object the control of the trolley overhead wire railroad and the general electric business of the country, has been formed by the consolidation of the Edison, Thompson-Houston and Fort Wayne companies. The trust is capitalized at $50,000,000 and has its headquarters at New York.

HORRORS IN VENEZUELA

THREE THOUSAND GOVERNMENT TROOPS IN IMMINENT PERIL.

Palacio's Best Fighter, Gen John Quevedo, Butchered by Civilians in a Horrible Manner—The Rebels Threaten Victoria, the Key to the Situation.

NEW YORK, April 28.—A special to The Herald from Puerto Cabello, Venezuela, via Galveston, says: News from Valencia of a startling nature has been received. Generals Ybarra and Gasanas, with nearly 3000 of the Government forces, have been cut off from Palacio's main forces and are in imminent peril. Gen. Crespo, the insurgent commander-in-chief, has effected a junction with Gen. Mora, the hero of the late engagement at Palito. The fiercest fighter of Palacio's army, Gen. John Quevedo, and his aide-de-camp, Jose Armes, have been killed, butchered in a terrible manner, not by insurgent troops, but by the enraged populace of Los Teques. General Quevedo was a native of the Canary Islands. He came to Venezuela at the age of 8 years. He had been identified with all the revolutions of the past 25 years, and was always on the Government side. He had amassed many millions, and owned rich coffee plantations in the State of Guzman Blanco, in the vicinity of Teque. With his aide, Col. Armes, a promising young soldier, he was paying a visit to his possessions at Los Teques on April 18 when they were attacked by the villagers, who had been incited to rebellion by the neighboring mountaineers. The insurgent troops have not yet penetrated as far as Los Teques and the killing of the two Government commanders was done by the people. Gen. Quevedo was dragged from his horse in the suburbs of Teques and beaten with stones and clubs. His brains were literally dashed out with a big boulder in the hands of two powerful mountaineers. The utmost contempt was shown the body, which was literally cut in pieces. Col. Armes suffered the same treatment. At the time of the killing of General Quevedo, he was 50 years of age. He leaves a widow and several children, who live in fine style at Caracas.

Gen. Crespo's line extends from Tiniquillo to Cagua, along the southern and south-eastern shore of Lake Valencia. This force is threatening Victoria, which is southwest from Caracas, and is the key to the situation in Venezuela. The fall of Victoria or the repulse of Crespo from his present position will solve the question of supremacy in this war.

A PHILADELPHIA FIRE.

$1,000,000 Loss and Several Persons Burned to Death.

PHILADELPHIA, Pa., April 28. Fire broke out shortly before 8 o'clock last night on the stage of the Grand Central Theatre, and before it was subdued nearly a million dollars worth of property had been destroyed, including the massive eight-story annex building occupied by The Times newspaper.

The panic in the theatre was great. Nearly 50 persons, mostly occupants of the galleries were hurt, none, however, seriously. The Central Theatre is located in Walnut-street between Eighth and Ninth in the most thickly settled portion of the city, and immediately in rear of the theatre was The Times building, which faced in Sanson-street.

The Panic at the Theatre

At the theatre "The Devil's Auction" was being presented. The house fortunately was only partly filled. The panic that ensued, however, was terrible.

As the confusion subsided the casualties were found to be more serious than was at first supposed. Forty-one people were admitted to the Pennsylvania Hospital. Most of them were suffering from burns, and about 20 of them are in a serious condition. The injuries are mainly about the face and many, it is feared, have been blinded for life by the fierce flames they fought their way through. The Jefferson Hospital attended to 30 of the injured, but of this number only nine were seriously enough burned to be kept in the institution.

Lives Probably Lost.

It is reported that William L. Brooks, Vincencita Chitten, Sarah Goldman, Thomas Lorella and his wife Flora and Miss Conyers, all of the theatrical company playing at the Walnut-street Theatre, are missing.

CANADIAN FIRES.

Conflagrations in Various Ontario Towns and Cities Yesterday.

ROCKWOOD, Ont., April 28.—Between 8 and 9 o'clock yesterday a fire broke out in the residence of James W. Knowles, harness maker, completely destroying it.

A Petrolea Residence.

PETROLEA, Ont., April 28.—Fire last night destroyed A. Morrison's residence, Eureka-street. Loss about $1200.

Commercial Hotel, Listowel, Burned.

LISTOWEL, Ont., April 28.—Fire broke out about 3 p.m. in the Commercial Hotel yesterday and was totally destroyed. Insurance $2650, which will nearly cover the loss.

Saw Mill Burned

HOLLEN, Ont., April 28.—At Glen Allen, early this morning, Walter Cruckfall's sawmill was destroyed by fire, with a large quantity of lumber. The cause of the fire is not known. Loss about $5000; no insurance.

Mr. German's Case.

OTTAWA, April 28.—The Privileges and Elections Committee this morning considered the case of German, the unseated member for Welland. Col. Masson moved that the judges having given judgment unseating German on Dec. 12, and such judgment having never been the subject of appeal, German had not been the member for Welland since that date, and therefore had no right at any time during the present session to his seat in the House. This resolution seeming to indicate that the law is deficient, and that the same thing may occur again, an adjournment was made to enable the members to consider the situation. Another question which will arise is what steps should be taken to obtain the repayment of German's sessional allowance, which he drew to the day he left here.

Cast Her Vote at 89.

MILTON, Ont., April 28.—Mrs. Jane Clements, an old lady of 89 years, walked to the polling place on Monday and gave her maiden vote for the boots and shoes by-law. All honor to her.

ACROSS THE ATLANTIC.

FREE FIGHT AT A WOMAN'S SUFFRAGE MEETING.

Women Shriek and Men Riot—Finally a Resolution is Passed in Favor of Full Female Suffrage—Anarchy at Doings in Various Countries.

LONDON, April 28.—A meeting was held in St. James' Hall last evening in support of Sir Albert Rollit's Woman Suffrage Bill. Lady Florence Dixie, who was to have presided, was unable to be present, and a letter was read from her, in which she excused her absence on account of a severe attack of rheumatism.

The absence of Lady Dixie incensed the audience, many of whom had paid a crown apiece to hear her eloquence. Some of the fair speakers were greeted with sarcastic remarks and yells and retired, exclaiming: "What a disgusting exhibition!" "What horrid men!" "We would not have come if we had thought we would be so insulted!" etc. Barnard Shaw made personal attacks upon Herbert Burrows until the latter became mad and took the lead in storming the platform. The besiegers rushed up with a yell amid the shrieks of women and shouts from spectators anxious to join in the fray. Cunningham Grahame was in the thick of the conflict brandishing a stool. The reporters' tables and the platform rails were demolished and a free fight ensued, which after 20 minutes ended in a victory for the malcontents. They then placed their own leader in the chair and carried a resolution declaring that Rollit's measure is unworthy of support and that a full female franchise ought to be given.

Anarchist Notes.

Two Anarchists, Le Peyre and Francois, have been arrested in Paris. Francois is suspected of being concerned in the explosion at the cafe of M. Very.

The Belgian Government is drafting measures to suppress Anarchism. Stringent laws will be adopted regulating the use of dynamite.

An engine stoker found a parcel of dynamite cartridges in a shovelful of coal that was just about to be thrown on his engine in the railway station at Aisne, France.

Two girls, Socialists, were arrested at Rotterdam yesterday for distributing on the streets copies of a pamphlet containing insulting references to the Queen Regent and the young Queen Wilhemina.

Sparks From the Cable.

Edward Parker Deacon, who shot M. Abeille at Cannes, will be tried for manslaughter.

At a women's suffragists' meeting in St. James' Hall, London, last evening, a free fight ensued, and a motion was carried favoring full female franchise.

The City of Paris made the voyage from Queenstown in 5 days 21 hours and 24 minutes.

The British ship Thalphane, Captain Nelson from Newcastle, N.B., for Moolendo, is posted at Lloyd's as lost. She had a crew of 25 persons.

Rev. Mr. Martin Exonerated.

CHATHAM, Ont., April 28.—The commission appointed by the Bishop of Huron to examine into the circumstances in connection with the mysterious disappearance of Rev. H. N. Martin, the curate of Christ Church, have completed their labors, and it is understood the result is the complete vindication of the pastor.

Preferred Death to Vengeance.

MONTREAL, April 28.—Arthur Connolly, a man aged 40 years, belonging to Vaudreuil, has been taken to Notre Dame Hospital suffering from a wound inflicted in an attempt to commit suicide. It is said that he was implicated in the disappearance of a young girl from her home in Vaudreuil and endeavored in this way to avoid the vengeance of her brother. He will recover.

Tick-Tick at a Wedding.

NEW YORK, April 28. The usually solemn wedding ceremony was turned into a roaring farce yesterday at a mansion in Madison-avenue. Just as the minister was about to pronounce the benediction an alarm clock which the bride had in her pocket started to ring, causing consternation, which was only relieved by the timely aid of the best man, who consigned the unruly timepiece to the street.

Parkhurst Frogs Now the Rage.

NEW YORK, April 28.—If Dr. Parkhurst has done no other good he has served the fakirs a good turn for to-day. They are selling Parkhurst frogs like hot cakes at 10 cents apiece. The new toy is a supposed representation of the game of leap-frog, in which it is said Rev. Parkhurst and the young ladies indulged at Miss Adams' seance.

Corner Stone of the Grant Statue.

NEW YORK, April 28.—The corner stone for the Grant monument was laid yesterday, at Riverside Park, in the presence of thousands of people. The President of the United States, members of the Cabinet, distinguished army officers and statesmen took part in the ceremonies. President Harrison laid the corner stone with a gold trowel. Dr. Chauncey M. Depew delivered the oration and Gen. Horace Porter, president of the Grant Monument Association, presided over the ceremonies.

Engagement Extraordinary.

NEW YORK, April 28.—It is stated this morning that Alfred Kane, the young millionaire, has become engaged to Miss Attalie Claire, formerly of Miss Lillian Russell's "La Cigale" Company, and that the marriage will take place in Paris in the autumn.

A Record Trout

GUELPH, April 28. Messrs. Roswell and James Goldie, jr., caught a speckled trout, weighing 5 3-4 pounds, and measuring 20 inches in length and 3 inches thick, in the dam at the head of their mill race yesterday. The mill was besieged to-day by people to look at the speckled beauty, and he is a beauty, speckled and spotted from the tip of his nose to the points of his fins on the tail.

C.P.R. Station Burglarized.

OTTAWA, April 28. — The office of the Aylmer station of the Canadian Pacific Railway was burglarized Tuesday or early yesterday and money and express parcels stolen to the value of about $250. When the clerk arrived at his office this morning he found the cash drawer broken open, the safe cracked and the express parcels rifled. Less than a year ago a similar robbery occurred in connection with this office.

THURSDAY, APRIL 28, 1892.

North Monaghan.

(*From Our Own Correspondent*).

The municipal council met at the house of the clerk, Jos. Forster, Esq., Reeve, in the chair, and all the members of the council were present. The meeting was held pursuant to public notice given, to decide upon what action would be the best to take in respect to the proposed survey of the road allowances on the park lots. There was a large attendance of ratepayers present, who expressed their views quite freely, after which it was decided by the majority of those present to have the survey made.

Mr. H. C. Stabler, on behalf of the syndicate who recently purchased park lots 16 and 17 in township lot 14, con. 11, addressed the council, asking them to accept the streets as laid out on the syndicate plan (of building lots) viz: McGill street, 60 feet wide, and Anson and Barret streets, 40 feet wide. On motion the Reeve and Clerk were authorized to sign the acceptance of said streets, if they found it legal to accept streets less than 66 feet wide.

Mr. John McClure asked the council to have a ditch made along the north side of the crossing west of his place. This was left for the reeve to see to and let the contract.

A letter was received from Mr. J. G. Macklin, Engineer, G.T.R., saying that they were unable at present to supply gravel by train for the roads along the line through the township.

Mr. J. H. Stephens also called the attention of the council to the drain and bridge at the east end of his lot. The reeve and councillor Johnston were appointed a committee to examine it and let a contract or make other arrangements as they may think best. Mr. D. Doig pointed out the necessity of expending a grant of money in cutting down the hill at the railway crossing north of his place. It was decided to have said hill cut down as soon as the survey was completed, so as to do the work in the proper place. A petition was presented, signed by James Wallis and five others asking to be detatched from school section No. 2 and attached to section No. 1. On motion the west half of lot No. 9, con. 13, was changed from section No. 2 to No. 1, and a by-law passed its several readings confirming the change. On motion the council decided to request the Lieut.-Governor of Ontario (as provided by Chap. 153, Sec. 38, R S. O.,) to appoint a provincial land surveyor to survey and establish all road allowances on or adjoining the park lots south of the Town of Peterborough, and the council would also recommend Mr. Fred W. Wilkins, Dominion and Provincial Land Surveyor, as a gentleman fully competent for the necessary work. An account from T. H. G. Deane for $3.70 for flour and potatoes ordered for Wm. Close was ordered to be paid, and also John McClure's, for digging ditch south of Eastland's, $7,00, when certified to. The council adjourned to meet on Monday, May 30th, at 1 o'clock, p.m., as a Court of Revision.

If the Price were Low?

Most men who do not own houses would become owners if they could do so at a moderate cost.

It is my business to build houses, the cost of which is within the reach of people in fair circumstances.

I have one house, well built, good location, Aylmer streets, between Townsend and Rink streets—$2,500. Look it up. Will have two on Dalhousie; work now going on.

WORKS: PT. SUNLIGHT, NEAR BIRKENHEAD — LEVER BROS., LIMITED, TORONTO

The Indians were the first sugar makers in America, and with their rude appliances were able to manufacture a kind of sweet stuff, though it could hardly be called sugar, as the boiling was done, before the advent of the white man, by putting the sap in vessels of birch bark and plunging red-hot stones into it. This must have been a slow, tedious and dirty process, however. The white man introduced better appliances, and the product was greatly improved. But the methods employed now are as far in advance of the old kettles and tapping gouge, with the long wooden spiles and sap troughs, as these appliances were in advance of the rude methods of the aborigines.

Instead of making a great unsightly gash in the tree with the axe and gouge as formerly, we now use a patent spile, to which is attached a hook to hold a bucket, as shown in Fig. 1. This requires a hole only nine-sixteenths of an inch in size. The rough bark is taken off before boring the hole, leaving about one-quarter of an inch of the inner bark for the shoulder of the spile to bed into. Then bore the hole with a little slant and about an inch into the tree, then drive in the spile, tapping it lightly with a hammer, and see that the shoulder is well bedded into the bark so there will be no leakage. Fig. 2 shows the spile in position, with the bucket attached. Every drop of sap is saved, there is no leakage as with the old system, and we get more sap by this process than by the old system with axe and gouge, and with far less injury to the trees, as those little holes very soon grow over. These spiles cost $1.50 per hundred, or in large quantities or when purchased along with the buckets, $1.25. The buckets hold about ten quarts and cost $12 per hundred. They fit inside each other when packed, and are easily moved about and handled. At the end of each season they are collected and thoroughly cleaned with boiling hot water, and allowed to stand in the sun an hour or two so that they will be thoroughly dry before being packed away.

For boiling the sap we use an evaporator, which, for a shorter name, we call the pan. It is made of galvanized iron, is twenty-two inches wide, four inches deep and fourteen feet long. This will handle the sap from 500 or 600 trees. For a larger number it would require to be larger, no wider, but a little longer. A neighbor of mine has one twenty-two feet long. It boils the sap from 900 trees. There is a frame of wood attached to the pan, which is made of 2x4 stuff dressed. The edges of the pan should lap on to the wood about one and a half inches, and be nailed on with clout nails. These should be put in pretty close together all around the edge, and care taken to make the iron fit tightly on the wood, as when boiling the sap will foam up as high as the iron, and if any openings are left between the iron and wood leakage would occur. The pan has a number of partitions reaching nearly across, alternately leaving a couple of inches for the passage of sap from one apartment into the other; this gives it a zigzag course, in passing over which it is evaporated and converted into syrup. The partitions in the pan are made with a flange which is soldered to the bottom, and also secured by rivets which are put through the bottom and soldered over. Fig. 3 gives a surface view, showing the partitions and the course of sap.

The furnace may be made of common field stone, with a few bricks to straighten the top where the pan sits and about the door. It should be built to extend past the end of the pan, as shown in the cut. The top edges should be twenty-one inches apart; this will give the pan a half-inch lap on each side, which is quite sufficient, the object being to expose as much as possible of the bottom to the heat. The pan should sit perfectly level on the furnace, and for rapid work the sap should be not more than an inch deep while boiling, though it will require close watching. A new beginner would do well to keep a little on the safe side and run it a

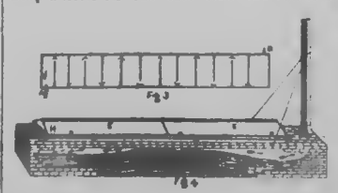

Fig. 3. A, Spout where sap enters; B, Spout for letting off syrup. Fig. 4. C C, Iron side and end of pan; D D D, Wooden frame attached to pan; E E, Wooden cover made in two sections; F, Furnace door; G G, Grates; H, Place where sap enters; I, Smokestack.

little deeper till he got used to it. The pan when set on the furnace should be plastered all round the edges with mortar to make the furnace perfectly tight, and preventing the fire from reaching the wooden frame. The furnace should be so constructed that from a little back of the grates the bottom gradually rises till about half way back it comes to within seven inches of the bottom of pan. Near the back end it is again depressed gradually, till at the end where it reaches the smoke stack it is fully twelve inches deep. This is to secure a good draft, without which it is impossible to do rapid work.

The smoke stack should be not less than twelve inches in diameter, and not less than ten feet high. A longer pan would require a smoke stack a little larger and higher. In Fig. 4 the side of furnace is removed to show the grates and shape of bottom, the arrows showing the course of the fire. It will be seen that the greatest heat strikes the bottom where the cold sap enters, and then passes along towards the back end, for as the stuff gets thicker towards the back and it requires less heat to keep it boiling. The wooden cover E E, shown in Fig. 4, is made in two sections for convenience, as the back end often requires looking into, while the front section seldom requires to be raised. The object of this cover is to keep off the cold air and facilitate the boiling. A narrow opening is left along the top to let out the steam. The sloping sides of the cover should project slightly over the sides of the pan as considerable condensation takes place on the surface, and this being water it is thus carried over the sides instead of droping back into the pan, which if it did it would only have to be evaporated over again. The flow of sap is registered by a faucet in the storage trough. A strainer is placed across the trough near the end, so that nothing but the clear sap reaches the faucet. There is then nothing to obstruct the free flow of sap, and no danger of the faucet getting clogged and thus burning the pan. The syrup in the back end must not be allowed to get too thick before drawing it off, as being so shallow on the bottom and the heat intense there is danger of it running to sugar and burning on the bottom unless very closely watched. The syrup is drawn off when rich enough to string a little, or what we call "to rag on the dipper" when held up to the cold air. It is then strained and allowed to settle for an hour or two. It is then poured into a clean, well-scoured kettle, which is swung on a crane over a small fire. A small quantity of sweet milk is put into it and well stirred. This causes a scum to rise which must be all carefully removed before boiling. A few minutes suffice to finish it into first-class syrup. You then have an article that is not equalled in the whole line of saccharine products. In making sugar it is boiled till the liquid will harden and crack when spread on snow. There are several other tests, but this one will be found reliable. To make the best sugar care must be taken to remove it from the fire just at the right time. I will now conclude with a few pointers.

First as to the cost. The buckets and spiles can be bought together for $13.25 per hundred. The evaporating pan such as I have described, fourteen feet long by twenty-two inches wide, with a capacity of twenty-five or thirty pails an hour, will cost, complete with cover, about $14. Any handy man can build the furnace, and a piece of old smoke stack can be got cheaply at any foundry. The trees should not be bored in tapping more than an inch and a quarter in depth. The deeper the tap the darker the color of the product, and vice versa. The sap should not be allowed to stand long in the buckets or store trough. The quicker it is transformed into syrup the better. It must be gathered and boiled as fast as it runs.

Any farmer who has a few acres of maple should have one of these outfits. With care the utensils will last twenty years, and the work is done at a time when other work is not pressing, and the product obtained is a wholesome luxury well worth the time and trouble of making.—G. C. Caston, in Farmer's Advocate.

Pale or sallow girls should use Dr. Williams' Pink Pills. They bring a rosy redness to the cheeks. Miss Jennie Bess, New Boyne, says:—I had been sick for two years and had lost my strength, was continually troubled with sick headache, and palpitation of the heart, unable to get rest at night; got no relief until I began the use of Dr Williams' Pink Pills, and after two or three boxes I feel a new girl. All dealers, or by mail on receipt of price—50 cents a box or six boxes for $2.50. Address Dr Williams' Med. Co., Brockville, Ont., or Morristown, N.Y. dw

Blood Will Tell

Good blood will show its quality. So will bad blood, the one in a healthy body and ruddy complexion, the other in ill health, blotches, pimples, boils and sores, and frequently in internal forms as ulcers, abscesses or symptoms of various diseases, salt rheum, etc. Every organ of the body depends upon the blood for food and vitality, and is but scantily served when the blood is impure. No remedy is so powerful as a blood purifier or more rapidly puts to new and healthy blood than Burdock Blood Bitters, which neutralizes the vicious elements and restores the vitalizing properties that all important fluid. As an instance of this read what Mr J S. Neff, of Algoma Mill, Ont., says in a recent letter:

SIRS,—A year ago I was troubled with a bad boil, and over my body, the effect of bad blood. I consulted three different doctors, who gave me medicine but did not cure me. I was advised to try B.B.B. and after using a few bottles I noticed the spots getting small. I continued to use B.B.B. which entirely cured me, giving me a splendid appetite. Since then I would not be without other medicine.

Unsightly pimples on the face, tan, and all discolorations are removed by using Dr. Low's Sulphur Soap. dw

Our National Game.

Lacrosse is likely to have a big boom this year, and the boys are busy making active preparations for a lively season. In order to give an extra spurt to the game in town, the popular clothing firm of H. LeBrun & Co. will give away free a dandy lacrosse stick and ball to every boy buying a suit of clothing at the City Clothing Store. This will no doubt prove a very tempting inducement to the boys—more especially as Messrs. LeBrun & Co. are so well known to excel in boys' suits, which are always good value at the prices offered, without the present of the lacrosse outfit. It is quite evident that Mr. Harry LeBrun, the senior member of the firm, still retains his old time enthusiasm for our national game, which led to his being chosen President of the Dominion Lacrosse Association. d98w17tf

High Court of Justice.

The Jury Fail to Agree in the Smylie Perjury Case—His Lordship Awards Judgment in the Richardson-Lipsett Case—Matthew Wynn Arraigned for Stabbing Walter Kerr.

The charge of perjury against Edward Smylie, of Dummer, which was taken up at the assizes yesterday afternoon was concluded last night. The charge arises out of the Crowe-Hunter seduction case heard at the last assizes, in which Taylor Crowe was sued for damages for the alleged seduction of Catharine Hunter. Smylie who was one of which the witnesses in the case swore to facts Mrs. Hunter, the mother, Robert, the brother, and Mrs. Tighe, who was visiting at the house, denied at the present trial. After the counsel had addressed the jury and His Lordship delivered his charge, which was rather in the prisoner's favour, the jury retired at three o'clock. After an absence of three hours they filed in the court room again and stated they could not agree. They were then dismissed by His Lordship and the prisoner was allowed to go on his own recognizance to appear when called upon. Hugh O'Leary, Q.C., for the Crown, W. A. Stratton, LL B, for the defendant.

RICHARDSON VS. LIPSETT was then taken up. In this case Mrs. Lillie Richardson of Toronto, makes claim against Geo. Lipsett of Ashburnham, who was executor to the estate of Mrs. Jane Palmer, an aunt of the plaintiff. The plaintiff claims $1,000 damages for wrongfully detaining goods and the wrongful conversion of chattels both of which were the property of the plaintiff, and for the delivery to the plaintiff of the said goods and chattels, and for board furnished Mrs. Palmer. J. G. Holmes, of Toronto, for the plaintiff; R. C Cinte, Q.C., Bellaville, and E. A. Peck, for the defendant. As the counsel could advance no good reason why a jury should be called in this case, it was tried before His Lordship. Judgment was awarded the plaintiff for $117 59 for goods and chattels. The claim for board was thrown out. Plaintiff was awarded costs of the county court, without a set off, defendant to pay costs as to the issue of board.

QUEEN'S VS. MATTHEW WYNN was then taken up at twelve o'clock this morning and is still in progress as we go to press. The charge is that of stabbing Walter Kerr in the Balmoral Hotel yard, on the 15th of September last. The particulars of the affair as they were ventilated in the police court, are still fresh in the minds of our readers.

The Annual Roll Call.

Pleasant and Profitable Reunion of the Baptist Church Congregation.

Last night the annual roll call of the congregation of the Murray Street Baptist church was made at the church. From 5 to 7 p.m. a substantial tea, elegantly served by Mr. Harry Long, was partaken of by the members present, after which, the pastor, Rev. J. E Trotter, officiating, the roll was called, and out of about 220 on the roll of the church, 150 responded. Since the last previous roll call death has claimed six members of the congregation, namely—Mrs. Gilmour, Mrs. William Yelland, Mrs. Medcalf, Mr. John Walton, Mr. William Nicholls and Miss Lizzie Hutchinson. The ceremony of the roll call was accompanied by the usual devotional services, interspersed with the singing of appropriate hymns.

St. Luke's Departing and Coming Rector.

Rev. J. W. McCleary's incumbency of the rectorship of St. Luke's expires on April 30th. He leaves with his family on Tuesday next, for Ironwood, Michigan, a city of 15 000, to assume the duties of rector of the Episcopal church in that place, to which a comfortable rectory is attached, and what is no less acceptable, a comfortable stipend also. Rev. Mr. McCleary leaves very many warm friends behind him, including the whole of the congregation of St. Luke's and the citizens of other denominations in the parish where he spent three years. He leaves behind him also abundant evidences of faithful work in his ministerial capacity. Rev. Mr. Symonds, the new rector will arrive on Saturday to take charge of the parish.

Hood's Sarsaparilla

All who know Mr. W. D. Wentz give him the best of recommendations for honesty and integrity. For many years he has worked for Mr. D. P. Wilson, the harness maker and member of the Geneva Board of Health. He says:

"I was taken sick last October with gastric fever and my chance for recovery was considered almost hopeless. After 7 weeks the fever slowly left me, but I could not eat the simplest food without terrible distress. It seemed that I had recovered from the fever to

Die of Starvation

I took pepsin compounds, bismuth, charcoal, cod liver oil and malt until my physician confessed that his skill was about exhausted and he did not know what else to try. Everything I took seemed like pouring melted lead into my stomach. I happened to think I had part of a bottle of Hood's Sarsaparilla that had been in the house for two or three years, that I found had benefited me previously for dyspepsia. I began taking it and soon began to feel better. I have now taken a little over two bottles and can truthfully say I feel well again and can eat anything without distressing me, even to

which I have been unable to touch for years. The English language does not contain words enough to permit me to express the praise I would like to give to Hood's Sarsaparilla." W. D. WENTZ, 184 Castle St., Geneva, N. Y.

GEORGE STREET.

An Aged Writer.

Mrs. Traill Tells the Story of Her Notable Life—How She Came to Canada When the Country was Young—Though She Has Passed Four Score She Still Retains Her Mental Powers and is Writing Still.

(Toronto News)

Mrs. Traill, the celebrated Canadian authoress of early times, who wrote "The Backwoods of Canada," "The Canadian Crusoe," "Studies of Plant Life by Forest, Lake and Stream," "Afar in the Forest," and numerous juvenile books, was in Toronto this week visiting her niece, Mrs. Vickers, of Adelaide street west. Though in her ninety third year, Mrs. Traill is more active than the ordinary woman of sixty, and during her stay she went down frequently to Yonge street shopping. Her intellect is undimmed; in conversation she is as entertaining as her books, and, everything considered, is a remarkable woman. She lives at the old family residence "Westove,"

ON THE BANKS OF THE OTONABEE RIVER,

near Lakefield, a village nine miles north of Peterborough in the lake country. This is her first visit to Toronto for some years, and her callers were so numerous that she had almost to hold a levee every afternoon.

The name of Mrs. Trail was familiar in Canadian households when the middle-aged men and women of the present lingered over school day studies. Long before that even, away back in the thirties and forties, her fascinating accounts of life in the Canadian backwoods aroused the interest of the reading world. Her descriptions were simple but full of enchantment. The commonplace events of life in the forest, the clearings, or on the stream in the birch-bark canoe, as told in her charming way, developed an interest which was irresistible. These pictures of pioneer days showed life as it really existed, and in this fact lay much of her power. Her books were widely read, and one, "The Backwoods of Canada," published in 1836, went through many finely illustrated editions in England. It is out of print long since and copies are scarce. When one does turn up at the second-hand bookstores on Yonge street it commands a good figure.

Many of her publications were for the young, and in this branch of writing she also excelled. Her child stories were simple as one of Hans Christian Andersen's fairy tales but full of interest. The romantic region of water, wood and rock above Peterborough, where she has lived for nearly sixty years, was one of her studies, and this accounts for the pretty pen pictures of rugged wild nature to be found throughout all her works, and which give them an increased interest. She saw that region in its primeval wildness, and still lives to see it to-day under changed conditions, a fact in which

SHE TAKES GREAT PRIDE,

having always taken a deep interest in the progress of the country.

Mrs. Traill is an entertaining companion, and the versatility of genius is apparent in her sentences, which come like the easy flow of her prose.

"I stand alone," she said yesterday, "for every other member of our family is gone. I was born in 1799 on the banks of the Thames, near London. When only three months old my father, Thomas Strickland, removed to 'Heydon hall,' Suffolk, which became the family seat. I and my sister Susannah, afterwards Mrs. Moodie, married two officers of the Royal Scotch Fusiliers, and came to Canada in 1832 and settled in what is now Peterborough County. I have never been back to England since. My husband built the second log house in the township. Mrs. Moodie and her husband settled on the other side of the river, and we could only visit each other by paddling across in a birch bark canoe, at which we soon became expert.

"Mrs. Moodie, as you know, wrote a book called 'Roughing it in the Bush,' which enjoyed a good sale in its time, but it was not written until five or six years after my 'Backwoods of Canada' appeared. Many editions of it were said, as it was the first book on domestic life in Canada that appeared. I was very much disappointed in one respect. The illustrations for the first edition were designed in London, but were not at all representative of Canadian life. Another book I wrote was 'The Female Emigrant.'

"No, these were not my earliest books. At sixteen, when at Heyden hall, I wrote a book which I did not publish. I had another juvenile work ready in 1818 called 'Tell Tale,'

AND ARCHIVAD TEN GUINEAS

from the London publisher to whom I sent it. You may imagine how elated and astonished I was when paid for that work. To a girl in these days ten guineas was a lot of money. Then I brought out 'Nursery Fables,' and 'Little Downey; or the History of a Field Mouse.' Up to this time my name did not appear as as the author. My good sisters were rather high and mighty, and did not take to the idea of the family name being connected with juvenile books. However, these publications were popular in their time. Even yet I sometimes meet old people who say these stories were the joy of their childhood.

"My sisters, Elizabeth and Agnes, afterwards took to writing themselves, and produced a standard work 'The Queens of England,' which is still published and is becoming popular of late in America. These two sisters never left England.

"Then to return to Canada, I wrote 'The Canadian Crusoe,' but in an evil hour sold the copyright, and the publisher changed the title to 'Lost in the Backwoods.' These were busy days clearing up the farm, but I also found time to write. 'Afar in the Forest,' which is now called 'In the Forest.' I was nearly forgetting to mention the 'Sketch Book of an Old Naturalist.'"

"Have you ceased all literary work?" was asked Mrs. Traill.

"Oh, no," she replied, brightening up and becoming enthusiastic. "I have 'The Children of Lonely Lake,' in preparation. I have also

CHRONICLES OF OUR FAMILY

partially prepared, besides other unpublished manuscripts."

An hour's conversation did not weary the aged authoress in the least, and the talk drifted to early times in Peterborough County, where the pioneers, as in all new countries, had struggles and privations. Lakefield, her village, is now a flourishing place and the traffic past it to the little chain of lakes in the northern part of the county is increasing every summer. "Westove" is named after Mrs. Traill's husband's native place in the Orkney Islands. Major Strickland, once a well-known man in Eastern Ontario and the author of "Twenty-seven Years in Canada West," was a brother of Mrs. Traill. Mrs. Vickers, her niece, is a daughter of Mrs. Moodie, and altogether the family is noted for literary people.

Mrs. Traill still writes a fairly steady hand, can make a joke with the vigour of a woman half her great age.

In the reading books used in the public schools twelve to twenty years ago were extracts from her books descriptive of Canadian life in the woods and animal life which familiarized her name in the schools in those days.

Criminal Carelessness.

Families Suffer From Bereavement.

What a vast amount of sickness and disease in our Canadian homes! Men, women and children dying every day through carelessness and improper treatment! Families are mourning the loss of loved ones who have been consigned to the grave through want of thought and common-sense treatment.

Kidney and liver troubles, impure blood, sluggish circulation, dyspepsia, nervousness, heart troubles and rheumatism, are taking off our people at an alarming rate. Our people place too much reliance on the common advertised remedies of the day, which only fan the fire of disease into an unquenchable flame. No wonder that honest doctors are sometimes disgusted with popular ignorance.

The tendency is for people to rush after anything new that is advertised. Pills, powders and fluids are swallowed in abundance in the hope that sickness will be banished. Reader, the hope is vain, your work is foolish, you are but shortening your life.

If you are honestly desiring a new life and freedom from your present troubles, medical experts and testimony clearly indicate the common-sense plan, and point unmistakably to the great and honest remedy. This God-given agent is Paine's Celery Compound, the people's unfailing life renewer. Thousands of our people who were once slaves to suffering and disease stand ready to speak in its favor.

Paine's Celery Compound is the strong tower of defence for Canadians when troubles assail and dangers threaten. It never fails in its glorious work; it cures, recuperates and strengthens the man or woman who longs or pines for freedom from disease. It is worthy of a trial, sufferer; it will do all it promises.

The Head Surgeon

Of the Lubon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequences. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to man. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flashes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. Lubon, 24 Macdonell ave., Toronto, Canada.

The Synod of Toronto and Kingston.

Peterborough to be Converted to Presbyterianism the Second Week in May—Meeting of the Synod of Toronto and Kingston.

Ten years ago, come the first week in May, the Synod of Toronto and Kingston of the Presbyterian church, held its sederunts in Peterborough. On Monday, May 9th, the Synod will be with us again.

The Synod of Toronto and Kingston is the most important in the Dominion. It includes the two great denominational colleges Queen's, in Kingston, and Knox, in Toronto. The Synod embraces about 300 ministers and an equal number of elders eligible to attend the coming meeting of the Synod in Peterborough, but it is is not probable that more than half the above number will be in actual attendance. The business meeting of the Synod will be preceded by a Synod conference, which begins on Monday evening, May 9th, followed by the opening sederunt of the Synod on Tuesday evening, May 10th, at 7.30. The following is the programme of the Synod conference:—

MONDAY EVENING, MAY 9th.

Rev. R. N. Grant, presiding.
7.30—Devotional Exercises.
8.00—Address on "The Nature of Sin," by Rev. W. McLaren, D.D., Knox College.
8.25—Discussion.
9.00—Address on "The Consequences of Sin," by the Rev. B. C. Jones, M.A., Port Hope.
9.25—Discussion.

TUESDAY FORENOON, MAY 10th.

Rev. E. F. Torrance, M.A., presiding.
9.30—Devotional Exercises.
10.00—Address on "Present-day Manifestation of Sin in the World," by the Rev. Alex. McGillivray, Toronto.
10.25—Discussion.
11.00—Address on "Present-day Manifestation of Sin in the Church," by the Rev. R. D. Fraser, M.A., Bowmanville.
11.25—Discussion.

TUESDAY AFTERNOON, MAY 10th.

Rev. R. P. MacKay, B.A., Toronto.
2.30—Devotional Exercises.
3.00—Address on "The Importance of a High Spiritual Life on the part of Christian Workers," by the Rev. John Somerville, M.A., Owen Sound.
3.25—Discussion.
4.00—Address on "The Attainments in Holiness Possible in this Life," by the Rev. Samuel Houston, M.A., Kingston.
4.25—Discussion.

The object of the Conference is practical, not simply theoretical. The length of the opening addresses is at the discretion of the speakers, but not to exceed twenty-five minutes.

The Synod held its meetings in Lindsay last year, in Orillia in 1890, and in Bowmanville in 1889. The sittings of the Synod will possibly last till Friday.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,088 in amount. Of these, 186 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,583, upon 2,871 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,-191.06.

At 31st December last there were in force $56,218,318.03 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,-124 87, having being increased during the year by $1,041.684 78.

The death claims for the year were upon 192 lives under 243 policies for $511,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized.

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M. G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq, New York State.

(Signed), A. G. RAMSAY, President,
R. HILLS, Secretary.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting. I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,-255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which; however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the companys assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,384.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 32 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperty as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen.—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have beep applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of careful management in the interest of the company. I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest. I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Farrie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

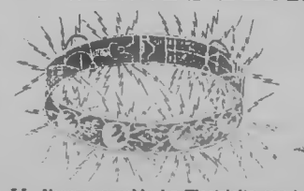
FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT OF QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not claim this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

"German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.

Amusing Breach of Promise Case.

LIVERPOOL, April 27.—At the Liverpool Assizes yesterday Mrs. Hannah Clough, a widow of 64, sued Samuel Southern, a farmer, aged 60, for breach of promise.

The plaintiff, a homely and matronly old lady, stated that she was 64, too old to be made a fool of, and that she had been a widow 26 years when she met defendant, and he proposed marriage but subsequently wedded another widow.

Three other widows, neighbors of plaintiff, testified to their knowledge of the promise of marriage.

Samuel Southern, the defendant, who is known in his own district as "Sir William," in allusion to his likeness to Sir W. Harcourt, laughed immediately in the witness box and treated the whole affair as a huge joke.

His Lordship, summing up, asked the jury why this respectable old lady should be made the subject of the defendant's jokes? Why should he make these promises and break them in such a contemptuous, insolent way, and then come into the witness box and stand there shaking and giggling with stupid laughter about nothing, simply because he does an injury to an old lady which he thought was a good joke for himself and everybody else? The defendant had had his laugh and it was for the jury to tell him what that laugh was worth.

The jury found a verdict for the plaintiff with £50 damages.

Canadian Actor Dead.

NEW YORK, April 27.—Harry B. Hudson, at one time a well-known actor, died at his home in this city, No. 759 Greenwich-street, of Bright's disease. The deceased was born in Montreal, Canada, 53 years ago, and his first stage work was with an amateur association in Ottawa. He had been before the public for over 25 years, 5 years of which time he traveled with the late J. K. Emmet's company. His last engagement was with the "Money Mad" company.

Obituary Notes.

Sir James Joseph Allport, chairman of the Midland Railway Company, is dead, aged 81.

Thomas Turnbull, an English shipowner, died at his home in Whitby yesterday. He built over a hundred iron steamers.

Gen. Charles Ferdinand Latrille, Count de Lorencez, died yesterday in Paris. He was born May 23, 1814. He was graduated from the military school of St. Cyr, and during the Crimean War was promoted to be a general of brigade for his brilliant conduct during the first attack on Malakoff.

NIAGARA FALLS, N.Y., April 27.—Plimner Larver, a negro, annoyed at the crying of the 3-year-old child of Henrietta Marshall, a colored woman, who lived with him, kicked the babe to death, the print of his boot heel being found on the child's forehead. Larver is in jail.

William Astor Dead.

NEW YORK, April 27.—William Astor, grandson of the original John Jacob Astor, is dead of heart failure, caused by the domestic troubles of his daughter, Mrs. Coleman Drayton, who was accused of an intrigue with young Borrowe. He was worth from $50,000,000 to $60,000,000.

Death by Poisoning.

OTTAWA, April 27. The wife of Mr. Michael Kavanagh, merchant, died last night under very sad circumstances. On Sunday being unwell she took a dose of carbolic acid instead of medicine. The poison proved fatal to-day.

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.
W. H. COMSTOCK, Brockville, Ont.
DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. P. ATWELL.

TIMELY INFORMATION FOR CANADIAN AGRICULTURISTS.

The Potato Crop—How to Plant Potatoes to Secure the Best Results—The Method of Cutting, the Place and the Width—Canadian Apples.

The old way of cutting a potato lengthwise into two pieces, and planting both in one hill, with care to put the cut sides down, costs too much and gives too many stalks to a hill. It is a question whether cutting to one eye or two eyes on a piece is best. It depends somewhat on the variety. I cut mostly to one-eye pieces, where the vines are very rank growers, but in case of rather shy growers two eyes are better. If the potatoes are quite small the pieces should not be cut so small as one or two eyes would make them. The liability to dry up before making a start is too great. To cut the tuber to the best advantage begin at the stem and cut the pieces off, turning the potato 'round in your hand each time you cut. This will dispose of the whole tuber with little or no waste. A very thin short-bladed shoe knife is as good as any. One man will cut enough for an acre in a day.

The place to plant deserves great attention. If it is to be manured I should prefer it to be applied after harvest, allowing the grass to get the full benefit, and giving a strong sod to turn under. With manure, applied in the spring and worked into the soil, the potatoes are almost sure to be scabby and rough, and for that reason, unsalable. Potatoes like a deep soil, and it is well to plow deeply if your land will permit, and thoroughly work up the ground. I plow a furrow as deep as possible; the loose ground falling in behind the plow prevents any danger of too deep planting.

About 32 in. is a good width for the rows. The pieces should be dropped as straightly as possible to facilitate cultivating. For ordinary kinds 9 in. apart gives good results. For two-eye pieces a little more room is desirable, as you are likely to have two stalks, and no plant will do well unless it has its fair share of sunshine. The furrows should not be plowed all at once unless you can plant the field within a few hours. Even then it is well to plow only as many furrows as can be planted in an hour. The loss of moisture in the furrow will delay the crop just in proportion to the amount lost. I once damaged a crop by letting the furrows lie open in the sun a day or two before planting, so that I did not get half so many bushels from these rows as from others that were planted and covered at once. A dry time caused the pieces to almost dry, and the vines are always sickly.

A good way to apply fertilizer is to scatter it, after planting the pieces, along the sides of the furrow. Covering mixes it. A good way to cover is to put the hoes on your steel horse hoe. Have them turned in and the other teeth off. Let the horse walk on the pieces in the row; he will do no damage. It does the work nicely and quickly. Reversing the hoes and taking the ground from the rows helps digging, where the old way of ridging is practiced.—J. H. Shibitus, in Farm and Home.

The Cost of Raising Wheat.

The soil of the Red River valley is a black alluvial earth. The land is nearly level and no manure is used or needed. On an average farm of 320 acres the cost of raising wheat is $7 per acre, on a smaller one of 160 acres about $8. On a large farm of 500 or 1,000 acres about $6. The cost is figured as follows, for one acre: 1¼ bushels of seed wheat $1, dragging and sowing $1, harvesting $1.50, threshing $2, making a total of $7. On my farm of 800 acres the cost is less, as in the season of 1890 I had about 400 acres of wheat and 100 acres of oats, and my actual expenses were about $2,500 for the season. I raised over 7,000 bushels of wheat, which brought from 80 to 90c. per bushel here, besides plenty of feed and seed oats. Last season's expenses were considerably heavier, but the crop was also large and the price about the same. For a 320-acre farm it takes eight good horses, one four-horse drill, two self-binders and two gang plows. The average yield for the Red River valley is about 21 bushels per acre, and at 75c. per bushel is about $15. This, less the cost of raising, $7, makes the average profits for 10 years $8 per acre.—T. D. Green.

Canadian Apples.

"With regard to spraying, it may not be amiss to draw attention to the false statements of the English press that our apples are poisoned from absorbing arsenic. The statement is absurd. The physiology of the plant renders such a thing impossible. The same thing used to be said of potatoes, though before the fruit of the potato could be injured, the poison had to go through the leaves. This was long since proven to be absurd. It is the same with the pistil of the apple. It cannot absorb arsenic or any other poison. It is very important for us to be always on our guard in this matter. The same charges were made some time ago and refuted. They ceased for a time but have now been re-commenced. The object of the cry is simply to get a little cheap advertisement out of the cry of "Poison in American Apples" because we are spraying with Paris green. If we could only get our farmers to spray more we would have better fruit crops."—From evidence of Prof. Fletcher, of the Dominion Experimental Farm, before the Committee of the Legislative Assembly.

The Colt's Feet.

Hard, dry floors do much damage to the feet of colts and young horses. In a season following a general shortage of fodder every available straw stack will be used for feed. This will result in bare floors, especially under the fore feet of colts. Even in moderately close confinement, the colt's feet will not have opportunity to wear off as fast as they grow. Unless they are pared or rasped many colts will fail of reaching perfection. Plenty of room, bedding and exercise are essential in the life of the colt.

A Good Reason for Living.

"She lives to love and loves to live,
She loves to live because she lives to love."

Many think it is a sin to be sick; being so one cannot bestow their affections on others as the Creator intended; being so, it certainly is a duty to cure yourself. Most women, these days, need an invigorating tonic. Worn out teachers, "shop-girls," dressmakers, milliners, and those subject to tiresome labor, have found a boon in Dr. Pierce's Favorite Prescription. It is a soothing and strengthening nervine, inducing refreshing sleep, relieves despondency and restores to full use all the appetites and affections of one's nature. It is sold, by druggists, under a *guarantee* from its makers that it will, in every case, give satisfaction, or price ($1.00) will be promptly refunded.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

BREACH OF PROMISE

Miss Williams of Guelph Wants Ten Thousand Dollars.

OTTAWA, April 28.—Miss Williams of Guelph, Ont., has instituted legal proceedings against C. F. Whittey, of the staff of the Government Experimental Farm, Ottawa, for alleged breach of promise of marriage, claiming damages to the extent of $10,000. The lady states that arrangements had been made for the marriage to take place in June next, but it transpired that meanwhile Mr. Whittey suddenly became enamored with one of the Capital's fair daughters, and on March 24 last carried her captive to the shrine of Hymen. Messrs. Field & Wissler of Guelph are counsel for Miss Williams.

She's a Pretty Widow

HAMILTON, April 26.—An affidavit of parentage has been filed in the city clerk's office alleging that Alexander Anderson, builder, 27 Bay-street north, is the father of a child born to Mrs. Lizzie McKenzie, a good-looking young widow about 25 years of age, residing with her parents at 7 Harriot-street. The young woman has consulted Nesbitt, Bicknell & Gould, who have notified Anderson that he is to be liable in damages for seduction and breach of promise.

Man and Wife in Law.

CHATHAM, Ont., April 28.—Jeremiah Stonefish and Martha Dolsen of Moravian-town were committed to jail some weeks ago by Squire Beatty of Highgate on a charge of cohabiting for the past 25 years. They were sentenced to fine and imprisonment. The sheriff has received an order from the Secretary of State to release both prisoners, the fine and imprisonment having been remitted by order in council.

For Threatening Balfour

HAMILTON, April 28.—A threatening case was heard before Police Magistrate Cahill in his private office yesterday. The complainant was Architect James Baltour, and J. McCready of Chicago was defendant. Mr. McCready is married to Mrs. Balfour's sister. He came here on Saturday or Monday last and raised a disturbance in Mr. Balfour's office and threatened to whip him. Mr. Baltour swore out a warrant, which was given to Detective Mackenzie, but as Defendant McCready did not walk into his arms it was not executed.

Accompanied by his lawyer, J. V. Teetzel, Q.C., Mr. McCready appeared before the magistrate. No evidence was taken, but on Mr. Balfour's statement that the defendant had threatened him he was bound over to keep the peace in $200 and two sureties in $100 each.

HAMILTON, April 28.—A writ for $10,000 damages for libel has been issued by Osler, Teetzel, Harrison & McBrayne against James Balfour, architect, on behalf of Mrs Rebecca McCready, wife of James McCready of Earlsville, Ill. The plaintiff is a sister of Mrs. Balfour, who is estranged from her husband. The alleged libel is contained in a letter written by Mr. Balfour in connection with the trouble between the defendant and his wife reflecting upon the character of Mrs. McCready. Mr. McCready arrived in the city yesterday.

It was stated to a reporter today that action will be taken on behalf of Mrs. Balfour at once.

Kidnapped.

ANDOVER, N.B., April 28.—Word has reached here that near the hour of midnight Thursday last three citizens of the United States drove to Tilley Settlement, Victoria County, seized a negro named Benjamin Robertson, who was suspected of having set fire to buildings in Aroostook county, Me., handcuffed him and carried him forcibly across the international boundary line into Maine. Afterwards he was sent to Houlton jail. It is said the kidnapping party had no papers, either American or Canadian, to warrant the arrest. Certainly no examination was had, and when one Canadian citizen asked the invaders for their authority they exhibited loaded revolvers and demanded to know if that was not sufficient.

Gives Up the Pulpit for Horses.

GRAND RAPIDS, Mich., April 28.—The Rev. J. W. Arney, pastor of the Methodist Church at Saranac, shocked his congregation yesterday by announcing his retirement from the pulpit.

He will devote his entire attention to breeding and training his horses, and will indulge in horse trots and matinees to his heart's content without fear of the Methodist conference. Twice he has been on the carpet before the conference for his horsey inclinations. In 1890 he was scored for officiating as master of ceremonies at a speeders matinee, and again last year he was rebuked. The fact that he conducted successful revivals and that his collections were far above the average did not extenuate his offense, but he was told that if he persisted in cultivating horses he must retire.

He owns six promising colts and gives occasional matinees to show their speed and help the sale of their horses. He will hold revivals in the winter, but they will not interfere with his horses. He gave a matinee last Saturday and has advertised another for next Saturday.

MURDER OF A PHYSICIAN.

Called to See a Patient at Night and Came Home Dying in His Gig.

WILMINGTON, Del., April 28.—Dr. John H. Hill, brother of Walter S. Hill, a commission merchant of New York city, was murdered in Kent county, Md., just across the Delaware line, last night by a gang of negro desperados.

Since the acquittal of a white man in Kent county, who was charged with murdering one of their race, the gang has been bent on murder. Dr. Hill was called to the bedside of Mrs. James Shaw, who lives near Massey's station, five miles from Millington, where the physician lived. He responded to the urgent summons at 10 o'clock on Saturday night, but did not reach his destination. He told his wife he would not be gone long, and she waited up for his return. At 1 o'clock she heard the noise of a dog cart as it rolled up the lane to her home. The vehicle stopped but her husband did not appear.

Becoming alarmed, Mrs. Hill went out to see if there was any trouble. Prone upon his face in the dog cart lay her husband. Calling to him he gave no answer. Her neighbor, J. P. Ahren, responded to her call for help, and they carried the unconscious man into his home. It was found that his throat was cut from ear to ear. His head was crushed and one foot was gone. Doctors were summoned, but Dr. Hill died at 3.45 o'clock yesterday afternoon without regaining consciousness.

A NAUGHTY GIRL.

She Loved a Married Man and Tried to Scare His Wife Away.

MALDEN, Mass., April 28.—Mrs. Annie Anderson for several weeks has received threatening anonymous letters, of which the following is a sample:

"Your days on earth are numbered. Prepare to meet your God. Your life is in danger and you are constantly watched by night and by day, and the end is near. Prepare yourself for eternity. You are soon to give your reckoning. It is said that if a person inveighs loudly and frequently against a certain crime she is ten to one herself addicted to it. You are bad and you judge others by yourself. Your days are numbered, prepare to meet your Maker."

The letters were all postmarked in Boston and were all in the same handwriting, although it was evident that an attempt was made to disguise it. Mrs. Anderson has a husband and two children. She is of a peaceable disposition and has no enemies that she knows of. She was badly frightened after receiving the third letter. Yesterday the police traced the letters to Miss Margaret Angel Beck, and she admitted writing them. It is alleged that she has fallen in love with Mrs. Anderson's husband, who boarded at her home during Mrs. Anderson's visit to St. Louis recently, and took this means of frightening his wife. Mrs. Anderson would not prosecute the girl and she was released.

QUEBEC LEGISLATURE.

The Speech From the Throne Short And to the Point

QUEBEC, April 28.—In his speech from the throne at the opening of the Assembly yesterday, Lieut.-Governor Angers said:

Your first duty will be to study with the greatest care the financial situation. I hope that you will unite your efforts with those of my Government to re-establish equilibrium between the receipts and expenditure, and restore the credit of the province, whilst complying with legitimate aspirations towards its advancement.

The public accounts for last year will be submitted to you. I regret to state that they show a large deficit. The estimates for the expenditure of next year have been prepared with a view to the strictest economy. My Government hope that when they will have had full opportunity to examine into the public service to still further diminish the expenses.

You will be called upon to legislate upon various important measures, amongst others upon the mines, the administration of public lands, and upon the dairy industry. You will also be called upon to study the question of the traffic of intoxicating liquors, so as to give the province as soon as possible the legislation which public opinion requires.

GRAFTON & CO.

Sell the best Clothing for the money that it is possible to buy in this town, or elsewhere.

It can't be termed simply cheap clothing and passed by with a sneer, though 'tis cheap by comparison in price with the same goods for sale elsewhere, for the Cloth is bought from the Best Makers, cut by the Best Talent procurable, and made up in the best manner.

Then the price is marked just a shade above the cost of manufacture, and away below the lowest price the same goods are selling for at any other store; hence our confidence that a dollar here goes as far as a half more elsewhere. Without a shadow of a doubt we give the most value for the least money.

Every Boy's Mother should see our Boys' Clothing. We believe we can interest the most critical people in Boys' Suits. Good Pocket Knife or Bat and Ball free with every Boys' Suit.

Men's Spring Overcoats. A very large variety. Prices ranging from $5.00 up. See them. Now is the time of the year to buy one.

DOMINION PARLIAMENT.

THE REDISTRIBUTION BILL PROMISED TO-DAY.

Another Division on a Want of Confidence Motion—The Senate Holds a Short Session—Two Divorces Granted—Gossip of the Capital.

OTTAWA, April 29.—On motion to go into committee of supply yesterday Mr. Laurier moved this amendment:

That it is a necessary constitutional rule on the subject of all communications between representatives of this Government and representatives of other governments upon matters of public concern that they should be committed to writing and laid before Parliament as soon as convenient, and any attempt on the part of the Ministers of the Crown to discuss such matters before laying them before Parliament is a dangerous infringement upon the rights of the people.

In support of his motion Mr. Laurier attacked the Government for withholding from the House information as to what negotiations took place in Washington on the question of reciprocity, and claimed that a written report of what occurred should have been submitted to the House.

Sir John Thompson said that all correspondence with reference to such parts of the negotiation as led to results were presented to the House, and it was not to be supposed that all the conversations on subjects which led to no results were to be reported. He reminded the leader of the Opposition that the Ministers appeared in Washington as representatives of Her Majesty and any report should therefore be first made to the Imperial Government.

The debate was participated in by Messrs. Mills, Davies, Cartwright and Charlton for the Opposition and Messrs. Weldon and Tupper for the Government.

Shortly after recess there was a division and the amendment was lost, 57 for, 98 against.

The House then went into committee of supply and is still sitting at midnight.

The Redistribution Bill.

The Redistribution Bill was not introduced yesterday, but is promised sure for to-day.

Chit-Chat of the Capital.

Col. Tisdale, M. P., introduced to Premier Abbott a deputation from Brantford consisting of W. F. Cockshutt, Rev. R. Ashton, Henry Lemmon, James Watt, R. E. McFadden and Captain T. Lloyd Jones. The deputation urged that a subsidy be granted to the Tilsonburg, Lake Erie & Pacific Railway from Tilsonburg to Port Burwell, which is practically an extension of the Brantford, Norfolk & Port Burwell Railway. The Premier made the usual promise that the matter should receive consideration.

The annual report of the Secretary of State was laid on the table yesterday. It contains the usual information about letters patent issued, etc.

Messrs. J. M MacDougall of Aylmer, John Bryson, Rev. Father Brunette, Mayor Brabagon, William Beckett and E. Reid of Portage Du Fort, Mayor Hart of Clarendon, Mayor McKechnie and Dr. Craig of Bristol waited on the Premier yesterday and asked for subsidy for the Portage Du Fort and Bristol Railway, a distance of 25 miles.

The Senate sat half an hour yesterday and passed the bills granting divorce to J. A. M. Aikens and Ada Donigan. The bill to incorporate the Buckingham and Lievre Railway Company was read the first time.

Clarke Wallace, M.P., introduced to the Premier and Minister of Public Works a deputation consisting of Sir Melville Parker, Bart., Captain Blakely, W. A. McCulla, ex-M.P. and Frank Turner, President Port Credit Harbor Company. The deputation wanted the harbor improved and were promised that the matter should receive consideration.

The Insurance Bill Thrown Out.

OTTAWA, April 29.—The Committee on Banking and Commerce was engaged yesterday in considering Mr. R. S. White's bill to amend the Insurance Act. The first provision to compel agents to take out a license, and the second to prohibit rebate on insurance, were thrown out, and there being general opposition to the bill it fell through.

Parliamentary Riflemen.

OTTAWA, April 29.—The Parliamentary Rifle Association was organized yesterday and the following officers elected: Hon. president, Hon. Mackenzie Bowell; president, Senator McInnes, British Columbia; vice-president, Lieut.-Col. Kaulbach, Nova Scotia; Lieut.-Col. Tyrwhitt, Ontario; Lieut.-Col. Desjardins, Quebec; Capt. Hazen, New Brunswick; Capt. McLean, Prince Edward Island; Capt. Watson, Manitoba; Capt. McDowall, Northwest Territory; Lieut.-Col. Prior, British Columbia; treasurer, Lieut.-Col. Amyot; secretary, Sam Hughes. The Executive Committee was: Senators Reid, Boulton, Prior, McKay, Snowball, Power and Dobson, and Messrs. Corby and Grandbois. Practice will be commenced on Friday morning next at the Rideau range.

Traded His Wife For Farm Implements.

JACKSON, Mich., April 29.—A remarkable transaction has come to light in Sage Township, northwest of this city, in another county. A farmer named Henry H. Hudson has disposed of his wife to a neighbor, Philip H. Chubb, the consideration being various farming implements and supplies. A document was drawn up setting forth the transaction. The exchange has just taken place, and Mrs. Hudson, who was, is now installed as mistress at the Chubb farm. The affair is causing no little amusement throughout the state. The document is given verbatim herewith. The spelling and wording are preserved throughout:

Agreement Betwixt P. H. Chubb of the first Part of henry M. hudson of the sexent Part he does agree to sell Alice Hudson, his Wife, to P. H. Chubb for these things what is named down below Marsh hay and buckwheat and potatoes, and one grain cradle one rake one plow and set of wifle trees and three derakes one grass sithe 1 barrell of salt 10 window sash one grine stone I have sold those things to henry M. hudson.

PHILIP H. CHUBB.
HENY HUDSON.

Germany Has Enough of Her Own.

BERLIN, April 29.—The German frontier is being strictly watched in order to prevent an influx of French Anarchists into Germany.

A MANITOBAN BLIZZARD

AT LEAST ONE PERSON PERISHES FROM EXPOSURE.

Found Dead a Few Rods From a Railway Station—Great Damage to Telegraph and Telephone Wires One of the Severest Storms of the Season.

WINNIPEG, April 29.—Wednesday's big wind and snowstorm here was general throughout the province and was in fact a genuine blizzard. The wind for some time attained a velocity of 70 miles an hour. Telegraph and telephone wires suffered considerably, and hundreds of men have been engaged all day repairing them. Damage to property as far as known was very slight.

At least one life was lost in the storm. Early yesterday after the storm had subsided the body of George E. Lundy, Lundyville, was discovered lying about 100 yards south of the railway station at Rearburn, not far from Winnipeg. Lundy went into Winnipeg yesterday morning and returned last evening on the train. After remaining in the waiting room for 10 or 15 minutes, he said he would go over to the hotel, about 800 yards from the station. This was the last seen of him. His tracks showed that he got into a pond of water soon after leaving the station, but when found was 70 yards from the water. Judging by his tracks and the distance traveled he must have perished early in the evening. He leaves a wife and large family. Deceased has relatives in Toronto Township, County of Peel.

SCRATCHED HIS FACE.

And Her Anthropophaginian Assailant Almost Bit Off Her Finger.

WIARTON, Ont., April 29.—While a girl named Morton was returning home last night through the bush near Golden Valley she was assaulted by a man named William Garret. A desperate struggle ensued, which lasted quite a while, when a wagon approaching the scoundrel made off. Garret's face is badly scratched and Miss Morton's finger is bitten. He was arrested to-day, brought to Wiarton and committed for trial.

A Tannery Burned.

SOUTHAMPTON, Ont., April 29.—The tannery of Bowman & Zinkan was destroyed by fire early yesterday morning. The firm had a very heavy finished stock. Loss about $25,000, insurance $8000. Cause unknown.

Disastrous Fire at Millbrook.

MILLBROOK, April 29.—At 5 o'clock last evening fire destroyed R. Powell's bakery, A. Payne's general store, A. Moffatt's butcher shop and Thomas Bryan's barber shop.

A Port Rowan Residence.

PORT ROWAN, Ont., April 29.—Yesterday afternoon fire broke out in the residence of Jerome B. Fick, completely destroying it.

The Victims Number Nine.

PHILADELPHIA, Pa., April 29.—The destruction of the Grand Central Theatre by fire Wednesday proves to have been far more terrible in its result than was at first believed, nine members of the "Devil's Auction" Company lie dead beneath the walls of the building.

Jews for the Northwest.

MONTREAL, April 29.—Another batch of 100 Jews, sent by the Baron De Hirsch Colonization Committee, left yesterday for the Northwest, and 300 more are selected to follow. These are all heads of families, which will follow when the land has been taken up. The land selected is at Oxbow, in the Souris coal district. Each family gets $500 from the committee, and $20,000 has been set aside for this purpose.

Big Sealskin Purchase.

VICTORIA, B.C., April 29.—C. D. Ladd of San Francisco yesterday purchased all the sealskins that were held back from the last sale by their owners, or 1600 skins. This brings the total amount purchased by him up to 3000. It represents the entire catch of the schooners up to date. He paid $12 all round for them. The skins are now being salted and put in barrels, preparing for their journey to London.

A Hamilton Actress Dying.

CINCINNATI, April 29.—Mrs. Stuart Robson (May Waldron), wife of the well-known comedian, who is playing an engagement at the Grand Opera House, is dying. She has been the wife of Mr. Robson but a few months. Mrs. Robson was born and brought up in Hamilton, Ont. Her father was Mr. William Dougherty.

A Verdict for $650.

CHATHAM, April 29.—At the assizes yesterday Margaret Laughton obtained a verdict for $650 against James Sullivan, formerly of Staples, a station on the M.C.R. in West Tilbury, for the seduction of her daughter. Plaintiff conducted a boarding house and Sullivan was one of the boarders.

Depot Burglars Arrested.

OTTAWA, April 29.—Constable Butler of Stittsville, yesterday arrested two men on a charge of burglary of the C.P.R. station house at Aylmer yesterday morning. The men gave their names as John Hall and John Harvey.

Raiding the Postoffices.

BARRIE, Ont., April 29.—During the past few days the postoffices at Hillsdale, New Lowell and Meaford have been burglarized, and letters, postage stamps and cash stolen.

Blew Open a Safe.

BRANTFORD, April 29.—The station at Harley was entered by burglars last night, the safe blown open and $18, all it contained, carried off.

The Whalen Witness Goes to Jail.

OTTAWA, April 29.—The man Lacroix, charged with indecently assaulting a 4-year-old girl in Lowertown on Sunday was sentenced to 12 months in the Central Prison yesterday.

Labelle's Trial.

OTTAWA, April 29.—The trial of young Labelle, charged with murdering his wife, will commence at assize court to-morrow, and is expected to last until Saturday evening.

A New Binder Twine Factory.

OTTAWA, April 29.—Mr. A. W. Ross M.P., states that as a result of the decision of Parliament, not to place binder twine on the free list a new cordage and twine factory, to employ 200 hands, will shortly be established at Winnipeg.

A DEAF MUTE'S DEATH.

His Body Found in a Mill Pond Near His House.

DUNDAS, Ont., April 29.—Hugh Fraser, aged 36, a deaf mute residing with his parents at Bullock's Corners, left his home Wednesday after bidding his relatives a last good-bye.

Yesterday his body was fished from the mill pond near the house, the missing man's hat, lying on the bank, having indicated to the searchers the spot to look for him.

DUNGANNON, Ont., April 29.—The body of William Leddy was, after search being made for his whereabouts, found suspended to a small tree in the bush on his own farm, and when found life was extinct.

It appears that he had been engaged putting in spring crop, of which he had done considerable work on the day above mentioned. His team having been noticed to remain for a length of time in the same place in the field led to a search being made for him, which resulted as already stated.

He had been laboring under a fit of despondency for some length of time owing to sickness in his family last winter and also financial difficulties.

CAYUGA, Ont., April 29.—Three trappers found the body of a man floating in the river opposite Mr. Evans' farm in South Cayuga. From a postal card found in the floater's pocket it was identified as that of Robert Tompkins, who disappeared about a month ago.

Tompkins was a corporal in No. 8 Company, 37th Battalion.

IT RELIEVED THE PAIN

But the Dose was Too Powerful and it Also Killed Him.

BELLEVILLE, April 29.—Ralph Murray of Rossmore died yesterday at the Kyle House in this city from an overdose of morphine taken to relieve the headache.

Murray, who was 62 years of age, had for several years managed the Rathbun Co.'s saw mill at Rossmore, which was shut down and discontinued last year.

LIQUOR CURES FATAL.

Minstrel Eddie Manning Gone—Two Suicides in Minneapolis.

COLUMBUS, O., April 29.—Edward Eagan, the well-known minstrel man, whose stage name was Eddie Manning, has died in Dr. Thomas' liquor cure establishment, where he came on Friday for treatment. He was head man with Haverly for 10 years and other minstrel companies.

MINNEAPOLIS, April 29.—J. R. Van Pelt, a patient in the Hughes Institute, a local concern for the cure of drunkenness, committed suicide Monday by cutting his throat. Yesterday William M. Garrison, traveling salesman for a Cincinnati paper firm, also a patient, put an end to his life by taking a dose of morphine. This is the third death in the institution.

Precautions Taken In Vienna.

VIENNA, April 29.—In order to prevent workingmen from stealing cartridges from the dynamite factories and selling them at a low price, the police have ordered that everybody using dynamite must have a certificate showing where it was bought. Failure to produce such a certificate will be visited by the severest penalties.

Anarchists Held For Trial.

LONDON, April 29.—Mowbray and Nicholl, the publisher and editor of the Anarchist newspaper, The Commonweal, were committed for trial at the Bow-street police court yesterday, on the charge of inciting to the murder of Home Secretary Matthews and Justice Hawkins.

SUIT OVER A PICTURE.

It Belongs to a High Order of Art, and is Not Indecent.

LONDON, April 29.—The Bow-street Police Court was filled with artists yesterday when the case of E. J. Cox against Mr. Rudolf Blind, the painter, was called.

The subject of the case was Mr Blind's last picture, "The World's Desire," which was seen, while on exhibition at 391 Strand, by Mr. Cox, and was complained of by him as indecent.

The picture was placed where the magistrate and the witnesses could see it.

It represents a beautiful young woman standing undraped, while she attracts to her worship the poet, the warrior, who is yielding his sword, and the octogenarian. In the foreground a dark-robed monk seeks to restrain with uplifted crucifix the insatiable youth who would rush forward toward the nude divinity.

Mr. Cox said he was a drygoods clerk out of employment and a Baptist church member. He frequented art exhibitions, but was not, in his own opinion, an experienced critic. He thought the picture immoral, and therefore, in the public interest, was instrumental in causing Mr. Blind's arrest.

Several eminent artists were of opinion that the picture was unexceptionable. If such a picture was considered indecent, half the pictures in the National Art Gallery would come under a similar ban.

The magistrate said that the picture undoubtedly belonged to a high order of art and that Mr. Blind had conceived it without any immoral intent whatever. He would therefore dismiss the complaint.

VIENNA, April 29.—During high mass in a church at Josephstadt yesterday the veil worn by one of the recently confirmed girls came in contact with a lighted taper and in an instant it was in a blaze. Some one cried, "Fire!" and a general panic ensued.

Several people were injured, some of them perhaps fatally.

LONDON, April 29.—In the House of Commons last evening Mr. Hunter moved the second reading of the bill providing that desertion or adultery on the part of either party to a marriage contract shall be grounds for a divorce.

Attorney General Webster opposed the bill, saying there were many practical reasons against extending the facilities for obtaining a divorce.

Mr. Kelly opposed the bill on the ground that in the United States, where he said divorce could be obtained in some parts a few dollars, the practice was viewed with horror by the better section of the American people, who felt that the laws of divorce in the United States was a curse. Mr. Kelly said he hoped that Great Britain would not follow America, but would hold the sanctity of marriage. Mr. Hunter's motion was rejected by a vote of 136 to 40.

Stanley to Return to Africa.

LONDON, April 29.—Henry Morton Stanley will, after resting from his trip to Australia, once more visit Africa. While there he would go in the service of the British Government he was reticent, but he understood that an important position was offered to him by King Leopold and that he is inclined to accept it.

History Repeats Itself.

The following is from the weekly Aberdeen, (Scotland) *Free Press*:

It is odd that history repeats itself even in very minor details. Every reader has heard of the "statute labour," by which the old "commutation roads," as they were called, were made and kept up in Aberdeenshire, every county resident being liable to give two or three days' work, or more, according to his stake in the county. A main reason for giving up statute labor and substituting a charge under the name of "road money" was that when a man was obliged to do his turn under "statue" he often "pichered" away in such a perfunctory fashion that a week of his "labour" would hardly have represented the honest work of a single day.

Well, now, here in Ontario, Canada, where north of Scotland people and their descendants abound, is the East Luther Council, at whose last meeting notice of motion was given "to the effect that in future the old method of performing statute labour will be done away with, and 60 cents per day accepted as an equivalent for a day's work. This will be levied on all the rateable property in the township." And it is added that "the manner in which statute labour is performed in many townships besides Luther is somewhat of a farce." Exactly what the Supply Commissioners of Aberdeenshire found just about a century ago.

Great Cycling Feats.

The *Mail* says:—A quartette of new centuries were reported to the *Mail* last night, two of these go to the credit of W. Thomas. The first of these he made on Monday, when left Toronto at 8 a.m. and wheeling east on the Kingston road arrived at Trenton at [illegible]. His elapsed time was ten hours, but he spent an hour at Newcastle for breakfast and half an hour at Port Hope for dinner, and made short stops in nearly every town. The second he made in returning yesterday, leaving Trenton at 7:30 a.m. after fighting a head wind and several stops, arrived in the city at [illegible]. The other two hundreds were made by J. P. Smith and D. Nasmith, who rode from Kingston to Cobourg against a strong head wind. The roads were good throughout. The order of the centuries will be:

—W. Thomas, Toronto to Trenton, 100 miles; April 25.

—W. Thomas; Trenton to Toronto, April 26.

—J. P. Smith; Kingston to Toronto, 178 miles; April 26.

—D. Nasmith; same as 31.

Mr. Thomas has many friends in Peterborough who will be pleased to learn of his success as recorded."

British and Colonial Trade.

Great Britain's trade with France and the United States is greater than with all her colonies put together. In 1890 the total trade of Great Britain with all the colonies, including India, amounted to £157,390,680, while that with France and the United States reached £158,638,805. Holland buys more British goods than Canada and Newfoundland put together. So does Belgium. Brazil buys nearly as much from Great Britain as Canada does. Nearly three-fourths of England's export and import trade is with foreign countries. The McKinley tariff has not injured British trade to any greater extent than the Canadian tariff has. And yet our Tory loyalists are so devoted to England, and have such a high opinion of British intelligence, that they ask the mother country to ruin three-fourths of her commerce for the sake of selfish colonists who impose exorbitant customs duties upon British goods for the profit of local combinesters.

A Thrifty Government.

Since Confederation the Dominion Government has heaped up a debt of $240,000,000, Quebec has become almost bankrupt, the Provinces down by the sea are continually demanding better terms. The Ontario Government in the same time has returned to the people three and a half millions in municipal loans, one and a quarter millions on drainage, thirty two millions on public buildings, colonisation roads, etc., and still the Province has on hand a neat surplus of five and a half millions. The cost of civil government in Quebec has increased 70 per cent., in the Dominion it is about the same, whereas in Ontario it has increased only 20 per cent. The cost of legislation in the Dominion has increased 33 per cent., in Quebec 20 per cent., in Ontario 1½ per cent.

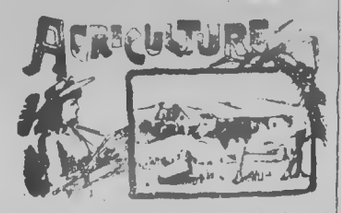
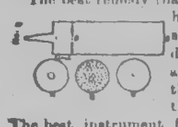
AGRICULTURE



A number of subscribers of the American Cultivator have asked how to kill lice on colts. There are several remedies that will accomplish this result. Washing in a decoction of quassia chips or tobacco will do it, but washing is a dangerous remedy in cold weather, and we would not recommend its use.

Insect powder, when fresh, that is, before it has lost its virtue, answers a very good purpose, and can be obtained at the druggists. It should be worked into the hair thoroughly. Yellow snuff is another remedy that is quite effective.

The best remedy that we have ever tried, however, is tobacco smoke. This is sure death to the vermin, and does not injure the animal, even in the coldest weather.



The best instrument for applying this is a Russian iron tube with a bellows at one end and a small pipe for conducting the smoke at the other.

The illustration represents the different parts of the tube. Any good tinsmith can make it, and with careful usage it will last almost a lifetime.

The large tube or smoker should be about seven or eight inches in length and 2½ inches in diameter. It should be made from the best of Russian iron. A frail material, like tin, is liable to give out at a critical time, and spill the burning tobacco upon the animal or the floor of the stable. A, B and C in the cut represents three circular pieces of iron. A and B are for closing the tubes at each end, and B is a perforated partition, which should be inserted about one inch from the end of the tube where the smoke escapes, so as to prevent the tobacco or contents of the large tube from clogging the smaller one through which the smoke is conducted to the animal.

The circular piece represented at C should be from one-fourth to one-half an inch in thickness, and must be fitted so neatly into the end of the large tube that no smoke can escape, yet it must not fit so closely that it cannot be removed easily, because it must be taken out every time the smoker is filled or lighted.

In the centre of C a round hole must be made, of sufficient size to admit the nozzle of a small hand-bellows, such as was formerly used for kindling wood fires when people used open fire-places. This hole should be fitted with a thread like that of an iron nut. A thread should also be cut on the end of the nozzle of the bellows like a bolt, and when finished it should fit the thread in the circular stopper, C, as neatly as the thread of a carriage bolt fits that of the nut which holds it in place. This stopper when once fitted can always remain on the bellows.

The circular piece, A, which closes the lower end of the smoker, need not be more than an eighth of an inch in thickness, and B, the perforated partition, still thinner. A small hole must be made in the centre of A, into which a small short tube, some 2½ or three inches in length, must be fitted. This short tube can be about an eighth of an inch in diameter where it joins the circular piece A, but should be made tapering and much smaller at the open end, where the smoke escapes. If too large at this point the smoke will escape too freely.

This stopper A, and the small tube fitted to it, should be grazed instead of soldered so the large tube, for if the solder be used it will be pretty sure to melt and cause mischief.

To use the smoke after it is completed get some cheap, strong plug tobacco. Cut and tear it into small sized pieces, not too small, however, for in that case it will pack so closely in the instrument that the smoke will not escape. Fill the tube, pressing it in moderately until full to within about one-fourth of an inch of the end; then place a live hardwood coal of fire on the tobacco in the center of the smoker, so that it will receive the air from the bellows.

When this has been done insert the stopper firmly that has the bellows attached, holding the smoker perpendicularly in the meantime pointed downward; work the bellows very gently, just enough to keep the coal alive and get the tobacco on fire. This should be attended to by the stove, in the house or stable office. It is not best to have any fire lying around loose in an open stall or stable where valuable animals are kept.

Have the subject to be operated upon hitched in one corner of a wide box stall or floor, so that the operator can pass in front, on each side and behind the animal.

Let the colt smell of the instrument before beginning to operate it. Begin at the shoulders and work up the neck toward the head. Place the end of the tube conducting the smoke within an inch or two of the hair, and at each puff of the bellows move the point upwards so as to direct the smoke up into the roots of the hair. Lower the point of the tube after each puff of the bellows, and place it about a half-inch or an inch in front of the point where the beginning of the previous blast was directed, then press gently upon the bellows handles and elevate as before.

By following this course every part of the animal will receive a puff of the smoke, and every puff of the smoke will kill all the vermin which it reaches. After smoking the forequarters, the neck and the head, begin at the hindquarters and work forward until one side is finished; then take the other side and treat it in the same manner. When the operator has occasion to suspend working the bellows for a few moments the smoker should be held so that the tube will point perpendicularly upwards.

If the small tube gets clogged, insert a good stiff wire and press into the smoker until the obstruction is removed. With a good attendant to get the animals in position, the operator can smoke four good-sized horses with one tubeful of tobacco. This instrument is just as effective for killing vermin on cattle, or ticks on sheep, as lice on colts, and every farmer who keeps such stock should have one.

A little experience will enable one to use it to much better advantage than at the beginning. After about three days from the first smoking go all over the animals again, for the smoke does not kill the nits, and unless followed up a few times at intervals of two or three days, the nits will hatch and the vermin will begin to multiply again.

Pale or sallow girls should use Dr. Williams' Pink Pills. They bring a rosy redness to the cheeks. Miss Jennie Bass, New Boyne, says:—I had been sick for two years and had lost my strength, was continually troubled with sick headache, and palpitation of the heart, unable to get rest at night; got no relief until I began the use of Dr. Williams' Pink Pills, and after three boxes I feel a new girl. All dealers, or by mail on receipt of price—50 cents a box or six boxes for $2.50. Address Dr. Williams' Med. Co., Brockville, Ont., or Morristown, N.Y. dw

Almost an Error.

An error in the advertisement of Dr. Spears, announcing his selling goods at "cost," instead of "closest," prices was an error, and yet hardly an error, for it was the "closest" approach to the truth, for the prices are so reasonable that purchasers are disposed to regard them as close as possible to the cost price.

The Edison's Club New Officers.

The Edison Amateur Athletic Club met on Wednesday evening and elected the following officers for the ensuing year. Hon. Pres. John Kreusl, Hon. vice-Presidents, John Langton and Col. Francis; secretary treasurer, W. J. Wigott. The rooms in the Opera House block have been closed for the summer season; meanwhile the boys will devote their attention to sports and games during the summer months. The club could not have elected more efficient officers for its success for the coming year.

Our National Game.

Lacrosse is likely to have a big boom this year, and the boys are busy making active preparations for a lively season. In order to give an extra spurt to the game in town, the popular clothing firm of H. LeBrun & Co. will give away free a dandy lacrosse stick and ball to every boy buying a suit of clothing at the City Clothing Store. This will no doubt prove a very tempting inducement to the boys—more especially as Messrs. LeBrun & Co. are so well known to excel in boys' suits, which are always good value at the prices offered, without the present of the lacrosse outfit. It is quite evident that Mr. Harry LeBrun, the senior member of the firm, still retains his old time enthusiasm for our national game, which led to his being chosen President of the Dominion Lacrosse Association. d98w17tf

A Creditable Performance.

The Camille Townsend Company produced the romantic drama entitled "Queen of Hearts" in the Opera House last evening. There was a fair house which seemed pleased with and appreciated the play. The scene is laid for Paris and the climax reached in Rome. The star in the caste of characters is, of course, Miss Townsend. She is beautiful and attractive, charming and handsome. In the role of "Stephanie De Mohrivate" she acts with a grace, and ease, and a naturalness that at once captivates and pleases. She is beautifully courageous, pleasantly ironical, merrily unsuspicous and piquantly inquisitive. Her fair form and striking beauty are enhanced by the richness and the splendour of her elaborate costumes, which were made by the celebrated Worth, of Paris. The remainder of the caste rendered a substantial support. Miss Lucy Cutler as "Mrs. Foley" is rather pesvish and fussy, W. C. Townsend as "Prince Malolio" superbly polite and extremely simple," and L. M. Marsine as "Sir Horace Welby" while not displaying the flashing of genius and cuteness of intellect in destroying vice and dragging down the villain, still accomplished his aim and purpose in a calm, cool and deliberate manner, which seemingly slow and unsuccessful, is withal certain and sure. In the end, with all hindrances obviated, he weds rich and quiet Alice Verney (Miss Millie Holmes) whose pretty face, unassuming manner, and dignified yet honourable disposition endeared her last evening to all theatre-goers. Miss Townsend will play "Lady Audley's Secret," a melo-drama to-night, and to-morrow "East Lynne" will be produced.

Gentlemen Get at Your Spring Cleaning.

A citizen remarks that the merchants throwing waste papers on the streets is a "crying shame," though it is by no means an infant industry. One would think that the merchants, of all men, he thinks, would take pride in having the streets look neat and trim. A beautiful business street like George street with paper and rubbish littering its surface, like uneasy ghosts of backwoods days, is like a man dressed in fashion's height appearing on promenade with foxy, unvarnished brogans.

A Local Board of Managers.

A meeting of the Standard Loan and Savings Company of Toronto, was held in the office of T. Hurley & Son last night to establish a branch office in Peterborough. There was a large attendance. Already the company has a membership of thirty persons and the prospects are good. The following officers were elected a local board of directors:—

PRESIDENT.—A. V. R. Young, J.P.
SECRETARY.—T. HURLEY.
TREASURER.—W. R. Greatrex.
SOLICITOR.—A. P. Poussette, Q.C.
DIRECTORS.—Henry Pidgeon, M.D., G.W. Dixon, M. T. Ostrom, H. Newton and B. Armstrong.

May Millinery.

Assiduity and enterprise are Miss Delaney's well known business characteristics. On the alert, and to be first with everything new in the fashionable world, is the constant aim she so successfully reaches. Her lady patrons know this, and watch with pleasure for her announcements. Miss Delaney has again been visiting the wholesale houses and has returned with many additional novelties in millinery and fancy goods which the ladies will be eager to see. Handsome and elegant as has been the display of millinery goods which she has already exhibited this season, increased attractiveness will be found in her latest purchases of new hats, flowers, feathers, ribbons, trimmings, ornements, fancy good, etc., which have been bought specially with a view to May wear, which every lady seeing, will decide that she not only *May* but *must* wear. 2d101

A Pleasant "At Home."

The lady directors of the Young Women's Christian Association held an "at home" in their rooms last night to all the members of the association and their friends. About 100 ladies were present during the evening. Mrs. Fairbairn presided and in an opening speech thanked all present for their attendance and expressed the wish that all might enjoy themselves. Miss Hall rendered a solo which was loudly applauded, Miss Pattie Hall accompanist. Miss Montgomery to the effective accompaniment of Miss Cameron, also sang in fine voice. During the evening several of the lady members played selections on the piano, which were much appreciated. Social intercourse and games of all kinds were the events of the evening which claimed the attention and amusement of the ladies and helped to pass the time pleasantly and profitably. At the close, refreshments were served to all present by the lady directors. The ladies desire to tender their thanks to Mr. Harry Long for his kindness in providing hot water for them. The happy company dispersed at half past nine. Next Thursday a regular meeting of the whole Board of Directors will be held. The ladies are pleased with the increasing attendance at Miss Code's Bible Class held every Tuesday night.

News Nuggets.

—To-day is corporation pay day.

—No one slept in the cells last night—All's quiet.

—The council will hold a meeting of the committee of the whole to-night.

—The Peterborough lacrosse club will likely play Millbrook and Port Hope teams on May 24th.

—The local ice dealers are getting their delivery wagons in readiness for the season's trade.

—Call and register your car with the town clerk to-morrow as it is the last day for registering dogs as provided by the by-law.

—The Peterborough Cricket Club will play Port Hope on May 26th, and that town will play a return match in Peterborough on June 5th.

—Street Inspector Craig has the streets of Ashburnham looking in good order. The villagers take a pride in their well-kept streets.

—The committee appointed by the Peterborough Bicycle Club is making arrangements to procure suitable rooms for the club during the season.

—Ralph Murray, of Rosemore, a man of about 62 years of age, attempted suicide this forenoon at the Kyle House, Belleville, by taking a dose of morphine.

—The steamer "Golden Eye" is in the painters's hands at present, receiving a new coat of paint. She will be as trim and stanch as possible this season.

—The fishing season is opened for the small boy, and he may be noticed along the river bank industriously pulling in the smaller members of the finny tribe.

—The annual meeting of the members of the Peterborough Mechanics' Institute, will be held in the room of the Institute, on Monday evening, May 2nd, at 7 30 o'clock.

—An abusive language case from Bridgenorth which was to have come up before County Magistrate Ellmison to to day was withdrawn by the plaintiff, he paying all the costs.

—The Campbellford *Herald* is guilty of remarking that all the cheese factories in the country will get under way next week—whether it is the way they worked last year, the weigh in the delivery, or the whey that comes from the vats.

—The practice of merchants and others sweeping and throwing papers on the main streets of the town is a dangerous one. Fluttering papers cause many a horse to runaway, and they do not improve the beauty of our main streets in the least.

—The body of the late Jacob Crenk, of Belleville, who was burned to death about three weeks ago, is to be exhumed, and the contents of the stomach will be submitted to analysis, there being suspicions that his death was caused by foul means.

—Complaints are made frequently by citizens of small boys using catapults in the streets. These missles are dangerous, and if some of the urchins are not more careful where and when they shoot, they may find themselves in the grasp of the police.

—At present, for once in the year at least, the family man has a legitimate excuse for spending his evenings at the club. The horrors of house cleaning drive him forth an outcast, from a once happy home, now a conglomerate chaos of overturned furniture, floating in a slimy sea of soapsuds qualified with dust.

Obituary.

Death of a Former Resident of This County, Mr. John Hunter.

The Barrie *Examiner* contains a notice of the death in California, of Mr. John Hunter, a former resident of this county, which took place on April 9th. Mr Hunter, who was 67 years of age, was an uncle of the editor of that journal, was born in Dumfriesshire, Scotland, and came to this country in 1845. He lived in Canada for about 25 years, mostly at Kinmount, Victoria County, and while there he sat in the county council for some time as Reeve of Somerville township. He owned a grist mill and saw mill at Kinmount, and was postmaster and justice of the peace there for many years. In earlier times his name was familiar in Bobcaygeon and the townships north of that place He left Canada for California with his family in 1871, thinking that a milder climate would improve his health as he suffered from rheumatism.

Tells of His Fearful Sufferings After Gastric Fever and His Cure by

Hood's Sarsaparilla

All who know Mr. W. D. Wentz give him the best of recommendations for honesty and integrity. For many years he has worked for Mr. D. P. Wilson, the harness maker and member of the Geneva Board of Health. He says:

"I was taken sick last October with gastric fever and my chance for recovery was considered almost hopeless. After 7 weeks the fever slowly left me, but I could not eat the simplest food without terrible distress. It seemed that I had recovered from the fever to

Die of Starvation

I took pepsin compounds, bismuth, charcoal, cod liver oil and malt until my physician confessed that his skill was about exhausted and he did not know what else to try. Everything I took seemed like pouring melted lead into my stomach. I happened to think I had part of a bottle of Hood's Sarsaparilla that had been in the house for two or three years, that I found had benefited me previously for dyspepsia. I began taking it and soon began to feel better. I have now taken a little over two bottles and can truthfully say I feel well again and can eat anything without distressing me, even to

Pie and Cheese

which I have been unable to touch for years. The English language does not contain words enough to permit me to express the praise I would like to give to Hood's Sarsaparilla." W. D. WENTZ, 18½ Castle St., Geneva, N. Y.

A Good Voucher

"I have known Mr. Warren D. Wentz for many years and can vouch for him as a man of veracity and one well known about here. I have sold him several bottles of

during the past few months." M. H. PARTRIDGE, Druggist, Geneva, N. Y.

High Court of Justice.

Matthew Wynn for Felonious Assault Acquitted—Other Cases Coming Up—The Assizes Nearing their Close.

Thursday, April 28th.

Evidence was concluded at four o'clock yesterday in the case of Queen vs. Matthew Wynn, charged with stabbing Walter Kerr. The deed took place in the Belmoral Hotel yard about midnight on the 15th of last September. Kerr's life was many times despaired of, but after lying six months in the hospital, at times wavering between life and death, he has fully recovered, and has been attending court during the last two or three days. Both men had been drinking during the day and were under the influence of liquor when the deed was done. Wynn had gone out to the stables of the hotel to sleep, and Kerr at midnight was wending his way to the barn to turn in for the night when he was met by Wynn who stabbed him with a huge jack knife, saying at the same time, "you have robbed me." The evidence yesterday and the various witnesses who were examined were the same as at the preliminary police court trials. Hugh O'Leary, Q.C., appeared for the Crown, and R. Max Donaldson, B.A., for the defendant. After the address to the jury by the counsel, His Lordship in summing up the case, charged the twelve good men and true strongly in favour of the prisoner's acquittal. In the course of his remarks he said that he would like to see the law so amended that a prisoner if he cared, could give evidence in his own behalf, subject to cross-examination. He believed that the motion now for consideration before the House of Commons, providing that a prisoner could give evidence in his own behalf, would become law. He stated that in the present case no defence was offered and the story of the prosecution had to be accepted. The jury then retired and after a few minutes consideration, filed into the court room again and returned a verdict of "not guilty." His Lordship then dismissed the prisoner who was allowed to go, with a few words of earnest counsel and advise hoping that this would be a lesson to him and that in the future he would lead an honest, useful life, and become a good and law abiding citizen.

The case of HILL vs HILL was then taken up. This is a non jury case. The plaintiffs are Wm. J. Hill, Phoebe Hill and Mary Ann McQuaid, all of Murray township, executors to the estate of the late Asa J. Hill, and the defendants are Wm. J. Hill, Hannah Hill and Robt. Brown. Action is entered to recover the claim of lot No 2, in the 9th concession of Belmont, and damages for cutting wood thereon. The action hinged on the signature of W. J. Hill to a lease. Five witnesses testified that the said lease had been signed by Mr. Hill, but he denied the signature. Defendant's lawyer refused to allow him to go in the witness box. R. C. Clute, Q.C., Belleville and S. J. Young, B.A., Trenton, for plaintiffs. E. B. Stone for defendants. Judgment awarded to Wm. J. Hill for recovery of the land and $50 damages for cutting the timber, and to Robt. Brown for $20 damages for cutting timber, without costs.

The petit jury were dismissed and paid this morning, their services not being further required, all the remaining cases on the docket being non-jury cases.

Walter Northcott, of Lakefield, the simple-minded young man who went into a store in Lakefield and stole a dollar about three weeks ago, and whose actions have from time to time been detailed in the EXAMINER, was brought up before His Lordship for sentence this morning.

His Lordship said he hardly knew what to do with the prisoner, but sentenced him to five years in the Kingston penitentiary. He thought that was the best thing for him, judging by his actions and past career.

NORTON vs. MCPHERSON.—In this action Thos. Norton, of Peterborough, seeks $900 damages for a return of monies entrusted to the defendant, Wm. McPherson, of Cannington, as trustee for the plaintiff and for interest thereon, and for a declaration of trust as to the same. E. B. Edwards for plaintiff. C. E. Weeks, Cannington, and Chapple, Uxbridge, for the defendant. Judgment awarded plaintiff for $509.50 and costs.

The Assizes will doubtless close to-night, as Thompson vs. McIntyre is the last case on the docket, the case of the Standard Agency Company vs. The Dickson Company, having been adjourned to the Cobourg Assizes which open on Monday next, by the consent of both parties.

The case of THOMPSON vs. MCINTYRE is in progress this afternoon. This is an action brought by Walter Thompson, of Otonabee, against Wm. McIntyre, of the same township, for $500 damages for wrongfully entering plaintiff's lands, pulling down his timber and fences, crossing his fields and destroying his crops. John Burnham, Q.C., for plaintiff; Dumble & Leonard for defendant.

Green Goods Case.

The Offenders Come Up Before the Magistrate This Morning—The Case Enlarged for a Week.

The case of Wm. John Young of Keene, and Wm. Leeper of Roseneath, charged with dealing in counterfeit bank bills, came up before Police Magistrate Dumble at the police court this morning. There was a large attendance of spectators. County Crown Attorney Wood was present on behalf of the Crown, Mr. E. B. Stone for Leeper, and Mr. G. M. Rogers, in the absence of Mr. E. B. Edwards, for Young.

The evidence of several witnesses was taken and the case was enlarged for a week. Messrs. W. J. Elmison, Harwood, Chief Roszel, Henry Cross, postmaster of Manilla, John McVety of Roseneath, and Henry F. Ketchison, mail clerk, gave evidence.

Mr. Elmison stated that he was a store keeper at Harwood, on Rice Lake. He received a letter from F. C. Austin, Box 664, Peterborough, in reference to dealing in green goods on April 5th, inst. The next day, he forwarded the letter to the Chief of Police, Peterborough. He stated that last winter he had received two such letters from New York bunco dealers, but he paid no attention to them. He had heard of several others in his vicinity who had received similar letters. He could not identify Austin's handwriting.

Chief Roszel told of the manner of the arrest and how the embryo dealers in these goods was entrapped into the grasp of the law.

Mr. H. Cross, postmaster of Manilla, stated that Wm. Leeper had posted a registered letter at his office, addressed to F. C. Austin, box 664, Peterborough. He made no secret of sending the letter.

Mr. John McVety, who lives in Percy township, near Roseneath, stated that he knew Leeper intimately. Prisoner told him on the train this morning that he was sorry for what he had done, and that he did not know what he was doing when he sent the money to Austin.

Mr. W. J. Elmison being recalled, also stated that that morning that Leeper had told him in the Belmoral hotel that he was sorry for what he had done and that he was not aware that he was doing anything wrong when he sent the money. Witness thought prisoner must be rather verdant.

Mr. H. F. Ketchison stated that he was mail clerk on road between Peterborough and Belleville. He stated that on the afternoon of April,—— he was standing near box 664 in the post office waiting for a friend when Leeper approached him and asked him if he was F. C. Austin. Witness answered no. Leeper then asked him if he knew F. C. Austin, and he said no. Prisoner told him that he had sent a letter to Austin asking him to meet him at the Morgan House that forenoon and that he had not put in an appearance. Mr. Ketchison said he thought witness did not know that he was identified with the post office. Witness also said that he knew of the affair before meeting Leeper and that he told the police of the transaction.

MR. STONE—Are you certain that Leeper did not ask you to send for a policeman? He was so open and ready to tell so much about the affair, that I thought he might have asked you to find an officer, (laughter).

The case was enlarged for a week, the prisoners being admitted out on bail, themselves at $1,000 each, and two securities of $500 each. Young's bondsmen were his father, Wm. Young of Percy township, and Alex Yates of Smith township. Leeper's bondsmen were Zacheus White of Roseneath, and Wm. Hunter, Ashburnham.

Dummer.

On Sunday afternoon the barn on Mr. T. McQuaig's farm in the 9th concession of this township, was totally destroyed by fire. The fire had gained such headway when first discovered that it was found impossible to save the contents. The building was insured for a small sum but there was no insurance on the contents. The origin of the fire is a mystery.

A young son of Mr. David Kelly, of Dummer, met with a serious accident a few days ago. He and another lad, says the *Register*, were playing together in the barn. They were throwing chaff at each other with pitch forks, when young Kelly was accidentally struck in the face with a three-tined fork. The outside tines passed on each side of the young lads face, but the centre tine entered below the left eye, penetrating some three or four inches and completely paralising the whole left side of his body. Dr. Pettigrew was hastily summoned, and at the time of writing, has some hopes of saving the boy's life.

A Rattling Round Trip Run to Nassau and Return.

The members of the Peterborough Bicycle Club held their first run of the season last night. It was a splendid success and a good time was enjoyed, about thirty of the boys turning out. They left the market square at twenty minutes after seven o'clock, and wheeled to Nassau, three miles distant. The return was made a few minutes before nine o'clock. The roads were in a first class condition for cycling and as they sped along on pneumatic and cushion tires at a rapid rate, the sport was exhilarating. After the return, the boys adjourned to the Edison Club rooms where they held a short business meeting. It was decided to hold a run every Thursday night and to have the name of the place where the run will be made, and the date printed on a card, so that should a member miss one run, he will know where the run next week will be. The meeting discussed laying a board track, kite shaped; the grounds where it will be laid to be decided upon at a later meeting. Every two week a meeting will be held, when there will be races of all kinds on the track. Although the expense of laying a board track will probably be four or five hundred dollars, still the boys think that it would pay in the long run, as the track would not have to be kept clean, and the fortnightly races would attract large crowds. Mr. R. E. Layfield, Secretary, has recorded fifty-three members already, and it is confidently expected that the membership will soon reach 150. The committee will meet to-night. After the business meeting an adjournment was made to the Olympic Club rooms where the boys were entertained by the new captain, Mr. W. C. P. Rochette. Refreshments were served and songs and speeches intermingled, helped to pass a pleasant hour.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,088 in amount. Of these, 186 for $259,560 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,588, upon 2,371 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,191.06.

At 31st December last there were in force $56,218,318.03 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,124.87, having being increased during the year by $1,041.684 78.

The death claims for the year were upon 122 lives under 243 policies for $511,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized.

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M. G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq., New York State.

(Signed), A. G. RAMSAY, President,
R. HILLS, Secretary.

(Signed) A. G. RAMSAY, President.
R. HILLS, Secretary.
The Canada Life Assurance Company.
Hamilton, Ont., 31st March, 1892.

Audited and approved.
(Signed) MAITLAND YOUNG, Auditor.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting, I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the company's assets last year, raising them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,384.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 32 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperity as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen.—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of carefnl management in the interest of the company. I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest. I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that it the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanmously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Farrie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

SEEDS

Purchasers of Seeds must now be convinced of the disappointment experienced in buying Seeds from boxes or packets already put up and placed in stores on commission, and in many instances transferred from place to place for years before being sold, the disappointment experienced not only from their non vegetative power, but from the small quantity contained in each paper. To prevent these disappointments, Messrs. Ormond and Walsh sell the whole of their Seeds by weight at a fair and moderate price, with a guarantee of their FRESHNESS and VEGETATIVE POWER.

"August Flower"

Biliousness, Constipation, Stomach Pains.

"I have been afflicted with biliousness and constipation for fifteen years; first one and then another preparation was suggested to me and tried but to no purpose. At last a friend recommended August Flower. I took it according to directions and its effects were wonderful, relieving me of those disagreeable stomach pains which I had been troubled with so long. Words cannot describe the admiration in which I hold your August Flower—it has given me a new lease of life, which before was a burden. Such a medicine is a benefaction to humanity, and its good qualities and wonderful merits should be made known to everyone suffering with dyspepsia or biliousness

Chicago Athenæum Building Destroyed.

CHICAGO, April 28.—The Chicago Athenæum building, a seven-story structure adjoining Art Institute of Van Buren-street, was destroyed by fire this evening. The loss is estimated at $150,000. There were 400 persons in the building, when a terrific explosion followed by the sound of crashing glass and timbers was heard on the seventh floor. The building was shaken to its foundation and fire at once broke out. A terrible panic ensued, but all the occupants made their escape.

Many Masons Suffer.

ROCHESTER, April 28.—Consistory Hall, the home of more than a dozen masonic bodies, including all the Scottish rite bodies in this city, was partially destroyed by fire this evening. A defective electric wire was the cause.

The paraphernalia of the various Masonic bodies was almost entirely destroyed. The loss to the societies will be about $27,000; insurance, $7000.

A Brakeman Maimed.

BRUSSELS, Ont., April 28.—Thomas F. Andrews, brakeman on the G.T.R., while engaged coupling cars at the east end switch in the station yard yesterday, made a slip and fell with the left arm across the track. Two wheels passed over his arm, cutting it off.

Murder, Suicide and a Wooden Leg.

CAMBRIDGE, April 28.—The discovery that her lover had a wooden leg led Maggie Williams to dismiss William F. Cunningham, to whom she was betrothed. The engagement was broken last night, the young woman upbraiding her lover for the deception he had practised upon her. This morning Cunningham visited 25 Portsmouth-street, where Maggie was employed as a domestic, and asked her to shake hands and make up. Maggie refused to be reconciled to the wooden leg and again repulsed him. Then Cunningham drew a revolver and fired two shots at his sweetheart, one bullet taking effect in her left temple and the other over her heart. Cunningham then placed the revolver at his own head and fired. The shot did not kill and the man fired again, the bullet passing just over the heart. He fell across the body of the girl and awaited death.

The police summoned an ambulance and hurried the victims of the tragedy to the hospital. The girl died before reaching the institution. Cunningham is alive, but is mortally wounded. He would say nothing about the matter save that the woman was killed by getting in the way while he was trying to commit suicide.

He is George's Brother.

WINNIPEG, April 27.—Fred Higginbotham, one of the best lacrosse players in Winnipeg, has left for Vancouver, where he has accepted a situation.

Lucky Baldwin's horses have left Los Angeles for the East. They will make St. Louis their first abiding place and from there go to Chicago. It is probable that an early division of the string will take place soon after arrival in St. Louis, part coming on to race at Garfield Park and Hawthorne, the others staying in St. Louis until the meeting there ends.

Gapes in Chickens.

Gapes are caused by the presence of a worm in the throat. These worms may often be removed by simply inserting a small quill of a feather in the mouth and twisting it about. A drop of spirits of turpentine is the thing to kill the worm, however. But you should not be troubled with these worms. Remove the chicks to clean, fresh ground. Take pains to keep all their feed dishes and drinking pails neat and gapes will cease to trouble you.

Currant Propagation.

Currants are generally propagated by cuttings, and the best time to do it is in the spring. The previous year's growth of wood is taken and cut into pieces 6 to 8 in. long. These are put in the ground with a little slant, and 1 or 2 in. is left above the surface. They may be put in a cold frame if you have only a few to propigate, or set in open rows 3½ ft. apart and 4 to 6 in. in the row where there are large numbers to grow.

Lost on the Prairie.

WINNIPEG, April 28.—John Affleck, a farmer of Clearwater, who has been missing for over a week, has not yet been discovered. Search parties have been out on the prairies for several days.

Assistance for Michael's Wife.

DETROIT, April 27.—Mrs. M. K. Mills, wife of Prince Michael, has dismissed her attorney, J.W. Robbins. The members of the Business Men's Association of the North Side have decided to raise a sum and employ counsel for her.

Any druggist will give you a trial bottle *free of cost*. It is guaranteed to relieve and cure. The large bottles cost 50c and $1. dw

Mr. J. E. Humphrey, 46 Bond street, Toronto, says Burdock Blood Bitters wrought a complete cure of dyspepsia in his case after all else had failed,

Bad blood breeds divers distressing diseases, Burdock Blood Bitters banishes boils and blotches, with every other symptom arising from bad blood.

THE BEST FAMILY PILL IN USE

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

An American Rosa Bonheur.

A 55th street studio in New York is the sanctum of a young woman artist, Marie Guise, whose wonderful animal painting has won for her the title, "The American Rosa Bonheur." Her early life was passed on her grandfather's farm in New England, where as a little girl she spent day after day drawing her farm favorites. Cows coming home from pasture, horses plowing, a group of sheep nibbling busily on a bare hillside, anything was the subject for a picture that came within her reach. The work of her childhood days was so encouraging that when she grew a little older she took up art study in genuine earnest. She spent her winters in New York and in summer traveled here and there studying with artists in their country retreats. While in New York Miss Guise haunted riding schools, stables, liveries, everywhere she could study her favorite subject—horses. In 1885 she went to Paris, where she spent a year in copying pictures at the Louvre. Then she found a capable master in Schenck, whose studio was the open fields and his models the animals who make their homes there. During the two years she spent with him she painted her first large and most important picture which has since found its way to America. The subject was three horses abreast plowing in a field which was just taking on a springtime tinge. Miss Guise, half in earnest, half in fun, but without an atom of hope, sent it to the Paris Salon of 1887. It was accepted, well hung and much admired, and the news of its success made a very proud moment for the young American girl. The next year she went with a party to Algiers, where she stayed for a year or so, intent in study of the beautiful horses of Araby. She journeyed for hundreds of miles across the desert, to one oasis after another, living in Arab company, studying the people, their country, their homes and their domestic animals. Miss Guise's sojourn in Africa resulted in studies of desert life and desert scenery, where beautiful Arabian horses and patient camels are seen in every foreground, and they have become immensely popular. In all her work one can feel that the artist was so thoroughly acquainted and had such love and perfect sympathy with the brute creation that therein lay the secret of her success.—Farm and Home.

The Members' Shooting Team.

OTTAWA, April 28.—It has been decided to form a Parliamentary shooting team among the members of the House of Commons and the Senate. At a meeting in the lower room Sam Hughes, Bob Watson, L. G. Desjardins and C. E. Kaulbach were appointed a committee to make all the necessary preliminary arrangements. To-morrow a meeting will be held to elect officers. Hon. M. Bowell has consented to give the team the use of the rifles as well as the Rideau range. It is understood the team will challenge other organizations for competitions.

Man or Woman, Ghost or Human,

We cannot say what will cure ghosts, but many men and many women who look like ghosts rather than human being, through sickness, would regain health and happiness if they would try the virtues of the world-renowned remedy, Dr. Pierce's Golden Medical Discovery. Torpid liver or "biliousness," impure blood, skin eruptions, scrofulous sores and swellings, consumption (which is scrofula of the lungs) all yield to this wonderful medicine. It is both tonic and strength-restoring, and alterative or blood-cleansing.

The most agreeable, restorative tonic and mild stimulant is Milburn's Beef, Iron and Wine. dw

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1. dw

Blood Will Tell.

Good blood will show its quality. So will bad blood, the one in a healthy body and ruddy complexion, the other in ill health, blotches, pimples, boils and sores, and frequently in intenser forms as ulcers, abscesses erysipelas, scorfulous diseases, salt rheum, etc. Every organ of the body depends upon the blood for force and vitality, and is but scantily served when the blood is impure. No remedy is so potent as a blood purifier or more rapidly produces new and healthy blood than Burdock Blood Bitters, which neutralizes the various poisons and restores the vitalizing power of this all important fluid. As an instance of this read what Mr. J. S. Neff, of Algoma Mills, Ont., says in a recent letter:

SIRS,—A year ago I was troubled with spots breaking out all over my body, the effect of bad blood. I consulted three different doctors, who gave me medicine but did not cure me. I was advised to try B.B.B., and after using two bottles I noticed the spots getting less. I continued to use B.B.B., which entirely cured me, giving me a splendid appetite. Since then I would use no other medicine.

Unsightly pimples, blotches, tan, and all itching humors of the skin are removed by using Dr. Low's Sulphur Soap dw

Dr. Low's Worm Syrup has removed tape worms from 15 to 20 feet long. It also destroys all other kinds of worms. dw

SPOTS.—Spots on the skin disappear rapidly by the use of the Persian Lotion, sold by all druggists at 50 cts. a bottle. Beware of imitations.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

WOMAN'S SUFFRAGIST BILL DEFEATED IN THE COMMONS.

Dynamite News From Various Continental Cities. A Passenger Throttled to Death On An English Railway—The Nude in Art—General Foreign News.

LONDON, April 29.—In the House of Commons yesterday Sir Albert Kaye Rollit moved the second reading of his Women's Suffrage bill, which Mr. Balfour favored. A division was taken and the motion was defeated nays 175, yeas 152.

The ladies' gallery of the House of Commons was packed, among the occupants being Mrs. Gladstone, Lady Harcourt, Lady Henry Somerset and Mrs. Fawcett. The smallness of the majority against the motion caused surprise, as many had expected that it would be rejected by a vote of two to one.

Mr. Samuel Smith, Liberal, member for Flintshire, moved the rejection of the bill.

Mr. Balfour said he did not agree with those who held that it would be degrading for women to take part in politics. He himself at meetings of the Primrose League had urged women to take a share in politics. Every section of the House was only too glad to avail itself of the services of women. It did not lie in any of their mouths to say that taking an active part in framing the policy of the Empire would be degrading to women.

STILL ANOTHER.

A Passenger Dying, After Being Throttled and Robbed in a Compartment.

LONDON, April 29.—John Ackroyd, an insurance collector, was throttled and robbed by two men in a railway carriage on the Great Northern last evening, and he is dying at the Bradford Hospital in consequence of his injuries.

Mr. Ackroyd left Halifax for Bradford in a second-class compartment of the night express. He had considerable money with him and carried valuable papers in his satchel.

Two well-dressed men entered his compartment just as the train started. They had no hand luggage, the guard says. Their tickets were for Bradford, as was Mr. Ackroyd's.

When the guard opened the door Bradford the two men were gone. Mr. Ackroyd lay unconscious on the floor, his clothes torn and blood flowing from his mouth. His pockets had been rifled, and his satchel was gone.

At the hospital he recovered slightly and said that just after leaving Halifax one of the men took out a cigar and asked *him* for a match. As he put his hand in his pocket to get his match-box, the other man pinioned his arm and threw him to the floor. He remembered being struck on the head and being choked. The next he knew he was in the hospital.

No arrests have been made and it has not been learned how and where the two men left the train.

YET AT WORK.

The Anarchist Horrors Scaring People Out of Paris.

NEW YORK, April 29.—It would be entirely useless to attempt to deny that the situation in the very heart of France is fraught with danger. The outrage which occurred Tuesday proves that the Anarchists are thoroughly organized and are still active in spite of the numerous arrests.

Certainly these latest events give grounds for expecting trouble on May-day, and even those who heretofore were undismayed are now becoming frightened. Many foreigners are leaving the city, and in many first-class hotels like the Bristol, the Chatham, the Westminster and the Hotel Du Rhine several despatches have been received cancelling orders for apartments.

M. Dreach, the Commissary of Police, who arrested Ravachol, yesterday received an anonymous letter assuring him that, no matter what precautions the police might take, M. Dreach and Procureur-General Quesnay would be blown up before May 1.

Of course it is possible that the jurors were influenced by Ravachol's lawyer, who reminded them that "in the interests of public order it would be wiser not to condemn the prisoners to death." A dread of fresh explosions may also have influenced them in coming to a verdict. There is also, however, another explanation of their conduct.

I had a conversation this morning with one of the jurors, a wealthy, middle-aged merchant, and he told me that he and his colleagues had not given their attention to Ravachol's former crimes against the common law, but to the dynamite outrages perpetrated by him in Paris, and that as there was abundant proof that he had not perpetrated them through personal motives, it was impossible for them to condemn him to death.

A Humorous Aspect.

Such logic is terrifying and a plain proof of mental aberration. If in such a serious crisis mirth were permissible the humor of the situation would certainly excite to laughter. The Government causes the Chamber of Deputies to enact a law with the special object of condemning Ravachol to death, and now the jurors refuse to avail themselves of the law, though it was enacted specially for the occasion.

A deplorable impression has been produced by the verdict, not only in Paris but also throughout France and in foreign countries. Statesmen see what the results will be, especially in Russia, where the Czar has pitilessly pursued the Russian Anarchists and where so many difficulties must be overcome in order to convince the people that France, although a republic, is able to maintain order.

Outlook For May Day.

Certainly these latest events give grounds for expecting trouble on May Day, and even those who heretofore were undismayed are now becoming frightened. Many foreigners are leaving the city, and in many first-class hotels like the Bristol, the Chatham, the Westminster, and the Hotel du Rhin, several despatches have been received canceling orders for apartments. The government is acting with energy, but for the last fortnight it has been practically balked and has not been able to prevent explosions from taking place.

More Outrages Expected.

To sum up the situation is a bad one on account of the anxiety of many persons and the faintheartedness of others. What saves us is the fact that the anarchists are not numerous. I do not believe, therefore, that there will be either a revolution or any widespread disturbance on May 1. Isolated outrages only are possible, and—one must confess it probable not only in Paris, but also in Spain and Italy, for the reason that these latest events have renewed the courage of international Anarchists in all countries.

The Journal des Debats, commenting upon the result of the trial, says to-day that it is to be regretted that the jury failed to perform their duty in the same noble manner that the officials performed theirs. The public generally condemn the verdict. No one doubts that the jury was terrorized, and the result is regarded as a triumph for the dynamiters. The fearless conduct of M. Beaupaire, the Public Prosecutor, is warmly commended.

The Justice, a radical organ, says that some foolish minds are already proposing absurd steps, some going so far as to argue that the government should declare a state of siege. The proposals made by these persons would prove sorry remedies; they would only aggravate the evil.

The Radical says:—"It is essential to guard against the panic which ignorance and dishonesty would produce under any regime in any country."

The Gaulois says it is deplorable that Ravachol should have been allowed a whole day, thanks to the inaptitude of the prosecution, to transform the dock into a tribune from which to preach anarchy.

President Carnot visited yesterday at the Hospital Saint Louis, the persons who were wounded by the explosion the day before yesterday. He shook hands with each of them and distributed money among all. The visit has produced the best possible effect upon the people.

TO BE TRIED AGAIN.

Ravachol Accused of Killing One Brunel Known as "The Hermit."

PARIS, April 29.—Ravachol will be taken shortly to Montbrison to be tried for the murder of Stephen Brunet, to which he has confessed.

Brunel was known as the "Hermit of Notre-Dame-de-Grace," and lived alone on the mountain side overlooking the valley of the Upper Loire. He was killed and robbed by Ravachol in June, 1891.

The "Hermit" was found dead, with unmistakable marks of strangulation. Ravachol, who was suspected of the murder, was denounced by a woman with whom he lived. He was arrested but escaped from the two gendarmes who had him in custody, and was not again found until denounced by Lherot, the waiter in Very's wineshop, on March 30 of this year.

LISBON, April 29.—An Anarchist was arrested at the railway station in this city yesterday. Six dynamite cartridges were found at his lodgings.

Arrests and Explosions in Italy.

ROME, April 2.—The police are again arresting Anarchists in the leading cities of Italy. Thirty Anarchists have been arrested in Leghorn.

A bomb exploded in a church at Monte Rotondo yesterday, but caused only slight damage. A dynamite cartridge exploded in the house of a wealthy family in this city last evening, causing very little damage. Two arrests have been made in connection with the latter explosion.

Dynamite Outrage in Naples.

NAPLES, April 29.—Considerable excitement was caused here yesterday by a report that Anarchists had attempted to blow up the old Treasury Department. A dynamite cartridge had exploded under that building, but it is not believed that it was placed there by Anarchists. Only trifling damage was done. The police are trying to find out who put the cartridge there.

BUSY! BUSY! BUSY!

Our store has been a very busy one lately, but the opening week of May bids fair to be still busier; at least we are thoroughly prepared for it.

In Dress Goods, the embodiment of genuine taste is to be found in our stock, and you have a right to expect from us the best the market produces at importing prices.

In the Millinery Department, our stock is kept constantly augmented with the choicest selections of Bonnets and Hats, Millinery Novelties, Flowers, Ribbons, Laces, Ornaments, etc., all marked at extremely low prices.

Special offerings in Printed Drapery Silks in beautiful floral effects, at 80c. per yard.

One reason why we are doing so much in Carpets and Floor Oilcloths this year, is that we seem to understand what is wanted, and lose no time in getting the right patterns at the right price.

We are offering unusual attractions to purchasers of Lace Curtains which it would be well for housekeepers to see.

THE TORONTO ELECTION.

MR. BIGELOW, THE REFORM CANDIDATE, ELECTED.

He Secures a Majority of Nearly 900 Votes—The Labor and Annexation Candidates Only Secure a Few Hundred Votes Between Them—The Liberal Also Elected in Welland.

TORONTO, April 30.—The election in Toronto yesterday to fill the vacancy in the Ontario Legislature caused by the death of H. E. Clarke, resulted in a victory for the Liberal candidate, Mr. N. G. Bigelow, by a substantial majority over his opponent, H. A. E. Kent, the Conservative nominee. Both candidates are lawyers. The labor candidate, Phillips Thompson, and the Annexation candidate, E. A. Macdonald, were simply nowhere. The vote:

Wards.	Bigelow	Kent	Thompson	Macdonald
Totals	4998	4122	486	172

Plurality for Bigelow 816 with one polling sub-division in St. Stephen's Ward to hear from. Total vote polled, 9717. The election passed off very quietly, and the vote in many of the polling booths was lighter than ever known before.

This election was the first since the passage of the Manhood Suffrage Act.

One of the saddest features of the day was when the annexation candidate came to the front to vote for himself. He was informed that he was not on the list. This circumstance will explain why the figures are 171 instead of 172.

The Conservatives attribute their defeat to over-confidence and the weakness of their candidate.

The Reformers are naturally jubilant at the result, and jubilant speeches were the order of the evening at the Reform Club.

Dying From the Opium Habit.

LONDON, Ont., April 30.—The civil suit entered by Lewis A. Wright and his wife Jessie A. Wright of this city against nine city druggists is gradually assuming a more serious aspect The ground of the suits is that the defendants sold Mrs. Wright from time to time larger quantities of tincture of opium than the law permits.

Yesterday afternoon she made a dying declaration that she believed she was dying and that in case of death the cause was attributed to the defendants selling her the laudanum and not telling her the effects of drinking the poisonous fluid.

DOMINION PARLIAMENT.

THE REDISTRIBUTION BILL INTRODUCED.

Toronto Gets One Member and Montreal Two—Two Additional in Manitoba and One in Algoma—The Changes in Other Constituencies

OTTAWA, April 30.—The long-expected and much talked-of redistribution bill was introduced yesterday by Sir John Thompson.

Toronto gets an additional member by Toronto West being given two representatives instead of one: Algoma is divided, part of it being united to the Nipissing district, and the new electoral district of Nipissing being created.

In order to make these two seats a good deal of carving up of the Niagara peninsula has been done. North Wentworth and Monck practically disappear and are divided up amongst Haldimand (which will be known as Monck and Haldimand), North Wentworth, (which will be known as North Wentworth and Brant), South Wentworth, Lincoln, Welland and South Norfolk.

Clarence Township is taken from Russell and put into Prescott.

Haldimand is considerably strengthened for Dr. Montague and Lincoln is made dead sure for Gibson.

The general effect in Ontario, it is claimed by Reformers, will be to make four or five Conservative seats pretty safe and to fatten up a couple of already fat Reform constituencies.

In Quebec.

In Quebec, Montreal gets two additional members, Hochelaga one, and Ottawa County one. To make these four new seats Three Rivers and St. Maurice are united as are also St. John and Iberville. Napierville and Vercheres disappear and the 13 constituencies in that section are re-divided so as to make only 11 seats. The Quebec district and the Eastern Townships are not touched.

The Eastern Provinces.

New Brunswick loses two seats by one being taken from St. John city and county, and Queen's and Sunbury being united.

In Nova Scotia, Queens and Shelburne are united, reducing the representation from the province to 20 and leaving young Mr. Forbes out in the cold.

Prince Edward Island loses one member and this is done by dividing the Island into five separate electoral districts pretty nearly even in population, instead of the three counties having two members each as at present.

Manitoba gains two seats which are made up by redistributing Selkirk and Marquette. The old district of Lisgar will be renamed Selkirk and the old district of Selkirk will be divided into Lisgar and Brandon. Marquette will be divided, one portion to continue as Marquette and in naming the newly created constituency the Government has performed a graceful act and named it after Sir John Macdonald so that the first lasting monument to the memory of the dead Premier will be the electoral district of Macdonald. This announcement was received with great satisfaction by the House. Provencher and Winnipeg remain unchanged.

No change is made in the Northwest Territories.

In British Columbia, Yale and Cariboo are united under the name of Yale and Cariboo, and the member thus gained is given to Westminster, which is not divided, but will return two members.

A Printing Account.

After a long and desultory talk on West India trade and the Spanish treaty the House again went into supply and spent the evening in discussing immigration items. Some time was taken in considering an item of some $700 paid to Caspar Hett of Berlin for printing an immigration pamphlet in German, which account the Queen's printer cut down to about $400.

Mr. Somerville caused a sensation by reading a letter from John Lowe, Deputy Minister of Agriculture, in which he told Hett how he could get the difference by charging for the stereotypes.

Mr. Rowell strongly condemned such conduct in a deputy minister, and Mr. Lowe is likely to get into trouble.

Notes.

To-day's Canada Gazette contains appointment William Smith as deputy Minister Marine and Fisheries, Eugene O. Baldwin of Barford, Que., and W. H. Ingram of St. Thomas, Ont., as preventive officers customs.

Commissioner Sherwood of the Dominion Police Force received a telegram from Inspector O'Leary stating that Paquin, the absconding postoffice clerk from Hull, was committed for extradition. As Paquin is making a determined resistance against extradition it is likely that another application for habeas corpus will be made.

Professor Macoun of the geological survey has been appointed British agent for the Behring Sea for the purpose of obtaining information concerning seal life to supplement that collected by the British commissioner last season.

Duties on Carpets.

MONTREAL, April 30.—The drygoods section of the Board of Trade have decided to petition the Government against granting the increase in the duties on carpets asked for by the carpet manufacturers of the Dominion. They say that finer classes of carpets are not made in Canada at all, and an increase in the duties will practically abolish the trade in these.

Planing Mill Damaged.

BRANTFORD, Ont., April 30.—Between 4 and 5 o'clock yesterday a fire broke out in J. R. Vanfleet's planing mill in Colborne street. The roof is completely destroyed, machinery up and down stairs with other material in the building badly damaged by water. The fire originated on the east side of the roof, but from what cause it is at present unknown. Loss between $2000 and $3000; insured in Gore for $1500.

As Leaves a Large Family.

WINNIPEG, April 30.—Andrew Affleck of Cartwright has been missing for some time. Yesterday his horse and buggy were found floating in the river. The stream was dragged and Affleck's body recovered. He leaves a large family.

Perished in the Storm.

WINNIPEG, April 30.—A telegram from Boissevain says James Taylor, a young farmer of that district, son of J. W. Taylor of Manchester, Eng., perished in yesterday's storm, becoming exhausted and dying from exposure.

GOSSIP FROM LONDON.

An Interesting Review of the Week's News.

LONDON, April 30.—May Day in England promises to be peacefully observed. Celebration of the day will be confined to demonstrations in Hyde Park under auspices of the London Trades Council. The action of the authorities in arresting the editor and publisher of the Anarchist paper, The Commonweal, is likely to exercise a wholesome restraint upon those who are inclined to be turbulent. The authorities predict that everything will be quiet.

Resolutions will be adopted at each of the Hyde Park meetings declaring that the establishment of an international eight-hour day will be the most important step toward ultimate freedom of the workingmen and urging Parliament to pass the eight-hour law.

Nearly 100 foreign Anarchists are said to have arrived in London during past week, but the revolutionists declare that the greater portion of them are sham Anarchists sent by the continental police to watch and report the doings of refugees in London.

A mysterious incident which many persons connect with Anarchists and their preparations for May day occurred at Fleetwood Tuesday night. A sentry who was on guard at Magazine was attacked by two men, who knocked him down and endeavored to take his rifle from him. During the struggle the sentry manged to touch the electric bell communicating with the guard room, men evidently heard the soldiers, who ran from the guard room to see what the occasion for ringing was, whereupon the sentry's assailants fled.

Home Rule.

The Liberals in Parliament have been congratulating themselves for a few days past upon the report that the speaker would not allow Mr. Blaine to make his proposed motion that the time has now arrived to grant Home Rule to Ireland and that Mr. Gladstone's ingenuity would not be taxed in making reply to the motion, which it is considered nothing more or less than an attempt to force from Gladstone a declaration of what his Home Rule will be.

The Liberals contended that Mr. Blaine's motion could not be heard on Friday week as it had been forestalled by Mr. Clarke, who gave notice of his intention to raise the question of legislation regarding local affairs in Great Britain and Ireland to-day, and according to Liberal interpretation of the rules, a question having been debated and disposed of one week cannot be again discussed at a subsequent date. But this afternoon when Mr. McCarthy asked whether the discussion of Mr. Clarke's motion would not prejudice Mr. Blaine's motion, speaker gave a cold chill to the Liberals and McCarthyites by announcing that discussion would in no way prejudice or interfere with Mr. Blaine's motion.

Ulster Demonstration.

The Unionists continue to make every precaution for their mammoth anti-Home Rule demonstration in Ulster. The seriousness of the movement can be judged from a speech made by the Marquis of Londonderry at Dublin last night, when he said that it was the duty of Irish Unionists to bring before English voters the fact that within 20 miles of his shores he might have a hostile parliament and a hostile country. It would be impossible, he declared, to exaggerate the danger this would be to England in case of a foreign war.

Unionists Convention to be held in June must prove to the English that Ulsterites are determined to resist by every means in their power any attempt to repeal the union of Great Britain and Ireland. The Marquis added, "If Home Rule is carried there must be civil war in Ireland." This statement produced tremendous cheering and cries of "Ulsters will fight." Ulster men could not be handed over to the dictates of an Irish Parliament, continued the Marquis, a majority of whom they knew to be men whose actions and words proved them a disgrace to any civilized country. Earlier in the week the Duke of Devonshire spoke at Derby. This was the first time he had addressed a political meeting since his elevation to the House of Lords. In his speech he drew a parallel between the condition of affairs at a time of a great revolution and the state of affairs that would be created by passing any Home Rule measure that would be approximately satisfactory to Nationalists. He declared that in the event of the adoption of such a Home Rule measure the Protestant minority of Ulster would be subject to tyranny, not of a king, but of a majority dominated by some alien creed in its least tolerable form. He maintained that the right of resistance which belonged to their forefathers also belonged to their contemporaries, although they must avail themselves of the right of their own risk and stand ready to be praised or condemned, according as they succeeded or the reverse. The endorsement of the Ulster movement by two such men as the Marquis of Londonderry and the Duke of Devonshire has caused a sensation and has shown how deeply serious the movement is.

The newspaper Modern Society commenting upon Lady Somerset's praise of American women, takes occasion to make a despicable attack upon Americans. The writer says that the horrible impurity of the most fashionable girls in the largest cities of the union is well known. "The deacon marriage vs. pistol shot," he adds, "is the typical American menage." The truth is that London society is impure, though may be after all is said is less so than society in New York.

Important Captures in Spain.

MADRID, April 30.—Police captured a large number of Anarchists and closed their club yesterday. Among the prisoners were Vincente Lorenzo, an intimate friend of Ravochol, and leader of the Barcelona Anarchists. A number of rifles and revolvers were seized. The Government has ordered the suppression of all Anarchist clubs.

Anarchists were active in France and Spain yesterday, scores of arrests being made, and several attempts to blow up buildings being reported. Every precaution has been taken by the various governments to meet the threatened May-day demonstration.

To Blow Up the Bourse.

PARIS, April 30.—The public galleries of the Bourse were closed yesterday in consequence of the receipt of letters by the syndicate threatening to blow up the bourse.

A bomb with a half burned fuse attached was found in Rue Fleurieu yesterday.

Two loaded bombs were found near the Church of St. Denis.

The sub Prefecture at Espalon was burned yesterday. The fire is attributed to anarchists

Speeding the Parting Citizens.

Port Perry Methodists Accord The "Ackerman" Employers a Suitable Send-off.

The departing citizens of Port Perry, who who will become citizens of Peterborough the beginning of next week in connection with the Ackerman wholesale harness factory, enjoyed a practical application of the latter part of the proverb, "welcome the coming, speed the parting guests." The last number of the Port Perry *Observer* says:—

"Our Methodist friends did much credit to their heads and hearts by the frank, earnest and judicious manner in which they expressed their regret at parting with Mr. Ackerman, and those of his employees who have been fellow workers in the upbuilding of the church, especially by their earnest and well directed efforts in the Sunday School. The removal of Mr. Ackerman and his numerous and intelligent staff of employees is greatly regretted by all; they would do credit to any community. The best wishes of all go with the esteemed employer and his staff to their new field of enterprise at Peterborough, and all wish the establishment a continuation of that success and prosperity which have marked its course ever since its opening out in this town.

On the evening of Friday, 22nd inst., an interesting meeting was held in the lecture room of the church, under the auspices of the church and Sunday school, for the purpose of meeting with and having a suitable parting with Mr. Ackerman and those of his employees who have been prominent workers in the church and Sunday school. Mr. W. Ross, superintendent of the Sunday school, read the following address:

To the Persons who are about removing to Peterborough, and who are members of the Methodist Church, Port Perry:

DEAR FRIENDS—

It is with sincere regret that we as a congregation address you. We have been informed of your intention to remove from our midst and take up your residence in another town.

It frequently happens that one person or family removes from us, but not often that several families are taken at once. This makes our present loss all the more serious.

Some of those removing have been office-bearers in this church and have held responsible positions; how ably they have filled those positions and contributed thereby to the welfare of the church is known to us.

At the separation of friends in this world we are led to reflection. Death, which brings no hope, except to the Christian, seems to ordinary minds the hardest kind of separation; your departure differs in that it has hope, and no doubt you have built much on the possibilities of your new chosen home.

We desire to emphasize the fact that we shall miss you, and in the future when our thoughts revert back to former times, we will remember the pleasant fellowships and communions we have held together.

As Sabbath after Sabbath we have met you in worship, seen your smiling faces, grasped your hands in greeting, we have desired that it always should be so, but it is decreed otherwise and we submit.

Our hope is that your highest expectations may be realized, that peace, abundance, and prosperity may be yours, and that God's blessing, which His word tells us "Maketh rich and addeth no sorrow" may attend you all.

Suitable replies were made by Mr. Ackerman and others. The evening was profitably spent and the send off was highly flattering to the recipients.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

This is the Way.

Walk Ye in It And be Saved.

You speak of a new life, reader; you say you have wasted years—valuable years of life owing to the fact of your being physically incapacitated. You speak of your nervousness, your sleepless nights, your bodily weakness and imperfect digestive vigor.

You admit the fact that you have been under treatment for these troubles—that some efforts have been made to relieve you by physicians, and the use of certain quack remedies. With all these efforts you say your condition is as bad as ever before.

You say you wish to do more for your family, and something for the world, before you leave it, but to accomplish these great ends, you must have health and strength.

Well, reader, there is no secret about the matter; the great highway is open for you if you only choose to walk on it. The path is plain—well defined, and each step on the way increases your pleasures. This grand highway—this avenue to health—is known as Paine's Celery Compound; all other methods given for reaching the desired goal, are false and vain.

By making Paine's Celery Compound your friend, you escape the terrible consequences of nervousness, sleeplessness, morbidness, confused brain, and diseased mind, which often lead to insanity and the insane asylum. The great agent is near you, it waits for you in order that it may do for you what it has done for others. We have done our duty, it now remains for you to do yours. If you can trust the power of Paine's Celery Compound, a new life is open to you, and a fresh lease of joys and comforts.

No Half Measures!

Complete and Satisfactory Cures are Always Effected When Paine's Celery Compound is Used.

A Lady Who Suffered for Years From Dangerous Troubles is Restored to Perfect Health by Nature's Wonderful Remedy.

A well-known professional gentleman recently spoke as follows:—"The ordinary and every-day advertised medicines possess but very little merit medicinally; any worthy points claimed for them are, I think, all embodied in the formula of Paine's Celery Compound, which, as a remedy, is the most wonderful and most meritorious ever submitted to suffering people."

This opinion, we believe, fully bears out all that is claimed for Paine's Celery Compound. This marvellous medicine cures; there are no half measures in its working powers; it goes directly to the root—the seat of the disease—and eradicates every trace of poison and impure matter, and leaves the human system in such a condition that life becomes a joy and pleasure.

The village of Blantyre, and the entire County of Grey, Ont., are now wrapt in astonishment over the almost miraculous cure of Mrs. Stacey, a most estimable and well known lady, who for six long years suffered agonies from a complication of dangerous ailments. This lady, like thousands of other Canadian women, had the best medical attendance, and used large quantities of medicines of various kinds, but no cure came; indeed, the lady candidly acknowledges that the doctor's medicines seemed to increase her pains.

About the end of last November Paine's Celery Compound was procured, when every other medicine had failed. Happy, wise choice! There was no failure this time; happy and grand results were soon manifested, and Mrs. Stacey was given courage to look for brighter days and an extended lease of life.

Further comment is needless—useless—regarding this remarkable case; Mrs. Stacey's own words will tell the story of her cure in unmistakable language. Every statement she makes is vouched for by three responsible parties, one of them a Justice of the Peace.

Mrs. Stacey writes as follows:—

"It gives me the greatest pleasure to transmit the details of my case, and to acknowledge the debt of gratitude I owe to you for the great benefit derived from using your excellent preparation known as Paine's Celery Compound.

Six years ago I had a severe illness; since that time I have suffered greatly from nervousness, heart troubles and pains in my head. When last October I was taken down again to my bed, I was under the doctor's care, when neuralgia of the stomach set in. I took doctor's medicines for a time, but the pains seemed to increase. I had it in so severe a form, that if I remained long sitting or standing, it would cause vomiting, so I was compelled to lie most of my time. By lying on my left side I got ease.

It was the last of November when I commenced using your Paine's Celery Compound; now, thank God, I am happy to say it has made a complete cure, it being over two months since I have felt any trace of it whatever. My head and nerves have never been as good, for six years, as they are at present. Hoping this may benefit others suffering as I did, I take great pleasure in recommending Paine's Celery Compound, and will always do so when I have the opportunity, as I know it to be an excellent remedy.

Wishing you success, I remain,
Yours sincerely,
MARY STACEY."

Blantyre, Ont., March, 1892

The above statements are vouched for by James Paterson, Justice of the Peace, in and for the County of Grey; also by Mrs. Eliza Taylor and George Taylor.

DESTRUCTIVE BLAZE.—Fire broke out here on Tupper street on Thursday April 28th in the afternoon about 4 30 in Mr. R. Powell's bake shop. It originated from the chimney. The firemen were promptly on hand with both steam and hand engines, but in spite of their best efforts the fire spread, burning Mr. Albert Paine's store, Mr. Alex. Moffit's meat shop and Thos. Bryin's hair cutting and shaving perlour. The buildings were all of wood. It was feared the corner block would go, but the favourable wind and untiring efforts of the villagers managed to stop its progress.

Postponed.

The annual meeting of the Otonabee Canoe Club, which was called for last night at the store of Mr. A. Clegg, had to be postponed on account of the small attendance. By 8 o'clock only seven or eight members had put in an appearance, and as it requires fifteen for a quorum, an adjournment was made until Thursday, May 5th, when the club will again meet at the same place.

A Handsome Window Display.

Attention is directed to the very fine display of boots and shoes in the windows of Jas. T. Stenson's store, George street. The exhibit comprises Russian Oxfords, French Kid Oxfords and Slippers, Swis and Austrian White Slippers in Satin and Kid, A superior assortment of Fan Shoes, etc. in varied sizes, styles and prices. Look in as you pass. JAMES T. STENSON.

Where Will the Boys Go?

The 13th Battalion, of Hamilton, have written the local officers requesting to come to Peterborough on May 24th, and asking what inducements the town will hold out. If the 13th come here on the 24th, the 57th will certainly go to Hamilton for their trip on July 1st. The 48th regiment of Highlanders, Toronto, also want to come here on May 24th. Peterborough is evidently an attractive town, as she really is, to outsiders as well as her own citizens.

Monthly Prizes for Boys and Girls.

The "Sunlight" Soap Co., Toronto, offers the following prizes every month till further notice, to boys and girls under 16, residing in the Province of Ontario, who send the greatest number of "Sunlight" wrappers:—1st, $10; 2nd, $6; 3rd, 3; 4th, $1; 5th to 14th, a Handsome Book; and a pretty picture to those who send not less than 12 wrappers. Send wrappers to "Sunlight" Soap Office, 43 Scott Street, Toronto, not later than 29th of each month, and marked "Competition"; also give full name, address, age and number of wrappers. Winner's names will be published in *The Toronto Mail* on first Saturday in each month.

Our National Game.

Lacrosse is likely to have a big boom this year, and the boys are busy making active preparations for a lively season. In order to give an extra spurt to the game in town, the popular clothing firm of H. LeBrun & Co. will give away free a dandy lacrosse stick and ball to every boy buying a suit of clothing at the City Clothing Store. This will no doubt prove a very tempting inducement to the boys—more especially as Messrs. LeBrun & Co. are so well known to excel in boys' suits, which are always good value at the prices offered, without the present of the lacrosse outfit. It is quite evident that Mr. Harry LeBrun, the senior member of the firm, still retains his old time enthusiasm for our national game, which led to his being chosen President of the Dominion Lacrosse Association. d98 s17tf

A Night Runaway.

Last evening as Mr. Robert Gibbs left his team of horses standing attached to his hack at the G. T. R. station at nine o'clock last night; the animals became frightened and snapping the leather tie strap ran up Charlotte street at a furious pace. Mr. Joseph Curtin, who is employed by Mr. Gibbs, in making an attempt to check the career of the animals had his leg somewhat hurt by coming in contact with one of the wheels. The runaways were brought to a standstill in front of the Snowden House.

The Spring Assizes Concluded.

The spring assizes were brought to a close at eight o'clock last night by His Lordship Hon. Mr. Justice Rose. The case of Walter Thompson vs. Wm. A. McIntyre was the last case on the docket. Both the plaintiff and the defendant live in Otonabee. Thompson brought action against the defendant for $500 damages for wrongfully entering the plaintiff's lands, cutting down his timber and fences, crossing his fields and destroying his crops. J. Burnham, Q.C., for plaintiff; D. W. Dumble for defendant. His Lordship awarded judgment to the plaintiff for $500 and costs. Hon. Mr. Justice Rose will open the Cobourg assizes on Monday afternoon.

For the Eye of the 57th Battalion.

Here is what the Kingston *Whig* has to say on the matter of the 57th's first of July trip. The 57th Battalion, Peterborough, wants to visit Kingston on July 1st. The 14th Battalion would like to visit Peterborough on the same day. What can be done? Let us suggest that the Kingston lads give way, bring the Peterborough soldiers here and make a big spread. The cycling meet will be here on Dominion day, and it will be to the interests of Kingston to make it as great a time as possible. A military turnout at 9 a.m. would be a fine introduction to a day of much enjoyment. The city battalion boys, by a little self-denial this year, can aid the town immensely. Will they do it?

May Millinery.

Assiduity and enterprise are Miss Delaney's well known business characteristics. On the alert, and to be first with everything new in the fashionable world, is the constant aim she so successfully reaches. Her lady patrons know this, and watch with pleasure for her announcements. Miss Delaney has again been visiting the wholesale houses and has returned with many additional novelties in millinery and fancy goods which the ladies will be eager to see. Handsome and elegant as has been the display of millinery goods which she has already exhibited this season, increased attractiveness will be found in her latest purchases of new hats, flowers, feathers, ribbons, trimmings, ornaments, fancy good, etc., which have been bought specially with a view to May wear, which every lady seeing, will decide that she not only *May* but *must* wear. 21101

"CARVE DAT MELON."

The golden haired little soubrette, Hettie Bernard Chase, who will be seen here shortly, is making a tremendous hit in her banjo specialties, particularly noticeable being a quaint old negro plantation song

entitled, "Carve Dat Melon," in which Miss Chase completely loses her identity and gives an imitation of the jolly darkey in such true southern style, that it completely upsets the theory that only male performers can properly imitate the peculiar melodies and actions of the old-time colored minstrel. For an encore she sings "Pie, or Trouble in the Household," which is by the same author as "The Little Peach in an Orchard Grew," and equally catchy and tuneful.

A Forenoon Accident.

This morning as Mr. Robert Sutherland, Albert street, was working on a steel pipe which is being put in the new moulding department of the Carbon works, he had the sad misfortune to lose his balance from the scaffolding on which he was working and fell heavily to the ground—a distance of 14 feet. Mr. Sutherland fell on his head and left shoulder. He lay in an unconscious condition for some time. Dr. Yelland was telephoned for and the injured man was removed to his home in a conveyance. He has sustained several injuries, which at the time of writing it is impossible to tell the extent of.

Seeing is Believing.

Don't hesitate to walk right into Grafton & Co's. If the store should be crowded to-night, come in and swell the crowd. Our great Bargains keep business rushing on with a full head of steam. Come in and examine our Clothing, for seeing is believing. We don't want the earth, neither do we want our part fenced, but we do want every Clothing buyer in the town to look through our stock before purchasing. Our Suits for Men and Youths give absolute satisfaction. Our prices sell and win. It takes a mighty good tailor to make a garment from tape measure that will excel our Ready to Wear Apparel, at a fraction of the cost. Mothers! see our splendid selection of new Suits for the Boys. GRAFTON & Co, 393 George street. 1d

Dog Owners, Attention.

The town clerk's office has been besieged by a steady stream of visitors all day long anxious to register their canines before that awful and eventful May 1st rolls round. While scores have put down their dollars and received the tags so indispensible to dog life after May 1st, a great many have yet failed to subscribe their names for those pretty aluminum tags. Now to-day is the last day for registering your pug dogs, mastiffs, lap dogs, collies, setters, and all other breeds, so the obliging town clerk will keep his office open from 7 to 9 o'clock, to accommodate all who may wish to come. The police have their guns ready, loaded and cocked, ready to fire at dogs seen upon the streets after twelve o'clock on Sunday night. A word to the wise is sufficient. Don't strew our main streets with the carcasses of dead dogs, please dont!

Gun Club Practice.

The Peterborough Gun Club held a regular practice yesterday afternoon on Riverside Park. There was a large attendance of crack shots. A strong western wind blowing prevented good scoring., causing the birds to go very irregularly. Following is the score:

Lady Audley's Secret.

Miss Camille Townsend and her troupe of excellent characters made their second appearance at the Opera House last evening. The play was well put on and well rendered, the plot interesting and entrancing, the climax sensational and romantic. The large house expressed its keen appreciation of the play by frequent applause. Miss Camille Townsend as "Lady Audley" acts the part of the bold and unscrupulous adventuress admirably. Mr. Willis R. Martin as "George Talboys," and Mr. Lewis M. Martial as "Robert Audley," rendered a splendid support, as also does Harry A. Wilcox as "Luke Marks" in the chain of guilt and shame they encircle Lady Audley, around whom the plot thickens and develops. The play concluded with the production of a laughable farce entitled "Ghost in Spite of Himself." To-night which is the company's last night in Peterborough, Miss Townsend will play "Leah, the Forsaken."

Syrup of Figs.

Produced from the laxative and nutritious juice of California Figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the liver, kidney and bowels, effectually cleansing the system, dispelling cold and headaches, and curing habitual constipation.

News Nuggets.

—Another fine bright day. To-morrow is the 1st of May.

—There was no police court this morning. No arrests last night.

—Mr. A. Clegg has commenced the erection of a very fine brick residence on Benson street.

—The Peterborough Town Council and the Ashburnham Village Council will hold regular meetings on Monday night.

—The Ancient Order of Foresters will hold an "at home" in the lodge rooms of the Peterborough Lodge of Oddfellows on May 16th.

—Mr. A. W. Wray, senior freight clerk of the C.P.R. was able to be out to-day, after a two months illness from a bad attack of congestion of the lungs.

Peterborough Lodge, No. 111, I O O.F., gave five candidates their third degree on Thursday night. They will meet on Tuesday night for team practice.

—The School Board will meet on Tuesday night. The committee appointed at the last meeting to consider the advisability of engaging a local superintendent will also meet.

—The Athletic baseball club have been in correspondence with Peterborough ball twirlers, with the result that a nine from that town will likely visit Lindsay to-morrow (Saturday.) when a good game may be expected. Oh no, Mr. *Post*, you are mistaken! It is a week from Saturday.

—A report of the death of Miss Ida Craig, teacher in the Central School, Bellerille, and daughter of Mr. Joseph Craig, well known in town, appeared in yesterday's *Ontario*. A telegram received in town to-day states that the report is incorrect. The young lady is ill, but not dangerously so.

—Mr. J. J. Turner this morning shipped twelve large awnings to Renfrew, and a large tent to Brockville, also another to Carleton Place. He is making something new in the canvas line, that is a canvas bath which is entirely waterproof and can be folded up and carried along with the tourist or traveller without any inconvenience.

—The Council met in Committee of the whole last night. Nearly all members were present. The report of the Fire, Water and Light Committee was discussed at great length. In all probability the report favouring the buying of the horses will carry on Monday night. It is not likely that the street watering will be handed over to the Street and Bridge Committee as at first mentioned. The committee will hold another meeting to-night.

—Gough Bros., the original wonderful cheap men, are going to open up a branch store in S. S. Robbie's old stand, Lindsay, just east of the Benson house. The Messrs. Gough's have branch stores in Peterborough, Toronto, Orillia, Belleville and Brantford, their aggregate turnover in clothing last year being over half a million dollars. From the above record the public may expect a revolution in the clothing trade of Lindsay. —*Lindsay Post.*

—While in town the other day Mr. Robt. Elwards grew eloquent while discoursing on the many good qualities of the great old horse, "Toronto Chief,"—now in his 28th year—and, half in earnest and half in fun, made a "break" at Mr. J. J. Daly to match him against Blackstone 2 27½ for an even "hundred," conditionally. The conditions were: Best 2 in 3, half mile heats, to saddle, catch-weights.... Mr. Daly stated that, although he hardly knew what his arrangements would be for his string of trotters as yet, he would take the matter into consideration.—*Lindsay Post.*

Peterborough's New Manufactory.

Mr. B. F. Ackerman and his men from Port Perry, arrived in Peterborough to-day. The material and all the tools and machinery of his old establishment in Port Perry have arrived and are now in position in the large brick building at the south of George street. Mr. R. J. Kidd will have the general management of Mr. Ackerman's business. The improvements and alterations made to the building and which were written up in the EXAMINER some days ago are all completed. Mr. Geo. Schneider, owner, has expended some $700 in improvements upon the building for Mr. Ackerman who will begin work in full blast on Monday.

Catarrh and Neuralgia

Good authority has said that "neuralgia is the cry of the nerves for pure blood." The prompt action of Hood's Sarsaparilla on the blood, combined with its toning and strengthening effect upon the nerves, make this a grand medicine for neuralgia and also for catarrh, etc. We commend this letter to all having such troubles, and especially to

Suffering Women

"For a good many years I have been suffering from catarrh, neuralgia and

General Debility

I failed to obtain permanent relief from medical advice, and my friends feared I would never find anything to cure me. A short time ago I was induced to try Hood's Sarsaparilla. At that time I was unable to walk even a short distance without feeling a

Death-like Weakness

overtake me. And I had intense pains from neuralgia in my head, back and limbs, which were very exhausting. But I am glad to say that soon after I began taking Hood's Sarsaparilla I saw that it was doing me good. When I took 3 bottles I was entirely

Cured of Neuralgia

I gained in strength rapidly, and can take a two-mile walk without feeling tired. I do not suffer nearly so much from catarrh, and find that as my strength increases the catarrh decreases. I am indeed a changed woman, and am very grateful to

Hood's Sarsaparilla

In the art of Watch Repairing, there are many elements which go to make successful work. The cleaning and regulating is easily performed, but the replacing of any broken parts is far more difficult and it takes a workman of long experience and first class practical ability to make a new piece which is as well finished and fitted as the original was. MUNCASTER invariably finishes his work equal to new. The New Store is next to the "Examiner" Office.

TWO ELECTION TRIUMPHS.

The result of the election in Toronto yesterday was the return of Mr. Bigelow, the Liberal candidate by the large majority of 316 votes. This is a great triumph for pure government as represented by the Mowat Administration. This riding is very strongly Conservative, and nothing but the splendid record of the Provincial Government, and the ability and high qualities of the Liberal Candidate could have converted a huge Conservative majority into a very substantial Liberal majority. The contest in this election was fought out on its merits. There was no inducement in the shape of special Government favours held out to the electors of Toronto. The record of the Mowat administration was before the electors, and the opportunity of endorsing honest government and capable administration was not lost sight of. The people at last seem to be waking up to the fact that there is some advantage in straightforward government and that the reign of boodleism and boosism has continued long enough.

Welland county has stood true. Mr. J. A. Lowell, the Liberal candidate for the Dominion seat, was yesterday elected by a majority of 300. The Dominion wholesale bribery tactics were worked to the fullest extent, but the people spurned the bribe and exercised their right of selecting the best man for their representative. Welland is a border constituency and has been terribly depleted by a restrictive trade policy, and the people have spoken their mind plainly in favour of enlarged trade facilities with their adjoining neighbours.

Omemee's $10,000 Fire.

A Fire Breaks Out That Causes Damage to That Amount—Losses and Insurance

(Special Telegram to the Examiner.)

OMEMEE, April 30th.—About ten o'clock last night fire started in Thos. Stephen's old store, and spread east as far as Geo. Morrison's, and west to Jos. Parson's corner. The losers were George and John Morrison, loss $3000, insurance $1,800; S. Lumb, butcher, loss $100, no insurance; D. Minns, harness shop, loss $600, $400 insurance; Wm Miller, merchant tailor, small loss, no insurance; J. R Fand, *Recorder*, office covered by insurance; T. M. Everett, watchmaker, no insurance; T. J. Parsons, grocery, dwelling and stables, loss, $4,000, insured $2,600; T. Johnston, barber, small loss; Thos. Stephenson, loss $500, no insurance; J. J. Lundy's building, and the lockup were also destroyed.

Our Omemee correspondent sends the following

ADDITIONAL PARTICULARS.

Last evening at ten o'clock a fire was discovered in the rear of D. Minn's harness shop. A prompt alarm was given, and it was no time until willing hands were removing stocks and contents of adjoining stores and residences. There was a strong wind that fanned the flames and it was no time until Geo. Morrison's brick residence on the east, and J. J. Lundy's building, occupied on the west by Wm. Millar, tailor, J. R. Hand, *Recorder* office, and H. T. Everett, jeweler were in flames. The fire extended to J. H. Parson's fine store and residence on the corner west of Lundy's building, and burned south to Mary street, consuming all the sheds, stables, hose house and lockup on the entire block. No effort was made to check the flames from the fact that the hand engine was out of order, hence the unfortunate residents devoted all their attention to saving their effects. The entire loss is estimated at $10,000, on which there is possibly $4,000 insurance. There is no question but the fire was the work of an incendary, and this is the third destructive fire of that origin in less than two years in this village. The heaviest looser is J. P. Parson's store, with general stock and residence, light insurance. J. J. Lundy's building, occupied as above mentioned with no insurance on tenants effects. Thos. Stephenson's building, no insurance.

The Boom is Growing Fast and Furious.

Orders are pouring in from all parts of the town and Province for our "G. C." brand of hams, bacon and spiced meats, bologna sausage and lard. Take good care to get our make and you will have no other. To be had at George Carter's, pork packer and grocer.

MANY HAPPY RETURNS!

Bishop O'Connor's Third Episcopal Birthday.

Charming Congratulations of the Children—Delightful Entertainment Provided by the Sisters and Pupils at the Convent Last Night—His Lordship's Thanks—Complimentary and Congratulatory Remarks.

To-morrow, May 1st, is the third anniversary of the episcopal consecration of His Lordship, Bishop of the Diocese of Peterborough, Rt. Rev. R. A. O'Connor, D.D. The good sisters of the Convent and their pupils selected last evening as the most suitable for an entertainment in honour of the occasion, and the entertainment was in all respects decidedly successful and delightful, and must have been eminently gratifying to those who so charmingly presented the evening's programme, as it certainly was to those who so highly enjoyed its excellence and variety.

The new and spacious school room of the Convent was appropriately prepared for the occasion, and the two or three hundred little girls who compose the school, clad as they were in white, and ranged in graded seats forming three sides of a hollow square, with their bright and happy faces, presented a charming spectacle, and their behaviour, their lady-like and genteel department, and their beautiful singing gave practical proof that the little woman were as good as they looked, and that is saying a great deal. There were present as guests—of course, His Lordship Bishop O'Connor, attended by Rev. Father Scollard, Rev. Father Collins and Rev. Father *Desaulniers*, (the Cathedral clergy); Messrs. J. R. Stratton, M.P.P.; Jas. Kendry, Mayor; J. W. Fitzgerald, C.E.; Dr. McGrath, Dr. Brennan, Thomas Kelly, councillor, J. E. Belcher, C.E., and a large number of fathers of the pupils, who

MUST HAVE BEEN DELIGHTED,

with the charming manner in which the little folks did credit to the teaching and training of the sisters of the convent, to their parents and to themselves.

Promptly at 7 30 o'clock the guest of the evening, the Bishop, and his attendants, entered the hall, the latter taking his seat on a temporary throne to the music of a sprightly march performed on pianos and violin. This was followed by a song and chorus to pianoforte and violin accompaniment—"Scenes of mirth and glee," the whole parterre of children taking up the chorus, which they sang in a very perfect manner, indicative of the careful musical instruction and training bestowed upon them by the musical staff of the Convent. The harmony was without perceptible flaw, and the *nuances* were put on with a delicacy, judgment and precision, which would do credit to a well-drilled adult chorus. To this succeeded a most charming operette, "Our Bishop's Festal has Come Again." As may be supposed, the libretto of this exquisite little musical presentation contained many poetical expressions of good will, and reverential tributes to the good qualities of their Bishop, as well as ardent wishes for continued happiness and usefulness in his lofty position. In this also the singing, not to forget the dramatic action, was worthy of the warmest praise. A nicely balanced and effective accompaniment was provided by pianos, organ and violin.

A violin solo, Vieuxtemp's transcription of St. Patrick's Day, played out of compliment to His Lordship's nationality, was admirably performed by Miss Louise Yuktime, who also assisted in the several accompaniments during the evening. The next number on the programme was an innovation at Convent concerts but which, from the delight with which it was received, and the great credit with which it was performed, will not be dropped hereafter. This was the

BEAUTIFUL JAPANESE FAN DRILL,

which was performed by a white uniformed battalion of little beauties armed with Japanese fans. They were very gallantly commanded by "Captain' Daisy Dolan, and the precision with which they performed the intricate evolutions their marching involved, and the jaunty, exact and well-timed manner in which they went through the fan manual, would have put a line regiment upon its mettle to exceed. The little folks performed their drill in a decidedly creditable manner, and the patience and tact that their training suggested must have felt abundant reward in the manner in which the little damsels did justice to their instruction. Their performance was loudly applauded. An instrumental trio, piano and organ, was a fine musical treat. The selection given was the sprightly and *brilliant* overture to Rossini's Opera, "Tancred," and it received a brilliant interperation from the young ladies—pupils of the convent school—who rendered it.

Another pleasing contribution by the children was the procession of flower girls, and their delightful little spectacular performance, including expressions of loyalty and devotion to the Bishop, and the presentation to him of symbolical bouquets of flowers.

This concluded the programme and His Lordship in returning his thanks for the delightful evening's entertainment with which he had been honoured, said that this was his third anniversary here, and the longer he lived amongst them the more he was delighted with the parents and children of his flock. He complimented the children upon the admirable manner in which they had performed their parts, especially in the beautiful fan drill where their graceful movements were exceedingly charming. He applied the incident of the Mother of the Gracchi and her "jewels" to illustration of the value of children, who were in their prospective relations to society, the state and the church,

MORE VALUABLE THAN DIAMONDS.

He hoped these present would continue to be a joy to their parents, their priests and bishop. He thanked them most sincerely for their many kind wishes and dutiful sentiments. He should always, as he had in the past, take an interest in the promotion of their welfare. He closed a very pleasant address by hoping that his future amongst the people of Peterborough would be as happy as his past had been.

Mr. J. R. Stratton, M.P.P. gave expression to his pleasure at being present, both on account of the enjoyment the charming entertainment of the evening had given, as well as on account of the object of the evening—to do honour to a prelate who filled his high position in a manner to command universal respect. He congratulated the sisters upon the interest they had so successfully taken in the moral and mental welfare of the pupils entrusted to their care. He felt that a proof of the excellent manner in which His Lordship has discharged the pastoral portion of his duties was shown by the high position he held in the hearts of his flock; while the high position he held in the esteem of the citizens showed that in his capacity of citizen, the broad, liberal spirit, exercised, secured him the public respect and esteem. He felt that he only gave expression to the heartfelt sentiments of both Catholic and Protestant citizens when he wished His Lordship many happy years in the high office he occupied.

MAYOR KENDRY was greatly pleased to be present and was delighted with the singing and the generally excellent entertainment that he had so much enjoyed. It gave him great pleasure to congratulate His Lordship upon the third anniversary of his consecration, and to wish him many years of happiness.

Dr. BRENNAN was pleased with the evening's entertainment and, as a military man, especially with the splendid exhibition the fan drill had afforded. The little soldiers, under their little captain, Daisy Dolan, had done exceedingly well, and he feared his own battalion would have to look to its laurel. He had very strong opinions on the benefit of physical drill in the schools, and on this account he was delighted to see the innovation the evening had presented in the form of the fan drill. On behalf of the Separate School Board he could congratulate the Sisters on the excellence of the work done, and he was glad to see so many ratepayers present, who had practical proof that the money they contributed was well spent. He closed by tendering His Lordship his warmest congratulations, and the expression of the wish that his future life might be as to night was, "set in flowers."

The evening closed with "God Save the Queen," and his Lordship received the personal congratulations of the guests present.

A Splendid Evening

Of Music and Song Held in St. Andrew's Sunday School Room Last Night Under the Auspices of the Sunday School.

Over two hundred persons assembled in the Sunday school rooms of St. Andrew's Presbyterian church last night to enjoy the entertainment given under the auspices of the school, the proceeds of which will be devoted to the replenishing of the Sunday school library. The pastor, Rev. Alex. McWilliams, B.A., occupied the chair in an agreeable manner, and in his opening remarks thanked all present for their attendance and expressed the wish that they would enjoy a pleasant and profitable evening.

The following meritorious and well rendered programme was presented:—

Instrumental duet	Misses Eva Wrighton and Edith Hall
Vocal Solo	Mrs Hilliard Jones
Recitation	Mr Cochrane
Vocal Solo	Miss Nellie Harris
Mouth Organ Solo	Willie McClelland
Piano Solo	Miss Code
Vocal Solo	Mr W W Walton
Quartette	Misses Henbeck and Mann, Messrs Gray and Wesley
Violin Solo	Miss Maud Edmison
Vocal Solo	Miss Annie Fawcett
Recitation	Miss Eva Carey
Vocal Solo	Miss N Harris
Flute Solo	Mr Corbin
Reading	Mr Cochrane
Solo	Miss A Fawcett
Solo	Mr W J Drope
Solo	Mr W W Walton

Miss Maud Jones, Miss Nellie Harris and Mr. Geo. Sobneider were the effective accompanists of the evening.

At the close Rev. Mr. McWilliams stated that he was certain the thanks of all present were due to those who had participated in such a high class programme or had in any way assisted in the success of the evening. Mr. A. H. Hamilton moved a vote of thanks, seconded by Mr. Thos. Dodds, that the thanks of those present be tendered all who had so generously taken part in the programme. The motion was endorsed by a hearty outburst of applause. The proceeds of the evening amounted to $45.

Personal.

Hon. Senator Dobson and Major Sam Hughes, M.P., Lindsay, are in town to-day.

Mr. Wm. Johnston, of Belleville, district inspector of weights and measures, is in town to-day on official business.

Mr. T. Spellman, formerly proprietor of the Clarendon House, Hastings, but now of Rochester, is in town to-day.

Mr. J. A. Rolstin, manager of the Parisian Steam Laundry, and J. E. Martin, Toronto, are in town in the interests of their laundry.

Mr. Frank Armstrong, formerly of the Otonabee Roller Mills, left to-day for Cornwall, where he has secured a lucrative situation.

Rev. W. M. Loucks has been away during the week. He will officiate at Colborne to-morrow, his duties here being taken by the other clergy of St. John's.

Mr. Connors, formerly a Pullman car conductor on the G.T.R. has accepted the position of clerk in the Grand Central, succeeding Mr. Geo. Birnie, of Toronto.

Mr. H J. Bernard, advance agent for the Hattie Bernard Chase Company, which appears at the Opera House here on May 7th, is registered at the Grand Central.

Sydney Davis, M.D., is visiting Mr. E. B. Loucks, for a few days. Dr. Davis graduated from Queen's University last year and is now a most successful practitioner in York.

Mr. C. W. Lott, night operator of the C. P.R., left this morning for the Central Ontario Junction, where he will be stationed. Mr. Herrop, of Chesterville, succeeds Mr. Lott here.

Mr. J. J. Daly, proprietor of the Daly House, Linday, well known to the travelling public, has renewed his lease of the house and will continue to run it as of old. Mr. Daly is a brother of Mr. F. J. Daly, proprietor of the Grand Central.

Mr. D. Belleghem, the "furniture king" of Peterborough, was in town Friday and Saturday last valuing the Daly house furnishings, in conjunction with Mr. Lennen. Belleghem is a very decent fellow, indeed, and holds some very sound views. In a burst of confidence he intimated that outside of Lindsay his opinion of any town as compared with Peterborough might be covered by a postage stamp, and then there would be "flashings" of waste paper.—*Lindsay Post.*

Saturday's Market Menu.

The market this morning was an enormously large one. The stream of buyers and sellers kept up until high noon. The supplies of meats of all kinds, and of potatoes, were very large. Potatoes sold at 40, 45 and 50cts. per bag. Beef sold at 6 and 7cts. per pound, mutton at 7 and 8cts., veal 5 to 7cts., lots of it offered for sale three weeks old and over. Mr. Geo. Carton had a large load of salt pigs cheeks, feet and shanks, feet 10cts. per dozen, cheeks and shanks 3cts. each. Apples were selling at 25cts. per peck, and from $2.25 to $2.50 per barrel. Miscellaneous produce was selling rapidly, cabbage 50 to 60cts. per doz., carrots 60cts. per bag, butter beans 20cts. per quart, horse raddish 5 to 10cts. per bunch, onions 5cts. per bunch, rhubarb 5cts., seed corn 20cts. per quart, maple syrup, a large quantity offered, selling at 25cts. per quart or $1.00 per gallon, turkeys $1.00 to $1.20 apiece, chickens 30c to 40c per pair. The supply of butter and eggs was the largest seen for many months. Butter by the roll 18c and 19c, by the basket, 7c; eggs, 9c and 10c per doz. The grain market is exceedingly dull, no rye or barley is offered at all, oats are selling at 30c to 31c; spring wheat, 80c, standard; fall, 85c, standard; peas, 63c to 65c. Three loads of peas were offered this morning and twelve loads of oats. Hay, seven or eight loads on, selling from $13.00 to $15.00 per ton, straw, when any is offered at $3.50. A cowboy selling novelties and a medicine vender attracted large crowds and J. Haggart's auction sale went off successfully.

THE SARATOGA MIRACLE.

Further Investigated by an Express Reporter.

The Facts Already Stated Fully Confirmed —Interviews With Leading Physicians who Treated Quant—The Most Marvellous Case in the History of Medical Science.

A few weeks ago an article appeared in this paper copied from the Albany, N.Y., *Journal*, giving the particulars of one of the most remarkable cures of the 19th century. The article was under the heading "A Saratoga Co. Miracle," and excited such widespread comment that another Albany paper —the *Express*—detailed a reporter to make a thorough investigation of the statements appearing in the *Journal's* article The facts as elicited by the *Express* reporter are given in the following article, which appeared in that paper on April 16th, and makes one of the most interesting stories ever related :—

A few weeks ago there was published in the Albany *Evening Journal* the story of a most remarkable—indeed so remarkable as to well justify the term "miraculous"—cure of a severe case of locomotor ataxia, or creeping paralysis ; simply by the use of Pink Pills for Pale People. and, in compliance with instructions, an *Express* reporter has been devoting some time in a critical investigation of the real facts of the case.

The story of the wonderful cure of Charles A Quant, of Galway, Saratoga county, N.Y. as first told in the *Journal*, has been copied into hundreds if not thousands of other daily and weekly newspapers and has created such a sensation throughout the entire country that it was deemed a duty due all the people and especially the thousands of similarly afflicted, that the statements of the case as made in the Albany *Journal* and copied into so many other newspapers should, if true, be verified ; or, if false, exposed as an imposition upon public credulity.

The result of the *Express* reporter's investigations authorizes him in saying that the story of Charles A. Quant's cure of locomotor ataxia by the use of Pink Pills for Pale People, a popular remedy prepared and put up by the Dr. Williams' Medicine Company, Morristown, N.Y., and Brockville, Ontario, IS TRUE, and that all its statements are not only justified but verified by the fuller development of the further facts of the case.

Perhaps the readers of the *Express* are not all of them fully familiar with the details of this miraculous restoration to health of a man who after weeks and months of treatment by the most skilful doctors in two of the best hospitals in the State of New York —the Roosevelt hospital in New York city and St. Peter's hospital in Albany—was dismissed from each as incurable and, because the case was deemed incurable, the man was denied admission into several others to which application was made on his behalf. The story as told by Mr. Quant himself and published in the Albany *Journal*, is as follows :

"My name is Charles A. Quant. I am 37 years old. I was born in the village of Galway, and excepting while travelling on business and a little while in Amsterdam, have spent my whole life here. Up to about eight years ago I had never been sick and was then in perfect health. I was fully six feet tall, weighed 180 pounds and was very strong. For twelve years I was travelling agent for a piano and organ company, and had to do—or at least did do—a great deal of heavy lifting, got my meals very irregularly and slept in enough 'spare beds' in country houses to freeze any ordinary man to death, or at least give him the rheumatism. About eight years ago I began to feel distress in my stomach, and consulted several doctors about it. They all said it was dyspepsia, and for dyspepsia I was treated by various doctors in different places, and took all the patent medicines I could hear of that claimed to be a cure for dyspepsia. But I continued to grow gradually worse for four years. Then I began to have pain in my back and legs, and became conscious that my legs were getting weak and my step unsteady, and then I staggered when I walked. Having received no benefit from the use of patent medicines, and feeling that I was constantly growing worse, I then, upon advice, began the use of electric belts, pads and all the many different kinds of electric appliances I could hear of, and spent hundreds of dollars for them, but they did me no good. (Here Mr. Quant showed the *Journal* reporter an electric suit of underwear, for which he paid $124.) In the fall of 1888 the doctors advised a change of climate, so I went to Atlanta, Ga., and acted as agent for the Estey Organ Company. While there I took a thorough electric treatment, but it only seemed to aggravate my disease, and the only relief I could get from the sharp and distressing pains was to take morphine. The pain was so intense at times that it seemed as though I could not stand it, and I almost longed for death as the only certain relief. In September of 1888 my legs gave out entirely, and my left eye was drawn to one side, so that I had double sight and was dizzy. My trouble so affected my whole nervous system that I had to give up business. Then I returned to New York and went to the Roosevelt hospital, where for four months I was treated by specialists and they pronounced my case locomotor ataxia and incurable. After I had been under treatment by Prof. Starr and Dr. Ware for four months, they told me they had done all they could for me. Then I went to the New York hospital on Fifteenth street, where, upon examination, they said I was incurable and would not take me in. At the Presbyterian hospital they examined me and told me the same thing. In March, 1890, I was taken to St. Peter's hospital in Albany, where Prof, H. H. Hun frankly told my wife my case was hopeless ; that he could do nothing for me and that she had better take me back home and save my money. But I wanted to make a trial of Prof. Hun's famous skill and I remained under his treatment for nine week, but secured no benefit. All this time I had been growing worse. I had become entirely paralyzed from my waist down and had partly lost control of my hands. The pain was terrible ; my legs felt as though they were freezing and my stomach would not retain food, and I fell away to 120 pounds. In the Albany hospital they put 17 big burns on my back one day with red hot irons and after a few days they put 14 more burns on and treated me with electricity, but I got worse rather than better ; lost control of my bowels and water, and, upon advice of the doctor, who said there was no hope for me, I was brought home, where it was thought that death would soon come to relieve me of my suffrings. Last September, while in this helpless and suffering condition, a friend of mine in Hamilton, Ont., called my attention to the statement of one John Marshall, whose case had been similar to my own, and who had been cured by the use of Dr. Williams' Pink Pills for Pale People. In this case Mr. Marshall, who is a prominent member of the Royal Templars of Temperance, had, after four years of constant treatment by the most eminent Canadian physicians, been pronounced incurable, and paid the $1 000 total disability claim allowed by the order in such cases. Some months after Mr. Marshall began the use of treatment with Dr. Williams' Pink Pills, and after taking some 15 boxes was fully restored to health. I thought I would try them, and my wife sent for two boxes of the pills, and I took them according to directions on the wrapper on each box. For the first few days the cold baths were pretty severe, as I was so very weak, but I continued to follow instructions as to taking the pills and the treatment, and even before I had used up the two boxes of the pills I began to feel beneficial results from them. My pains were not so bad. I felt warmer ; my head felt better ; my blood began to relish and agree with me ; I could straighten up ; the feeling began to come back into my limbs ; I began to be able to get about on crutches ; my eye came back again as good as ever ; and now, after the use of eight boxes of the pills, at a cost of only $4 00—see !—I can with the help of a cane only, walk all about the house and yard, can saw wood, and on pleasant days I walk down town. My stomach trouble is gone ; I have gained ten pounds ; I feel like a new man, and when the spring opens I expect to be able to renew my organ and piano agency. I cannot speak in too high terms of Dr. Williams' Pink Pills for Pale People, for I know they saved my life after all the doctors had given me up as incurable."

Such is the wonderful story which the *Express* reporter has succeeded in securing verification of in all its details, from the hospital records were Mr. Quant was treated and from the doctors who had the case in hand, and who pronounced him incurable. Let it be remembered that all this hospital treatment was two and three years ago, while his cure by the use of Dr. Williams' Pink Pills for Pale People has been effected since last September, 1891. So it is beyond a doubt evident that his recovery is wholly due to the use of these famous pills, which have made such remarkable cures in this and other cases.

Mr. Quant placed in the hands of the reporter his card of admission to Roosevelt hospital, which is here reproduced in further confirmation of his statements :

To verify Mr. Quant's statement our reporter a few days ago, (March 31st, 1892) called on Dr. Allen Starr at his office, No. 22 West Twenty-eighth street, New York city. Dr. Starr is house physician of the Roosevelt hospital, situated corner of Ninth avenue and Fifty-ninth street. In reply to inquiry he said he remembered the case of Mr. Quant very well and treated him somewhat but that he was chiefly treated and under the more especial care of Dr. Ware. He said he regarded this case as he did all cases of locomotor ataxia as incurable. In order that our reporter might get a copy of the history of the case of Mr. Quant from the hospital record he very courteously gave him a letter of which the following is a copy :—

Dr. M. A. Starr, 22 West Forty-eighth street, office hours, 9 to 12 a.m., New York March 31st, 1892—Dear Dr. Vought : If you have any record of a locomotor ataxia by name of Quant, who says he came to the clinic 3 or 4 years ago, No. 14,037, of the O. D. Dept. Roosevelt, sent to me from Ward, will you let the bearer know. If you have no record send him to Roosevelt Hospital

Yours, STARR.

By means of this letter access to the records was permitted and a transcript of the history of Mr. Quant's case made from them as follows :—

"No. 14,037. Admitted September 16 th, 1889, Charles A Quant, aged 34 years. Born U. S. Married. Hoboken."

"History of the case:—Dyspepsia for past four or five years. About 14 months partial loss of power and numbness in lower extremities. Girdling sensation about abdomen. (November 29 th, 1889, not improved, external strabismus of left eye and dilatation of the left eye.) Some difficulty in passing water at times ; no headache but some dizziness ; alternate diarrhoea and constipation ; partial ptosis past two weeks in left eye.

"Ord R F. Bi pep. and Soda."

These are the marked symptoms of a severe case of locomotor ataxia. "And Dr. Starr said a case with such marked symptoms could not be cured and Quant who was receiving treatment in the out-patient department, was given up as incurable."

"There never was a case recovered in the world," said Dr. Starr. And then said :—"Dr. Ware can tell you more about the case as Quant was under his more personal treatment. I am surprised, he said, "that the man is alive, as I thought he must be dead long ago."

Our reporter found Dr. Elward Ware at his office, No. 162 West Ninety-third street, New York. He said : "I have very distinct recollections of the Quant case. It was a very pronounced case. I treated him about eight months. This was in the early summer of 1890, I deemed him incurable and thought him dead before now. Imagine my surprise when I received a letter from him about two weeks ago telling me that he was alive, was getting well and expected soon to be fully recovered."

"What do you think, doctor, was the cause of his recovery ?"

"That is more than I know. Quant says he has been taking some sort of pills and that they have cured him. At all events, I am glad the poor fellow is getting well, for his was a bad case and he was a great sufferer."

Dr. Theodore B. Tuttle, of 319 West Eighteenth street, to whom our reporter is indebted for assisting courtesies, said of locomotor ataxia : "I have had several cases of this disease in the course of my practice. I will not say that it is incurable, but I never knew of a case to get well. I will say that it is not deemed curable by any remedies known to the medical profession."

After this successful and confirmatory investigation in New York, our reporter, Saturday, April 2nd, 1892, visited St. Peter's Hospital in Albany, corner of Albany and Ferry streets. He had a courteous reception by Sister Mary Philemena, the sister superior of St. Peter's hospital, and when told the object of his visit, said she remembered the case of poor Mr. Quant very distinctly. Said she : "It was a very distressing case and excited my sympathies much. Poor fellow, he couldn't be cured and had to go home in a terrible condition of helplessness and suffering." The house physician on consulting the records of St. Peter's hospital, said he found that Charles A. Quant entered the hospital March 14 1890 was treated by Dr. Henry Hun, assisted by Dr. Van Derveer, who was then. 1890 at the head of the hospital, and that his case being deemed not possible of cure, he left the hospital and was taken to his home, as he supposed to die.

Such is the full history of this most remarkable case of successful recovery from a heretofore supposed incurable disease, and after all the doctors had given him up, by the simple use of Dr. Williams' Pink Pills for Pale People. Truly it is an interesting story of a most miraculous cure of a dreadful disease by the simple use of this popular remedy.

A further investigation revealed the fact that Dr. Williams' Pink Pills are not a patent medicine in the sense in which that term is usually understood, but are a scientific preparation successfully used in general practice for many years before being offered to the public generally. They contain in a condensed form all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, that tired feeling resulting from nervous prostration ; all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood and restore the glow of health to pale or sallow cheeks. In the case of men they affect a radical cure in all cases arising for mental worry, over-work or excesses of whatever nature.

On further inquiry the writer found that these pills are manufactured by the Dr. Williams Medicine Company, Brockville, Ontario, and Morristown, N.Y., and are sold in boxes (never in loose form by the dozen or hundred) at 50 cents a box, or six boxes for $2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

TALKS FOR THE FARMER.

SHEEP A PROFITABLE STOCK FOR THE CANADIAN FARMER.

A Very Careful Review of the Different Breeds—The Competition of One Breed Against Another a Mistake—A Lesson in Farm Manners.

A great many of the farmers of Ontario have given up raising sheep, and claim it does not pay to raise them; but take an average farm of 100 acres of good land and it will carry a flock of twenty ewes under good management, and the profits will run from $100 to $200 per year from wool and mutton. Ten acres of clover and peas will, with a few roots, be all that is required for their winter feed, and there is a gain in growing these crops, as peas and clover enrich the soil and relieve the necessity of growing so much barley at the present low price, (with no prospect of improvement for coming years, it being a crop which tends to impoverish the soil and makes a very small return in manure).

There are many different opinions as to what kind of sheep are the most profitable to raise. This I believe should be regulated by the quality of the soil. The Cotswolds some years ago were awarded the medal at Toronto Industrial against all breeds for best pair of fat sheep for exportation, which was won by ewes weighing 345 pounds each. Again recently at the London Provincial show the Cotswolds were awarded first prize against all others, although it seems to be a mistake—the competition of one beed against another. The Dominion Sheep Breeders' Association could make a change in this particular satisfactory to all interested. The real value of Cotswolds is in crossing on other breeds or on grade flocks.

Mr. Russell, Swanwick, Manager of the Agricultural College Farm at Cirencester, Gloucestershire, England, showed me a flock of sheep, two of every kind in Great Britain, which he had collected together that he might compare their feeding qualities. He remarked at the time that a great many of their Cotswold rams were used in England to cross on Down ewes, to improve their feeding quality, and no doubt the mutton sells for Down mutton on the English markets. The gain in using Cotswold rams in Canada is to get size for shipping purposes, as we all know it is the weight that brings the profit. I can only give my own experience in breeding Leicesters, Lincolns, Cotswolds and Shropshires. A few years ago I fed in one pen two pairs of first prize Cotswold ewes at the English Royal, and one pair of Shropshire ewes, first prize winners at the H. S. Show in Scotland; raised pure-bred lambs from them all, and find the Cotswold will produce the heaviest lambs, and in shearings again I find the Cotswold will shear about three pounds to two of the Shrops. Canada has only been a resting place for the Cotswolds on their way to the west, even as far as Colorado. The wool dealers injured the reputation of the Cotswolds, as they fancied every coarse fleece was a Cotswold when not one in five hundred was from pure-blooded Cotswold sheep. The demand for Cotswolds in the west at present cannot be supplied. This goes far to show that no other breed will replace them.—James Russell, Richmond Hill, in Farmer's Advocate.

NORMAN, ONT., January 15, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece; frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

How William Astor's Wealth Is To Be Disposed Of.

NEW YORK, April 29.—The will of William Astor leaves the bulk of his fortune to his son John Jacob, whose wife was Miss Willing of Philadelphia. Mr. Astor's entire fortune amounts to $70,000,000. Each of the three daughters will receive $2,000,000, and when other bequests are deducted there will be in the neighborhood of $60,000,000 to be handed over to John Jacob. The widow will receive an annual income while she lives of $500,000. She will also receive the family residences in New York and Newport, including the new city mansion, for which plans were recently made. John Jacob will receive the great fortune left by his father in trust for the children.

Blood Will Tell.

Good blood will show its quality. So will bad blood, the one in a healthy body and ruddy complexion, the other in ill health, blotches, pimples, boils and sores, and frequently in latenser forms as ulcers, abscesses erysipelas, scorfulous diseases, salt rheum, etc. Every organ of the body depends upon the blood for force and vitality, and is but soantily served when the blood is impure. No remedy is so potent as a blood purifier or more rapidly produces new and healthy blood than Burdock Blood Bitters, which neutralises the various poisons and restores the vitalising power of this all important fluid. As an instance of this read what Mr. J. S. Neff, of Algoma Mills, Ont., says in a recent letter:

SIRS,—A year ago I was troubled with spots breaking out all over my body, the effect of bad blood. I consulted three different doctors, who gave me medicine but did not cure me. I was advised to try B.B.B., and after using two bottles I noticed the spots getting less. I continued to use B.B.B., which entirely cured me, giving me a splendid appetite. Since then I would use no other medicine.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DEBILITY and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and realizes the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy them; but if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

DEEMING NOW ON TRIAL.

THE MULTI-MURDERER ARRAIGNED AT MELBOURNE

The Prisoner Has Lost His Jaunty Manner and is Now Silent and Downcast—His Latest Intended Victim Tells the Story of the Murderer's Courtship.

MELBOURNE, April 30. The trial of Frederick Bailey Deeming, alias Williams, for the murder of his wife at Windsor, was continued here yesterday.

The court room, as on every occasion when Deeming has been arraigned, was crowded. There has never been a trial in this city that has excited such intense popular interest, and everybody is desirous of once at least gazing upon the prisoner.

The prisoner was silent and downcast. Several witnesses were called by the prosecution, and they all testified to quarrels that had occurred between Deeming and his wife while they were living at Windsor.

The most interesting witness was Miss Kate Rounsevell, to whom Deeming, who had then assumed the name of Baron Swanston, was engaged to be married, and who was upon the point of joining him in the Southern Cross gold fields when he was arrested.

DINHAM VILLA, THE SCENE OF THE RAINHILL MURDERS.

When Miss Rounsevell went into the box the audience leaned forward in expectation to hear every word. She narrated the story of how she met Deeming traveling from Adelaide to Sydney on board the steamer Adelaide, which called at Melbourne on Jan. 12. After the vessel left Melbourne she was sitting in the saloon when a gentleman who was passing stopped and asked her whether she felt sick. She replied in the negative. The same gentleman subsequently asked her to join in a game of whist, introducing himself as Baron Swanston. She consented, and in this manner an acquaintance was formed.

"At the same time he wore a mustache," Miss Rounsevell continued. "Next day he asked me if I intended to stay at Sydney. I said no, that I was going to join my sister at Bathurst.

DEEMING, THE MURDERER.

"He then said that he was going that way and would branch off and stop at Bathurst, too. He explained that he was an engineer and had only recently come out from England.

"On our arrival at Sydney we went together to a suburb of that city. We met a gentleman on the way whom I have since recognized as Mr. Firth. Swanston stopped and spoke to Mr. Firth. He afterward explained that he was a fellow-passenger, whose acquaintance he had made on the voyage out from England.

"In Sydney I stayed at the same hotel as Swanston—the Wentworth House.

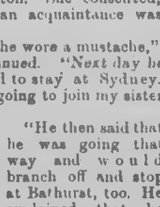
"The prisoner told me that Mr. Firth was very wealthy and owned property in Melbourne.

"On January 15th, I traveled with Swanston from Sydney to Bathurst.

"On the way I saw in a newspaper a list of the passengers who had arrived on the Adelaide, and observed that Swanston's name was not there. In reply to a question on the subject he told me that the omission was accounted for by the fact that he had booked after going on board.

"While we were in Sydney Swanston gave me a ring. On the afternoon of the same day he asked me to marry him. I replied that I did not intend to marry, and Swanston then asked me to keep the ring as a memento of our acquaintance. He also gave me a small opal brooch.

"When we arrived at Bathurst my sister met us at the station, and I introduced him.



MRS. MARY DEEMING.

"On Jan 16 he called upon us three times, and was admitted on the third occasion. He was staying at the Royal Hotel.

"On the following day he called again and renewed his offer of marriage. I then accepted him. He gave me a scent spray and two diamond rings.

"He said he had bought the rings for a lady to whom he had been engaged in England, but that, as she had proved false to him, he had not given them to her. One of the rings, I have since been informed, had belonged to the murdered wife and the other is said to have been stolen. He also offered me a lot of clothes, which, he said, had belonged to a sister of his. I am informed that they were the property of his murdered wife."

The remainder of Miss Rounsevell's story has already been told.

How It Came Out.

The circumstances leading to Deeming's arrest were detailed by the detectives after the discovery of his wife's body. Soon it was learned that he and his wife had come from England, and the news was telegraphed there. Mrs. Mather then heard for the first time of the fate which had overtaken her daughter. After a few days the police bethought them of the cementing Williams had done at Dinham Villa. On March 16 the floor of the kitchen was torn up, and the news was sent throughout the world that Mrs. Deeming and her four children had lain under the fireplace murdered since August, 1891. It also came out that on his last voyage from Melbourne to Perth, Swanston had had a gutta-percha mattress with a great brown stain upon it, which he had said was caused by sea water. And as confirmation of the terrible suggestion of the barrel of cement in the house in the Southern Cross gold fields they found that he had written a letter to the woman he had married in Yorkshire under the name of Lawson, urging her to join him in Australia in the fall.

SCHOONER GLENDORA MISSING.

A Kingston Manned Schooner Adrift on the North Shore. Fears that she Has Foundered.

SAULT STE. MARIE, Ont., April 30.—When making for shelter yesterday into Peninsular harbor, on the north shore of Lake Superior, the Canadian steamer Glengarry, from Kingston to Port Arthur, towing the schooner Gaskin and Glenora, lost the Glenora. There was a heavy southwest gale blowing at the time, and it is feared that the Glenora did not weather out the storm, but has been lost with all hands. The missing boat is owned by Captain Spinner of Kingston and valued at $12,000. It is belived she has been driven on State Islands and pounded to pieces. The Glengarry got her tow line in her wheel. She is aground near Peninsula, resting on a sandy bottom. The Gaskin is there with her. The Glenora carries 10 men.

KINGSTON, April 30.—There is much anxiety here to hear further news from the schooner Glenora which broke away from her tow yesterday in Lake Superior.

The crew is composed as follows: Capt. James Fleming of Kingston. He is well known to lake mariners and sailed the Jennie last season; mate, Daniel O'Hagan of Picton; cook, Annie Bradshaw of Kingston, who has been four or five years on the boat; sailors, John Clancy, Kingston; J. Gallaghy, Kingston; C. Haskell, Picton, and two others whose names are not known.

The Glenora has a carrying capacity of 50,000 bushels and is valued at $30,000.

About two years ago she was caught in a similar storm. Her tow-line broke and for two days she was running in the trough of the waves of Lake Ontario.

Hon. Mr. Haggart's Eyesight.

OTTAWA, April 30. Hon. John Haggart's health is such as to seriously alarm his friends. He intended leaving for Montreal yesterday morning to secure expert medical advice, but the physicians forbade him being removed. If he is better he will leave to-day for Montreal, where Drs. Buller and Desjardins will hold a consultation over the condition of his eyes tomorrow. There are fears that the honorable gentleman may permanently lose his eyesight.

RAW AS BEEF-STEAK

Baby's Fearful Suffering from Skin Disease Covering Entire Body Cured by Cuticura.

My baby was taken very sick when he was three months old, and in a few days began breaking out. We employed both of the home doctors, and they could do nothing for him. Then we sent for the best doctor in Eaton Rapids, Mich., and he doctored him for two weeks, and he got worse all the time; and then I took him to Jackson, to a doctor who attends especially to skin diseases, and then he got worse than ever. Then I told my husband we had better try the CUTICURA REMEDIES any way; did not have any idea they would do any good, but in less than two months from the time we began giving them to him he was entirely well, and not a spot on him. His hair began growing right off, and we thought he would always be bald-headed. There was not a spot on his whole body, face, and head, only his nose and eyes, but what was as raw as beef-steak. So poor there was not anything but bones, and so weak he could raise neither hand nor head.

Sell the best Clothing for the money that it is possible to buy in this town, or elsewhere.

It can't be termed simply cheap clothing and passed by with a sneer, though 'tis cheap by comparison in price with the same goods for sale elsewhere, for the Cloth is bought from the Best Makers, cut by the Best Talent procurable, and made up in the best manner.

Then the price is marked just a shade above the cost of manufacture, and away below the lowest price the same goods are selling for at any other store; hence our confidence that a dollar here goes as far as a half more elsewhere. Without a shadow of a doubt we give the most value for the least money.

Every Boy's Mother should see our Boys' Clothing. We believe we can interest the most critical people in Boys' Suits. Good Pocket Knife or Bat and Ball free with every Boys' Suit.

Men's Spring Overcoats. A very large variety. Prices ranging from $5.00 up. See them. Now is the time of the year to buy one.

BUSY! BUSY! BUSY!

Our store has been a very busy one lately, but the opening week of May bids fair to be still busier; at least we are thoroughly prepared for it.

In Dress Goods, the embodiment of genuine taste is to be found in our stock, and you have a right to expect from us the best the market produces at importing prices.

In the Millinery Department, our stock is kept constantly augmented with the choicest selections of Bonnets and Hats, Millinery Novelties, Flowers, Ribbons, Laces, Ornaments, etc., all marked at extremely low prices.

Special offerings in Printed Drapery Silks in beautiful floral effects, at 20c. per yard.

One reason why we are doing so much in Carpets and Floor Oilcloths this year, is that we seem to understand what is wanted, and lose no time in getting the right patterns at the right price.

We are offering unusual attractions to purchasers of Lace Curtains which it would be well for housekeepers to see.

Umbrellas re-covered while you wait.

THE TORCH AND BOMB.

BUT OUTRAGES WERE FEW.

Police Precautions Scared The Anarchists,

And as a Consequence the Season of Bloodshed Which Was Threatened Was Averted Except in France And Belgium—Monster Meeting in Hyde Park, London, Attended by Half a Million People—The Greatest Order Prevails.

LONDON, May 2.—The expected and long prepared for labor demonstrations were held yesterday in most of the large cities of the continent and the various manufacturing and mining districts. In many places the authorities had forbidden the holding of processions, and the workingmen observed the holiday by taking their families to suburban resorts or passing the day in a quiet manner. Thus far the advices received here show that in most places the day passed harmlessly if not quietly.

There were assemblies of workmen where speeches of a somewhat inflammatory character were made, but the police were generally on the alert and good order, if it was not absolutely preserved, was very easily restored when breaches of the peace occurred.

FRANCE.

Little Disorder and No Outrages of Any Account.

PARIS, May 2.—May-day was ushered in with the police on the qui vive and the strongly reinforced garrison of Paris ready for instant service. At 6 o'clock this morning the city wore its usual aspect and the police expected the day to pass quietly, except for scuffles.

Hitherto on May-day it has been customary for the workingmen to march to the Chamber of Deputies and present petitions. Delegates were also sent to the Hotel de Ville for the same purpose.

This year, however, the day falling on Sunday, the workingmen were debarred from following the usual custom.

A prominent featur of the election parade by the Socialists at the municipal elections throughout France to-day was the Socialist election program, and the addresses to workingmen, which were printed on red paper and carried conspicuously in the procession.

This program embraced these demands:

1. Establishment of school canteens at which children may obtain, at reduced cost, meat luncions between morning and afternoon classes.
2. Establishment of maternity hospitals and asylums for aged persons and invalid workingmen.
3. Eight hours in public contracts.
4. Labor exchange.
5. Suppression of taxes on articles of food.
6. Exemption from personal taxes for all citizens paying small house rents and heavier taxes for those paying higher rates. Proper sanitation and repairs of tenements.
7. The placing of the unemployed by municipalities.
8. Establishment of a gratuitous medical service and pharmacies with reduced prices.
9. Free public baths and lavatories.
10. Sanitariums for children of laborers at the expense of the commune.
11. Legal advice free of cost in the actions in which laboring men are interested.
12. Remuneration of municipal office holders cut down to the maximum pay of laboring men, so that the latter may not be excluded in future from the administration of the commune.
13. Workingmen acting as arbitrators between employer and employed to be paid.
14. Publication of a bulletin of the decisions rendered by the council.

The grand circus at Troyes was set on fire to-day, presumably by Anarchists, and burned to the ground. While the fire was burning a loud explosion was heard in the interior of the circus.

Reports From the Provinces Reassuring

Reports from the Provinces are reassuring. At Fourmies, where the bloody riot of last year took place, the Socialists held a monster meeting, but everything was comparatively quiet.

At Tours early this morning a bomb exploded near the Guise Barracks. The noise was terrific, and for a time it was thought that Anarchists had attempted to blow up the national powder works.

Soldiers from the barracks at once ran to the spot and found a man lying senseless in a pool of blood. One of his hands had been blown off and he was otherwise injured. He was the victim of his own crime. He was taken to a hospital under arrest and at last reports had not regained consciousness.

Paris has been perfectly quiet. The streets did not even present the bustle that is usual on a Sunday. Many persons fearing conflicts between the police and workingmen passed the day at home. There is no display of police or soldiery, but everyone knew that the authorities were ready to put down, with a strong hand, any attempt at disorder that might arise.

A Riot at Marseilles.

MARSEILLES, May 2.—A meeting held in the outskirts of this city yesterday led to a riot in which there was a free exchange of blows. The police dispersed the meeting and arrested some of the rioters.

Later detachments of cavalry cleared the crowded streets of the people.

ENGLAND.

Hyde Park Witnesses the Largest Gathering of Workingmen in Its History.

LONDON, May 2.—May-day was observed here in a very quiet manner.

A large procession formed on the Thames embankment and marched to Hyde Park, where monster meetings were held. A large number of speakers addressed the crowd, including Cunningham Grahame, the Socialist member of the House of Commons; Tom Mann, and Ben Tillett, the labor leaders, and Stepniak, the Russian Nihilist.

Resolutions were adopted declaring in favor of an eight-hour day and calling upon parliament to pass an eight-hour bill.

The meeting was the largest demonstration of workingmen ever held in this city. The workingmen began to assemble on the Thames embankment at 10 o'clock in the morning. Each contingent was headed by a band of music, and every band of paraders carried banners, while the men themselves were bedecked with rosets and flowers.

Altogether the procession made a bright spectacle, and the applause was frequent as the men marched along in perfect order and with almost military precision.

The procession occupied nearly three hours in entering Hyde Park. The number of persons who took part is variously estimated at from 300,000 to 500,000. A large force of mounted and foot police and a contingent of the St. John's Ambulance Association were present. The assemblage dispersed quietly.

The Woman's Trades Union passed a resolution in favor of co-operation to secure fewer working hours.

The Anarchists had an improvised platform in Hyde Park, from which Louise Michel and others spoke, but they failed to attract much attention.

May-day meetings were held in most of the principal towns of the Continent and were largely attended. Some violent Anarchist speeches were made, but there was no real disorder.

The Only Lawlessness.

A black bag was found in a secluded street beside the Woolwich Arsenal. It contained a quantity of gun cotton, dynamite and gunpowder and some documents.

BELGIUM.

Attempt to Blow Up the Foreign Office—Many Outrages.

BRUSSELS, May 2.—A tin cylinder with a fuse attached was found between the colonnades of the Foreign office last night. This discovery created great alarm, which was intensified by news from Liege, where two dynamite cartridges were exploded this evening, one in the residence of Senator Dealys and the other in the residence of his son.

These explosions caused serious damage to property.

Enormous crowds collected at the scenes of the explosions.

Later another explosion occurred in the choir of St. Martin's Church, by which stained windows valued at $20,000 were shattered into fragments. A fourth cartridge with a spent fuse was discovered later. A feeling of panic prevails there.

Reports from all other parts of Belgium speak of labor parades and meetings as remarkable for the display of the greatest good humor.

ITALY.

The Day Will Be Memorable for Its Peaceful Character.

ROME, May 2.—As a result of police precautions the May-day celebrations have passed without trouble of any kind. Similar precautions were taken in all the large cities and towns, and despatches from all parts of the country show that the day will be memorable for its peaceful character. Not a single act of rioting has been reported and none is anticipated.

During the evening a bomb was thrown into a casino in Sinigaglia. The missile exploded with great force. The windows of the building and all the furniture in the casino were demolished. Several arrests have been made.

GERMANY.

Cold and Rain Dampen the Ardor of the Throng.

BERLIN, May 2.—May day was ushered in with cold weather and rain. A number of excursions left the city, but they were sparsely attended.

A large number of Socialists attended the meetings arranged by the leaders, but there was no disorder.

THE DEEMING TRIAL.

General Belief That the Prisoner Will Be Hanged in Australia.

MELBOURNE, May 2.—The Deeming trial was resumed in the Central Criminal Court Saturday. The court room was crowded, the majority of the audience being women. Deeming looked pale and haggard. The keeper of the prisoner says he slept little last night and asked several times if there was any chance that he would be found guilty. He has become exceedingly nervous and is startled by every noise in the jail corridor. In court Deeming tried hard to preserve his usual appearance of indifference, but it is evident that he is losing confidence.

Dr. Rudall, one of the experts appointed to examine Deeming as to his sanity, testified that the prisoner was perfectly sane. He thought that such fits as Deeming had suffered from since his incarceration might be feigned.

The conviction is general here that Deeming would be found guilty even if the prosecution would rest its case now. He will never be taken to England, it is believed, to answer for the Rainhill murders, but will be hanged here.

LONDON, May 2.—It is reported that the German bark Thalia, which sailed from Hamburg for Adelaide, Australia, has foundered at sea and that every one of the officers and crew with only a single exception perished.

The news of the disaster was learned through the sole survivor of the ill-fated bark, who was landed at Blythe by the vessel which rescued him. No details have been received.

Brigands in Egypt.

CAIRO, May 2.—During the nights of Wednesday and Thursday a strong band of brigands attacked the Beulat Drakour Railway station, where the line to Upper Egypt begins, with the object of capturing the money in the station.

The arrival of the police defeated the object of the brigands, who, after a determined fight, retreated, leaving one of their party mortally wounded.

TERRIBLE CALAMITY.

The Raft Upset and Two Little Boys Perished.

SUTTON, Ont., May 1.—A number of boys were playing on a raft Saturday in the river, when the raft upset and Fred Daley, aged 10, and George Deering, aged 8, were drowned. The bodies were recovered.

Mr. Deering had another son killed by a falling tree four months ago.

A Quebec Murder.

QUEBEC, May 2.—At Montmorency Saturday night two brothers named Beaudoin undertook to thrash Edward Belanger, when the latter suddenly drew a knife and plunged it into the body of Cleophas Beaudoin, inflicting injuries from which he died in a couple of hours.

BIG FIRE IN WINNIPEG.

THREE ACRES COMPLETELY BURNED OVER.

The Flames Originated in the Opera House, Which Was Totally Consumed, Together With 16 or 18 Other Buildings.

WINNIPEG, May 2.—The most extensive fire in the history of Winnipeg occurred about 2 yesterday morning, and before it was got under control 16 or 18 buildings were totally destroyed, a space covering nearly three acres now being a mass of smouldering ruins.

The fire started under the stage of the Princess Opera House and was burning, it is supposed, about an hour before being discovered, as the members of a theatrical company playing there left their dressing rooms and locked up about 1 o'clock.

At 2 o'clock people in the Grand Union Hotel opposite heard a loud explosion in the theatre, and almost immediately the place was filled with flames.

When the fire brigade arrived it was found that the Waterworks Company had closed down for repairs, and as the hydrants were useless hose had to be laid to tanks some distance away.

Before the water was turned on the opera house and four or five stores in the opera house block were completely wrapped in flames, and so quickly did the block burn that not a single dollar's worth of stuff was recovered.

The flames spread with terrible rapidity, and 15 minutes after the alarm was sounded had crossed an alleyway and caught McGregor's large livery stable, in which thousands of dollars worth of carriages, etc., including all the wagons of the Dominion Express Company, were stored; so hot was the fire that none of these were saved. Then in spite of all efforts of the firemen the flames seized upon the buildings on the opposite side of the street, Frost & Wood's agricultural implement house, Green's extensive feed store, the Salvation Army barracks, a carriage repairing shop and three private residences across the street being all on fire at the same time and all being burned to the ground with contents.

Three residences and two large stables in Ross and Jemima streets, back from the opera house, were also destroyed and little or nothing saved. The Grand Union Hotel was in imminent danger, but was saved.

Ruscoe & Swift's "Uncle Tom's Cabin" Company lost everything, including scenery, wardrobes, wearing apparel, etc.

The proprietors of the opera house are heavy losers. They carried only $8000 insurance, which would barely cover scenery and properties. The total losses are very heavy, with insurance exceedingly light.

CUT IN TWO.

A Sombra School Teacher's First Trip Cost His Life.

SAULT STE MARIE, Ont., May 2.—The steamer Pasadena caught Watchman George F. Ford against the dock at the canal Saturday as he was climbing down the keel rope and literally crushed him in two. The lower part of the body dropped into the canal and has not been recovered. The upper part, with the heart forced between the neck and chest, fell over the dock. Ford's parents reside near Courtright, Ont. He had been a school teacher at Sombra, near Sarnia, and this was his first trip.

The Glenora Turns Up.

CHICAGO, May 2.—A despatch from Kingston to the underwriters announced that the missing barge Glenora was safe, having fetched up on Michipicoten Island after breaking loose from the Glengarry in Thursday's gale on Lake Superior. There were three feet of water in her hold. The tug Walker has gone to her assistance from the Sault.

Lundy to Be Arraigned.

BRAMPTON, Ont., May 2.—Saturday the crown attorney received word from the Attorney-General of Ontario that, owing to the seriousness of the crime, it would be necessary to bring Lundy before the magistrates. An examination has been fixed for Saturday, May 7.

Old Man Boiled Alive.

OTTAWA, May 2.—While an old man named Cailler, living at Greenville Bay, was engaged in boiling sap he accidentally fell into the boiling fluid. Although fearfully burned, he managed to get out and make his way to his home, on reaching which he became unconscious. When his clothes were removed the whole flesh from the neck downwards came off with them, leaving all the bones of the body exposed. The old man lingered in terrible agony for a few hours and then expired.

Mrs. Alex Macaulay of Lindsay, Ont., died suddenly while on a visit to her sister-in-law, Mrs. W. P. Macaulay, at Victoria, B.C.

William Armstrong, C.P.R. brakeman, fell under the wheels of a freight train at Winnipeg yesterday, losing both legs. He died in the General Hospital later.

For publishing an article which a jury thought insinuated that Mrs. Isaac Durocher was responsible for her husband's death The Montreal Star has to pay the widow $250.

Compulsory Voting in Quebec.

QUEBEC, May 2.—At the meeting of the Quebec Legislature Saturday, bills were presented and read a first time to prohibit lotteries and to provide for compulsory voting. A resolution of condolence with Her Majesty in the death of the Duke of Clarence was passed and the Legislature adjourned until Monday.

Cabby Kills a Policeman.

MONTREAL, May 2.—Constable Adelard Rochen yesterday attempted to intercept Regis Labell, a cabman who was driving furiously along the street. The latter whipped up his horse to a still faster gait, when the shaft struck Rochen just over the heart, knocking him down. Then the horse trampled on the prostrate officer, knocking out his right eye and cutting his head in a fearful manner. A severe hemorrhage of the brain ensued and Rochen's death is momentarily expected. Labelle was arrested and jailed.

Hanged Himself With Blue Ribbon.

BOSTON, May 2.—John Lee, a professional thief in Charles-street jail, awaiting the action of the grand jury on a charge of burglary, tied some blue ribbons which the jail officials had permitted him to keep, to the ventilator at the top of his cell, put the other ends around his neck and swung himself off from a settee. He was dead when found.

A New Gerrymander.

Sir John Thompson on Tuesday introduced his Redistribution Bill. It makes some changes in the relative strength of the Provinces in the Federal Parliament. Nova Scotia is to have 20 members instead of 21; New Brunswick 14 instead of 16; Prince Edward 5 instead of 6; Manitoba 7 instead of 5. The other Provinces remain with the same total representation as before. Ontario will have 92, Quebec 65, British Columbia 6 and the Territories 4. As between the Provinces we may presume for the present that these changes are the legitimate result of the showing of the census. It is when we come to examine the readjustment of the constituencies in each Province that we unfold a scheme at least as cunning and villainous as that of the Gerrymander Act of 1882

The bounds of the city of London, stolen from the Liberals a few weeks ago, are changed, with the object of making it a safe Tory seat. No exception could be taken to a rearrangement which would add to the constituency suburbs which are really parts of the city. That is just what the new gerrymander does not aim at. London South is part of the city. But it gives a Liberal majority of 100, and is therefore left in a rural constituency which is now a Liberal hive. London East is also, properly speaking, part of the city, but it is also Liberal, and is therefore not added to the city constituency. The city constituency is enlarged by the addition of London West. That is not a part of the city at all, but a separate incorporated village. It is added to the seat stolen from Mr. Hyman, simply and solely because it is Tory, and will make the operation of theft less troublesome for the future.

Western Ontario is already, as Mr. Mills pointed out, under-represented, while Eastern Ontario is over-represented. Yet, when it becomes necessary to obliterate an Ontario constituency in order to give another member to Toronto, it is from Western Ontario, already inadequately represented, that a constituency is taken. And how is this operation performed? By uniting the two counties of Welland and Lincoln, and so reducing the representation of the electors in these counties as a punishment for electing Liberal members of Parliament. Another re-arrangement makes South Wentworth a safe Conservative seat and amalgamates North Wentworth and North Brant. The two last now return Liberals, and this is the reason their voting strength is reduced. The whole Niagara district is gerrymandered beyond recognition.

Prescott and Russell now both return Reform members. One of the most infamous provisions of the bill is intended to give Russell to the Conservatives by taking the great Liberal Township of Clarence out of it and adding it to Prescott.

The gerrymander of 1882 was unjust enough to satisfy any ordinary scoundrel. It elects two Conservatives to one Reformer in a Province in which the Conservatives are in a minority. Middlesex County, as Mr. Mills said, gives a Reform majority of 500; yet it elects three Conservatives and only one Reformer. But Sir John Thompson seems determined to outdo his predecessors in infamy. The correspondent of the *Telegram* at Ottawa says:—"Old Parliamentary hands, who are competent to look upon matters with an unprejudiced eye, says that this is the worst gerrymander ever known in the history of Canada. This is an unprejudiced opinion."

In Quebec the Liberal counties south of the River St. Lawrence are gerrymandered almost ugly and their total representation greatly weakened.

Montreal is to have five members and its suburb, Hochelaga, two. Toronto is to have only four. She is entitled to five at least, but so do her this justice would have interfered with the gerrymander of the rural constituencies of Ontario.

The country may rest satisfied that the Liberals will not submit tamely to these outrages. They are strong enough in the House of Commons to prevent a dollar being voted or a bill advanced a single stage until this infamous measure be modified. In the meantime we feel sure that public opinion will condemn the gerrymander in tones that the Ministers cannot fail to hear. The Quebec general elections showed that there *is* in Canada an honest, independent public opinion which must be counted with. The Toronto election yesterday is another sign that the bosses are losing their power. Welland, Lincoln and Prescott have shown that there is a body of electors in Ontario who cannot be threatened or bribed into expressing their approval of villainy. We venture to predict that the bill introduced by Sir John Thompson will not be allowed to become law.—*Globe.*

Canadian Lambs.

From the *Mail* we take the following letter which deals with a matter of great importance to farmers and meat dealers: "As the Canadian lamb season will soon begin, we wish to draw the attention of the farmers and dealers of Ontario to a rule that has been adopted by the dealers on this market which is of great importance to them. It is in regard to the castration of lambs, and as it is the intention of dealers here to force a difference of one cent per pound between ram lambs and ewe and wether lambs, in favor of the latter, we hope that you will give this letter sufficient prominence, so that it will be copied by all local journals throughout Ontario, so that this fact may be fully brought to the notice of the farmers in time, and thereby enable them to save thousands of dollars by having all their ram lambs castrated that they intend for the market. We have always advocated the castration of lambs, knowing that it would be beneficial to all in the trade, as ram lambs have always been a drug on the market, and very difficult to dispose of, but as the farmers have seemingly ignored our advice, the dealers here have taken this action to protect themselves, and as the castration is a very simple matter, we hope the farmers of Ontario will see the benefits to be derived by doing it, as their lambs will be more saleable, will thrive better, and will always be in demand."

A Doctor's Confession.

His Statements are Not Overdrawn.

"A truly terrible disease is this nervousness," said a prominent Montreal physician, the other day. "It is making terrible havoc in the ranks of society, and it works in such a way that few people properly realize the great danger. It seems to grasp some of our brightest and best people; it rarely selects a victim from the poorer classes. The over working of the brain and mind, and loss of rest, cause most of the nervous ailments that we find.

"In my daily practice I meet with men and women suffering from insomnia, nervous prostration and headach —all the result of improper living and dieting. I find such subjects difficult to treat, as the majority of them are inclined to be self-willed."

The worthy physician might have made his statement much stronger without passing the bounds of truth and actual experience. He could have stated the fact—a truth well known to medical men—that this disease of nervousness, in hundreds of cases, leads on to insanity and that dreadful paresis.

Physicians in every part of Canada know the terrible ravages that nervous diseases are making. The dreadful work is increasing as can be proved by the records of our insane asylums and retreats.

The terrible calamity, however, is meeting with a great check where the proper remedy is being used. It has been found, that whenever Paine's Celery Compound is used for any form of nervousness the results are always grand and satisfactory. No other medicine known to the medical faculty has ever produced such good. It acts directly on every part of the nervous system, giving it tone, power and strength. It produces that natural and quiet sleep so much needed by every nervous person; it gives grand digestive vigor, and builds up every tissue that requires strengthening. It is just what our nervous people want; they are wise when they use it, and foolish when they tolerate other methods of treatment. Paine's Celery Compound at the present time is saving all our public institutions is doing a glorious work, and must continue to win popularity as time goes on.

The Creamery is Coming.

There is now a fair prospect that the time is not distant when creameries will do for Canadian butter what cheese factories have done for cheese. As the result of initial experiments, Professor R. Harcourt expresses the opinion that, in a few years, Canada will be able annually to send $5 000,000 worth of butter to England. From the Mount Elgin Creamery, butter sent to England and British Columbia brought 24 and 25 cents a pound, and that produced at Woodstock fetched 30 cents per cwt. less. Our best Canadian butter is not yet quite up to the Danish standard. Of the £8 000 000 worth of butter imported by England last year, Denmark supplied 40 per cent.

Nearly every one needs a good spring medicine and Hood's Sarsaparilla is undoubtedly the best. Try it this season.

Milburn's Cod Liver Oil Emulsion with Wild Cherry and Hypophosphites combines the curative powers of the pectoral remedies mentioned in the most perfect and palatable form. Price 50c. and $1.00 per bottle. dw

Sir Arthur Sullivan.

LONDON, April 30.—Sir Arthur Sullivan who has been ill for some time with renal calculus had a relapse yesterday. Morphia was injected after which the patient slept for several hours awakening a trifle better. The Queen and members of the royal family make urgent enquiries as to Sir Arthur's condition.

SAN FRANCISCO, April 30.—The steamship Belgic brings details of the great fire at Tokio, Japan, April 10. The fire started early in the morning in the house of a small restaurant-keeper in Saraga Kusho, Kanda-Ku, from a candle. It spread in three directions, through densely populated districts. The fire was extinguished by noon after consuming 5000 houses on 20 streets, including 40 warehouses, police station, paorama building, Russian school, Tokio, English school, Kinji school and residences of Viscount Foda, Admiral Akamtau, Count Karasumu and Marquis Tokudaiji. The details of loss of life are meagre. It is variously estimated that 17 to 45 perished.

Trouble In Afghanistan.

LONDON, April 30.—A despatch from Peshawur, India, states that the troops of the Ameer of Afghanistan, stationed in three villages between Herat and Bamian, have been treating the inhabitants in such an outrageous manner, holding neither their property nor womankind sacred, that the men of the villages joined forces and made attacks upon the soldiers.

The troops sustained a severe defeat, and at last reports were holding out against extinction behind barricades.

The people are thoroughly aroused and determined to wipe out their long-standing scores against the soldiery, who have treated the villagers far worse than an enemy would have done. The situation is threatening, and reinforcements are being hurriedly despatched from Herat, Candahar and Cabul.

Consumption and Lung Difficulties

Always arise from particles of corrupt matter deposited in the air cells by impure blood. Purify that stream of life and it will very soon carry off and destroy the poisonous matter, and like a crystal river flowing through a desert will bring with it and leave throughout the body the elements of health and strength. As the river, leaving the elements of fertility in its course, causes the before barren waste to bloom with flowers and fruit, so pure blood causes the frame to rejoice in strength and health, and bloom with unfading beauty. All medicine dealers sell Dr. Morse's Indian Root Pills. dw

An Enterprising Hotel Man.

It is stated that an hotel man in Toronto has posted up a notice stating that all diners at his hotel who use Burdock Blood Bitters to tone up their appetite and strength will be charged 20 per cent. extra. We do not know how true this is, but B.B.B. undoubtedly does the work and does it quickly and well. dw

My Burden was Removed.

After years of suffering from piles I found one remedy only to bring me permanent relief—that was St. Leon Mineral Water. I felt its good effects gaining from the start, and in time my old enemy left me, and though now in the "sear and yellow leaf" I enjoy good health, thanks to St. Leon Water.

S. L. JONES, Printer,

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Their really gentle action and good effect on the system really make them a perfect little pill. They please those who use them. Carter's Little Liver Pills may well be termed "Perfection." dw

Seven Years' Suffering.

GENTLEMEN,—I had suffered very much from inflammatory rheumatism, which through wrong treatment left ugly running sores on my hands and feet. With these I suffered for seven years, during which time I had neither shoe nor stocking on. I commenced using B. B. B externally and internally, using the Pills also, and I can say now that the sores are entirely cured, and have been for some time. I believe the bitters were the means of saving my life.

MISS GAYLORD, SOPRANO,

Appreciated.

Thanks are due our member J. R. Stratton, M.P.P., for calling the attention of the Minister of Education to a grievance re School Section No. 10. A clause was added to the school law making clear Section 109, whereby a Township Section attached to a village, town or city for school purposes, is exempt from the general township rate.—*Lakefield Chronicle.*

CHORUSES BY SOCIETY.

Leah, the Forsaken.

The Camille Townsend Company presented "Leah, the Forsaken" in the opera house on Saturday evening to a fair house. Miss Townsend as usual acts with grace, dignity and polish any role which she takes or any character which she impersonates, and as Leah, the Jewess who is forsaken, despised and rejected, she fully maintains her eminent reputation. Mr. Wilcox as "Nathan," W. R. Martin as "Father Herman," and Harry J. Harrison as "Father Lorenz" acted their several parts with a quiet dignified mein and splendid ability. Will C. Thompson as "Ludwig" the doctor, is capital at burlesque and ridicule. His antics and aphorisms pleased immensely.

SEATS AT THOMPSON'S.

Our National Game.

Lacrosse is likely to have a big boom this year, and the boys are busy making active preparations for a lively season. In order to give an extra spurt to the game in town, the popular clothing firm of H. LeBrun & Co. will give away free a dandy lacrosse stick and ball to every boy buying a suit of clothing at the City Clothing Store. This will no doubt prove a very tempting inducement to the boys—more especially to Messrs. LeBrun & Co. are so well known to excel in boys' suits, which are always good value at the prices offered, without the present of the lacrosse outfit. It is quite evident that Mr. Harry LeBrun, the junior member of the firm, still retains his old time enthusiasm for our national game, which led to his being chosen President of the Dominion Lacrosse Association. d98w17tf

Mrs. Joseph Redmond, Elm, Grove, Otonabee, is dangerously ill, very little hope being entertained of her recovery.

Evangelists Crossley and Hunter have returned to St. Thomas from Manitoba. They will visit Europe in June.

Mrs. Jane Wilson, of Cavan, died yesterday morning. She had attained the ripe old age of 78, and was universally respected.

The Cobourg *Post* says:—George Spence was in Peterborough a few days this week. Dr. A. L. Stephenson, of Peterborough, was in town on Tuesday.

Mr. Geo. W. Rose, of Queen's University, Kingston, was in town this morning. He left for Apsley where he will teach school during the summer months.

Rev. E. F. Torrance, at St. Paul's church on Sunday evening, preached a special sermon to women—on their responsibilities, duties, merits and shortcomings in relation to the Christian life.

Mr. Robert Sutherland, whose injury by an accident at the Carbon Works was recorded in Saturday's EXAMINER, is not injured so seriously as was at first thought. He is improving and will soon, it is hoped, be able to be about.

Messrs. G. H. Giroux, president, and Wm. Hogan, recording secretary of Branch No. 21, Emerald Beneficial Association, are delegates to the annual grand convention of the society, which is being held at London this week. They leave this evening for London on the 5.10 G.T.R. express.

Y. M. C. A. Notes.

The young men's rally Saturday night was addressed very profitably by Mr. Isaac Richardson. We regret more of our young men did not hear this address. The singing was cheering, being lead by the Orchestra. A profitable after meeting was held.

Mr. J. H. Neal led the Bible Study and Consecration Service Sabbath morning with much profit and blessing to all present.

The Personal Purity meeting Sabbath afternoon was a helpful service. Mr. McCullough gave a short, pointed and earnest address, which will bear fruit in the lives of those present.

Last evening the hall was crowded at the Gospel and Song Service. Rev. B. Canfield Jones, Port Hope, gave a thoughtful and impressive address on "Missions." The Holy Spirit was present in power and all received a blessing which will surely spread and results will follow.

County Court Trial

Judgment was given by His Honor Judge Weller Saturday in the case of Henry Best vs. Freemont Crandle, of Lindsay. The action was brought by the plaintiff last August, for trespassing, and trover to recover damages for the wrongfully taking possession of several cords of wood on the banks of Little Ball Lake. Defendant contended that he had bought the wood from one Trennam, who owed him for towing, and he wanted to turn one action against the other. After the action was entered, defendant paid $70.40 into the court, but plaintiff refused to accept this and proceeded with trial. The case has been enlarged several times. Judgment for plaintiff for $79 80 and costs. Edmison & Dixon, for plaintiff; McIntyre & Stewart, Lindsay, for defendant.

An Unfortunate Coincidence.

Some of the boys rather enjoyed a quiet laugh on Sunday night, and they had great reason to also. A couple of ladies from Emismore had left their horse boarding at a certain hotel stable in town last week, and the proprietor fully expected the animal would be removed the next day. But no, it remained undisturbed and unclaimed until Sunday, when after remaining idle in the stable for three days, the genial host thought that it would be no harm to attach the beast to a buggy and enjoy a quiet drive to Mud Lake and return, merely to give the horse exercise. He did not expect the ladies after the horse, and anyway if they did come they were friends of his and would say nothing anyway. But as fate would have it, about half an hour after the horse was missing from the stable its rightful owner turned up. Needless to say, when the animal returned a scene, such as you can only imagine and not describe, ensued.

A Theatrical Feast.

Considerable interest is evinced in the coming engagement of Miss Hettie Bernard Chase and her company of players which will present for the first time in this city an original melo-dramatic story entitled "Uncle's Darling" or Alaska, by the young and talented author, Mr. Chas. W. Chase. Mr. Chase is one of the most promising writers of the present day, his plays are of a modern type and do not appeal to a certain class of individuals but interest and please the masses and hold the attention of the most critical audience to the finish. Mr. Chase in selecting the location of his story picked the most picturesque portion on earth—the wild, wonderfully majestic and semi-civilized territory of Alaska—which leaves a scope for scenic display that is unlimited. Not only have all these important points been seized upon by the management, but in order to add to the general realism a number of animals native to that clime including elks, reindeer, bears, Esquimaux dogs with furs, sleds, snow shoes and other paraphernalia have been imported at an immense outlay in order to present a new stage representation.

—The work of painting the "Golden Eye" is about completed. The hull, cabin and decks have been painted white, while the cornice and trimmings have received coats of blue and red.

—The Athletics of Madoc, Peterborough and Kingston lacrosse clubs are in the Eastern District of the Canadian Association. Representatives meet at Madoc On May 14th, to arrange games.

—Whenever the outside doors of the post office coming off and the passers in and out deprived of the extreme gratification of having their noses flattened every time they make ingress or egress?

—The Canadian Endeavor Convention of the counties of Northumberland and Durham opens in Port Hope to-morrow night. Several will attend from Peterborough. Mr. R. J. Colville will deliver an address.

—When are the trees going to bud forth in all their green foliage? A letter received in town from Sarnia, Ont., states that nature is very advanced up there, the trees having taken on their heavy coat of green some days ago.

—The general remark of yesterday was "How scarce the dogs are on the streets." Unregistered ours slunk in back yards, narrow lanes, dark recesses and unfrequented alleys in order to keep out of the deadly shot of the police.

—We have received a copy of the Warkworth *Journal*, a new paper just issued in that village by Messrs. Bywater & Henry. It is an eight-page paper, and bears a creditable appearance. We wish the young men success in their venture.

—The Belleville Skating Club have wound up the business of the winter with a surplus of $100 on hand, half of which was granted to the hospital and the other half donated to the Mechanics' Institute. This is an excellent record and showing.

—Mrs. Sherwood's residence "Inglewood" was sold by public auction on Friday afternoon. The highest bids reached $9,000, and it rests between two very prominent citizens as to whom will raise the "knock down" $10,000 and claim the handsome property.

—The town council will hold a regular meeting in the council chamber to-night. The sewerage committee will present their report to the council. The Fire, Water and Light Committee which met on Saturday night and agreed upon a report, will report also.

—Miss Hattie Bernard Chase who will be at the Opera House here on Saturday night has purchased for $22,000 cash the magnificently furnished private car "Minnehaha," and will rechristen it "Chase." It is the most luxuriously appointed palace on wheels ever turned out of the car shops of America.

—Street Inspector Pope has been having all the streets running from Brock street north raked and cleaned by a gang of men. Good work has been done. If people in making their gardens did not throw stones on the road, it would be appreciated, and there would be fewer stones to be removed from the road when being cleaned.

—The Peterborough Cricket club have about completed negotiations for the services of a coach during the coming season, the necessary funds having been voluntarily subscribed. He is a young Englishmen, of Toronto, and is thoroughly at home as a bowler and groundsman. The cricketers ought to flourish under the tuition of such a first-class "pro."

—The preacher from his "coign of vantage," the pulpit, has an enviable opportunity of studying floriculture, and an obvious incentive to introducing flowery passages in his sermon. He gazes down on a brilliant parterre of the loudest kinds of flowers adorning the ladies' bonnets—pansies, roses, hyacinths, chrysanthemi, snow drops, daffy-down-dillies, *et hoc genus omne* of the floral world. How suggestive a theme contrasting the flowery boulevards promenades of worldly pleasure and the stony, flint-paved bridle path of righteous living!

Church Chimes.

Rev. Alex. McWilliams, B. A., pastor of St. Andrews church, conducted the services in the First Presbyterian church, Port Hope, yesterday. His discourses were earnest and practical, and large congregations were present at both services.

Owing to Miss Clark, organist of St. Andrews church, being taken suddenly ill on Saturday, Mr. John Crane effectively presided at the organ yesterday. In the evening the anthems "Glory to My Shepherd" was finely rendered. "Jesus Lover of My Soul," sung by a quartette composed of Misses Henbeck and Harris, Messrs. Jones and Ketchum was also much admired.

Rev. G. H. Bailey, of Hall's Bridge, conducted the services in George street Methodist church yesterday. The quarterly love feast was held in the morning and largely attended. In the morning the rev. gentleman preached an earnest and convincing sermon from Paul's prayer for the Christians in the ii chapter of Ephisians. In the evening he took for his subject "Christ as our example," which he handled in an eloquent and forcible manner showing how in many ways the example was far ahead of precept. At the close the sacrament of the Lord's Supper was administered, and twenty-three persons were received into the membership of the church. The quarterly contributions of the congregation were large. Large congregations were present at both services.

Over 4,000 Invalids Rejoicing.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5.00 per month*, and furnish medicines free of cost. A more liberal offer it would be difficult to make. No extra charge for anything: *$5.00 per month and medicines free.*

These eminent doctors treat every variety of disease and deformity, and perform all surgical operations, viz: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

Catarrh, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by express, but at least one personal interview is preferable.

Undoubtedly many diseases may be prevented if the blood is kept pure and the general health-tone sustained by the use of Hood's Sarsaparilla. When this is done, the germs of

La Grippe, Diphtheria

Pneumonia, Scarlet and Typhoid Fevers, Malaria, etc., cannot lodge in the system. After all such prostrating diseases Hood's Sarsaparilla has been found of inestimable value in restoring desired health and vigor, and purifying the tainted blood.

For example, read the following from Miss Mattie A. Cobb of Providence, R. I., and her mother. Miss Cobb is a young lady of 18, a

Picture of Health

and is in the front rank in her studies in the High School. Her father is a well-known police officer:

"Messrs. C. I. Hood & Co.:

"I write to tell how much good Hood's Sarsaparilla has done for me. Sometime ago I had diphtheria and was sick for a year afterward, being

Weak, Blind and Helpless

I used one bottle of Hood's Sarsaparilla and it made me real strong." MATTIE A. COBB, South Chester Avenue, Providence, R. I.

"As my daughter wanted to write how well she liked Hood's Sarsaparilla, I thought I would say a few words. I think it is the

Greatest Blood Purifier

ever brought before the people. Some of my friends say 'go away with your medicine.' I said the same once, but since my daughter has taken

Hood's Sarsaparilla

My opinion has changed considerably." MRS. GEO. N. COBB, Providence, R. I.

HOOD'S PILLS do not weaken the system like other cathartics, but actually tone up and give strength to the patient.

AN article, copied from the *Globe*, in reference to the proposed Dominion Gerrymander, denounces the iniquity of depriving the Niagara district of a Liberal member by uniting Lincoln and Welland to return one member. But the *Globe* should remember that this action on the part of the Government is the strongest condemnation of their trade policy, which has made this reduction to a certain extent justifiable. It is probable that no two counties in the Dominion have suffered so much from loss of population as the border counties of Lincoln and Welland. If the population has decreased so greatly as to justify Sir John Thompson in depriving this district of one member so much the worse for his trade policy. As a matter of fact these counties have lost population deplorably. In the neighbouring city of Buffalo (in the United States) there are 20,000 Canadians, and the weekly papers of Welland contain depressing records of the best citizens seeking that prosperity in the United States, which a fatuous policy of trade restriction deprives them of at home. As a consequence property has decreased largely in value. In the once thriving town of Welland, the homestead of the late Sheriff Hobson, which was worth between six and eight thousand dollars a few years since, was sold a few days ago for fifteen hundred dollars, a little more than half of what the heating apparatus of the residence cost, leaving the residence itself, stables and seven acres of land at about eight hundred dollars. The N. P. is a great thing to boom the country ahead.

Rate of Corporation Wages.

To the Editor of the Examiner:

DEAR SIR,—In accordance with the desire of Local Assembly 6952 of Knights of Labour, I am requested through the medium of your valuable paper to "publicly express the thanks of the assembly, to the council for their action, in passing a motion last Monday evening, which has in certain respects so far expressed compliance with the requests contained in our late petition. Our thanks are also due to the many outsiders, who showed themselves interested in the labor cause by signing the petition, but we feel ourselves more especially indebted to the Manufacturing Committee, viz. Messrs. Cahill, Bradbara, Meldrum, Kelly and Donaldson, for the gentlemanly courtesy with which they received our deputation to confer with them on the subject of the petition, and we are pleased to state that these gentlemen showed by their manner and conversation with us, that they are thoroughly interested in the welfare of the workingmen of the town. We have only one regret to express in reference to their report to the council, viz., that the term "maximum," used in reference to the rate of wages should have been adopted instead of "minimum," or at all events if they had met us half way and called it the average rate of wages we should have been more encouraged."

With reference to the reluctance of the council to make the several requests contained in our petition, the subject of a permanent by-law, on the plea that such a course would not be legal. I would respectfully quote an extract from report No. 33. of the Committee on Works, as adopted by the city council of Toronto on the 23rd day of December, 1889:—

RE LABORER'S PAY.

Your committee beg to recommend the adoption of the following motion of Ald. Fleming, viz: "Ald. Fleming, seconded by Ald. Pope, moved that in future a clause be inserted in all contracts passing through this council to the effect that contractors on city works should not pay their men a less rate of wages than fifteen cents per hour."

Thanking you for your space I remain

Yours, etc.,
RECORDING SECRETARY.

Rev. C. E. Jones of Port Hope Conducts the Services in St. Andrew's Church Yesterday—Practical Christian Discourses Told in an Earnest and Thoughtful Manner.

Rev. B. Canfield Jones, M.A., pastor of the First Presbyterian church, Port Hope, preached in St. Andrew's church at both the morning and evening services of yesterday. Rev. Mr. Jones is a young and talented preacher of good address and commanding appearance. He speaks in a pleasant smooth style and holds his audiences interested by the earnestness, decisiveness and thoughtfulness of his remarks. In the morning the rev. gentleman preached a helpful and instructive sermon to a large congregation from the words found in John, the 19th chapter and 5th verse, "And Pilate saith unto them, Behold the man!

In the evening he spoke from the text I. John, 3rd chapter, 2nd verse, "Beloved, now are we the sons of God, and it doth not yet appear what we shall be, but we know that when he shall appear, we shall be like him, for we shall see him as he is." The preacher said that life for young people was an ideal, but for the old it was not so much of an ideal as a delusion. The promises of life were seldom kept and all should have some ideal before them in life. It was for this we lived and if it were not for this none would have gone so far in the Christian life or lived such high, generous and noble lives in fulfilling the ideal life of a Christian. By faith in Jesus Christ is the way we live. We have no more right to commit sin than had Christ Himself. He bore all our sins and took all the blame, reproach and evil consequences of them upon Himself. He was made sin for us who knew no sin, but the sin of Jesus was outward. He bore it all being our representative. We were born of God and should be dead to sin. If we say we had no sin we made God out a liar and the truth was not in us. If all this was so, shall we give up the ideal? No! we should not, but press on in the great cause for Christ and the church, recognizing in the struggle that God is our hope. John the Apostle held up to the multitude what God really was and the life they should live. There were only two things for us to do, live for Christ or without Him. Life was full of inconsistencies. We should teach the people how to live by living ourselves for Christ. Many men were weary of the Christian life by seeing the shortcomings and disappointing results in professed Christians. We are living for the great hereafter, because John says if we are true and earnest Christians we shall see Christ and be like Him in all His glory. The man who kept Christ's law really dwelt in Him, and He in him We know that He abideth in us by the spirit He hath given us. The only way to be like Christ was to be like Him in all things—in our lives and actions. The disciples on the mount taught the people to glorify God. If we as Christians were called upon the same as God was to be crucified, we should do it readily for His sake. We should suffer any trials and temptations, undergo any pain and suffering for the sake of Him, who died for our sins. We should live as the angels, because our progress in Christian living in this life was very short. The reverend gentleman closed his discourse by supplicating God to teach men to live as they ought to live and fulfil the great ideal of a noble Christian life, Christian precept and example.

Yesterday at St. Luke's.

Rev. Mr. Hedley of Toronto, Conducts the Services Yesterday—The New Rector Will be Here in a Fortnight.

The services at St. Luke's church yesterday were conducted by the Rev. C. W. Hedley, a student of Trinity College, Toronto. Mr. Hedley ably conducted the services for three weeks last summer while Rev. Mr. McCleary was enjoying his holidays. In the morning he spoke from the words found in St. John, 18th chapter and 4th and 9th verses. "Jesus therefore knowing all things that should come upon him, went forth and said unto them, whom seek ye?" "that the saying might be fulfilled which he spake, of them which thou gavest me I have lost none."

In the evening there was a very large congregation present. Mr. Hedley based his remarks on Leviticus, 6th chapter and 13th verse. "The fire shall ever be burning upon the altar, it shall never go out. There were two sublime thoughts embodied in those words, that of perpetual worship and perpetual sacrifice. The blessed beings around the throne of God, never ceased praying to their Redeemer. The fire of worship, love and devotion on earth never goes out although it may burn low and become dim yet the incense of prayer is ever streaming upwards. There is a band of faithful ones whose prayers are ever going up in spirit and in truth. We should not forget the altar of our hearts. Paul the apostle meant this when he said, "pray without ceasing." We as Christians should always be ready to pray, and our hearts and affections pointing heavenward should always be ready to offer up prayer to God. We should always offer these bodies of ours as a perpetual sacrifice to God, ever keeping in mind the eternal undying sacrifice of the cross itself and the light of sacrifice to be wrought in the life of Jesus. Sacrifice must have a living example. Besides the never ceasing sacrifice of prayer and praise, the disciple of Jesus must be able to follow Him in self-denial and make his will and power subservient to God's will in all things. We must sacrifice our all to the love of Jesus and never let the fire of sacrifice die or go out until it be lost in God's holy presence.

The newly appointed rector Rev. Herbert Symonds, M.A., professor in Trinity College will conduct the services of St. Luke's on Sunday, May 15th, and on the following Monday evening the members of the church will tender Mr. Symonds a hearty reception.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,083 in amount. Of these, 186 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,583, upon 2,871 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,-191.06.

At 31st December last there were in force $56,218,318.08 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,-124.87, having being increased during the year by $1,041.684 78.

The death claims for the year were upon 192 lives under 243 policies for $511,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its re-

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized.

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M. G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq, New York State.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting. I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,-255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the companys assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted, was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,884.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 32 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperity as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen.—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of careful management in the interest of the company. I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day: now it is $7,000 a day, and it was as much then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest. I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Farrie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

"August Flower"

Dyspepsia.

There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion,

Indigestion.

and Constipation we have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'We are out

Constipation

of August Flower, and I think you had better get another bottle.' I am also troubled with Indigestion, and whenever I am, I take one or two teaspoonfuls before eating, for a day or two, and all trouble is removed." ●

Burdock Blood Bitters.

CURES DYSPEPSIA

By acting upon the liver, stomach and bowels and purifying the blood, it removes every particle of the foul, impure or morbid matters which obstruct the proper working of the digestive organs and cause dyspepsia. This explains why B.B.B. succeeds in curing even the most obstinate cases.

Burdock Blood Bitters.

CURES CONSTIPATION

By regulating the bowels and removing all foul accumulations, it promptly and permanently cures this disease no matter of how long standing the case may be. B.B.B. acts in a natural, thorough and pleasant manner, never causing nausea or griping.

Burdock Blood Bitters.

CURES BILIOUSNESS

By regulating and toning the liver and removing excess of bile, this distressing disease, which is the frequent cause of sick headache, dizziness, etc., is cured without fail. No remedy has ever performed so many permanent cures in the same space of time as has B.B.B.

Burdock Blood Bitters.

CURES SCROFULA.

This scourge of humanity arises chiefly from bad blood, for which B.B.B. has proved itself the most successful remedy of modern times. It completely frees the blood of every impurity, from a common pimple to the worst scrofulous sore. Pimples, blotches, boils, rashes, eruptions, sores, etc., vanish at once before the wonderful purifying powers of B.B.B.

STORE STEP SERVICE.

STORE STEP SERVICE.

A Device to Enable Merchants to Utilize the High Shelves.

A much-needed and practical device for reaching high shelving, utilizing the hitherto unoccupied space in high stores, making the upper shelving as valuable as the lower, is shown by the accompanying illustration. The ladder, having rolls at top and bottom, is easily propelled by the person on it without coming down to the floor.

One of the most important features of this device is the direction of the slant. It has been a constant study how to get a step-ladder which did not face the shelves, and thereby giving a very steep ascent, and necessitating the use of the hands in climbing up, and also to get something which would not interfere with articles left on the edge at lower part of the shelving. The device avoids all those objections and leaves the ledge free to be used, with no track on it to be kept clean, or nothing running over it to knock anything off.

The New Italian Rifle.

The weapon is 1·2 meters long, exclusive of the bayonet; and of 6·5 millimeters caliber. The most important factor in connection with the rifle is the smokeless powder cartridge, which, owing to its light weight and small size, permits the number of cartridges carried by the soldier to be augmented to 160. The initial velocity of the bullet is 720 meters per second, and with regard to its penetrative force, it is said that the ball will pierce two mattresses and two planks 12 centimeters (5 inches) thick, at a distance of 1,200 meters, or 4,000 feet. Loading is effected by means of magazines containing five cartridges so arranged that a repeating fire may be maintained until the magazine is exhausted. A few experts who witnessed the experiments assert that the new rifle is too short; but the majority were convinced that the weapon is the best and most destructive at present existing among European armies.

Dr. William's Pink Pills are a specific for troubles arising from overwork, mental worry or excesses of any kind. G. A. Pelletier, Montreal, writes:—I am more than pleased with the results of the use of Dr. Williams' Pink Pills. I was suffering from a loss of mental faculties, and they have completely restored me. Sold by all dealers, or postpaid on receipt of 50 cents, or six boxes for $2 50. Address Dr. Williams' Med. Co., Brockville, Ont., or Morristown, N. Y. dw

The Best in the World.

The oil of the Norwegian Cod Liver in nature's grand restorative, and is only found in its entirety and purity in Miller's Emulsion. It is the most palatable and wholesome preparation of Cod Liver Oil in the world, and is now being taken by invalids—particularly those afflicted with consumption—with the most astonishing success. It is the greatest blood and flesh maker in existence, and is a life-saver to consumptives. In big bottles, 50c. and $1 00, at Peterborough drug stores. dw

As an aid to internal remedies for skin diseases Dr. Low's Sulphur Soap proves very valuable. dw

The ill condition of a single organ, the liver for instance, may bring on the gravest disorders, which would surely have been obviated by the use of Dr. Say's Remedy.

Cure for Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package.

An Infernal Machine.

PARIS, April 30.—An attempt was made yesterday to blow up the town hall at Dijon, dynamite bombs were exploded. As soon as the noise of the explosion was heard police hurried to the scene. They found a burning fuse attached to a very dangerous infernal machine. They at once extinguished the fuse and then saw that if the machine had been exploded, the loss of life and property would have been appalling to contemplate. The evident intention of the miscreants who were engaged in the plot was to attract a large number of persons to the spot by the explosion of the two bombs first fired and to have the fuse of the third and deadly bomb so arranged that before the startled people could realize the situation the infernal machine would explode with frightful effect. The alertness of the police alone prevented the catastrophe. The Figaro and Gaulois point out as an example to persons who are preparing to leave this city through fear of Anarchists the action of the Prince and Princess of Wales, who have signified their intention of remaining in Paris over Monday. The papers entreat the frightened Parisians not to fly from the city, but to remain and bravely await the result of the great labor celebration.

Germans from Waterloo.

WINNIPEG, April 29.—A. Huber of Berlin, Ont., is here in connection with the question of bringing Canadian Germans from Waterloo county out to Manitoba. He believes a large number will be induced to settle here.

Strychnine for Snake Bite.

A curious instance of one poison killing another is reported from Yackandandah, Victoria, where Dr. Mueller has recently administered strychnine in cases of snake bite. A solution of nitrate of strychnine in 140 parts of water, mixed with a little glycerine, is prepared, and twenty minims injected hypodermically at intervals of ten to twenty minutes, according to the virulence of the attack. In some cases a grain of strychnine has been given thus within a few hours. The two poisons are antagonistic. Out of the hundred patients treated this way, some of whom were at the point of death, there was only one failure. Any part of the body will serve for the injection, but Dr. Mueller chooses a part near the snake bite.

Car Lighting.

At a recent meeting of the New England Railroad Club the subject of debate was the lighting of railroad cars. The drift of opinion seemed to be that mineral oil lamps, with oil at 300° fire test, furnished the most brilliant, safe, and economical light. Cost to equip a car with five Sherburn lamps, $165. Next to this came the compressed gas system—the Pintsch system being the one most extensively used. Cost to equip a car, $400. The gas is carried in tanks under the floor of the car. The compression is from 90 pounds to 225 pounds to the square inch.

Lamp Wick Wisdom.

In using the heavier grades of kerosene or refined petroleum oils in lamps, the wick often becomes charred at the top, which obstructs the capillary action of the wick. When the wick is raised, the charred top obstructs the slot in the flame guard and diminishes the flame. Wicks should be often renewed. The old wicks become hard and partially obstructed in the tube.

Intense Cold.

By the subjection of common air to a pressure of 1,125 pounds to the square inch, or 75 atmospheres, with a condenser kept at—135° C., the air is reduced to liquid form; and the liquid, when allowed to evaporate, produces a temperature of —200° C. This is within 73° degrees of absolute zero, which is —273° C.

An Awful Tragedy.

Thousands of lives have been sacrificed, thousands of homes made desolate by the fatal mistake of the "old school" physicians, still persisted in by some, notwithstanding the light thrown upon the subject by modern research, that Consumption is incurable. It is not. Consumption is a scrofulous disease of the lungs, and any remedy which strikes right at the seat of the complaint must and will cure it. Such a remedy is Dr. Pierce's Golden Medical Discovery. It is a certain specific for all scrofulous complaints. It was never known to fail if given a fair trial, and that is why the manufacturers sell it under a POSITIVE GUARANTEE that if it does not benefit or cure the money paid for it will be refunded. The only lung remedy possessed of such remarkable curative properties as to warrant its makers in selling it ON TRIAL!

TWO DAYS NEWS IN BRIEF

AN EPITOME OF THE WORLD'S HAPPENINGS.

All the Canadian, United States and Foreign Gleanings of Saturday and Sunday Night Boiled Down Into Readable Space for Busy People.

James Lowles died in the Township of Arran, Ont., aged 98.

Brantford's electric railway will be in operation by July 1.

The majority of Mr. Lowell, the Liberal candidate in Welland, is 286.

The Winnipeg painters' strike has collapsed, the men returning to work.

Edward Bell of Waterford has been fined $20 for practising dentistry without being qualified.

Samuel Davis of Brantford was fined $1 Saturday for exposing for sale meat unfit for food.

Thirteen-year-old Martin Maloney of Roxborough Township, Ont., was kicked to death by a horse.

P. Morrison, private secretary of Railway Contractor Ross, died in Montreal from a stroke of apoplexy.

During April 4237 actual settlers arrived in Manitoba, and during four months of the year 9294.

Isaac Fraser, C.P.R. conductor, died in Winnipeg hospital Saturday from injuries received while shunting cars.

Robert Shipman, a young Englishman just arrived from Coventry, Eng., died at Salt Coats, Man., Saturday.

The Grand Central Hotel and Douglass' general store at Elkhorn, Man., were burned to the ground Saturday.

The first conviction under the new law limiting the catch of black bass by an individual was secured at Amherstburg Friday, when George and Lewis Goodchild were fined $10 each.

Johnston, the Aldborough farmer against whom Miss Love, a domestic, obtained a verdict for $1200 damages at the recent Elgin assizes, last week married the girl and thus saved the damages.

The double-tracking of the Toronto branch of the G.T.R. is under way again, over 100 men being at work. It is expected that the line will be completed into Hamilton in about six weeks.

Alfred Linten came over from Buffalo Saturday and surrendered to the St. Catharines police, having learned that he was suspected of robbing C. A. Kendall's residence in St. Kitts. He protests his innocence.

The authorities in Orangeville have complied with Mr. Justice Falconbridge's suggestion about having the coat of arms painted in their court. "Scotty" McPherson, a painter, was filled full and sent to jail for 30 days. During his incarceration he was put to work to paint the arms. The Advertiser says the work is beautiful. The same job cost Owen Sound $150. All it cost Dufferin was "Scotty's" bed and board for 30 days.

Foreign.

Lord Randolph Churchill has issued a manifesto in which he sets forth his attitude on the labor question.

Miss Katherine Arnold, daughter of Sir Edwin Arnold, was married in London Saturday to Capt. Earl, surgeon in the British navy.

Paderewski, the pianist, will revisit America, and will begin a tour at San Francisco, on Nov. 8. He will give 60 concerts and play 100 compositions.

Wilkinson's lace mills in Beeston, the largest in Nottinghamshire, were burned. The loss is estimated at £100,000, and over 1500 hands are thrown out of employment.

Trinity Church, Chelsea, was the scene Saturday noon of a brilliant wedding. The contracting parties were Viscount Chelsea, eldest son and heir of the Earl of Cadogan, and the Hon. Mildred Sturt, a daughter of Lord Alington.

Henry Irving has entirely recovered the use of his voice, and his visit to the seaside has resulted in a general improvement of his health. To-day he resumes work at the Lyceum Theatre, appearing at a matinee as Cardinal Wolsey in "King Henry VIII."

The Duke of Edinburgh is writing the music of a German opera, the libretto of which is the work of "Carmen Sylva," Queen Elizabeth of Roumania. The opera will be produced at the Court Theatre at Coburg, on a date yet to be fixed, in the presence of the Grand Duke and Grand Duchess of Saxe-Coburg.

The backbone of the disastrous strike in Durham has been broken by the action of the miners themselves, who have voted in favor of the resumption of work by all the men who are not connected with pits owned by members of the Mine Owners' Association. Twelve thousand men will thus be enabled to go back to work at once.

The pressure of snow and water in the Pauter Valley, Eastern Tyrol, has so loosened the earth on the mountain sides that an enormous landslide is in progress. The land moves slowly in some places, but quickly in others, and falls into the River Drave, which threatens to dam up and cause great damage.

ILL-FATED ACTORS.

The Philadelphia Fire—Searching at Night—They Had Almost Escaped.

PHILA, Pa., May 2.—At 10 a.m. Saturday the body of the sixth and last of the members of the "Devil's Auction" company, who lost their lives in the Central Theatre here Wednesday night was recovered from the ruins.

All the members of the company are now accounted for. By the light of electric lamps the work of searching for the dead was prosecuted all last night. At 1 o'clock the body of Thomas Lorrella, the gymnast, was found.

At 1.30 another body was found near that of Lorrella. It was recognized as the body of the young Italian Vinciumita Chittiu.

From 1.30 till 9 o'clock the search was continued. All that time the search was being prosecuted among the debris that filled what was formerly a narrow passage running beneath the stage into the Auditorium.

Directly beyond the proscenium arch and beneath what was the parquet circle, three bodies lying close together were found, cut off by the flames from the exits in the rear.

The three unfortunates had evidently turned to make their escape by way of the front. Before they could emerge from the passage, they must have been overcome by the smoke and fallen insensible. The work of exhuming the three bodies was slow and it was an hour before they lay side by side in the coffins.

Although greatly shrunken and burned by the heat of the bricks that had covered them, the bodies were in a much better condition than any of the others. They were identified as those of Wm. L. Brooks, the leading man of the company; Miss Fanchon Conyors and Miss Sarah Goldman of the same company, the two latter being presidents of Chicago.

Arrangements for the funerals of the 6 players have not yet been made. The benefit for the members of the company, and the attaches of the the theatre will be held next Saturday evening in the Chestnut-street Opera House. Tenders of services have been received and many accepted from members of the profession in this city and New York. Although it is not definitely known that any of the audience lost their lives, the work of searching the ruins for possible victims is being prosecuted.

Of the eight people dangerously burned in the hospitals, four are somewhat better this morning, but the other four are in a critical condition and may die at any time.

HUGE BOULDERS FALLING.

Great Danger in the Mountains of the Tyrol.

VIENNA, May 2.—A condition of affairs prevails in Pustheral, a district in the eastern part of Tyrol, that threatens serious consequences. Heavy snows have fallen in the district and now almost incessant rains are causing the snow to melt. The extraordinary quantity of water has percolated through the earth, covering the side of one of the mountain, causing a a land slide that threatens the most serious consequences.

The whole side of the mountain seems to be moving. Huge boulders are falling and the debris is damaging the River Drave. Such an enormous quantity of earth has fallen into the river that it is feared the water will overflow the banks and do immense damage.

HE WENT TO JAIL.

A Toronto Young Man Gets Into Trouble in Buffalo.

BUFFALO, May 2.—Harold J. Sears of Toronto was recently divorced from his wife. Since then Mrs. Sears has been running a candy store at 99 Niagara-street. Saturday night Sears climbed the fire escape on the Women's Union building, and got up on the roof. He then crept along the building to his wife's store, got into the place through the hatchway, and was trying to get into his wife's room when Sergeant Ryan of No. 3 station caught him. Yesterday he was sent to jail for 30 days.

A Toronto Suicide.

TORONTO, May 2.—Early on Saturday morning the body of a woman was found floating in the Don a short distance above the King-street bridge. The woman was rather good looking, and about 40 years old. She was dressed in a red dress, dark blue bonnet and high heeled buttoned boots nearly new. There were no bruises on the body except a slight discoloration on the right cheek bone. In her pocket was found a purse and a certificate of admission to the General Hospital signed by Dr. Cane, 141 Queen-street east.

Dr. Cane, on being interviewed, said that the woman came to him about a week ago, suffering from dropsy. She said that her name was Sarah Richardson and that she was employed at the Albion Hotel as servant. It is supposed she committed suicide.

Sell the best Clothing for the money that it is possible to buy in this town, or elsewhere.

It can't be termed simply cheap clothing and passed by with a sneer, though 'tis cheap by comparison in price with the same goods for sale elsewhere, for the Cloth is bought from the Best Makers, cut by the Best Talent procurable, and made up in the best manner.

Then the price is marked just a shade above the cost of manufacture, and away below the lowest price the same goods are selling for at any other store; hence our confidence that a dollar here goes as far as a half more elsewhere. Without a shadow of a doubt we give the most value for the least money.

Every Boy's Mother should see our Boys' Clothing. We believe we can interest the most critical people in Boys' Suits. Good Pocket Knife or Bat and Ball free with every Boys' Suit.

BUSY! BUSY! BUSY!

Our store has been a very busy one lately, but the opening week of May bids fair to be still busier; at least we are thoroughly prepared for it.

In Dress Goods, the embodiment of genuine taste is to be found in our stock, and you have a right to expect from us the best the market produces at importing prices.

In the Millinery Department, our stock is kept constantly augmented with the choicest selections of Bonnets and Hats, Millinery Novelties, Flowers, Ribbons, Laces, Ornaments, etc., all marked at extremely low prices.

Special offerings in Printed Drapery Silks in beautiful floral effects, at 10c. per yard.

One reason why we are doing so much in Carpets and Floor Oilcloths this year, is that we seem to understand what is wanted, and lose no time in getting the right patterns at the right price.

We are offering unusual attractions to purchasers of Lace Curtains which it would be well for housekeepers to see.

Umbrellas re-covered while you wait.

GUILTY AND NOT INSANE.

THE CONCLUSION OF THE JURY IN THE DEEMING CASE.

Mr. Osborne Released From Jail by Order of Home Secretary Matthews—A Fight Between British Troops and Natives in Africa in Which Many Were Killed.

MELBOURNE, May 3.—The trial of Deeming for the murder of his last wife was concluded yesterday.

Mr. Forlonge, counsel for Deeming, summed up for the defence at considerable length. He made insanity the basis. Nature in her healthy moods, he declared, could not have made such a monster. This man had a monomania for murder which was not to be explained by the ordinary tests. The jury returned a verdict of guilty, adding that the prisoner was not insane.

LONDON, May 3.—Mrs. Florence Ethel Osborne, sentenced to nine months' imprisonment for the theft of pearls from her friend, Mrs. Hargreave, and subsequent perjury in connection with her libel suit against Mrs. Hargreave after being charged with the theft, has been released from the Holloway Prison upon the order of the Home Secretary.

Capt. Osborne, who has done everything in his power to aid and comfort his wife, was at the prison with a carriage. Into this Mrs. Osborne was placed and at once driven to the residence of her husband's parents, No. 5 Ulster Terrace.

During the past week Mrs. Osborne was utterly prostrated, and fears were entertained that if she was kept longer in prison it would result fatally to her.

LONDON, May 3.—A telegram from the British West African colony of Gambia received at the War Office to-day says that a British force of 50 marines and 300 soldiers has captured Toniatabe after a spirited defence.

During the engagement Capt. Roberts of the First West India Regiment was so severely wounded that he died the same night.

Three others in the British force were also severely wounded.

The enemy's loss was heavy.

LONDON, May 3.—At a meeting of workingmen's delegates here last night letters were read from Lord Salisbury and Mr. Balfour saying they could not promise to receive a deputation to set forth their claims for the establishment of an eight-hour day.

A letter was also read from Mr. Gladstone. He said he would carefully consider the statement of the views of the trades unions' council, but he considered that the question was not yet ripe, and he hoped to be excused from a conversation from which no advantage could at present be derived.

A delegate proposed that Gladstone's letters be consigned to the waste basket.

BERLIN, May 3.—Belgian police have tracked Jaeger, the defaulting chief cashier of the Rothschilds, to Brussels with his mistress.

The outcry against the smallness of the salary attached to such a responsible position has induced the Rothschilds to double the amount they pay to the present cashier, who receives 10,000 marks yearly.

LONDON, May 3.—A coffer containing valuables belonging to the Prince of Wales has been stolen from the railroad station at Lyons, France.

COWHIDED HIM.

And the Magistrate Fined the Girls Six Cents Each.

HAMILTON, May 3.—Jim Woods Falls is a little hamlet near Watertown. A few weeks ago a sensation was created there by Jenny Green, Amy Green and Myrtle Sneider, three young ladies of the village, taking Frank Bartlett out and giving him a good sound horsewhipping while the father of the Green girls looked on. The girls alleged that young Bartlett circulated scandalous stories about them. Bartlett, however, caused their arrest and the case was tried at Brownville before a justice of the peace. The girls pleaded guilty to horsewhipping the young man, and the father of the Green girls also said he was guilty of encouraging his daughters.

The four were fined six cents each, and Bartlett is still smarting from the lashing he received at the hands of the girls.

HE SOLD HIS SON.

The Quid Pro Quo a Horse, Wagon, Harness and Sewing Machine.

SARNIA, Ont., May 3.—William Smith lives up in the historic sand lots in the First Ward. He has been married twice, the first wife being dead. By the first wife he had a child, a boy, who is now about 8 years old. When the boy was but 2 days old the mother died, and the boy was taken in charge by William Churchill and wife. In the meantime Smith had married again. One evening a few weeks ago the boy disappeared.

It was subsequently learned that Smith had him. He kept him for a time, and the other day he opened negotiations for the sale of the boy to Mr. and Mrs. Churchill. The latter were anxious to get the boy again. At last a bargain was struck, and Smith agreed to give Churchill the boy for a horse, wagon, harness and sewing machine owned by the latter. They agreed to Smith's terms. He brought the boy to the Churchill household and the couple handed over to him the horse, wagon, harness and sewing machine. Smith hitched up the horse, put the sewing machine in the wagon and drove away, leaving the boy with the Churchills.

Betting on the Big Handicaps.

NEW YORK, May 3.—As the dates approach interest increases in the Brooklyn and Suburban handicaps. The former is run on May 16 and the latter June 18. The betting is shortening down.

For the Brooklyn, Longstreet is 4 to 1; Raceland at 12; Tenny, Bermuda and Russell at 15; Kingston, Judge Morrow, Pessara, Terrifier, Portchester, Major Domo, Banquet and His Highness at 20; Loantaka, Strathmeath, Picknicher, Casnus and Madstone at 25 to 1.

In the Suburban they quote Tenny, Triton, Post Scout and His Highness at 15 to 1 each; Raceland Picknicker, Montana and Tournament, 20 to 1; Eon, Judge Morrow, Bermuda, Pessara, Russell and Lamplighter, 25 to 1; Loantaka, Dismuth, Strathmeath, Bay Del Rey, Major Domo, San Juan, Clarendon, Sallie McClelland, Sir John, Chaos, Casnus, English Lady, Curt Guns and Skipper, 30 to 1.

PROPELLER CELTIC SUNK

SHE COLLIDED WITH AN IRON STEAMER IN LAKE ERIE.

All on Board Safe Except the Cook, Mrs. Strachan of St. Catharines—The Vessel Insured—On the First Trip of the Season.

HAMILTON, May 3.—The propeller Celtic of this city, owned by A. D. Mackay's sons, was sunk Sunday evening in Lake Erie, off Rondeau Harbor, by the big iron steamship Russia of Buffalo. The cook, Mrs. Strachan of St. Catharines, was drowned. The accident was announced in the following telegram to the owners from Morpeth.

"Celtic sunk in collision with steamer Russia at 5.55 last evening in a fog at Rondeau. All hands saved except the cook. Answer and telegraph some money to Ridgetown.

J. H. FITZGERALD, purser."

The Celtic was on her first trip this season. She left here on April 19, under command of Captain John Clifford, the regular commander, Captain Padden, being detained, owing to the illness of his wife. The vessel proceeded to Port Dalhousie and went on the dry dock, and last week she left for Toledo to load 17,000 bushels of corn for Montreal. When a short distance out from Port Colborne last Tuesday on her way up the lake she broke her pump valve and had to return to port to refit. She then proceeded to Toledo, took on her load and sailed down the lake. At 5.55 p.m. she collided with the iron steamer Russia, 2000 tons burden, bound up from Buffalo. From the meagre particulars at hand it is not known exactly where the collision took place, but if the Hamilton boat was on her regular course she would be about 25 miles out in the lake. The Celtic is a wooden boat of 440 tons burden, and local vessel men say that if the Russia struck her head on she would cut the Celtic in twain. From the fact that the purser telegraphs for money it is considered likely that the propeller sank almost immediately, as Mr. Mackay says Fitzgerald had $200 in cash with him, which he must have been unable to save.

The Celtic was built in 1874 by the late Capt. Robertson at his yard here, and cost $48,000 originally. She was valued at $18,000 and was insured for $12,500 with a Chicago company. The insurance only went into force yesterday, so the owners may be considered lucky that the accident didn't happen a few hours sooner. She was a good, staunch boat of the old canal build, and was used for carrying passengers and freight. During several years she was chartered as a lighthouse-supply boat by the Dominion Government for the upper lake ports and was to have made the trip this year. If she has been sunk in deep water the Celtic will be a total loss.

The only Hamilton people on board were Miss Logan, James-street north, the ladies' maid, and Purser Fitzgerald. Mrs. Strachan, the cook who was drowned, was an elderly woman and belonged to St. Catharines.

RIDGETOWN, Ont., May 3.—The steamship Russia, Capt. Weinheimer, owned by the L. I. Co. of Buffalo, and the Celtic, Capt. John Clifford, owned by Mackay's Sons of Hamilton, came into collision about 15 miles off the Rondeau light at 6 p.m. yesterday in a dense fog. The Celtic sunk in less than 10 minutes, the crew, numbering 18, escaping with only what they had on them.

The cook of the Celtic, Margaret Strand, was drowned.

The Russia was more fortunate, but after taking on the Celtic's crew had to cut for the shore quick, which she reached in time, and was beached one mile east of the Rondeau light.

The cook was Mrs. Strachan of St. Catharines. The Celtic was built at Robertson's shipyard, Hamilton, in 1874, at a cost of $48,000. In 1891 at Lloyd's her value was placed at $18,000 and she was insured for $12,500.

Stanbury Still Champion.

MELBOURNE, May 2.—The sculling match for the championship of the world and $2000 a side between Champion James Stanbury and Thomas Sullivan, the New Zealand champion, took place to-day on the Parramatta River. The betting was in favor of the champion. But a great many followers of the Maori were along the river bank and eagerly snatched up the odds. However, Sullivan was easily beaten and Stanbury still retains the world's sculling championship. It is expected that Stanbury will sail in June for America to meet O'Connor and other Antipodean scullers.

O'SULLIVAN'S LIPS SEALED.

The Dying Cronin Murderer Says He Has Made No Confession.

CHICAGO, May 3.—A rumor that Patrick O'Sullivan, the Cronin murderer, who is dying in Joliet prison, had made a confession, so frightened the "inner circle" of the triangle that S. Forrest, O'Sullivan's attorney, was sent down to the prison with instructions to learn if O'Sullivan had confessed, and to prevent a confession if not too late. O'Sullivan denied to the attorney that he had "squealed."

O'Sullivan was the iceman who introduced the men who murdered Cronin to the owner of the Carlson cottage and on whose card Dr. Cronin was summoned to his death. He received a life sentence, but expected a new trial. The delay of the Supreme Court and consumption have defeated that hope.

The approaching death of O'Sullivan recalls the fact that death has been busy the witnesses and others concerned in his trial. John F. Beggs, who was tried as a principal and acquitted, died in Chicago April 6 last. Patrick Dinan, owner of the fameus white horse and one of the most important witnesses for the State, died a few weeks before Beggs. Peter McGeehan, who was accused by Dr. Cronin of conspiracy to kill him, died in delirium at the county Hospital.

Robert Gibbons, who was an alibi witness for Burke in the trial, was shot and killed in April, 1890, by Capt. Schuettler, with whom he picked a quarrel because of the part taken by that officer in the prosecution. Edward Spellman, the Peoria distiller, who was a large contributor to the defence fund and an active "triangle" sympathizer, lost his life by falling from a ladder. Michael Cannon, a member of Camp 20, a great friend of Coughlan, one of the convicted murderers, and whose name was often mentioned in the case, died shortly after the conviction. Luke Jordan, brother of Harry Jordon, William Nieman and a Miss McInerney, the two latter witnesses of the State, are also dead.

DOMINION PARLIAMENT.

A PROPOSED AGENT AT WASHINGTON.

Mr. McCarthy's Motion Discussed in the Commons, But It Does Not Meet with the Approbation of the Finance Minister—General Ottawa News.

OTTAWA, May 3.—Yesterday being private members' day was somewhat quiet and a fair amount of business has been put through. The House adjourned at 10.25, a feat which has not been accomplished for a month past. The afternoon was devoted to the discussion of Mr. D'Alton McCarthy's motion in favor of the appointment of a commercial agent at Washington who should be an attache of the British embassy. There was not much difference of opinion as to the benefits which might be derived from having commercial agents in the United States, but as Mr. Foster pointed out, Mr. McCarthy seemed to want more of a political than a commercial agent, and a political agent acting as an attache to the British Ambassador would be no improvement on the British Ambassador himself, who has now instructions from the Imperial Government to pay special attention to Canadian matters and who, as a matter of fact, does keep the Canadian Government informed of any matters of interest to the Dominion.

Sir John Thompson admitted that the question was an important one, and moved the adjournment of the debate in order that the House may have time to think over the matter.

This motion was accepted by Mr. McCarthy, and the question goes over with the probability that it will come up again the week after next.

Newfoundland Still Hostile.

Our wayward sister Newfoundland seems still determined to have nothing to do with us, and not only refuses to accept the olive branch of peace held out to her, but continues to pile up her hostile legislation. Information has been received here that on Friday the Island Legislature passed a resolution legitimizing the illegal license fees, which were imposed two years ago, and also renewing the discriminatory tariff against Canada. Such unfriendly action is deeply to be deplored, but it is difficult to see what Canada can do in the matter. If Newfoundland will get mad there does not appear to be anything to do but to wait until she gets cool again.

Notes.

Hon. Mr. Haggart has greatly benefited by his consultation with Dr. Buller of Montreal with regard to his eyes, which had been giving him great trouble, and was able to be in the House to-day.

Senators Gouvremont and Montplaisir waited on Premier Abbott to-day and urged that the fisheries regulations with regard to fishing in Lake St. Peter be altered.

The Ottawa Club ceased to exist on Saturday night. This morning Major Hodgins, secretary of the club, was prosecuted in the Police Court for selling liquor without a license on the occasion of the dinner of the legal and literary society on Saturday, April 9, which was held in the club. He was found guilty and fined $50 and costs.

There is war between the city coal merchants and the Market Committee and the result has been that the chairman of the committee has locked up the public scale and refuses to allow any more coal to be weighed until the arrears, which amount to over $700, are paid up. As coal cannot be delivered without being weighed on the public scales coal sales are suspended for the present.

Much sympathy is felt in Parliamentary circles with Mr. Alphonse Desjardins, recently appointed to The Hansard staff, who was summoned to Quebec to-day by the sad message of the death of his 7-year-old daughter.

London & Port Stanley Railway.

OTTAWA, May 3.—A deputation composed of Messrs. J. Garrett, H. Draney and F. Leonard of London and R. McCully, W. B. Doherty, J. H. Still and M. A. Gilbert of St. Thomas are in the city in connection with the bill respecting the London & Port Stanley Railway Company, now before Parliament. The corporation of the city of London holds unpaid mortgage bonds of the railway to the amount of over $500,000, and the city of St. Thomas holds mortgage bonds to the value of some $50,000. As this comprises the whole mortgage indebtedness of the road and more than its value the corporations of London and St. Thomas desire to control the railway. The bill proposes that to this end representatives of these corporations may be elected directors.

One clause of the bill empowers the city of London to sell the road, but it is not unlikely, in the face of the strong opposition to this proposal, that it may be stopped.

An Important Judgment.

OTTAWA, May 3.—The Supreme Court Monday delivered judgment on a case of interest to all cities. The city of New Westminster appealed against the judgment of the Supreme Court of British Columbia, awarding heavy damages to one Mrs. Brighouse for property which was injuriously affected through the lowering of a street in front of the same.

A majority of the judges held that, as part of the embankment on which was plaintiff's property afterwards fell, the city was negligent of its duty and should have built a retaining wall. Judgment was therefore given dismissing the appeal with costs and enforcing the judgment below.

Muldoon's Celestials.

NEW YORK, May 3.—Jee Len and Jee Ah Len, two young Chinamen, who were landed at Vancouver, B.C., in 1891 and were smuggled into this country at Suspension Bridge by J. J. Muldoon of Toronto and Abe Abrahams of this city, were arrested here yesterday by the United States custom inspectors. Their examination was begun before United States Commissioner Shields to-day. This is the second time these Chinamen have tried to make New York their home.

On motion of Mr. Wand, seconded by Mr. Adams, these accounts were referred to the Finance Committee.

COMMUNICATIONS.

A communication was read from W. B. Kelly, Bridgenorth, offering to furnish any amount of cedar scantling and timber at $8 per thousand feet.

COURT OF REVISION.

Moved by Mr. Throop, seconded by Mr. Adams, that the Court of Revision for the year 1892 be held in the Council Chamber on Monday, 30th day of May next, at 7.30 o'clock p.m., and that the clerk publish the same.—Carried.

Mr. F. Adams, chairman of the Finance Committee, presented the following report: To the Reeve and Council:

On behalf of your finance Committee I beg to report that as per your instructions we have retained Messrs. Stratton & Hall to investigate the matter referred to in Mr. J. Z. Rogers' communication re Brown street north of Doure. Owing to pressure of other business they have not been able to prepare a report for this meeting of the council, but will endeavour to have the matter fully investigated for next meeting.

MATTERS DISCUSSED.

Mr. Tice, who lived on the charity of the village a number of years ago, and who has since resided in town, applied for relief to the village council, but not being a resident of the village, he was advised to apply to the town council for aid.

The council also discussed the matter of procuring dog tags, but nothing definite was decided upon.

The merchants of the village petitioned the council to have Elizabeth street watered. This gave rise to considerable discussion, and it was decided to inquire what it would cost the village to water said street.

A number of citizens presented petitions asking for street improvements, and the council promised to look into the matter on their annual tour of inspection.

Council then adjourned.

Rev. Wm. Maltmaker,

Pastor of the Presbyterian church of Sparta, N.J., voluntarily writes strongly in favor of Hood's Sarsaparilla. He says: Nothing I know of will cleanse the blood, stimulate the liver or clean the stomach like this remedy. I know of scores and scores who have been helped or cured by it.

The highest praise has been won by Hood's Pills for their easy, yet efficient, action.

The ill condition of a single organ, the liver for instance, may bring on the gravest disorders, which would surely have been obviated by the use of Dr. Say's Remedy.

On the Threshold.

Standing at womanhood's door is she,
Clad in her virginal purity,
A creature fair as the lilies be,
And like the lilies, alas, how frail;
They are borne to earth when the storms prevail,
And her life goes out in the summer gale.

When we see a frail and lovely creature, standing on the threshold between girlhood and womanhood, we shiver with a fear of what may be, because we have seen so many succumb at this critical period of life. What is needed at this time is a tonic and invigorant—something that will promote proper functional action of the female organs. The only remedy to be depended on is Dr. Pierce's Favorite Prescription. This unequaled remedy, which cures diseases peculiar to women, is especially valuable at the period when the girl crosses the threshold of womanhood. Used at this time it never fails to produce a most beneficial result, and many a young girl has been tided over one of life's most trying periods by it. b

Cure for Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents a package.

Mechanic's Institute.

The Directors of the Peterborough Mechanic's Institute Held Their Annual Meeting Last Night—A Creditable Record Both in Point of Finances, Books Attendance and Membership—New Directors Elected for the Ensuing Year—Every one Satisfied With the way the Institute is Conducted.

The twenty-fourth annual meeting of the directors of the Peterborough Mechanic's Institute was held last evening at the Institute 373 Water street. The following gentlemen were present: Dr. Geo. Burnham, president, John Corkery, secretary-treasurer, R. Robertson, Jas. English, Thos. Richardson, Dr. Brennan and Librarian Peters. President Burnham read the annual report of the affairs of the Institute.

To the members of the Peterborough Mechanics Institute:

Your directors have much pleasure in presenting for your consideration the 24th annual report of the affairs of the Institute.

The year closing on the 30th of April was one of the most successful we have had, and satisfactory progress has been made in all the departments.

Through the liberality of our landlords (the executors of the will of the late Mrs. Nicholls) all the rooms used by the Institute have been painted, papered and otherwise decorated and put in first class order. To have everything correspond, your directors had a quantity of new shelving put into the addition to the library and had all the furniture and shelving stained and varnished, thus greatly improving the looks of the place. They have also placed a supply of comfortable arm chairs in the reading room, and have improved the heating arrangements by placing a large coal stove in the hall. This has kept the rooms most used very comfortable during the past winter.

Several periodicals in addition to those formerly taken have been placed on the table of the reading room.

Your directors have found it necessary to remove the magazines and periodicals from the reading room table during the absence of the librarian, as during those hours a sneak thief had carried off, from time to time, different magazines and papers. We have so far been unable to detect him, but if he is caught, the extreme penalty of the law will be inflicted.

As will be seen by the report of the Library Committee, a much larger addition than usual of new and popular books has been made to the library. The long talked of catalogue has been printed, and contains a full list of the names and numbers of all the books purchased previous to last June. It also contains the names of the authors, and number of the books written by each. The catalogues are given gratis to members and subscribers and will no doubt prove a great convenience.

The usual class in machine drawing was held during the winter. As the examination required by the government was held only a few days ago, we do not know yet what success the class has had.

In the membership there has been a considerable increase over last year, but even yet, it is nothing like what it should be in point of numbers in a town of the size and importance of Peterborough, and we think that the citizens generally should by becoming members, show their interest in an institution which is a credit to the town.

The financial report and one from the library committee are appended.

All of which is respectfully submitted.

JOHN CORKERY, GEO. BURNHAM,
Secretary-Treasurer. President.

Moved by Dr. Burnham, seconded by Mr. R. Robertson, that the report be received and adopted.—Carried.

Mr. John Corkery then read the abstract statement of the receipts and expenditures of the Peterborough Mechanics' Institute for the year ending April 30th, 1892:

J. H. ROPER, A. STEVENSON, } Auditors.

Moved by Mr. Corkery, seconded by Mr. James English, that the report be received and adopted.—Carried.

Mr. Corkery then read the report of the library committee.

To the President of the Peterborough Mechanic's Institute:

SIR,—Your Library Committee beg to report that during the past year the membership increased from 261 to 285. In order still further to increase it, we have taken steps to appoint a canvasser, hoping by that means to bring the Institute better before the general public. For the Library Committee.

JOHN CORKERY,
Acting Chairman.

Moved by Mr. Corkery, seconded by Mr. English, that the report be adopted.—Carried.

DR. BURNHAM.—Has anyone any suggestion to offer in the management or conducting of the Institute? Then as none are offered, we shall take it for granted that we are perfect.

OFFICERS ELECTED.

The election of directors for the ensuing year was then proceeded with. There were eighteen nominations and nine directors had to be elected, five of whom must be mechanics. The voting was done by ballot. Messrs. Geo. VanBlaricom and R. L. Hamilton were appointed scrutineers. Following were elected directors for the ensuing year:—Dr. F. H. Brennan, John Clarke, John Corkery, Jas. English, T. A. Hay, Geo. Munro, Thos. Richardson and R. Robertson.

Moved by Dr. Brennan, seconded by Mr. T. Richardson, that a vote of thanks be tendered the scrutineers.—Carried.

The meeting then adjourned.

The thanks of the reporters are due to Mr. Peters, librarian, for his trouble in preparing duplicates of the directors' report, the financial report and the library committee's report.

A Close Relation.

A Wonderful Sympathy Between the Two.

Few people know that a close relation—a wonderful sympathy—exists between the great nervous system and the organs of assimilation. Mental worry and distraction are very destructive to perfect digestion. The brain and bowels soon become equally sluggish, and the terrible troubles that ensue through diseases of the digestive organism, and those of a nervous character, soon make life a heavy burden.

A broken-down nervous system has a tremendous influence on the stomach, and soon produces derangement of the liver. A weak, nervous organism produces troubles of the heart and kidney disease. The nervous system is the great ruler over all parts of the body.

If our people more thoroughly understood these great and important truths, we would see less suffering and disease around us. There is, however, reason for thankfulness and joy. Our Canadian people have found that there is now a highway opened up to the land of health by the use of Paine's Celery Compound—a remedy specially prepared for the strengthening of the great nervous system. This Paine's Celery Compound has proved itself to be the only true nerve medicine ever placed before mankind. The troubles of our time, such as sleeplessness, irritability, morbidness, dyspepsia, indigestion, weakness, neuralgia and rheumatism—all resulting from a deranged nervous system—are easily and quickly cured by the great modern remedy. The blessings and good wrought by Paine's Celery Compound are not confined to one section of Canada; every part of the Dominion has felt its power in the curing of disease.

Every Lady Uses.

Dyer's Jelly of Cucumber and Roses for her chapped hands or lips, as it effectually cures in every instance. Try it—druggists keep it. W. A. DYER & Co., Montreal. 61103

DELIRIUM TREMENS.—In this disorder of the brain which comes upon habitual drunkards there is a shaking of the limbs and the prominent disposition is one of anxiety and apprehension of injury or danger. There is an almost entire want of sleep, and even if repose be obtained it is interrupted by frightful dreams. Few doses of the Father Mathew Remedy will be sufficient to cure this terrible disease. 1d

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Their really gentle action and good effect on the system really make them a perfect little pill. They please those who use them. Carter's Little Liver Pills may well be termed "Perfection." dw

Seven Years' Suffering.

GENTLEMEN,—I had suffered very much from inflammatory rheumatism, which through wrong treatment left ugly running sores on my hands and feet. With these I suffered for seven years, during which time I had neither shoe nor stocking on. I commenced using B. B. B. externally and internally, using the Pills also, and I can say now that the sores are entirely cured, and have been for some time. I believe the bitters were the means of saving my life.

MR. DOUGLAS BIRD, TENOR.

A Tenor of Wide Range.

The Evening *Mail* of February says of Mr. Douglas Bird, of Toronto. His voice is a true tenor, ringing resonantly throughout its wide range. His selections were, "My pretty Jane," and "Come into the garden Maud," ballads which Sims Reeves has made popular the world over. Following closely in tradition, Mr. Bird's rendition was altogether satisfying. He sang as an encore, "Far, far away," with true feeling and great effect. Mr. Bird is a welcome number on any programme. Hear Mr. Bird at the Philharmonic Society's concert in the opera house to-night (Tuesday).

CHORUSES BY SOCIETY.

Our National Game.

Lacrosse is likely to have a big boom this year, and the boys are busy making active preparations for a lively season. In order to give an extra spurt to the game in town, the popular clothing firm of H. LeBrun & Co. will give away free a dandy lacrosse stick and ball to every boy buying a suit of clothing at the City Clothing Store. This will no doubt prove a very tempting inducement to the boys—more especially as Messrs. LeBrun & Co. are so well known to excel in boys' suits, which are always good value at the prices offered, without the present of the lacrosse outfit. It is quite evident that Mr. Harry LeBrun, the senior member of the firm, still retains his old time enthusiasm for our national game, which led to his being chosen President of the Dominion Lacrosse Association. 296w17M

A Clear and Bird-Like Soprano.

The Toronto *Globe* of Feb. 13th, says:—"Miss Gaylord possesses a clear and bird-like soprano under excellent control. Miss Gaylord will sing at the Peterborough Philharmonic Society's Concert in the Opera House to-night, (Tuesday.)

Dead in Harness.

Last night a false alarm of fire rung, from Box 4, called out the brigade. While Terrence Smith's fine bay team was standing in front of Dr. Fife's residence, suddenly one of the horses fell down and died in a few seconds. It is probable that the horse being filled with food, and galloping furiously to the scene of the fire had something to do with the death of a valuable animal, worth at least $125. The miscreant who broke the glass in the box and gave the false alarm should be severely dealt with.

Taking Horace Greeley's Advice.

Mr. W. J. Devlin has taken Horace Greely's advice and "gone west" from his old stand, 137 Hunter street, where he has, by his square business dealings, made so many friends, to 160 Hunter street, where he will be pleased to meet all his old friends, and make as many new friends as wish to get the best of harness at the most reasonable prices. The EXAMINER wishes him success in his new stand, and hopes it will prove to be on the sunny side of the street, in a business way, as well as literally.

Explanation.

A paragraph in yesterday's issue relating to the taking of a horse from a hotel stable and driving without leave, was incorrect in some particulars. The facts as given are that a young lady from Emily drove to town, and put up her horse at a hotel, while she stayed with her married sister. On Sunday the young lady went to the hotel for her horse, and found that the proprietor of the house had taken the horse for a drive. It is alleged that the horse was driven to Bridgenorth, and that he was "as wet as if he had been in the river," and entirely unfit for the 20-mile drive to her home in Emily, which the young lady wished to take. The matter, it is stated, will be investigated in the police court on Saturday.

A Thoroughly High-Class Programme.

The programme to be presented by the Peterborough Philharmonic Society to-night will be one of more than ordinary merit. The Society have spared no pains nor expense to provide what the music-loving people of Peterborough appreciate, namely, a first class entertainment. The choruses to be rendered by the Society will show careful and capable training, while the solos and duets by Miss Gaylord and Mr. Bird, of Toronto, will be a treat for all. The flute solos by Mr. J. Churchill Arlidge need no comment, as the people of Peterborough have had more than one opportunity of knowing that he is unequalled as a flautist. Master Gussie Arlidge, the boy soprano, is known to Peterborough, and will always be a welcome number on a programme. The Society have issued a "book of the words" for to-night's concert, and we bespeak for them a crowded house.

COMMUNICATIONS

were presented as follows:—

From C. H. Clement requesting street improvements on Charlotte street.—Street and Bridge Committee.

From the town solicitor re the Edison railway siding, stating that the town had no responsibility in keeping this siding in repair.—Received.

April 29th, 1892.

JOHN R. COBB, town clerk, Peterborough:

Replying to yours of the 26th inst., I desire to state after due consideration, Mr. Isaell, Mr. Muir, Mr. Francis, Mr. Langton, Mr. Kenzal and myself have decided that we will not undertake to build an electric railway in the town of Peterborough. In our first application to the council we asked for the right to erect poles and string wires for lighting and power purposes. These, through a blunder were stricken out, and when we applied for them afterwards we met with such determined opposition that we have made up our minds to let the matter drop, as the railway of itself cannot be made a successful financial issue. I am very sorry that an arrangement could not have been arrived at satisfactory to both parties, whereby we might have put in a plant, and if the council were disposed to grant us light and power rights we might be willing to consider the matter, otherwise we will consider the entire contract as definitely off.

Yours truly,
M. D. BARR,
Manager.

Edison General Electric Co., Edison Building, 77 Bay street, Toronto.

—Received.

From R. A. Hamilton, calling attention to the bad state of the sidewalk on the south side of London street, between Water and Harvey streets.

From R. H. Green, market clerk, calling attention to the present unfit condition of the market scales, the want of sufficient protection against rain and storms, and the lack of proper accommodation. The scales are becoming and will soon, unless repaired, be unfit for use. The communication also asks for increased facilities for giving proper weights and to enlarge the present accommodation and provide an office for the public as well as the clerk before the scales become wholly damaged.—Market Committee.

MRS. MACKENZIE'S ACKNOWLEDGMENT.

32 St. Albans' street,
TORONTO, April 29th, 1892.

The Municipal Council of the Town of Peterborough:

GENTLEMEN.—As well for the resolution itself as for the feeling letter with which you have caused it to be conveyed to her, Mr. Mackenzie requests me very cordially to thank you.

It is peculiarly gratifying to her, in her sorrow at Mr. MacKenzie's death, to receive the public testimonials of his worth, and to be assured that they are not an expression from one political party, but of the feelings of the entire people. I remain, gentlemen,

Your Obedient Servant,

News Nuggets.

—A special meeting of the Board of Education will be held to-night.

—The lacrosse boys held their first practice of the season on the P.A.A.A. grounds last night.

—Company drill will be held in the drill shed to-night. The captains request a large turn-out of the men.

—Two clarionettes have been added to the Fire Brigade Band. This musical organization is in a highly flourishing condition and has now some thirty one-pieces in it.

—Wm. Northcott of Lakefield, the simple minded youth who was sentenced by the Hon. Mr. Justice Rose to five years in the penitentiary, was removed to Kingston this morning.

—The Epworth League of Christian Endeavour of George street Methodist church will hold a social at Miss Richardson's, corner of Sheridan and Hunter streets on Thursday night.

—Repairs are being made in the store formerly occupied by Mr. W. J. Devlin. A hardware shop will be opened out there. In the adjoining store, lately occupied by Mr. C. Butler as a grocery, a new business will be opened.

—Three bicyclists were enjoying a quiet spin up George street when one of their number ran into a lady with his steed at the corner of Dublin and George streets. The woman attempted to cross the road before them and was knocked down.

—Provincial Detective Greer has taken the stomach of the late Joseph Crook, of Belleville, to Toronto for analysis. It will be remembered that Mr. Crook, who was an aged and wealthy citizen, was found dead in his burning residence some weeks ago. Foul play is suspected.

Personal.

Why is HOOD'S Sarsaparilla

Such a great success, and why is it impossible for other Sarsaparillas and blood purifiers to compete with this great medicine? Because

No Other Sarsaparilla or blood purifier gives as much medicine for the money as Hood's Sarsaparilla.

No Other Sarsaparilla has the careful personal supervision of the proprietor in all the details of its preparation, as has Hood's Sarsaparilla.

No Other Sarsaparilla has the merit to secure the confidence of entire communities and hold it year in and year out, as has Hood's Sarsaparilla.

No Other Sarsaparilla can produce from actual cures such wonderful statements of relief given to human suffering as Hood's Sarsaparilla.

No Other Sarsaparilla possesses the Combination, Proportion and Process Peculiar to Hood's Sarsaparilla, and which makes Hood's Sarsaparilla in curative effect Peculiar to Itself.

No Other Sarsaparilla combines economy and strength as does Hood's Sarsaparilla. It is the only preparation of which can truly be said, 100 Doses $1.

No Other Sarsaparilla has effected such remarkable cures as Hood's Sarsaparilla, of Scrofula, Salt Rheum, blood poisoning and all other blood diseases.

No Other Sarsaparilla has equalled Hood's Sarsaparilla in the relief it gives in the severest cases of Dyspepsia, Indigestion, Sick Headache, Biliousness, Heartburn, and other stomach disorders.

GEORGE STREET.

A DAMP CIVIC SEDERUNT.

(Continued from fourth page.)

Dougall further in reference to the proposed system of sewerage for the town. Your committee have received the letter hereto attached in reply to questions submitted to him by your chairman. The questions will be readily inferred from the nature of the replies. Your committee are of the opinion that more definite information should be obtained on the points in question before taking action, and with that end in view recommend that Mr. MacDougall be further consulted on the subject.

Your committee also recommend that the sewer on George street from Townsend street and to the outfall, the sewer on Aylmer from same street be considered a main sewer and be constructed at the general expense. All other sewers to be charged for by a frontage tax at such rate as may be decided upon.

All of which is respectfully submitted.

THOS. CAHILL,
Chairman.

May 2nd, 1892.

Mr. Cahill, Chairman of Committee on Sewerage, Peterborough:

DEAR SIR:—I have considered the questions you have asked in yours of the 11th.

1. Regarding depth, I presume you allude chiefly to to Aylmer street sewer. All the sewers can be raised to be nine feet deep, if necessary, except George street which must be deep enough for cellar drainage. Aylmer street sewer can also be raised subject to certain questions of sewers on side streets, which can be discussed later on. To raise Aylmer street sewer will make a saving in cost.

2. A twenty four inch pipe will carry off the sewerage of 10,000 people with a modification of the present proposed grade, on the outfall sewer.

3. By using a twenty four inch pipe a considerable saving can be effected in the outfall sewer.

4. Lock street was chosen for the outfall, (a) to catch the George street sewer, (b) because the land is lower on Lock street than Park, (c) because it is the shortest line to the river. There is a considerable fall on the land from Monaghan Road eastward on Lake street and the others to the south of it.

Faithfully Yours,
ALLEN MACDOUGAL.

The report was adopted.

Mr. CAHILL in moving the adoption of the report, said the committee thought that the sewer from Townsend to Lake streets might be dispensed with for the present, and also that by making the outfall sewer smaller, as recommended in the engineer's letter and substituting a pipe, would be much cheaper than a brick sewer. The saving of money by the changes proposed, would in time build a sewer on Park street. The suggestion of Mr. Fitzgerald in this connection was well worth considering. The committee thought if the grade of the excavation could be made eight feet instead of ten a great saving would be effected, and these were the subjects the committee desired to submit to the engineer, and he moved, seconded by Mr. Meldrum, the adoption of the report.

Mr DENNISTOUN said that in spite of newspaper comments the Sewerage Committee had been busy. He was sorry that work would not be begun at once. In view of the changes suggested, it was well to go cautiously. He hoped before long a bylaw would be submitted that would justify the caution that had been exercised.

Mr. CAHILL said he wished to add to the motion that the clerk be instructed to ask the reeve of North Monaghan for permission to use a street (Lock street) in that township for the outfall sewer.

The report, as added to, was adopted.

GAS, WATER AND LIGHT—ESPECIALLY WATER.

Mr. Meldrum, chairman, presented the report of the committee as amended, which was substantially the same as that published in the EXAMINER in connection with the last meeting of the council, with a few changes and additions.

The report as previously presented, at the last meeting of the council, recommended the purchase of a team of horses for the fire hall, and the amended report added, not to exceed an expense of $600, and that the department be under the authority of the Chief of the Fire Brigade, subject to the control of the Fire, Water and Light Committee. The committee also recommend that the offer of Messrs. J. J. Turner & Son, for rubber coats and other clothing for the firemen be accepted. The committee recommend that the matter of the improved alarm do not cost more than $100.

STREET WATERING.

This is the paragraph of the report on this subject:—

"Your Committee, after careful consideration of this matter, decided to recommend that the following should be the streets and the limits thereof upon which watering shall be done during the season:—

On George street, from Brock to Charlotte street.

On Water street, from Brock to Charlotte street.

On Charlotte street, from Water street to George, and from Aylmer street to Park street.

On Simcoe street, from Water to Aylmer street.

On Brock street, from Water to Aylmer street.

On Hunter street, from Queen to Aylmer street.

On Aylmer street, from Brock to Charlotte street.

This section is to be done by town team—9,600 feet.

On Hunter street, from Queen to Aylmer street.

On Brock street from Water to Aylmer street.

SOUTHERN SECTION—9,500 FEET.

On George street, from Brock to Romaine, and from Romaine, via Lake, to Aylmer street.

On Lake street, from George to Aylmer street,

On Aylmer street, from Lake to Charlotte street,

On Charlotte street, from Aylmer to George street.

NORTHERN SECTION—9,500 FEET.

On George street, from Brock to Argyle street.

On Water street, from Brock to Ascon street.

On Smith street, from Water to George street.

On Aylmer street, from Brock to Mconel street.

The following clause was added: "Your committee would recommend that the northern section from Brock street, and the southern section from Charlotte street be let by tender, and that the committee be empowered to call for same in the usual way and report" The report further stated that the Light and Power Company had been applied to for an estimate for lighting the fire hall and the police station with electric light, and that the estimates submitted would make a saving of over $140 in that department.

THRESHING OUT THE REPORT.

Mr. MELDRUM in moving the adoption of the report stated that the committee had carefully considered the several matters reported on. In reference to the horses, he pointed out that the cost of the horses would be $600, the cost of maintenance, interest and the wages of two men per year would make a total of $1,150, with the horses valued at $600 as an asset of the town. This was as against $1,473, the cost for similar services under the present system.

MR. YOUNG wished to know if this expense for horses would be incurred this year.

The MAYOR—Yes at once.

Mr. KELLY said the total cost of the present system, including street watering, cleaning of snow, etc., was about $1,890. He insisted that the estimate of the cost of the proposed system was under the mark. If two men were employed could they be got for $650 at the rate of wages adopted by the town?

Mr. MELDRUM said that men had offered to do the work for $650.

Mr. KELLY doubted if good men could be got for that sum. He doubted if the new proposal would be cheaper than the present system. He was in favour of keeping a team in the fire hall, but he thought the other work could be done more cheaply by contract.

Mr. DENNISTOUN said he still opposed the report. He thought the fire department would be better with its own horses, but we had so many things in hand this year that we had better postpone the matter till next year. The additional expense incurred by the adoption of the report would add substantially to the rate of taxation this year. He pointed out that the other expenditures of the year were so unusually heavy that it would be wise to postpone the matter. The expense already incurred amounted to about $2,500 over the ordinary expenditure. As chairman of the Finance Committee he was looking forward to striking the estimates, when, if the present rate of expenditure were persevered in, eighteen mills would not cover the rate.

Mr. YOUNG concurred with Mr. Dennistoun as to the unwisdom of the proposed expenditure. He suggested that a shed in rear of the present hall be erected for the steamer, and that the room thus gained would permit of the use of drop harness.

Mr. MULHERN pointed out that the saving by adopting the report would be $100, the interest on over $1200, while the horses cost only $600. Considering the resulting increased efficiency of the fire department, he thought no ratepayer would object to the $600 for horses. He would support the adoption of the report.

SPRINKLING THE REPORT WITH COLD WATER.

Considerable discussion arose on the street watering, and

Mr. Cahill moved that the report be amended by adding the watering of Stewart and Rubidge streets, from Aylmer to Dalhousie streets.

Mr. MELDRUM said he had no objection to watering any street, so long as the teams could do it, but the committee aimed to water the leading streets used by farmers coming to town. He believed that the private streets should be watered by frontage tax.

Mr. KELLY pointed out that the cost of the recommendation of the report would be, including street watering and snow cleaning, $2,675. He contended that the cost of street watering would exceed that of last year when a larger area was covered.

Mr. MELDRUM showed that the cost of the proposed scheme was $1,250, while for the same work as now done by T. Smith, the sum of $1,783 was paid. There would, of course, be an extra team in the stable at any rate.

Mr CAHILL pointed out that the committee had "gerrymandered the South Ward striking out Stewart and Rubidge streets from the watered area.

Mr. FERGUSON said the committee recommended the streets that were most travelled. He moved that Park street be added from Charlotte to McDonnel, thence to George street. To the report Mr. McIlwain said that London street should be added in the North Ward.

Mr. DENNISTOUN said that if their motions were pressed there would have to be another team.

The MAYOR—And another watering cart, too.

In answer to assurances that more streets would be included if the work could be done, Mr. Kelly insisted that those streets should be put into the report.

Mr. YOUNG said the only equitable way to settle the matter was to do the work by a frontage tax.

Mr. CAHILL said Mr. Winch expanded his resolution.

Mr. MCILWAINE moved, seconded by Mr. Donnelstoun that Dublin and London streets be added also.

A RATEPAYER SPEAKS

Mr. JOHN MCNAUGATON on motion was heard. He placed Sherbrooke street ahead of any other street in town for dust and traffic. He asked why the residents of the back streets should not have the privilege of raising their windows to get fresh air as well as the high toned persons on favoured streets? He believed in the frontage tax principle and in people paying for what they got. He closed by saying that the people had to stick up for their rights if they got them. He had been sticking up for his rights since he was seven years and six months old. (Cheers).

Mr. BEST said the committee had laid out all the work they thought the three available teams could do.

Mr. Cahill moved that the report be referred back to the committee except that portion referring to the outfit of the firemen.

CLAUSE BY CLAUSE.

The report was finally considered clause by clause.

On motion to adopt the first clause Mr. Kelly moved, seconded by Mr. Winch, that the report be referred back to the committee with instructions to call for tenders for the supply of two teams and two men for the fire brigade. The amendment was lost and the clause adopted.

The clothing clause, and the clause in reference to new mattresses for the firemen, were adopted, as well as that in reference to the fire alarm.

A DELUGE OF WATER.

On motion to adopt the clause in reference to street watering, Messrs. Cahill, Bradburn, Ferguson and McIlwain each moved amendments, each adding a large area to that recommended by the report, while including its recommendations.

These several amendments having been lost the report, as a whole, was adopted. The yeas and nays were called on the above amendments, and there was a lively scene in the civic chamber for some time.

THE STREET RAILWAY MATTER.

Mr. Cahill moved, seconded by Mr. Meldrum, that the town clerk be instructed to reply to the communication of Mr. M. D. Barr, dated 29 ult., stating that the council is anxious to afford the syndicate every opportunity to build the street railway, and to make it a financial success, which the council believe it will be; and that the council is prepared to grant all reasonable privileges in connection with giving light and power by the railway company and to state further that Mr. Barr is mistaken in supposing that any "determined opposition" has been offered or intended by this council to any reasonable proposal the syndicate may choose to make, and that the clerk further state that an early reply to his communication is expected—Carried.

INTERIM FIRE PROTECTION.

In answer to a pertinent inquiry by Mr. Young as to what was being done for the protection of the town, Mr. Smith's contract having expired

Mr. MELDRUM moved, seconded by Mr. Ferguson that Terrance Smith be allowed two months from the 30th of April to dispose of his horses and equipments, and that in the meantime the terms of the old contract remain in force.

After Mr. Ferguson had called attention to the indebtedness of Ashburnham in the sum of $1 000, the council adjourned at 11 o'clock.

After getting his head into it and drinking his fill he was unable to withdraw it and almost chocked. Mr. Chas. Archer with "Uncle's Darling" does some wonderful specialties on a common ten cent whistle. His imitations of musical instruments are very clever, but when he accompanies himself on the piano, playing two instruments at the same time, he perfectly electrifies his audience. In this feat alone he challenges the world.

One of them, presented to her by the Memphis, Tenn. lodge last spring, is a mammoth gold star, in the center of which is a large chased Elk's head, the antlers holding six large diamonds. The eyes are rubies and the entire ornament is one of the handsomest and most valuable souvenirs of the kind.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,088 in amount. Of these, 136 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,588, upon 2,871 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,-191.06.

At 31st December last there were in force $56,218,318.08 of assurances and bonus additions, upon 19,503 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,-124.87, having being increased during the year by $1,041.684 78.

The death claims for the year were upon 192 lives under 243 policies for $511,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized.

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M.G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq, New York State.

(Signed), A. G. RAMSAY, President,
R. HILLS, Secretary.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors' report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting, I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,-255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the company's assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,184.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 82 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceeds that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperity as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen.—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of careful management in the interest of the company. I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest. I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED,

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Farrie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments

HEAD OFFICE—168 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a concussion current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the NERVOUS and MUSCULAR Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a com etent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

"German Syrup"

Here is an incident from the South—Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Boschee's German Syrup. Meantime my cough grew worse and worse and, then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PETER J. BRIALS, Jr., Cayuga, Hines Co., Miss.

Burdock BLOOD BITTERS

CURES DYSPEPSIA

By acting upon the liver, stomach and bowels and purifying the blood, it removes every particle of the foul, impure or morbid matters which obstruct the proper working of the digestive organs and cause dyspepsia. This explains why B.B.B. succeeds in curing even the most obstinate cases.

Burdock BLOOD BITTERS

CURES CONSTIPATION

By regulating the bowels and removing all foul accumulations, it promptly and permanently cures this disease no matter of how long standing the case may be. B.B.B. acts in a natural, thorough and pleasant manner, never causing nausea or griping.

Burdock BLOOD BITTERS

CURES BILIOUSNESS

By regulating and toning the liver and removing excess of bile, this distressing disease, which is the frequent cause of sick headache, dizziness, etc., is cured without fail. No remedy has ever performed so many permanent cures in the same space of time as has B.B.B.

Burdock BLOOD BITTERS

CURES SCROFULA.

This scourge of humanity arises chiefly from bad blood, for which B.B.B. has proved itself the most successful remedy of modern times. It completely frees the blood of every impurity, from a common pimple to the worst scrofulous sore. Pimples, blotches, boils, rashes, eruptions, sores, etc., vanish at once before the wonderful purifying powers of B.B.B.

A LESSON IN MANNERS.

Uncle Theodore Has an Encounter With Farmer Tumbledowns.

At one of the farmers' institutes, Theodore Louis, the veteran teacher of bogology, had been relating to an interested audience of farmers how he bred, fed and marketed his hogs, giving minute details of the work, tending brood sows, cooking squashes, cleaning out the pens, supplying bedding and everything pertaining to the business. As he came down from the platform a farmer with unkempt hair and beard, a slouched hat, greasy frock and overalls, the latter tucked into a pair of dirty, coarse boots, met him and said:

"Mr. Louis, do you pretend to say you feed your own hogs?"

"Oh, yes! When I am at home."

"And clean out the manure?"

"Certainly," said Mr. Louis, with a smile.

"Well," said Farmer Tumbledown, with a sneer, "when a man with a stiff hat, a black suit of clothes, a gold chain and shiny shoes tells me he feeds hogs and cleans out the pen, I don't believe him."

This rather nettled the good-natured champion of improved "swine husbandry," and he said:

"My friend, did you learn anything new of me, to-day?"

"Oh, yes," said Tumbledown, "all you said about breeding and feeding was good, but I don't believe a man who dresses like you ever feeds hogs."

There was an interested group of listeners gathered by this time, and, with a twinkle in his eyes, Uncle Theodore said:

"Now, my friend, let me teach you something else. If you want men to respect you and your calling, you must show some respect for it yourself. You ought to have enough ambition and self-respect so that when you go to town or to attend an institute you would black your boots, put on a decent suit of clothes and clean yourself up."

The crowd seemed to appreciate the situation, and Tumbledown had business somewhere else.

It is not the farming but it is farmers like Tumbledown that cause some people to speak lightly of farmers. There is nothing in the business of farming that needs to make a boor of a man. The day is passed when dirty hands, greasy clothes and muddy boots are to be accepted as an index of occupation.—Colman's Rural World.

A Startling Statement.

At a New Hampshire institute the statement that a ton of butter contained but 48 cents worth of fertilizing material, while that in a ton of cheese was valued at $20, created an unusual degree of interest.

To Ease Competition Effects.

Competition is the great trouble in the way of us farmers. And there is but one way out; reduce the cost of production by better methods and growing more per acre. —T. B. Terry.

Louise Michel Keeping School.

Louise Michel, the famous woman Socialist agitator, greatest advocate of one phase of the idea of "women's rights," whose life has been one wild turmoil of excitement, is reported to have settled down to the prosaic life of keeping school in a quiet corner in London, and to have determined to henceforth lead a quiet existence. The school is of the ordinary kind, and she will teach the young idea to shoot intellectual sprouts and not oppressive politicians. Louise Michel is said to be not by any means the only political figure of one-time prominence swallowed up in quiet retirement in London.

Parsee Girls Who Cook.

Over one hundred Parsee girls competed for prizes at an examination in domestic cookery in Bombay recently. The prizes were awarded by a committee of Parsee ladies. The preparation of food for infants and invalids was a part of the examination, but the principal dishes were those in everyday demand in Parsee middle-class life: kabobs, potato wafers, yellow rice, omelets, puddings, and vegetables; and it is good promise for the future greatness of the Parsees that the girls did remarkably well.

Young Girls' Costumes.

Young girls are wearing white guipure lace pelerines over their dresses and cloaks. When worn over dresses they are looped up on the shoulders with bows of satin ribbon to match the dress or the long satin sash at the back, viaux rose, green or blue, yellow and lilac being reserved for married women. These lace pelerines, over soft woollen material of light shade, make pretty costumes for weddings, concerts and visits.

THE "SUN LIFE"

ASSURANCE CO. OF CANADA.

HEAD OFFICE, - - - - MONTREAL.

The year 1891 has been the Banner Year in the History of the Sun Life.

The Gross Applications for the year in the Life Department amounted to the enormous total of $5,901,000.00, an amount greatly exceeding that touched by the Company in any previous year, and it is believed no other Canadian Company has ever totaled a like amount in any one year.

THE SURPLUS PROFITS

have increased to even a greater extent than the new business, thus plainly indicating that the unbounded confidence placed in this great Financial Institution by the Canadian public, has not been misplaced.

Armed men raided the Nashville, Tenn., jail to obtain possession of Eph Grizzard, a negro ravisher. They attacked the doors with crowbars. Meantime Governor Buchanan had been apprised of what was going on and arrived with a posse. After parleying with the mob a fusilade of bullets was directed into them, two being killed. The mob then dispersed, but later returned with reinforcements, stormed the jail, secured Grizzard and hanged him from Cumberland bridge.

100 TRIPS WITHOUT A WRECK.

The Record of Capt. Thompson.

NEW YORK, May 2.—Captain Thompson of the Danish steamer Hekla, which arrived early Saturday from Swinemunde and Copenhagen, has just completed her one hundredth trip across the Atlantic without one single mishap or accident of any and kind. A joyous welcome was given him on his arrival, with music on cheering by representatives of the steamship line and a number of prominent merchants interested in the Scandinavian trip.

The Graceful Curves Were Spoiled.

NEW YORK, May 2.—Annie Kelly, a domestic in the family of Arthur Bender, the publisher of The Maritime Register, of No. 406 East Fifty-first-street, was bitten by a St. Bernard belonging to her employer two months ago. The dog bit out a piece of flesh weighing an eighth of a pound from the graceful curve of that part of her lower extremities which figures in the legal papers as "the said calves aforesaid."

The jury, after careful deliberation, decided the "said calves aforesaid" had sustained $380 worth of injuries, and Mr. Bender will pay up.

A Bath in Boiling Pitch.

COMBER, Ont., April 30.—H. B. Knister was repairing the roof of his store, and in ascending the ladder with a pail of boiling pitch the ladder broke and Knister fell to the ground, the pitch pouring upon him and terribly scalding his eyes and face. His injuries may terminate fatally.

Burglars entered the stores of Bewick & Co. and Trewin Bros. at Shelburne, Ont., and unsuccessfully attempted to blow open the safes. A young man named Thomas Donkin, sleeping overhead, says he pursued the burglars and was shot, and exhibits a bullet hole in his leg in confirmation of his story.

WITH THE RITES OF BUDDHA.

First Incineration of an American Theosophist With Mystic Ceremonies.

LOS ANGELES, Cal., May 3.—Saturday evening the remains of Byron Adonis, one of the most advanced adepts in theosophy, were incinerated at the crematory in Rosedale Cemetery with all the ceremonies attending Buddhist funerals.

It was the first Buddhist incineration ever performed in the United States, and the ceremonies were of a simple but in some respects mystical character. Quite an assemblage of Buddhists and theosophists gathered for the occasion.

The body was swathed in white clothes and decked with lilies and lotus flowers. It was turned face downward, and sandal wood, sugar, salt, rice, gold, copper and other symbolical elements were placed on the bier.

The ceremonies were begun by the Buddhists present repeating the invocation, in reality the creed of Buddhism, in the original Sanskrit. Then came a brief period of silent thought on the Four Meditations, and then passages in Sanskrit.

The company passed around the bier with bowed heads, and it was silently removed to the crematory. The doors were opened, and after casting more lotos flowers and lilies upon the dead form it was placed in the furnace.

It took two hours to reduce the body into ashes, which were then gathered up, taken out into the open fields and scattered to the four winds.

The passing away of Byron Adonis removes one of the most advanced adepts in the Western World. It is claimed that he had reached a much higher place than Mme. Blavatsky. Adonis was of English parents and was born in India. When a young man he made pilgrimage to the highest Himalayas, and there sought a knowledge of the mysteries of the Buddhist faith in almost inaccessible Lamaseries.

After two years spent in the study of the mysteries he came to America with a mission from the Mahatmas.

Chief, as Adonis was called, lived at No. 644 Sacramento-street, San Francisco. His life was an enigma. He was abstemious and economical and had ability of high order. He published theosophical journals at various times. All his money, books and manuscripts he left to Miss Marion Bruce, a woman whom he loved.

ELOPED AND WENT TO SEA.

How the Bride's Father Is Following the Pair in His Own Schooner.

SEA ISLE CITY, N.J., May 3.—Twice in less than a week have the residents of Port Norris, N.J., been agitated over the actions of certain of its residents. A few days ago the favorite minister in the town was accused by a deacon of his church of imprudent conduct with a young and very pretty lady member of his flock. Now, Port Norris has plenty more to talk about, for Miss Lizzie Weakes, the pretty 19-year-old daughter of Captain Andrew Weakes, a wealthy oysterman, eloped with George Rogers, who for a long time was employed by Captain Weakes as mate on board his schooner, the Petrel.

Rogers has been courting Miss Weakes for several months, much against the wishes of her father. Last week young Rogers asked the bluff old sea captain for the hand of his favorite daughter and met with a prompt refusal. Captain Weakes was angry and told Rogers not only to discontinue courting his daughter, but to keep away from his home or he would be shot. The lovers continued to meet, and last Sunday they managed to go to Mellville, N.J., and were married.

The bride accompanied her husband to Maurice River Cove, and before her father could interfere had embarked on board the schooner Four Brothers and sailed away to sea with her husband.

When Captain Weakes was apprised of his daughter's action he manned his schooner, the Petrel, and started in hot pursuit of the fleeing couple. The Petrel has a stock of provisions on board to last her crew two months, and Capt. Weakes has decided to follow the Four Brothers and bring back his daughter, even if he has to go to the North Pole to do it.

The Weakeses are the wealthiest and best known family in Port Norris. The sympathy of the community is with the fleeing couple, and as the Four Brothers is the swiftest craft in this part of New Jersey, it is doubtful if Captain Weakes can overhaul the elopers. Young Rogers and his wife are expected to land either in New York or Boston, as they shaped their course in that direction after leaving Delaware breakwater.

The shockingly mutilated body of a colored woman was found at Flushing, L.I., yesterday. It was subsequently recognized as that of Mrs. Annie Hamilton, wife of a flagman on the Long Island Railway. Hamilton has been arrested for the crime.

The ancestral halls and broad acres of several members of the British aristocracy are just now in the market. The Earl of Hardwicke wants an offer for his Wimpole estate. The Marquis of Exeter has been trying to sell the famous Burleigh house for some time past, and the Earl of Westmoreland wishes to dispose of Apethorpe Hall and 13 square miles of land around it.

Sell the best Clothing for the money that it is possible to buy in this town, or elsewhere.

It can't be termed simply cheap clothing and passed by with a sneer, though 'tis cheap by comparison in price with the same goods for sale elsewhere, for the Cloth is bought from the Best Makers, out by the Best Talent procurable, and made up in the best manner.

Then the price is marked just a shade above the cost of manufacture, and away below the lowest price the same goods are selling for at any other store; hence our confidence that a dollar here goes as far as a half more elsewhere Without a shadow of a doubt we give the most value for the least money.

Every Boy's Mother should see our Boys' Clothing. We believe we can interest the most critical people in Boys' Suits. Good Pocket Knife or Bat and Ball free with every Boys' Suit.

BUSY! BUSY! BUSY!

Our store has been a very busy one lately, but the opening week of May bids fair to be still busier; at least we are thoroughly prepared for it.

In Dress Goods, the embodiment of genuine taste is to be found in our stock, and you have a right to expect from us the best the market produces at importing prices.

In the Millinery Department, our stock is kept constantly augmented with the choicest selections of Bonnets and Hats, Millinery Novelties, Flowers, Ribbons, Laces, Ornaments, etc., all marked at extremely low prices.

Special offerings in Printed Drapery Silks in beautiful floral effects, at 80c. per yard.

One reason why we are doing so much in Carpets and Floor Oilcloths this year, is that we seem to understand what is wanted, and lose no time in getting the right patterns at the right price.

We are offering unusual attractions to purchasers of Lace Curtains which it would be well for housekeepers to see.

DOMINION PARLIAMENT.

A DULL DAY IN THE COMMONS YESTERDAY.

Work Takes the Place of Debate and a Lot of Business Is Transacted—A Law to Check Unscrupulous Newspaper Correspondents.

OTTAWA, May 4.—Yesterday was a quiet business day in the House and quite a good deal of work has been done in supply, a very considerable slice being taken out of railway and canal items.

Before going into committee there was quite a little discussion on the payment of $218 to Caspar Rett of Berlin for an immigration pamphlet in German, in connection with which Mr. Somerville read a letter from John Lowe, Deputy Minister of Agriculture, the other night, in which Lowe showed Rett how to get the amount which the Queen's Printer would not allow in his bill.

Mr. Carling read a long statement by Lowe, in which he said that Rett included in his bill the copyright of his book and cost of stereotyping, which the Queen's Printer could not allow and for which he was afterwards paid.

The Opposition, led by Messrs. Somerville, Mulock and McMullen, charged that the explanation was rather thin, but after a little sparring the matter dropped, and the House got into supply and passed items very comfortably until 11.30, when it adjourned.

Aimed At the Fakir.

The select committee on the Criminal Law Act met yesterday and made excellent progress, getting through with 125 clauses out of the thousand and odd which comprise the bill. There was a good deal of discussion over the clause which makes it an indictable offence, punishable with one year's imprisonment, to publish any false news or tale whereby injury or mischief is occasioned to any public or private interest.

Mr. Mulock and several other members represent this as a great attack on the liberties of the press, and the clause was laid over for further discussion. It is apparently aimed at the authors of yarns such as the one about Prince George of Wales sent from Montreal, and the celebrated fake about Madame Anger's diamonds manufactured here. If this clause remains in the bill the occupation of the Ottawa liar will be gone and he will be forced to emigrate to Chicago or some other place where newspapers do not have to be very particular about publishing the truth.

C. N. Armstrong of Baie des Chaleurs Railway fame was in the Railway Committee room yesterday looking after the Ottawa Valley Railway Co., in which he is interested.

There is some fear of another strike of the Chaudiere mill hands. At the opening of the season the lumbermen increased wages $1 per week and reduced the length of the day by a quarter of an hour, making it 11 hours, but this does not appear to satisfy the trades' unions, who want a 10-hour day.

CRESPO WILL HAVE REVENGE.

If Palacio Kills His Son Crespo Threatens to Burn Palacio at the Stake.

NEW YORK, May 4.—A cable to The Herald from Barquisimito, Venezuela, says: Dictator Palacio's alleged threat to kill the son of Gen. Crespo as soon as the last-named comes within a league of Caracas, has reached the headquarters of the revolutionists and excited great indignation. Gen. Crespo declares that if his son is put to death, Palacio will be burned at the stake in the Plaza in front of the Casa Amarilla. The revolutionists will do all they can to prevent the dictator from carrying out his threat, but if he should kill young Crespo, Palacio may expect, if captured, to be cremated. Brespo is getting dangerously near to Caracas, but he is not prepared to attack it. As I stated in previous despatches, he will not descend on the capital until Victoria has fallen. There is a great deal of slaughtering going on, but Crespo is not responsible for it. It is done by marauding gangs of unattached men who cannot be controlled by the commander of the revolutionists.

Palacio has just issued a circular to the people of Venezula. In it he says that at the conclusion of the war, whether it results in a victory for the Government or submission to the rebels, the different states will be called upon to elect representatives to the assembly, which will consider the question of the reformed constitution. To this assembly he will hand in his resignation from public power, which for no human consideration would he retain for a longer period.

What Yesterday's Lightning Did.

Residence of Charles Holland at Springfield, Ont., damaged $100.

W. J. Burroughs' barn at Blenheim, Ont., with 400 bushels of beans destroyed, involving $800 loss. House owned by Mr. Wetherford and Flater's carriage shop at Blenheim badly damaged.

The house of J. C. McNiven, Dorchester Station, Ont., was struck while the family were taking dinner. The lightning tore the chimney, scattering the bricks in every direction, passed down the pipe, through the floor to the cellar, returning back through the floor, striking Mr. McNiven, tearing the shoe and stocking from his foot, injuring his foot considerably. The house is considerably damaged.

He Jailed His Mother.

BROCKVILLE, Ont., May 4.—John Willis, Drummond township, took his mother, Mrs. Jane Liddell, to Perth Jail as an insane person. Dr. Kellock soon after made an examination but found the old lady only in a state of dotage. The old lady was discharged. The Courier says Willis was, Mrs. Liddell's son by her first marriage and was given the farm on covenanting to pay her a life annuity of $40 a year. He claims that his wife is sick and unable to care for his mother, and he is now looking up another place for her.

Cross Petition in North Perth.

DEEMING'S MANUSCRIPT.

LIKE BIRCHALL HE WILL WRITE AN AUTOBIOGRAPHY.

Which, It Is Suspected, Will Contain All He Knows of Crime—Precautions Taken to Prevent Him Committing Suicide—Miss Rounsevell To Be His Heiress.

MELBOURNE, May 4.—After Deeming was conveyed last night from the court room in which the sentence of death had been passed upon him and returned to jail his clothing was taken from him, and he was compelled to don the attire worn by convicts in the prison. He was then placed in the condemned cell, and heavy irons were locked upon his wrists to prevent him from committing suicide.

He is writing an autobiography, and it is believed he will in it confess to and describe all his crimes.

He is in good spirits, but evidently has no hope of clemency, as he is hastening to complete his book. He says he will bequeath the book to Miss Rounsevell, the young lady to whom he was engaged when arrested.

The execution will take place probably in the first week in June.

When the judge pronounced the words "to be hanged by the neck until dead," Deeming gasped and tottered, but recovered himself enough to nod with assumed indifference. Then he sank back in his seat.

Deeming told one of his turnkeys: "I suppose you think I am in a tight fit. Well, I presume I am, but I may cheat the gallows yet."

IMPORTANT DECISION.

The Pope Decides Against Separate Schools For the United States.

ROME, May 4.—The Pope has confirmed the decision of the propaganda in favor of the plan advocated by Archbishop Ireland, of allowing American Catholic schools to be taught by state teachers, religious instruction being given after school hours, the object being to relieve Catholics of the burden of the expense of separate schools.

The Stamford Earldom.

LONDON, May 4.—A case of the legal succession to the Earldom of Stamford, which has been before the House of Lords for some time was decided to-day in favor of the present Earl, the ninth holder of the title. The eighth Earl, who died in June, 1890, left a son whose mother was a negress of Cape Colony. The Earl married the negress, but this son was born prior to the marriage. The House of Lords' decision declares that this son is illegitimate and therefore has no claim on the title. The son made no contest to establish his legitimacy. The present Earl is William Grey, son of the late Rev. William Grey, brother of the late Earl.

STRIKE AT CORNWALL.

The Stormont Cotton Mill Closed Down—The Cause of the Trouble.

CORNWALL, May 4.—The Stormont Mill closed down yesterday, thereby throwing some six or seven hundred hands out of work. The trouble seems to have started amongst the union weavers. One of their number, it is said, reported a few minutes late on Thursday morning last and was sent out. He filed an appearance on Friday, but a "spare hand" was given charge of his looms and he was once more compelled to go out. This morning there was a repetition of what occurred on Thursday, and the weavers immediately stopped their looms, refusing to work unless the weaver in question was given his looms. Their demand was refused and the mill was closed down.

TRAIN WRECKING.

Dastardly Doings in Mississippi—Two Men Hurt—One Car Burned.

CHICAGO, May 4.—A special from Holly Spring, Miss., says a dastardly attempt was made to wreck passenger train No. 4, known as the Chicago limited, on the Illinois Central Railroad two miles north of there Sunday night. Piles of ties and rails were placed across the track just the other side of a curve where there is a steep embankment. The engineer saw the obstruction in time to avoid a catastrophe, but not soon enough to stay the damage to the engine and severe shaking up of the passengers. While the obstruction was being cleared away a heavy freight train ran into the rear of the limited, demolishing the sleeper and setting fire to it. It was totally consumed. The Pullman conductor was seriously injured, as was also the engineer of the passenger train.

HIS LIFE UNBEARABLE.

An Aged German Greatly Despondent at Being Called a Witch Doctor.

PITTSBURG, Pa., May 4.—A year ago on January 23, William Faulk, a German farmer of Bellevue, shot and killed his wife. He was arrested and upon a plea of insanity was sent to the Belmont Insane Asylum.

The story told at the trial was that an oldfarmer named George Knauff, who claimed to be a witch doctor had been the cause of the murder. It was stated that Knauff had told Faulk that he was to kill the first rat he saw, as it was the devil. If he failed, he would have to kill his wife as a sacrifice. The rat got away and he killed his wife.

Yesterday old man Knauff, who is 70 years old, called at the coroner's office and gave himself up. He said if he was the cause of Mrs. Faulk's murder he wanted to be hanged. Since the trial, he says, his life has been unbearable.

He can not get work and his own children have shut the door upon him. When he passes along the streets the children cry "Witch" and throw stones at him, while mothers hide their babes, fearing that he will cast an evil eye on them.

He denies that Faulk was insane and claims Faulk killed his wife because he was jealous of a hired man. He said he would have committed suicide long ago if it had not been for the disgrace upon his children. The old man was heartbroken and asked to be locked up. The coroner tried to pacify him, and finally succeeded in persuading him to go home, promising to look into the case.

His Arm Cut Off.

WOODSTOCK, Ont., May 4.—David Ferguson, aged 20, on his way home from a fishing trip, passed through the G.T.R. yard. The yardmen were shunting cars on the siding alongside Whitelaw's farm. Ferguson saw the train moving and with a jump attempted to clear the track before the car reached him, but as he stepped on the rail he slipped and fell. The wheels of the car passed over his right shoulder, smashing it to a jelly. Ferguson will lose his right arm.

WASHINGTON NEWS.

Report on the Condition of Trade Between Canada and the U.S

WASHINGTON, May 4.—The sub-committee of the Senate Committee on finance appointed to make enquiries as to the effects and results of tariff upon the trade between the United States and Canada submitted its report to the Senate yesterday in order that it might be printed and re-submitted to the committee, the sub-committee visited Eastport and Calais, Me., Newport, Vt., Ogdensburg, Oswego and Buffalo, N.Y., Cleveland and Toledo, Ohio, and Detroit, Mich.

From the beginning to the end, says the sub-committee, "all the places visited by us in our own country were increasing in population, while on the other side of the line as we were informed the population was everywhere diminishing. St. John's opposite Eastport had 4000 less population in 1891 than it had in 1881. From the testimony taken it was clear that the United States offered better markets and higher prices for anything and everything that Canadian farmers had to sell than could be obtained in the Canadian Dominion, and the prices or value there of horses, cattle or sheep, hay, peas, beans, potatoes, butter, eggs and poultry, was invariably as much below the selling price in the United States as the amount of duties imposed and the cost of the transportation.

AN OCTOGENARIAN'S SUICIDE.

A Hamilton Bookbinder Takes Poison And Dies.

HAMILTON, May 4.—John M. Munzinger, aged 83, one of the best known German citizens of Hamilton, ended his life by taking a dose of strychnine shortly before noon yesterday. For years he kept a bookbinding establishment in York-street, between MacNab and Park-streets, but for the past few years he lived with his son-in-law, Frank Kelk, 35 Bay-street north.

For some time past he had been troubled with gangrene of the foot, and was unable to leave his bed. His illness and his helplessness on account of his old age worried Mr. Munzinger greatly, and he suffered terrible pain from his foot. For 20 years he had kept a bottle of strychnine in the house, and in a moment of great pain he dragged himself out of bed and, getting the poison, he took a large dose.

He subsequently repented and told his wife, but the doctors were unable to save him.

A BIGAMIST SENTENCED.

Much-Married Dr. Cook Goes to the Penitentiary.

WINDSOR, May 4.—Dr. Bennett Cook, who was brought back from Toronto last evening after finishing his 30 days' sentence in jail for practising medicine without a license, was arraigned in Court yesterday on a charge of bigamy preferred by wife No. 2, who is a daughter of Undertaker Dick of Detroit. He pleaded guilty and was sentenced by Magistrate Bartlett to imprisonment at Kingston Penitentiary for two years.

QUEBEC LEGISLATURE.

A Bill to Exempt the Wages of Workingmen From Seizure.

QUEBEC, May 4.—Mr. Stephens will shortly introduce two very important measures. The first of these is to exempt from seizure the wages of workingmen. It reads as follows:

Section 1.—The wages and salaries of workmen and laborers paid by the day, week or month, including those who perform manual labor in factories and workshops, are exempt from seizure.

To Protect Newspaper Proprietors.

The second bill is being presented in the interest of newspaper proprietors, who are looked upon as fair game by a certain class of lawyers and blackmailed under the cloak of the libel law.

Under the present law a newspaper proprietor is sued and, having won his case, finds very often that the plaintiff cannot pay costs and has taken the action in expectation that the defendant would bleed rather than go to the trouble and expense of defending the case. Mr. Stephens' bill provides that some little measure of justice should be rendered to newspapers. It reads as follows:

Sec. 1.—Every person who brings or institutes an action, suit or proceedings in the courts of the Province of Quebec against newspapers published in this province for slander to give the opposite party security for the costs which may be incurred in consequence of such proceedings.

Judging from the questions asked to-day and the motions presented the public will shortly have an opportunity of learning how much they have had to pay for the holiday trips of Mercier and his friends.

Count Mercier's Trial.

QUEBEC, May 4.—The investigation into the charges preferred against Mr. Mercier took place before Judge Chauveau this morning within closed doors. The principal witness heard was Mr. Marcoux, manager of The Caisse D'Economie.

Robert H. McGreevy has taken out an action against J. C. Langelier for $416.90, value of a promissory note.

The writ of certiorari taken against Mr. Dechene, M.L.A. for l'Islet, by Mr. P. B. Casgrain, the defeated candidate, was dismissed with costs in the Superior Court, Quebec, yesterday. This action sustains Mr. Decheue as representative in the Local Legislature for l'Islet.

Hanlan and O'Connor in Chicago.

TORONTO, May 3.—Hanlan and O'Connor, the oarsmen, left for Chicago yesterday. They will visit Pullman with the intention of securing a course and inducement to row their championship double-scull race with Teemer and Hosmer in June. The Point au Pines management changed hands some time ago and it was found impossible to row the race where it was first intended to. Hanlan and O'Connor are expected back to the city on Saturday.

Presentation and Address.

Rev. Dr. and Mrs. Campbell of Listowell, Honoured by the Congregation.

The following from the *Listowel Banner* refers to Rev. Isaac Campbell, Ph. D. and Mrs. Campbell both well known and highly esteemed, and possessing many friends in Peterborough :—

Knox church manse was the scene of a pleasant event on Monday night when the people of the church met to testify their regard to Dr. Campbell and his estimable wife on the eve of their departure for Ottawa. The Rev. W. P. McKibbon, Milbank, and the Rev. A Henderson, M. A., Atwood, were present from neighboring congregations. Mr. John Livingstone, Jr., read the following address, accompanied with the gift of a handsome gold headed cane, the presentation being made by Mr. John Thompson, Sr.

Listowel, April 25th, 1892.

REV. DR. CAMPBELL,—The congregation of Knox church have learned with deep sorrow of your intended departure to another field of labor at an early date, severing the happy relations which have existed between us as pastor and people for the past nine years.

When you came to Listowel you found the congregation after a long time of weary waiting without a leader—discouraged and weakened. On your induction, the fresh energy you imparted began to give us hope, our material and spiritual interests so long neglected and languishing began to show signs of improvement.

The small, smoky, cold, comfortless, unsymmetrical and prematurely old place of worship was under your wise guidance, judgment, zeal and tact, replaced by a church edifice which for neatness, comfort, elegance and architectural design is unsurpassed outside of the larger cities ; our finances largely increased and never in our history we were in a better condition.

Our material interests being thus promoted, we turn our thankful hearts to what has been accomplished in a higher and spiritual sense. The congregation, the Bible class and the Sabbath school have largely increased. More life and enthusiasm exists in every department of church work. The cordial and happy relations existing between pastor and people were never better than now. In all your work Mrs. Campbell has been an active associate and coadjutor, and much of the activity and energy of our young people in church work is attributable to her zeal, enthusiasm and amiability.

Our friendship, sympathy and good wishes will follow you to the capital where a wider sphere of usefulness will be open to you.

Please accept this cane as a pledge of our respect and esteem, and a souvenir of our happy relations. When amidst the duties, privileges, extended opportunities and responsibilities of Ottawa, it may recall to your mind the affection of your late congregation.

Once more accept our best wishes, and may the grace of our Lord Jesus Christ be with you.

On behalf of the congregation.

Miss Nicholl then read an address to Mrs. Campbell and Mrs. T. L Hamilton made a presentation of a mantel clock :—

DEAR MRS CAMPBELL.—It is with feelings of regret that we have learned of your approaching departure from among us. In the period of over eight years, during which you have been associated with us in many undertakings, and have taken a most active part in so many good works, we have been learning to place a very high value on your guidance, assistance and companionship, and now that we are about to lose you we are keenly alive to the fact that the loss is one that cannot easily be replaced. How much you will be missed you may never know, it will be for those of us who have been associated with you in church work, mission work and Sunday school work to feel the vacancy left, and it is not we alone who will be the only ones to miss your friendship, it will be a loss that will be felt and a regret that will be taken part in by the many warm friends you have made in every denomination, and not only as the fellow worker and the guide whose example to us has always been for good, but most of all, as the dear friend who has won so warm a place in many of our hearts, that your loss will be most deeply felt. Your services and friendship are to us beyond valuation, but merely as a tangible expression of our appreciation and as something which may in the future recall to your mind the many friends you have left behind you in Listowel, we would ask you to accept of this clock, and the assurance that it is accompanied by the heartiest of good wishes for your future welfare and happiness, and more especially the wish that our Heavenly Father may watch between thee and us, when we are absent the one from the other

Signed on behalf of the ladies.

MRS. T. L. HAMILTON,
FLORENCE NICHOL,
MRS. W. THOMPSON,
MRS. J. LIVINGSTONE

Listowel, April 25th, 1892.

Dr. Campbell on behalf of himself and Mrs. Campbell made a very happy and feeling reply to the addresses thanking the people for their kindness during his pastorate.

Short addresses were made by the brother clergy present, and by Mr. D. D. Campbell and Mr. B. F. Brook, and after a time spent in social talk the gathering broke up after singing the hymn, "God be with you till we meet again."

The Wonderful Success

Of Hood's Sarsaparilla as a blood purifier entitles it to your confidence. No other preparation has such a record of cures of Scrofula, Salt Rheum, Blood Poisoning, or other blood diseases. To try it is to know its merit. Be sure to get Hood's Sarsaparilla.

Mount Pleasant.

(From Our Own Correspondent.)

Mr. James McIadoo is managing business for Mr. W. Lough, Ida.

Farmers are about half done seeding. No growth yet. Rain is much needed.

Dr. Hazzard, of Millbrook has the call to attend sick horses in our village and vicinity.

OSCULATORY.

The Mount Pleasant girl, a creature divine,
Whether wife, widow or miss,
Looks into your eyes with star-lit orbs,
And pats her whole soul in a kiss.

The Omemee girl, the pride of them all,
In her clinging and soulful way,
Absorbs it all with a yearning yearn,
As big as a ton of hay.

The Lindsay girl bows her stately head,
And fixes her stylish lips
In a firm hard way and lets them go,
In spasmodic little sips.

The Peterborough girl neither sighs or pines,
Nor coos in a manner rude,
But sees does her kissing in a business way,
Taut catches the average dude.

The Millbrook girl hath a "don't care" look,
And freezeth her face with a smile,
And sticks out her lips like an open book,
And chaweth her gum meanwhile.

The Bethany girl is gentle and sweet,
Sets her lips for the coming kiss,
And with rapturous warmth and youthful soul,
Floats away on the ocean of bliss.

The Port Hope girl says never a word,
And you'd think she was rather tame.
With a provincial view of the matter in hand,
But she gets there just the same.

The Cavanville girls gets a grip on herself,
And she carefully takes off her hat,
And she grabs her prize in a frightened way,
Like a terrier shaking a rat.

The Ida coy girl will first refuse,
Just to make you insist and plead,
And when she finally does consent,
"Her" kiss you'll declare takes the lead,

The Pontypool girl on tip-toe stands,
Her lips so tempting and red;
You take her head in both of your hands,
And, "Let her go, Finnigan," (Gallagher's dead.)

Miss A. Crowe, daughter of Professor Crowe, of Alnwick, has commenced her classes in this vicinity. Miss Crowe is an enthusiastic music teacher and will no doubt be be of great service to those who receive her tuition.

A very serious accident occurred a few miles north of this place, a few days ago. The barn of Mr. Wm. Spafford was being erected, and three bents had been successfully reared, when owing to some neglect, the chains had not been fastened around the fourth bent, which when it had been raised part of the way caught, throwing backward the man who held the foot, and striking Mr. W. Allen across the side. Mr. Allen had his arm broken above the elbow and several other injuries. He was taken to the home of Mr. Spafford. Dr Fraser has charge, and the young man is getting on as well as could be expected.

Consumption and Lung Difficulties

Always arise from particles of corrupt matter deposited in the air cells by impure blood. Purify that stream of life and it will very soon carry off and destroy the poisonous matter, and like a crystal river flowing through a desert will bring with it and leave throughout the body the elements of health and strength. As the river, leaving the elements of fertility in its course, causes the before barren waste to bloom with flowers and fruit, so pure blood causes the frame to rejoice in strength and health, and bloom with unfading beauty. All medicine dealers sell Dr. Morse's Indian Root Pills. dw

Their really gentle action and good effect on the system really make them a perfect little pill. They please those who use them. Carter's Little Liver Pills may well be termed "Perfection." dw

Board of Education.

A Short and Unimportant Session Held Last Night—Accounts Passed and Reports Received—Merely Routine Business Disposed of.

The regular meeting of the Board of Education was held last night in the School Board room. There was barely a quorum present: Chairman Wrighton and Messrs. Hill, Rutherford, McKee, Corkery, Hartley, Dunne, McBain and Ferguson. The minutes of the previous meeting were read and adopted.

COMMUNICATIONS.

The following communications were read:

From Williamson & Son, Peterborough, stating that they had a fine set of mineral specimens, 150 in number, and offer them to the Board for sale cheap, as they would be very useful in the Institute.—Received.

From Miss Ruth E. McClelland, Ottawa, making application for a position in one of the schools as soon as a vacancy occurs.—Committee on Appointments.

From John Millar, Deputy Minister of Education, stating that the half yearly grant of $675 51 will be forwarded to the Treasurer in a few days.—Received.

From Geo. C. Robb, Boiler Inspection and Insurance Co. of Canada, Toronto, stating that the steam boiler at the Central School had been inspected, and found satisfactory.—Received.

From Wm. Blackwell, stating that the Central School building was completed.—Received.

The following accounts were presented and read:—

REPORTS OF COMMITTEES.

Mr. Hill read the report of the Finance Committee:

To the members of the Board of Education:—

GENTLEMEN:—Your Finance Committee beg leave to report and recommend the payment of the following accounts:—

Metropolitan Grocery	$ 60
W. G. Bain & Co.	34 13
H. S. McDonald	90 97
Review	16 75
J. R. Stratton	93 11
J. R. Donnel (when certified to)	12 00

Your committee also report that they have increased the insurance on the furniture of the Collegiate Institute, having applied to the Guardian, through Mr. Cameron, for a policy of $1,000

All of which is respectfully submitted.

GEO. BURNHAM, Chairman.

The report was received.

Mr. HILL stated that committee to inquire into the advisability of engaging a local superintendent had met, and full inquiries had not yet been made. The committee would report at the next meeting of the Board.

THE PROPERTY COMMITTEE.

Mr. McBain read the report of the Property Committee:

To the members of the Board of Education:—

GENTLEMEN:—Your Property Committee beg leave to report that according to your instructions they have had the grounds at the Central school levelled and partly filled in. We have had 200 loads of street scrapings put on the yard at the north and west sides, which will add very much to the appearance, as well as to the value, of the school property. We have utilized about $7.00 worth of old material in building a fence between the Collegiate Institute and the Public School grounds, and also in laying a sidewalk to the north and east of the schools, and a platform in front of the gymnasium. Your committee have had the closets at the west ward and central schools thoroughly cleaned at a cost of $10, and we would recommend that George Stevens be paid the sum of $12 per year for cleaning all the closets twice a month and keeping the same in good order. The lady teachers' room has been repaired and put in good working order. The balance of the old lumber which could not be used otherwise has been cut and piled up for fuel.

All of which is respectfully submitted.

J. J. McBAIN, Chairman.

The report was adopted.

Principal FESSENDEN called the Board's attention that there were three examinations held at the midsummer holidays: Primary, Junior Leaving and Senior Leaving. The school law provided for the holding of the first two in each Collegiate Institute, but in the case of the Senior Leaving the Board could recommend that a presiding officer be engaged, and the examinations be held in the Collegiate Institute. There were three candidates this year who would write on Senior Leaving, and if the Board did not pass such a resolution those candidates would have to go to Toronto or to some other place according to what they were writing for, at a great expense to them personally.

Dr. TILLEY supported Mr. Fessenden's remarks and said the cost would not be great to secure the services of a presiding officer. No one from the Collegiate Institution could be engaged but any acting outside teacher could be secured to preside over the examination. The primary and junior leaving examinations began on Jan. 11th and the senior leaving on July 20th.

Moved by Mr. Rutherford, seconded by Mr. Hartley, that the senior leaving examination be held in Peterborough, and that a local presiding officer be appointed.—Carried.

Mr. Wm. Smith called attention to the high benches in Miss Cameron's room of the kindergarten department. Half of the seats were much too high for the children. The property committee were appointed to look after the matter. The board adjourned at 8 40 o'clock.

NOTES

Dr. Tilley inspected the Central and West Ward schools this morning.

The new fence around the Collegiate Institute adds much to its beauty. The grounds around have been levelled and sodded.

The lady teachers room in the Collegiate Institute has been comfortably furnished. It is nicely carpeted with tapestry and the window is nicely curtained. A nice bureau a table and cane seated chairs complete the new furnishings.

The prostration after the Grip is entirely overcome by Hood's Sarsaparilla. It really does make the weak strong.

Stubborn children readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

Forbidden to be Bondsmen.

The song says that "Britons never shall be slaves," but municipal councillors and constables are in an even better position than the lyrical Briton—they can't be "bondsmen" if they would. An amendment of the Liquor License Act, passed at the last session of the Ontario Legislature, states that "members of municipal councils and constables are ineligible, to act as bondsmen" for license holders, under the Liquor License Act.

Cricket Coach and Groundsman.

The cricket club has secured the services of Mr. Wm. Oldfield, of Toronto, as coach for the coming season. Mr. Oldfield is not long from England. He comes recommended as a first-class, round arm, left hand bowler, and a generally good all-round man. He has also been secured by the Association to take the oversight of the grounds. Mr. Oldfield is expected in town to-morrow. Evidently the cricket club means business this season.

The Tramp Nuisance.

The Brockville *Recorder* says: — "One reason why our town seems to have been so pestered by tramps of late is undoubtedly because of the stringent measures taken by Belleville, Kingston, Peterborough, Napanee Gananoque and other places against the nuisance. In the places mentioned the wandering "gents," when caught, are simply taken before the Magistrate, charged with vagrancy and sent to Central Prison. The tramps have already found this out and as a result they give these towns a wide birth and drop into Brockville." Why can you not follow the example of the other towns Mr. *Recorder*? Is there any reason why not?

The Gaol Population Increased.

His Worship Mayor Kendry is proving himself to be a just and capable magistrate, although a neophyte at the business. He held court last evening at 7 o'clock. James and Alex. Ross, brothers, residing on Cedar street, were arrested yesterday afternoon by Officer Stewart for being drunk and disorderly. They were fined $10 and costs or 20 days in gaol. They went up. This morning at the police court the Mayor again presided. John Brennahs was charged with being a common drunk. He told the court he was on his way to Toronto where he had a home, and that he had managed to take a little too much. He was allowed to go on promising to get out of town. Frank Phalan was charged with being drunk and with assault. He was fined $10 and costs or 30 days in gaol. He was sent up. The gaol population is now increased by three.

Benefit Entertainment,

A complimentary benefit will be tendered Sergt. Major Randle in the market hall on Monday and Tuesday evening, May 16th and 17th, when the following programme will be given. The first form of the Collegiate Institute as a military company under the command of of Capt. Guy Rogers will give an exhibition in company drill, manual, firing and bayonet exercises; a class from the senior form will give exercises in the 3rd and 4th course of McLaren's system of gymnastics. The Y.M.C.A. class will take part in the exercises. A series of military marching will be given by a class of young ladies of the Collegiate Institute. Also a class of public school girls will give an exhibition of club swinging, wand exercises, hoop drill and the May pole, crowning the queen, etc. The Y.M.C.A. class will render a series of club swinging, dumb bell and bar bell exercises and physical drill.

Property Sold.

At the auction sale of Mr. James Coughlin's property and effects yesterday, conducted by Mr. John Haggart, the residence on Rubidge street was sold to Mr. Joseph Richardson for $1855, the grocery stock was bought by Mrs. Hugh Quirk and the household goods were well disposed of.

Look Out For The Tramps.

Last night Mr. John Trombley, Charlotte street saw a tramp remove a shirt from the clothes line of the next neighbour, Mr. Walter Scott, and secrete it about his person. Mr. Trombley shouted at the scamp, who had a chum waiting in the street. The police were notified and gave chase, but the fellows, who have been loafing around the west end several days, escaped. Look out for this class of gentry.

A Creditable Year's Work.

At the recent examinations of the Toronto School of Science, we notice the name of Mr. J. M. R. Fairbairn, nephew of Mr. G. M. Roger, among the list of successful candidates in the second year's course of civil engineering. Mr. Fairbairn passed in Drawing, Construction Notes, Thesis, Spherical Trigonometry and Geodesy, Optics, Descriptive Geometry, Astronomy, Surveying, Hydrostatics, Experimental Physics, Mineralogy, Geology, Applied Chemistry and Metallurgy, Chemistry and Practical Mineralogy.

Market Items.

The market this morning was very slim—four waggons dotted the square and four women sold butter and eggs inside. The only things offered to-day were potatoes and hay. The former sold at 45 to 50c. per bag and the latter at $13 to $14 a ton. A few loads of peas and oats were selling for 63 and 31c. per bush respectively. Spinnach sold at 25c per peck, and tomato plants at 10c. per box, butter sold at 20c. per pound, and eggs at 9 and 10c. per dozen. Nothing else was offered—not even a patent medicine vendor offering medicine, or an auctioneer, great bargains.

Solemn Requiem High Mass.

There was a large congregation at St. Peter's Cathedral this morning at 8 o'clock, when requiem high mass wassung for the repose of the soul of the late lamented Bishop Jamot. V. Rev. P. D. Laurent, V.G., Lindsay, was celebrant, Rev. Father Collins, deacon, Rev. Father Donnelaiers, subdeacon, and Rev. Father Rudkins, master of ceremonies. His Lordship Bishop O'Connor was seated upon the episcopal throne, and took the prescribed part in the ceremony, and after the mass performed the absolution. There was special music of an appropriate character. The memory of "the good Bishop Jamot" will long live in the hearts of the people.

A Good Word for the Canadian Press.

In his discourse on Sunday evening last Rev. N. A. McDiarmid, of Picton, took occasion to refer to the Canadian press, which he characterized as the cleanest, from a moral standpoint, in America. He also had a good word to say of the reporters, and the criticisms often made of the duties which they are from time to time called upon to perform. He said for the ninety and nine good acts performed by them, when through accident or thorough details of information, one paragraph is inserted which should not appear, all the goods acts performed are forgotten, and condemnation and censure without mitigation is heaped upon them. Annoymous writers and verbal gossippers who busied themselves in sowing seeds of discord were handled in a manner that would prove profitable lessons to any such who happened to be present.

Numerous challenges have already been received, and the club has a large membership.

An English Marriage.

The Nuptials of a Niece of Mr. Robert Hamilton, Sr.

The Sheffield, (Eng.) Daily *Telegraph* contains a long report of the brilliant marriage of Miss Edith Hoyland, daughter of Mr. Hugh Hoyland, of Clifton, Rotherham, and and niece of R. Hamilton, sr., town, to Mr. Charles Smith, of Perth. The wedding was celebrated in the Parish church, one of the most venerable in England. The bride was attended by five bridesmaids, and the marriage service was entirely choral, and the music was something especially elaborate. The report says: "The wedding was considered one of the prettiest which has taken place in the town for some time." At the conclusion of the ceremony there was an "at home" at Clifton, the guests numbering about 100. The wedding presents were numerous and of a costly description. The bridegroom's present to the bride was a handsome pearl and gold bracelet, and the bridesmaids each received from the bridegroom a gold ring set with pearls. The beautiful bouquets carried by the bride and her maids were sent by an old friend of the family, Lady Lansdowne, wife of a former Governor-General of Canada.

The Philharmonic Concert.

A Fine Programme Successfully and Smoothly Carried Out.

There was a fair sized audience present at the second concert given by the Philharmonic Society, in Bradburn's Opera House, under the direction of Mr. J. Churchill Arridge, but the attendance was far short of what the merits of the programme demanded. A pleasant feature of the concert was the printing of the words of the several songs and choruses, thus enabling the auditors to enjoy a more intelligent appreciation of the selections. The programme opened with a double choral number—Hatton's "Summer Eve" and "The Wanderer's Night Song," rendered with the utmost credit to both performers and conductor, showing careful training and an appreciative understanding of the instructions given. The attack was prompt and firm, the shading delicate and just, and altogether the performance of these numbers was satisfactory. The same remarks apply generally to the succeeding choral selections, a German folk song, "Farewell," Barnby's "Lullaby," Wagner's "Faithful and True," from Lohengrin, "Song of Spring," and the "Anvil" chorus from Il Trovatore. All except the two latter were unaccompanied. Mr. J. Churchill Arridge, the well-known and brilliant flautist, rendered as his first number De Jong's "Fantaisie Faust." Although it did not appeal as strongly, as his subsequent selections, to the popular taste, yet its artistic treatment and musicianly interpretation left nothing to be desired. His second essay was "Black Eyed Susan," and variations on the lively "The Keel Row." These were both splendidly performed. The limpid purity and evenness of tone, smooth and uniform *crescendo*, the pearly ripple of the *cadenzi* tastefully and artistically combined, formed a decided musical treat, which was rewarded by a warm recall, which was responded to. Mr. Douglas Bird, the Toronto tenor, gave "I'll Sing Thee Songs of Araby," in excellent voice, and with pleasing smoothness and unaffected good taste. His first appearance before a Peterborough audience resulted in a warm recall which was acknowledged with another charming number, that fine old favorite, Lindsay's "Far Away." He also sang, "Tell Her I love Her so" in excellent style and in response to a hearty encore gave, "Oft in the stilly night," in an exquisite manner—with great sweetness and purity of tone and pathos of expression. Mr. Bird has a fine tenor voice, well in hand, and a quiet unaffected style that, combined with him popular favour. Miss Minnie Gaylord the popular Toronto soprano made her first appearance in Bishop's florid and brilliant, "Lo, Hear the Gentle Lark," with flute obligato by Mr. Arridge. Miss Gaylord did this selection splendid justice. Her execution was extremely facile and brilliant, her intonation correct, and the result was an enthusiastic recall which was acknowledged by an encore of the latter part. Her second number was a double one—Behm's "Calm as the Night," and Cowen's "Snow Flake," which, though rather exacting in range for so young a voice, were excellently sung. Miss Gaylord has a voice of very pleasing quality and especially in the middle register; as young as she is, she is an exceptionally fine vocalist, and her future is one of great promise. Master Gussie Arridge, the boy soprano, sang "Rest in the Lord, from Mendelssohn's Elijah, very sweetly, and with correct and tasteful appreciation of its requirements, which did him the greatest credit. His second number, "When I'm Big I'll be a Soldier," was also capitally sung, and very heartily applauded, as it well deserved. The sacred duet, "Tarry with Me," by Miss Gaylord and Mr. Douglas Bird was a fine piece of work, which gave great pleasure. The programme was concluded by the singing of that old world-wide favourite of Dr. John Bull, "God Save the Queen." It is seldom that an audience has the privilege of hearing the National Anthem sung in so splendid and spirited a manner, as it was given by the chorus of the Philharmonic Society last night. It was a happy idea to make it one of the numbers of the programme instead of performing it, as is usually done, at the fag end, to the accompaniment of shuffling feet and the rustle of donning wraps and overcoats It is to be regretted that there was not a larger attendance; the entertainment *per se* was worthy of it, and the society deserves a more practical encouragement in the interest of musical culture than is accorded it.

Over 4,000 Invalids Rejoicing.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5.00 per month*, and furnish medicines free of cost. Keene.

(From Our Own Correspondent.)

The missionary meeting in connection with the Methodist Sunday School held here on Sunday evening last was a decided success in every way. Mrs. Kendry and Miss Quinn, of Peterborough, each gave a very able address on missionary work, as also did Mr. Ward, our public school teacher.

Friday next being Arbor day, the ratepayers of our public school purpose to ornament the school yard by laying sidewalks, planting trees and otherwise beautifying the grounds. In the evening addresses, singing, etc., will be given in the town hall by local talent.

A young man in this vicinity while driving into the village, was rather startled and shaken up on Saturday night last, by his horse shying at a white cow which had taken lodgings in the ditch for the night, leaving him and the buggy behind a stump, minus two wheels.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,088 in amount. Of these, 186 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,588, upon 2,871 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,191.06.

At 31st December last there were in force $56,218,318.08 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,124.87, having being increased during the year by $1,041,684 78.

The death claims for the year were upon 192 lives under 243 policies for $511,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized.

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M. G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq, New York State.

(Signed), A. G. RAMSAY, President,
R. HILLS, Secretary.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting, I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago, with the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the companys assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,784.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 32 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperity as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen.—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of careful management in the interest of the company. I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest, I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Farrie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Compbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

"August Flower"

Perhaps you do not believe these statements concerning Green's August Flower. Well, we can't make you. We can't force conviction into your head or medicine into your throat. We don't want to. The money is yours, and the misery is yours; and until you are willing to believe, and spend the one for the relief of the other, they will stay so. John H. Foster, 1122 Brown Street, Philadelphia, says: "My wife is a little Scotch woman, thirty years of age and of a naturally delicate disposition. For five or six years past she has been suffering from Dyspepsia. She became so bad at last that she could not sit down to a meal but she had to vomit it as soon as she had eaten it. Two bottles of your August Flower have cured her, after many doctors failed. She can now eat anything, and enjoy it; and as for Dyspepsia, she does not know that she ever had it."

Burdock Blood Bitters

CURES DYSPEPSIA

By acting upon the liver, stomach and bowels and purifying the blood, it removes every particle of the foul, impure or morbid matters which obstruct the proper working of the digestive organs and cause dyspepsia. This explains why B.B.B. succeeds in curing even the most obstinate cases.

Burdock Blood Bitters

CURES CONSTIPATION

By regulating the bowels and removing all foul accumulations, it promptly and permanently cures this disease no matter of how long standing the case may be. B.B.B. acts in a natural, thorough and pleasant manner, never causing nausea or griping.

Burdock Blood Bitters

CURES BILIOUSNESS

By regulating and toning the liver and removing excess of bile, this distressing disease, which is the frequent cause of sick headache, dizziness, etc., is cured without fail. No remedy has ever performed so many permanent cures in the same space of time as has B.B.B.

Burdock Blood Bitters

CURES SCROFULA.

This scourge of humanity arises chiefly from bad blood, for which B.B.B. has proved itself the most successful remedy of modern times. It completely frees the blood of every impurity, from a common pimple to the worst scrofulous sore. Pimples, blotches, boils, rashes, eruptions, sores, etc., vanish at once before the wonderful purifying powers of B.B.B.

THE KINGDOM OF WOMEN.

THE BEAUTY OF THE ROYAL FAMILY OF BRITAIN.

A Beauty Diminisher—Spring Hosiery—Queen of Washerwomen—Clever Women—The Fashions to Be—French Women Journalists—The Favorites of Fashion.

What a piece of malicious mischief, says the New York Sun, is the "Bell coat" that we are called upon to wear in this year of grace 1892! Not content with disguising the prettiest thing about a woman, her gracious curves and the pretty slenderness of waist she has suffered years of torture to attain, in a shapeless, seamless garment of the night-shirt family, the latest decree is that the awkwardness of the ungainly thing shall be intensified by a strap buttoned or buckled across the back at the waist line. This strap is as useful a member of society as the third leg on a duck, the fifth wheel on a cart, or the buttons on the back of a man's coat. Its only mission on earth is to disfigure the woman who wears it and to prove to an unbelieving world what a sweet, self-sacrificing, long-suffering, and enduring creature a woman is. Only pretty women will be courageous enough to wear the garment, and no penitential sackcloth could be more mortifying to their vanity. Some of these coats add to their other iniquities, that of being bound with leather and having a leather strap across the back, but most of them are content with the raggedest of raw edges and stitched belts fastened with butter plates of mother-of-pearl or horn.

The Spring Hosiery.

Hosiery is another important subject just now to the woman who wants to look well this spring. The æsthetic young woman is revelling in the Duchesse stocking, a dainty and delicate affair, made of fine white silk with high instep of lace insertion. The stocking, between the stripes of insertion, is embroidered with white silk. Stockings with colored silk tops and high insteps of sandal lace are something new. So also is the Grecian stocking. This has a black silk boot with colored tops and fancy clocking at the side. Another very popular stocking delight in wearing is the "Mascotte." It has a black silk boot, colored top and lacing at the side. The spring shades for the tops of stockings are a delicate nile green called cigale. Argent, which is a grayish tint; perse, which blends on the lilac, and eglantine, which is in reality nothing but old pink, are high in favor.

Queen of Washerwomen.

The queen of the Paris laundress has been chosen. Her name is Mlle. Henriette Delabarre. Her office is to ride in a triumphal car at the fete through the streets of the city. The correspondents say that she was chosen entirely with a view to artistic effect, being a young girl of sixteen, fair-haired, pale and of placid and ingenious countenance. She has been chosen queen by the universal suffrage of the laundresses of Paris. She was educated by the sisters of St. Vincent de Paul at one of their schools, where she was remarkable for humility and obedience. They are not at all pleased at her election, which they fear will be her ruin. The washerwomen are subscribing to buy artificial lilies and other white flowers wherewith to decorate the vehicle which will serve as a throne to their most gracious young sovereign.

"Love and smoke are unable to conceal themselves," and so it is with catarrh. No man suffering from this loathsome disease can conceal the fact from the world. No matter how cultured, learned, social or brilliant he is—while his friends may be polite enough to dissemble their real feelings—his very company is loathsome. What a blessing it would be to humanity if every person afflicted with catarrh in the head could only know that Dr. Sage's Catarrh Remedy will positively and permanently cure the worst case. The manufacturers guarantee to cure every case, or forfeit $500. The remedy is pleasant to use and only costs 50c. o

Seven Years' Suffering.

GENTLEMEN,—I had suffered very much from inflammatory rheumatism, which through wrong treatment left ugly running sores on my hands and feet. With these I suffered for seven years, during which time I had neither shoe nor stocking on. I commenced using B. B. B. externally and internally, using the Pills also, and I can say now that the sores are entirely cured, and have been for some time. I believe the bitters were the means of saving my life.

To Revolutionize Boatbuilding—The First of the Kind on Record.

PHILADELPHIA, May 3.—Commodore Stahnell of the Schuylkill Navy took his first trial pull in the new aluminium shell built by Daniel Galanaugh last Tuesday, and he expressed himself as greatly pleased with it. The shell is made on one of the most approved models and sits the water like a duck. It weighs but a trifle over 26 pounds and is 31 feet 5 inches long, 19¾ inches beam, 6 inches amidship, 3¾ inches bow and 1¾ inches stern. It is the first aluminium racing shell ever made, but is not likely to be the last. Galanaugh expects to revolutionize shell building and thinks eventually to turn out aluminium shells weighing but 24 pounds, which will be from four to eight pounds less than paper or cedar shells average. The outrigger on the boat just finished are made of steel pipe, the washbox, seat and some of the timbers of wood, the deck of linen and the balance of aluminium.

BROKE INTO A JAIL.

A Sarnia Widower's Plan to See His Best Girl.

SARNIA, Ont., May 3.—William H. Rogers, a young widower, was courting Kate Mulholland, who was sent to jail for six months for breaking the law. Yesterday Rogers' love for the woman welled within him to such an extent that he determined to break into jail to see her. So he first got into the court room in the county buildings, went through a window and swung himself onto the roof, proceeded along on the kitchen and dropped into the female ward. The door to the female ward was open and Rogers was thus with the Mulholland girl. He remained in the female ward for from an hour to two hours. But when Rogers wanted to get out he couldn't go back by the same route by which he had entered. He tried it but Turnkey Cushen caught him.

Yesterday the magistrate gave him 24 hours to get out of town.

PRIEST HANDLES PISTOL.

Driving a Parishioner From Church at a Revolver's Point.

BURLINGTON, N.J., May 4.—Attired in the full robes of pr. stly office, and standing at the altar before his assembled congregation, Father Treacy, pastor of St. Paul's Roman Catholic Church here, this morning ejected Matthew Gavuor at the point of a pistol. The wildest excitement prevailed; women screamed, men jumped to their feet, and in the midst of all the uproar Gaynor left the building, followed to the door by the pointed revolver of the enraged priest.

Trouble has been brewing between the pastor and Gaynor, who is one of the parishioners, for sometime past. Gaynor's daughter had been courted by a young Protestant, and this so angered the priest that after a talk with the father, during which he vainly urged him to break off the friendship, he told him that he was no longer a member of the church and would not be allowed to enter the edifice.

This Gaynor refused to recognize as authoritative, and yesterday morning he went to church as usual. The first evidence of trouble was when he found the door of his pew locked. He took another seat, but had hardly settled down when the priest, pausing in the services which he had just begun, stepped before the altar, and drawing from beneath the folds of his vestment a revolver, called on Gayner in a loud voice to remain at his peril. Fearful of being shot down Gayner left.

This afternoon Gaynor left for Trenton to present the case to Bishop O'Farrell, with a view to securing his own reinstatement and the removal of Father Treacy.

This is not the first exciting scene in which the pastor of St. Paul's has been a leading figure, and many among his congregation declare that he is unbalanced mentally, if not actually suffering from incipient paresis.

MURDER WILL OUT.

An Old Colored Woman Just Reveals One Committed 20 Years Ago.

CINCINNATI, May 4.—An investigation is being made of a strange story told by Mrs. Jennie Britton, a respectable colored woman who resides near Mainville, this county. In the village store a few nights ago, hearing the recital of a recent brutal and mysterious murder, she thoughtlessly said: "I know of a worse murder than that and it was never found out." Startled at her words she refused to say more for some time, but after several days' importunity she told the story.

Mrs. Britton says that twenty-six years ago she was employed to clean the rooms in a Cincinnati bagnio kept by Mattie Wagner. One day she saw a federal officer in the room of a girl named Mollie. He was partly intoxicated and had a large roll of money in his hands. Next morning when Mrs. Britton went into the cellar for coal she saw the dead body of the man she had seen the day before. The landlady did not seem surprised, and, giving her a number of presents, urged her to be quiet or she with the rest of the inmates of the house would be arrested. Mr. Britton went home and never returned to the house.

She had not been in the city for years, but being brought in by a detective picked out a house on Plum-street, which she said was the place. On investigation it is proved that Mattie Wagner did live there at the time named and had with her a girl named Mollie, who answers Mrs. Britton's description.

Wagner is dead, but a Mollie, who was in her house, has been located in Chicago, where she is doing time in the workhouse for drunkenness. There is no clew to the officer's identity or what became of his body.

Says Pat Rooney Was a Bigamist.

NEW YORK, May 4.—A letter has been received from a woman in Birmingham, England, in which she claims to have been the legal wife of "Pat" Rooney, the Irish comedian, who recently died. The writer says that her maiden name was Caroline Bartlom, and that she was married to Rooney on Christmas Day, 1870, in Birmingham. She has one son, who is now 21 years old and with whom she accompanied her husband to this country during the first year of their married life. The actor, she says, subsequently deserted her.

Bunco Steerers Raise Fine Points of Law

ALBANY, May 4.—Argument in the case of George Washington Post, late of the firm of Post & O'Brien, experts in the bunco line, was commenced before Judge Edwards in Hudson yesterday on a writ of habeas corpus.

John A. Gleason, Post's attorney, stated his position as follows: A requisition had been made by the State of New York to the Governor of Wisconsin for the surrender of Post in order that he might be tried for grand larceny under which charges he had been indicted in New York. It urged that extradition was illegal as it was obtained on a charge different from that upon which he is now held, which is robbery.

On the other side it was contended by Assistant District Attorney Cohn that the prisoner once within the limits of the state might be tried for any crime. The judge took the papers and reserved decision.

SHE SENT CHAMPAGNE CORKS.

How Mrs. Platt Exulted, Over the Defeat of Her Husband's Divorce Suit.

BROOKLYN, May 4.—Minnie L. Platt, wife of William H. Platt, formerly of the United States navy, was in the Brooklyn city court again, her husband's second divorce suit, naming ex-Governor Waller's son, Martin, as correspondent, being on the docket.

Mrs. Platt had applied for $30 a month alimony and $750 counsel fees. In renewing his application Lawyer Patterson said that Mr. Platt had employed spies to follow Mrs. Platt and had made her life miserable, and that she had been obliged to protect herself the best way she could.

Thereupon Lawyer Graves, counsel for Mr. Platt, indignantly denied that Mrs. Platt had been followed. He declared that it was not necessary as the woman was thoroughly bad and could not refrain from misconducting herself.

He also charged that Mrs. Platt attempted to shoot her husband in Hoyt-street recently, and submitted a hotel waiter's affidavit that he had served Mrs. Platt with two Manhattan cocktails. Mr. Graves exhibited a card on which was fastened two lovers' knots, made of yellow ribbon, with four champagne corks dangling from them. One side of the card was inscribed, "He who laughs last laughs best." The other had this legend: "A few of my last smiles." Mrs. Platt, he said, had sent it soon after the end of the first divorce suit to show that she was elated at her victory. Mrs. Platt smiled as the corks and yellow ribbon dangled before Judge Osborne.

Judge Osborne took the papers in the case and reserved his decision.

MORTAR-SPOTTED SKIN

Covered with Scales. Awful Spectacle. Cured in Five Weeks by the Cuticura Remedies.

About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers accompanied with itching. I would scratch every night until I was raw, then the next night the scales being formed meanwhile were scratched off again. In vain did I consult all the doctors in the county, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your CUTICURA REMEDIES, and purchased them from my druggist, and obtained almost immediate relief. I began to notice that the scaly eruptions gradually dropped off and disappeared one by one, until I had been fully cured. I had the disease thirteen months before I began taking the REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I know of a great many who have taken the REMEDIES, and thank me for the knowledge of them, especially mothers who have babes with scaly eruptions on their heads and bodies. I cannot express my thanks to you. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as clear as a baby's.

THE CARON CHARGES.

THE GOVERNMENT DECIDES TO REFER THEM

And Proposes to Appoint a Royal Commission to Sift the Whole Matter—The Opposition Wants a Reference to the Privileges and Election Committee.

OTTAWA, May 5.—The great Caron debate was resumed at 3.15 o'clock yesterday, but not by Mr. Bennett, who moved the amendment of the debate last week, as was expected. Instead Hon. Mr. Bowell, Minister of Militia, made a statement on the part of the Government, and concluded by moving a very long amendment, which wound up with a motion that the charges as amended, amplified and specified in the amendment, be referred to a commission to be appointed under chapter 114 of the revised statutes.

In support of this amendment, he said in effect that when the Government objected to the charges as introduced by Mr. Edgar on account of their vagueness Sir John Thompson said that if specific charges were made they would be investigated at once. Since then Messrs. Mills, Cartwright and Edgar in their speeches had made more definite and specific charges than had been made in Mr. Edgar's motion, and therefore it had been decided that the policy of the Government as announced by the Minister of Justice would be carried out and an investigation held. As to the substitution of a commission for the Committee on Privileges and Elections, he pointed out that the investigation would be much more thorough and would be more satisfactory to the country if conducted by an impartial tribunal than if left to a political committee of the House. The commission would not make any report or express any opinion. It would simply take the evidence under oath and submit it to the House, which would then form its own judgment.

The announcement was received with signs of disapprobation by the Opposition. Mr. Flint spoke for hour against the amendment.

Then Mr. Davin rose and spoke for about half an hour, up to recess, in favor of the amendment and continued for half an hour after the debate was resumed.

He was followed by Mr. Brodeur in French in opposition to the amendment, and he in turn was succeeded by Mr. Desjardins of L'Islet.

The debate was continued by Messrs. Choquette, Dupont, Carroll and Desaulniers.

ONLY FOUR DAYS A BRIDE.

Tragic Death of a New Married Beamsville Lady.

BEAMSVILLE, Ont., May 5.—Mrs. Alexander Gibson, nee Ida Walker, died suddenly here and her death is all the more lamentable as she was only married on Thursday last to Mr. Alexander Gibson, brother of Mr. William Gibson, M.P. Mrs. Gibson was in good health up to the moment she was stricken down. The doctors pronounce the bursting of a blood vessel on the brain as the cause.

A Lambton Girl Buries Her Lover on Her Father's Farm.

SARNIA, Ont., May 5.—The remains of George F. Ford, who while acting as watchman on a steamer was crushed to death at Sault Ste. Marie, were interred near Wilkesport, in Sombra township, yesterday. The deceased was engaged to be married to a young lady there, Miss Queenie Bishop, daughter of a farmer, and the body was taken to her father's home on arrival from Sault Ste. Marie, and buried on her father's farm, she being the chief mourner.

Mr. Ford was studying for the Baptist ministry, had previously been a teacher, and was working, when he met his death, to earn money to aid him in the course.

Faithful to No One.

SYDENHAM, Ont., May 4.—William Boyd, who deserted his wife in Rome and eloped from Little Falls, N.Y., to this village with one Mrs. Hattie Freeman, has now been deserted by the Freeman woman, and has written to friends in Rome saying that he is sorry for what he has done and asks them to intercede with his wife on his behalf and get her forgiveness, that he might return to Rome and continue life anew. This, it is said, she will not do, as she has commenced an action for divorce.

FEMALE SUFFRAGE.

Mr. Abbott Personally Favors the Enfranchisement of Women.

OTTAWA, May 5.—Mr. R. McDonald of Toronto and some ladies from Ottawa, representing the Women's Temperance Union, waited on Premier Abbott and asked that the Dominion franchise be extended to women. The Premier said that he was personally favorable to women getting the franchise, and he would consider the matter between now and next session of Parliament. Nothing could be done during the present session.

Buffalo's Canal-street Concert Saloons

BUFFALO, May 5.—The reform wave has struck Buffalo, and for the first time in years there was no music in Canal-street, the theatre seats were empty and the crowd usually seen at these places wandered about the streets with no place to go.

Superintendent Morgenstern declares that none but regular theatres will be licensed and that the concert saloon must go.

"No license will be issued to any concert saloon where liquor is sold," he says. The edict is a stunning blow to the dive-keepers in Canal-street, a thoroughfare known far and wide as the "wickedest spot on earth."

Prince Michael's Trial Postponed.

DETROIT, May 5.—In the Recorder's Court Prince Michael, shackled to a boy accused of larceny, was brought into the dock.

"Stand up, Michael Mills," commanded Assistant-Prosecutor Springer.

The order was obeyed and Mr. Springer then read the complaint against Mills, accusing him of assaulting Bernice Bickle, 14 years of age.

"What say you, guilty or not guilty?"

"My beloved brother, I am not guilty," replied Michael, stroking his flowing locks.

The Prince continued standing and Miss Courts arose. Then Mr. Springer read the complaint, accusing the pair of lewd and lascivious cohabitation. With one accord they replied "not guilty." Their trial was then postponed.

A MYSTERIOUS MURDER.

THE BODY OF A WOMAN FOUND IN A POND.

Her Throat Cut Across—She Was the Colored Wife of a Colored Preacher—A Peddler Mixed Up in the Matter—A Clear Case of Murder.

WINFIELD, L.I., May 5.—This quiet town is all agog over the discovery of a murder mystery. The body of a colored woman was found early yesterday lying in a pond about one-eighth of a mile up the track from the railroad station with the throat cut from ear to ear. The only things found near the body were a heavy black rock coat, a razor and what looks to be a small club or a broken druggist's pestle.

The body was identified at noon by Charles Mitchell, a gardener of Flushing, as that of Mrs. Hamilton, wife of a colored preacher who formerly had charge of the church in Flushing. Mrs. Hamilton was well known among the colored population of Flushing and vicinity. She left Flushing last night in company with a colored man who wore a light overcoat. They boarded the 8.17 train, which stops at Winfield.

At about 6 o'clock yesterday a pedlar, who was driving along the road, was seen to stop his horse beside the pond. He got off the wagon and looked into the pond. Michael Quis, a farmer who lives about a quarter of a mile from the place on a hill, saw the queer actions of the pedlar, but did not think much of it. Soon after a Mr. Losclinski, who lives a short way from Michael Quis' house, rushed up to him and said: "There's a colored woman lying in the pond with her throat cut; come at once."

Michael Quis went down to the pond, and there, with her body almost submerged in the water lay a young colored woman with her head almost severed from the body. The woman's eyes were fixed in a glassy stare, and as Quis gazed at the horrible sight he almost fainted. In a short time a large crowd had collected. Michael Quis dispatched a boy for Coroner Brandon, who lives but a short distance away. Quis waded into the pond and dragged the body out. The body was lying on its left side, and the right shoulder was not wet. The pond is not more than a couple of feet deep. The body was then removed to Rouff's morgue in Newton, on the corner of Lexington and Grand-streets.

The autopsy was then performed by Dr. A. C. Combs, assisted by Dr. V. E. Judson. It was found on examination that there were two gashes on the throat extending from the left to the right side. They passed through the larynx and severed the left carotid in two places and the right carotid in one place. The woman was about 30 years old and well dressed. She had on a slate-colored traveling dress and on her shoulders was a black lace cape. A new spring bonnet, gayly decked with flowers, was on her head. On the ring finger of the left hand were two gold rings, and in her ears were a pair of diamond earrings. The autopsy revealed the fact that the woman was soon to become a mother. There were no marks of violence on the body at all. The underclothing was soiled, as if a struggle had taken place.

The queerest incident of all was that there was not a drop of blood found anywhere. Not a drop on the razor or on the woman's body, which is a remarkable thing considering that the throat was cut from ear to ear.

Dr. Combs, after he had performed the autopsy, said: "There is no doubt but that it is a murder. The woman could not have inflicted the wounds on herself. The gashes are such that the person that committed the murder must have stood behind the woman and pulled her head back before drawing the knife, or whatever the murder was committed with, across it. The woman could not have been dead more than three or four hours. We thought that the woman was about 30 years old. She looked as if she was well off."

Michael Quis, when asked what he knew about the case, said: "I had just got up when I saw the pedlar stop his wagon at the pool and look into it. I thought his actions were strange, but did not think anything more of it until Mr. Losclinski ran up and told me that a woman was lying there. It seems that the pedlar had met a man on the road who works for T. R. Hyatt and he had told the Losclinskis. I immediately rushed down to the pond, and as soon as I saw the woman I knew it was a murder. I heard no screams nor any noise during the night, and, as I live so near, if there had been any screams I should have heard them. The place where the murder was committed is not at all out of the way and it is likely that any screams would be heard by some one."

The woman was evidently a perfect stranger here. It is thought that she came from Flushing last night on the train that arrives here at 8.17. There was only one person that got off the train and she was a colored woman.

PEBBLES IN HIS EYES.

As Well as Needles, Teeth and Sundry Other Things—The Vengeance of the Sorceress of the Reserve.

SAULT STE. MARIE, Ont., May 5.—For some time past a story has been told that an Indian named John Jacobs of Garden River was bewitched and that he was suffering torments from the malevolent influence of a woman (a squaw) who is believed to be sorceress.

Peter Degoche, father-in-law of the afflicted Jacobs, and Theophile Boissoneau, both Indians, say that Jacobs married his daughter about the first of the year, and ever since that time he has been laid up with an unknown illness and, at times, goes mad. His son-in-law, he said, was under the influence, since January, of a witch who is on the reserve, and they ascribe his disease and mad ravings to her influence.

It seems that the sorceress wanted Jacobs to marry her daughter, and for not doing so and, instead, marrying another, he has been stricken down by disease; at times he gets mad and lately the most extraordinary manifestations of the power of the sorceress have been displayed, when they have picked pebblestones, needles and teeth out of his eyes. When he is attacked by the spasms it takes five or six men to hold him.

The friends of the afflicted man say that the necromancer is in possession of the secrets of the "medicine man" of the tribe and she is revenging herself upon the man who would not marry her daughter.

Mr. VanAbbott, Indian Agent, and Dr. Reid, physician to the reserve, place no credence in the stories. The doctor says that the belief in witchcraft among the Indians is very strong. They are very superstitious and believe implicitly in old Indian fables.

DEEMING'S DIRE DREAM.

HIS MOTHER APPEARS TO HIM IN ANOTHER DEED OF BLOOD.

Stirring Speech By the Murderer, in Which He Affirms His Innocence and Declares That All the World is Against Him—An Appeal Possible.

MELBOURNE, May 4.—Deeming, the self-confessed murderer, says his counsel's speech in new arging [illegible] Thursday.

Before the case went to the jury in the morning and the prisoner was told that it was not too late, but the jury had been trying hard. The court being opened he believed [illegible] he would [illegible] the guilty of [illegible] the jury [illegible] and [illegible] Whatever he could say would be disbelieved. His witnesses had been kept out of the way. People had sworn to seeing him whom he had never seen in his life. No time had been allowed him to communicate with his witnesses in England and India. It was not pleasant to confess to disease, mental or otherwise; but he had determined to do so, in justice to himself and to the community. For weeks together he had suffered lapses of memory. In his own mind he knew he was not guilty. As long as Emily Mather had been his wife he had dealt with her as gently and as affectionately as possible for any man to deal with a woman.

The prisoner, continuing his remarks, said: "I remember no incident which would lead to this awful crime with which I am charged. I know that the people of Melbourne are so infuriated against me that they would lynch me if they had the chance. That, however, would not settle the question of my guilt or innocence. The statement that the body found in this city was that of Emily Mathers is a lie. My one comfort is the knowledge that Emily Mathers is alive. The newspapers have ruined my life for evermore. If I were freed to-night I would drive myself. I have fought the blacks on the Zambesi and have encountered lions single-handed. I do not fear death. I do not expect justice from either the judge, the jury or the public. Instead of the trial being postponed so as to enable my counsel to collect evidence showing my innocence of the horrible crime for which I am being tried for my life, it was fixed to occur when the public was enraged against me." Deeming minutely criticised the evidence and declared that a verdict of guilty would be the greatest relief to him. He said that his use of assumed names was a fad with him.

After the verdict was announced Deeming asked the judge to refrain from the usual exhortation. The judge complied with the prisoner's wish and simply announced the sentence. Deeming composedly responded, "Thank you."

When the sentence of death had been pronounced, Deeming said that after his death the public would soon know his real history. It was better that the law should destroy him than that he should destroy himself. He would only like to know that Miss Rounsevell believed him innocent. In a strong voice he continued to ramble in a similar strain for a long time. He concluded by swearing that he was innocent. He spoke altogether for an hour, giving no sign of hesitation or nervousness. The judge's summing up was strongly against the prisoner. While Deeming was speaking the scene was a weird one. Owing to the fading of daylight, gas and candles had to be lighted. The verdict was given at nearly 9 o'clock.

Deeming Can Delay Execution.

LONDON, May 4.—Deeming can delay execution by an appeal from the verdict in the colonies, which appeal must be heard by the Judicial Committee of the Privy Council. If the judge accedes to the petition to rehear, a further enquiry will occur. The last instance of the kind was the case of the Canadian rebel, Louis Riel.

They Get Separate Seats in the Methodist Conference.

OMAHA, Neb., May 5.—The twenty-fourth quadrennial conference of the M. E. Church, is now in session here. The great question before the body yesterday was that of giving the lay delegates separate seats.

After a long discussion the conference decided to allow lay delegates who desired to select separate seats from the ministers. On motion of Dr. Putnam a section of the hall was set apart for the lay delegates, and then the choice of seats by lots was commenced. This lasted until 7.30 in the evening, when the conference adjourned.

A Dive to Death.

NEW YORK, May 5.—About 700 people in Jacobs' Third-avenue Theatre last evening just before the curtain rose heard a shriek and saw a man tumble from the topmost gallery. He struck two chairs in the orchestra and fell in a bloody heap on the floor. Men yelled and women fainted. A rush was made for the doors and a panic rapidly followed. Stage hands carried the man to the stars' dressing-room. Thence he was taken to Bellevue Hospital. He will die.

The man is George Dunan, 39, who lived with his wife at 449 Third-avenue. His haste to get a good seat caused his fall. The gallery is very steep and is divided near its lower part by an iron rail. Another iron rail is fixed about three feet above the rail. Dunan was bidden, the ushers of Bijou and, instead of using the aisle, vaulted over the backs of the seats, making his way to the southern corner of the gallery. When he came to the dividing rail he leaped over that and, unable to stop, dove between the two rails to death.

He Invented the Woodruff Sleeper.

NEW YORK, May 5.—Theodore T. Woodruff, the inventor of the well-known sleeping car which bears his name, was killed at a railway crossing in Gloucester City, N.J., on Monday afternoon. After a life of 61 years, largely given up to the affairs of railways, he was struck by a train which he failed to see approaching.

THE SAME OLD SONG.

On Tuesday, in Committee of Supply in the Dominion House, the item of $74,000—the much talked of, much promised, "substantial sum" was proposed for work on the Trent Valley Canal. Hon. Mr. Haggart explained that this sum was for a "look and some improvements between Lakefield and Balsam Lake." This is all very explicit, but it is of a piece with the policy of this Government in trifling with the project. The minister asserted that it was the policy of the Government to build the canal—some time within the next century or two. So far the Government has expended $775,000 on the canal, an average of about $75,000 per year for the last ten years, since Sir Charles Tupper, on behalf of the Government, formally fathered the scheme as a vote-making machine. The grant of this session of $74,000, is doubtless made in reference to the yearly average, and, as Hon. Mr. Haggart stated that the canal would cost nine millions—at the rate pursued in the past, it will take exactly 120 years to expend the nine millions, estimated as the cost of completing the canal. Some of us now living will probably be in our graves before a chance will be presented of taking a barge voyage through the completed canal. The Government is trifling with this great scheme, and the members most interested are helping them in every way. Mr. Sam. Hughes, of North Victoria, is evidently competing with his running mate, Mr. Fairbairn, the eloquent champion of the binding twine duty, in disregarding the wishes and sentiments of the constituency he assumes to represent. He declared in the House that he was satisfied with the progress the Government had made with the canal; Mr. Bennett, of Simcoe, was satisfied with the assurance of the Minister in the matter, and hoped that the people along the route of the proposed canal would be fools enough to continue sending members to support the government on the strength of their attitude towards the canal; while the members for Centre and West Peterborough, according to the newspaper reports of the debate, didn't open their mouths. The latter, by the way, shows more of a resigned than of a "resigning" mood in reference to the Lakefield-Peterborough section. The EXAMINER has pointed out the self evident fact that the only way to bring the government to their senses, in regard to the Trent Valley Canal, was vigorous "kicking" on the part of their supporters—whereas the latter only cringe and crawl—with no more "kick" in them than there is in the pulverized remains of Balsam's deadmule.

Consumption and Hasty Difficulties

Always arise from particles of corrupt matter deposited in the air cells by impure blood. Purify that stream of life and it will very soon carry off and destroy the poisonous matter, and like a crystal river flowing through a desert will bring with it and leave throughout the body the elements of health and strength. As the river, leaving the elements of fertility in its course, causes the before barren waste to bloom with flowers and fruit, so pure blood causes the frame to rejoice in strength and health, and bloom with unfading beauty. All medicine dealers sell Dr. Morse's Indian Root Pills. dw

Can we Assist You?

Notwithstanding the fact that Paine's Celery Compound is accomplishing a wonderful work in Canada in the subjugation of disease and suffering, we know that many men and women are still doubtful and hesitate to use the Compound from a fear that it is not quite suited to their particular troubles.

These particular individuals we feel assured are looking for good medical advice to guide them. Many hesitate about consulting a physician in their neighborhood, and others fear the cost of consultation and advice.

For the benefit of such people we are now in a position to offer them free medical advice. We have secured the services of a thoroughly qualified Canadian physician—a graduate of one of our best colleges — whose attention and experience will be devoted to the sick and afflicted who may correspond with us.

In this great work, the old and young, rich and poor, will be treated and prescribed for quite as effectually and carefully as the family physician could do.

Our physician, as an independent agent, is entrammeled in his work; and Paine's Celery Compound is only recommended for use when the physician is assured that it will benefit and cure.

Our physician's work since the first of March has been heavy, and the correspondence from all parts of Canada is fast increasing.

We have reason to believe that the good work done by our Consulting Physician, and the marvellous effects of Paine's Celery Compound, will be far-reaching, and will lead to the happiness of thousands of families.

Advice and prescribing free to all in Canada.

Cavanville.

From Our Own Correspondent.

A telegram has been received announcing the death at Ox Bow, Manitoba, on Tuesday, May 3rd, of Thomas Graham, a former resident of Cavanville. The deceased was well-known in this district, having been associated with Mr. Thos. Grandy, of Millbrook, in the purchase of cattle. The cause of his death was la grippe from which Mr. Joseph Scales, a former resident of this district, also died a few days ago. The latter was a brother-in-law of Mr. E. D. Dundas who has gone to the northwest to look after the business interests of the estate. Mr. Graham removed with his family to Manitoba about the first of April.

The Regular Decennial Gerrymander—Its Iniquity Made Patent—Mr. Fairbairn Stands Himself (with the Farmers) with Bleeding Wine.

(From Our Own Correspondent.)

OTTAWA, May 2.—The Gerrymander! This is the terrible political dragon which under Conservative rule comes forth once every decade to ravin and destroy among the Liberals. The time has come around again, and the monster has appeared once more. Hopes were entertained that the cause of fair play among the supporters of the Government, together with a wholesome fear of the fighting strength of the Liberals, would cause the administration to, as it were, draw the teeth and pare the claws of the terrible Gerrymander, and, instead, they seem to have occupied the time in preparing it for the most destructive work possible. A mixed feeling of anger and dismay possesses the Liberal contingent in Parliament as they regard the new distribution bill presented to the House of Commons on Friday last. It is a wonder that everybody did not know in advance what the measure would be, for it is exactly like what might be expected of the present administration. Sir John Macdonald was able to cultivate, and did cultivate the unreasoning love of the party for its own sake, but he could not leave behind the genius which enabled him to use that sentiment to advantage. His successors seem to think nothing of the good of the country or of the opinion of the public and therefore the new bill has been prepared

WITH A SINGLE EYE TO PARTY BENEFIT.

In Ontario particularly this fact is manifest. In the first place, as Mr. Mills said in an impassioned speech he made on the subject, in order to make up for the addition of one member to Toronto and one to Algoma, the the Government proposed to take two members from Western Ontario, which is already under represented, and leave Eastern Ontario as at present though it has already more than its quota. There is only one point in Eastern Ontario touched and in that, as in everything else in the bill, the effort is made regardless of custom, reason, decency and common sense to make a point for the Tory party. Almost the only counties in Eastern Ontario represented by Liberals are Prescott and Russel. Mr. Edwards, the popular and able representative of the latter county gets the bulk of his majority in the township of Clarence. This township is to be dumped into Prescott making the latter a Grit hive with any where from 800 to 1,500 majority, while Mr. Edwards will have to fight for his life, having a bare majority according to the last vote. London is another case, quite as bad if not worse. The Conservatives know that it would be hopeless to contest that city again, for Judge Elliott cannot forever prevail against the popular will. It seems reasonable enough to add to the constituency, for the city has taken in several of the suburbs since the bounds of the riding were last set. But instead of declaring some of the new wards of the city to be part of the city for Dominion election purposes, the Government propose to

ADD THE VILLAGE OF LONDON WEST.

Both London South and London East, the new wards give Liberal majorities, but London West gives a majority on the other side. It will be removed from East Middlesex, which is regarded as a safe Tory constituency anyhow. Mr. Carling hopes in this way to make himself solid for the next contest. The new constituency in Algoma is made by cramming what is known as Nipissing District with the upper part of Renfrew county. Of course the new riding is thought to be safely Conservative. The new riding in Toronto is made by dividing the present constituency of West Toronto, which has now a Conservative majority running up into four figures. The work of expunging two Reform constituencies from Ontario calls for a re-arrangement of the Niagara peninsula, in which the Liberals have of late been making such gains as to alarm their opponents.

The Niagara peninsula will hardly be recognized by its best political friend if the Government is allowed to carry out its plan. Without taking the space necessary for detail it may be said generally that North Wentworth disappears, the township of Waverly going into North Brant and the remainder of the riding into South Wentworth. Binbrook and Saltfleet are joined, except that Walpole is taken from Haldimand and added South Norfolk. Merriton is taken from Lincoln and added to Welland. The effect politically is to strengthen South Norfolk for the Conservatives, make Haldimand and Monck (united) Conservative, strengthen South Wentworth for the Conservatives,

MAKE A GRIT HIVE OF LINCOLN

and a double hive of the already strong constituency of North Brant. Also, of course to wipe out North Wentworth (Liberal) and hence (Conservative)

In Quebec there are sweeping changes which must be startling to the good people of that good old province, where the boundaries of ridings have remained unchanged since before Confederation. Montreal gets two new members. Hochelaga county which, as reconstructed, will have a part of the city population, has two instead of one, and Ottawa county has two instead of one. As Quebec's quota of members is fixed at 65, leaving the representation of the province to be proportioned to that number according to population, it is necessary to wipe out four existing constituencies. Generally speaking this has been done at the expense of the Liberals and Sir Hector Langevin. Three Rivers, the constituency now represented by Sir Hector is united with St. Maurice. The ex-leader of the French Canadians has never had what might be called a political home. His hold upon Three Rivers was by no means firm. But by wiping out the constituency his old associates evidently expect to force him into retirement. Napierville (Liberal) disappears, St. John and Iberville, two Liberal constituencies are joined and Vercheres (Liberal) is divided amongst Chambly, Ste. Hyacinthe and Richelieu.

In New Brunswick two members have to be taken away. The city and county of St. John loses one, and one is gained

BY MERGING THE CONSTITUENCIES

of Queen's and Sudbury. In Nova Scotia there is to be one member less, and to effect this change, Queens and Shelburne are joined. At present Shelburne is represented by a Conservative, and if the proposed union is carried out, it is probable he and the Liberal member for Queens will disappear. Prince Edward Island loses a member, and the unfortunate Province is carved out of all shape, in the desperate but almost hopeless effort to elect one out of the five members left as a supporter of the Government. Manitoba receives two new members who, under the arrangement, will probably be one Liberal and one Conservative. The re-arrangement in British Columbia, affects the mainland only, and as it is not acceptable to the members there, it will probably pass in different shape from that proposed.

In introducing his bill Sir John Thompson had the air of a man who felt keen delight in his work. He made quite a speech in advance and for a wonder, with him, it was in a humourous vein, much such a speech as a Nero might make when he felt in good humour over an unusually fine array of victims. It took care to convey a warning to the Liberals not to think of defeating the Government's purpose by a hard fight. He intimated that he expected that it would be many weeks before the session would close, regardless altogether of this bill. The indications now are that he will not be disappointed, for the Liberals see in this measure

ANOTHER DESPERATE ATTEMPT

to intrench the Government in power behind unfair election machinery, so that the people cannot get at them. All sorts of rumours are afloat here and outside as well, if one may judge from reports received from visitors of a session of Parliament extending on into the fall. It is to be hoped that if the Liberals do make up their mind to fight, they will fight to win.

As this the gerrymander is the most important thing and, because of the space devoted to it, other matters may be mentioned briefly. It is announced that Mr. Cockburn of Toronto, will favor investigation of the charges against Sir Adolphe Caron. The Government would dearly like to burke this investigation, but it looks now as if they would be compelled to yield to public opinion both in the House and out of it and allow the case to go before a committee, trusting to their ability so to bully the witnesses as to prevent a full exposure of the affair taking place. The progress towards the impeachment of Judge Elliott is slow. The rules of the House and the small portion of time to be given to business of private members prevent the desired progress being made. The Government supporters defend the judge on the merits of the case, but they will hardly venture to refuse a hearing of the case before a committee, so that Mr. Lister may have the opportunity to prove the

CHARGES OF PARTISANSHIP

and unfairness that he has made.

Although the Government ordered its supporters to kill the resolution in favor of Canada's right to make her own commercial treaties presented by Mr. Mills this session, they have been put in a peculiar position by a resolution presented by Mr. McCarthy. The leaders of the Equal Rights are wanting to have a Canadian representative as one of the attaches of the British Ambassador at Washington. Mr. Foster rather thought there should be a commercial agent such as the United States sustained throughout Canada, but his leader Sir John Thompson could not pretend that such agent would have power to meet the territorial and diplomatic difficulties constantly arising. He was fain to move an adjournment of the debate, not having anything better to propose. If the matter is edged over until the end of the session, it will disgruntle Mr. McCarthy and if it is voted on it will be awkard for those who object to Mr. Mills' resolution which was avowedly intended to pave the way for some such step as that Mr. McCarthy has proposed.

The Conservative party has declared squarely by a vote against the removal of the duty on binder twine which was proposed by Mr. Watson, of Manitoba. It was made known to the Government and not denied that the binder twine industry was now in the hands of American monopolists, that all the farmers' organizations were protesting against the duty, and that as a matter of fact the duty is added to the price to the grave injury of the Canadian farmer, and one of the notable features of the debate was

A SPEECH BY MR. FAIRBAIRN

of South Victoria in defence of the combine and the duty. He contended that the duty did not increase the price. No doubt he has somehow succeeded in convincing himself and his fellow farmers of the truth of this almost unbelievable proposition or he would not have dared to put himself on record as he did. Another notable fact was that Mr. Sifton, of Manitoba, the representative in Canada of the Yankee manufacturers of the combine here called, naturally had the nerve to vote with the Government, and in favour of his own interests, put Halifax Tories pride their selves upon being a party of English gentlemen. Another fact was that Mr. Davis, of the Northwest Territories, whose newspaper opposes the duty did not speak on either side and discreetly remained absent from the vote.

Henderson, (Lakefield); Miss A. Hall, Mrs. Geo. Peters, Mrs. R. Lamb, Miss C. McEwen, (Lakefield); Mrs. Munro, Mrs. Welsh, Miss Davidson. Mrs. Cronk, of Port Hope, presented the report of the Peterborough Presbyterial Society.

Bears Plentiful Around Harvey.

Mr. Matthew Nicholls of Smith township, shot a large black bear this week in Harvey township, across Dear Lake, opposite Smithtown. The bear weighed 300 lbs, and when skinned his hide measured 7 feet across from arm to arm. Bears in that locality have been troubling the farmers by chasing their cattle and calves. This is the second black bear which Mr. Nicholls has shot within the past ten days. They were both trapped and then shot. The feet of the bear as taken from the one captured in the trap last Sunday by Mr. Nicholls was exhibited to the EXAMINER this morning by Mr. Thos. Stothart of the 2nd concession of Smith.

No More Dirty Carpets.

The Peterborough Steam Laundry and Shirt Co. have secured the right for several counties for the great "Renovo Process" of cleaning carpets, etc., on the floor without removing them, or causing the least inconvenience or annoyance to the occupants of the house. The "Renovo Process" also restores old and faded carpets to their original color making them look like new. It also makes the carpet moth proof. Over two thousand five hundred of the leading families of Montreal claim that this is the only method of cleaning carpets thoroughly. A sample of the work will be done any where free of charge. Further particulars can be obtained and samples of the work seen at the office of the PETERBOROUGH STEAM LAUNDRY and SHIRT Co., Simcoe street. Telephone No. 65. dtf

A Standing Nuisance.

To the Editor of the Examiner:

DEAR SIR,—Some few days ago I noticed a paragraph in your valuable paper calling attention to a nuisance committed by certain citizens leaving their wagons on the side of the road at night, but it seems to have had no effect as it is still carried on to the annoyance of drivers and residents, especially in the north end of George street, where two citizens from the north ward seem to have the idea that their trucks improve the looks of the street and the safety of vehicles being driven along that street. Now, Mr. Editor, if these gentlemen had not yard room it would be different, but they have and plenty of it too, and I think that if they regarded the appearance of their street they would take them in and keep them there, especially when there is so much traffic on the street going to and from the Hospital. The police have had their attention called to this several times but without result. It is too bad that the public cannot enjoy a drive without being in danger of having a wheel taken off by a wagon standing on the side of the road at night. In the city of Toronto the public have power to summon offenders before the magistrate for this same offence, and there is also a by-law preventing owners of wagons from leaving them even standing in a lane. Hoping, Mr. Editor, that this will have the effect of stopping this nuisance,

I remain yours, etc.,

Cricketers on the Move.

Mr. Oldfield, of Toronto, who has been engaged by the cricket club, as coach arrived in town to-day. Regular practice of the cricket club starts on Saturday and continues every afternoon all the season. It is to be hoped that the players will turn out in full force and boom cricket as the club has supplied a coach, and he will always be on hand. We have two matches this month, one on 23rd at home, and Port Hope 26th, and the committee wish the boys to get in form, so that they can select the necessary eleven as soon as possible. The association will enforce the rule; every body must have ticket.

Wedding Bells.

A happy event occurred at the residence of Mr. James Tighe, Stewart street, Ashburnham, when Mr. Robt. Maniece, employed with Mr. T. G. Hazlitt for a number of years, was united in the holy bonds of matrimony, Miss Annie Tighe. A large number of the friends and relatives of the contracting parties were present to witness the joyous event. Rev. Geo. Warren, of Lakefield, "made the twain one flesh." The happy groom was supported by his brother, Mr. Wm. Maniece, while Miss Lizzie Tighe, sister of the bride, acted the part of bridesmaid. After the ceremony was performed the happy company present sat down to an exhibit wedding breakfast which was partaken of with epicurean relish. The presents were numerous and costly, thus testifying to the esteem and kind regards in which the hymeneal supplicants were held. Mr. and Mrs. Maniece have a host of warm-hearted friends who will wish them every success and prosperity through, it is hoped, a long life of connubial bliss.

Galway.

(From Our Own Correspondent).

On Tuesday, May 3rd, the township of Galway, lost one of its earliest and most respected settlers in the person of Mr. James Ritchie. Mr. Ritchie settled in Galway about thirty years ago, when the settlement of the township first commenced, and having been fortunate in his selection of land, and singularly industrious, he succeeded in clearing for himself a very fine farm. At the time of his death he had about 500 acres of the best land in the township, with a handsome residence and most complete and substantial farm buildings. He was a most popular man in the district, and at one time took an active part in municipal affairs. He was in his 66th year when he died and left a family of two sons and four daughters, all grown up. He will be greatly missed, and his funeral was more largely attended than any which has taken place for some time past.

A Faithful Pastor

Is held in high esteem by his people, and his opinion upon temporal as well as spiritual matters is valued greatly. The following is from a clergyman long influential in New England, now spending well earned rest in Cabot, Vt.:

"C. I. Hood & Co., Lowell, Mass.:

"We have used Hood's Sarsaparilla in our family for many years past, with **great benefit**. We have, with confidence, recommended it to others for their various ailments, almost all of whom have certified to great benefit by its use. We can

Honestly and Cheerfully

recommend it as the **best blood purifier** we have ever tried. We have used others, but none with the beneficial effects of Hood's. Also, we deem Hood's Pills and Olive Ointment **invaluable**. Mrs. Stone says she cannot do without them." REV. J. P. STONE.

Better than Gold

Mr. Geo. T. Clapp, of Eastondale, Mass., says: "I am 82 years of age, and for 30 years have suffered with running sores on one of my legs. A few years ago I had two toes amputated, physicians saying I was suffering from gangrene and had but

A Short Time to Live

Eight months ago as a neighbor urged me, I began taking Hood's Sarsaparilla. The whole lower part of my leg and foot was a running sore, but it has almost completely healed and I can truthfully say that I am in better health than I have been for many years. I have taken no other medicine and consider that I owe all my improvement to

HOMES OF SYNOD GUESTS

And Their Hospitable Town Entertainers.

List of Ministers and Elders Who Will Attend Meetings of Synod Next Week —Their Temporary Homes.

The annual meeting of the Presbyterian Synod of Toronto and Kingston, will meet in Peterborough next week, the regular sederunts beginning on Tuesday evening at 7.30, being preceded by the conference on the state of religion, beginning on Monday evening at 7 30 o'block, as per the programme published in the EXAMINER on Thursday of last week. Below are printed the names of the delegates who will be present, and also the names of the hospitable citizens who threw open their homes to them during the currency of the Synod. Ten years ago this month the Synod met in St. Paul's church here—before it was restored—Members of Synod who attended at that time will doubtless be struck with changes in the way of improvements in both the church building and its surroundings, and the town at large, but they will find no change in the generously hospitable character of the citizens of the town. The Conference on the state of religion, which precedes the regular meeting of the Synod, begins on Monday evening at 7.30 o'clock, and the Synod opens on Tuesday evening with a sermon by the Moderator.

Following is a list of the delegates to Synod and their homes :—

The favorable impression produced on the first appearance of the agreeable liquid fruit remedy, Syrup of Figs, a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufacturers, the California Fig Syrup Company.

Cure for Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,088 in amount. Of these, 186 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,588, upon 2,871 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,191.06.

At 31st December last there were in force $56,218,318.03 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,124.87, having being increased during the year by $1,041,684 78.

The death claims for the year were upon 192 lives under 243 policies for $611,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized.

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M. G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq., New York State.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors' report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting, I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the company's assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,184.

The statment of receipts and payments shows that during 1891, $816,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 32 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperity as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen.—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of careful management in the interest of the company. I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest. I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Parrie as scrutineers to receive votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete Body Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It has successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not clasp this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy them but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod w

"German Syrup"

Martinsville, N.J., Methodist Parsonage. "My acquaintance with your remedy, Boschee's German Syrup, was made about fourteen years ago, when I contracted a Cold which resulted in a Hoarseness and a Cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a Physician, without obtaining relief—I cannot say now what remedy he prescribed—I saw the advertisement of your remedy and obtained a bottle. I received such quick and permanent help from it that whenever we have had Throat or Bronchial troubles since in our family, Boschee's German Syrup has been our favorite remedy and always with favorable results. I have never hesitated to report my experience of its use to others when I have found them troubled in like manner." REV. W. H. HAGGARTY, of the Newark, New Jersey, M.E. Conference, April 25, '90.

Burdock Blood Bitters

CURES DYSPEPSIA

By acting upon the liver, stomach and bowels and purifying the blood, it removes every particle of the foul, impure or morbid matters which obstruct the proper working of the digestive organs and cause dyspepsia. This explains why B.B.B. succeeds in curing even the most obstinate cases.

Burdock Blood Bitters

CURES CONSTIPATION

By regulating the bowels and removing all foul accumulations, it promptly and permanently cures this disease no matter of how long standing the case may be. B.B.B. acts in a natural, thorough and pleasant manner, never causing nausea or griping.

Burdock Blood Bitters

CURES BILIOUSNESS

By regulating and toning the liver and removing excess of bile, this distressing disease, which is the frequent cause of sick headache, dizziness, etc., is cured without fail. No remedy has ever performed so many permanent cures in the same space of time as has B.B.B.

Burdock Blood Bitters

CURES SCROFULA.

This scourge of humanity arises chiefly from bad blood, for which B.B.B. has proved itself the most successful remedy of modern times. It completely frees the blood of every impurity, from a common pimple to the worst scrofulous sore. Pimples, blotches, boils, rashes, eruptions, sores, etc., vanish at once before the wonderful purifying powers of B.B.B.

WIFE AND MILLIONS GONE

How a Delaware County Man Lost His Chicago Bride and Her Fortune.

CHICAGO, May 4.—Samuel Clayton, son of Judge Clayton of Delaware County, Pa., has lost his wife and $5,000,000. Mrs. Samuel Clayton, who has just secured a divorce in this city, is the daughter of Pardridge, Chicago's millionaire drygoods magnate, and a niece of the famous plunger, "Bet" Pardridge. She will inherit a fortune of $5,000,000 at least.

The sensational divorce has been successfully suppressed, the final public decree not having been entered yet, but the bill for divorce was filed by Mrs. Clayton as long ago as February 20, and the hearing held April 15, two weeks ago. The bill itself has been removed from the files of the Superior Court.

Mrs. Clayton therein accused her husband of extreme and repeated cruelty, dating from even a week after the marriage, which took place a little over a year ago. "From that day until I left him," stated Mrs. Clayton, a beautiful blonde, upon the stand two weeks ago, "he treated me with the utmost brutality. So cruel did he become that about three months after the wedding he entered my bedchamber in Denver, Col., and clutching me around the throat threw me to the floor. There he held and choked me, and brandishing a razor above my face threatened to kill me on the spot.

"While we were in Thurlow, Pa., last November he attacked me savagely with his finger nails and scratched me in the most horrible manner. A few weeks later he assaulted me again and struck me so hard that his blow made a gash in the back of my head."

The servants corroborated the claim of cruelty, and on this hearing the judge granted a decree of divorce.

"As soon as Mrs. Clayton learned of the divorce and that she was free," stated a friend of the family "she and her mother left at once for New York and set sail for Europe, where they now are."

All the laborers employed on Winnipeg sewer construction have struck for higher pay, and as neither side show any signs of giving in sewer work is greatly retarded. The trouble was started by the Icelanders, who demand $2 per day.

Two citizens of Morris, Man., who were sworn in as special constables yesterday arrested two cattle thieves. One of the specials succeeded in getting his man into the lock-up, but the other special in an encounter was thrown bodily over a fence and his prisoner decamped.

The St. Thomas delegation to the Railway Committee at Ottawa were unsuccessful in their attempt to get inserted in the bill regarding the London & Port Stanley Railway a clause to the effect that, as long as the mortgages, bonds and debentures of the city of St. Thomas remained unpaid, no lease of the railway should, without the consent of the corporation of the city of St. Thomas, contain any agreement or stipulation for the erection of workshops or the employment of any specified number of men within the city of London, or give that city any perferential or passenger rates or any advantages not enjoyed by the city of St. Thomas.

Father and Child Held for Murder.

HARTLAND, Wis., May 3.—William Jones and his 12-year-old son Eddie are charged with causing the death of the wife and mother, and will be tried in the Circuit Court here this month. It is alleged that the little son struck his mother with a club at the instigation of the father.

An Awful Tragedy.

Thousands of lives have been sacrificed, thousands of homes made desolate by the fatal mistake of the "old school" physicians, still persisted in by some, notwithstanding the light thrown upon the subject by modern research, that Consumption is incurable. It is not. Consumption is a scrofulous disease of the lungs, and any remedy which strikes right at the seat of the complaint must and will cure it. Such a remedy is Dr. Pierce's Golden Medical Discovery. It is a certain specific for all scrofulous complaints. It was never known to fail if given a fair trial, and that is why the manufacturers sell it under a POSITIVE GUARANTEE that if it does not benefit or cure the money paid for it will be refunded. The only lung remedy possessed of such remarkable curative properties as to warrant its makers in selling it ON TRIAL!

Keeping Everlastingly At It Brings Success.

Three Years Ear Cracking a Safe.

TORONTO, May 4.—Ed. Stober and Robert Sanderson were at Police Headquarters last night on their way from Parry Sound to Kingston, where they are to answer charges of burglary. Sheriff Armstrong of Parry Sound is chaperoning them.

Druggist Foote, who is also Town Treasurer of Parry Sound, was surprised on Sunday morning, April 10, to find his safe open and $200 missing, belonging to the school fund. This money had been left with Mr. Foote for the purpose of paying the teachers to enable them to enjoy the Easter vacation.

On the Wednesday previous Mr. Macdonald, a prominent citizen of the Sound, noticed a couple of strangers in Foote's store. Their strange actions attracted his attention and caused him to take particular notice of them.

When the burglary was discovered Mr. Macdonald remembered these fellows and his accurate description of them led to their arrest a few days afterwards. They had been in the neighborhood of Parry Sound for a short time previous to the burglary and claimed to be agents for a Galt nursery firm.

May Be a Murder.

TORONTO, May 4.—Coroner Pickering held an inquest last night on the body of Sarah Elizabeth Ridgers, the woman who was found dead in the Don on Saturday last. After hearing the evidence the jury brought in an open verdict to the effect that deceased had been found dead in the Don. Her husband testified that he had left her in August last, because she drank. Many rumors are being circulated as to the cause of her death, and some people aver that she was thrown into the river. Further and more startling developments may be looked for.

Clever Women.

Maude Thomas, a Newnham student, is a successful lecturer on dressmaking in girls' schools for the Surrey County Council.

Julia E. Bulkley, principal of the Plainfield Public School system, has been appointed dean of the Women's College of the new University of Chicago. She is a woman of remarkable executive ability, a writer on educational subjects, and has travelled extensively in this country and abroad.

Annie Crosby Emery has received from Bryn Mawr College the European fellowships of 1892-93. Within the next two years four new fellowships will be offered by the college, besides the European fellowship, which belongs to the graduating class.

What is Certain To Be.

Although just at first so many of the bonnets and hats seem elaborate, it is certain that simpler and plainer styles will be shown a little later on, and they are oftenest what is wanted. Small straw bonnets not unlike the old-fashioned cottage shape will be worn, and a simple ribbon of flower trimming is all that they require. Although heavy veiling is shown the lighter veils will be used, especially with bonnets, and now just remember this, the summer is long and sunshiny, and so don't be in too much of a hurry to get a bonnet that will grow tiresome and faded long before the golden days are over.

French Women Journalists.

The two most noted women in French journalism are Mme. Adam and Mme. Severine. The former is well known to English-speaking people as well as French, both as a journalist and as a woman of letters. Mme. Severine is said to possess a prodigiously facile pen and to be "kindly, eminently democratic, wearing her heart upon her sleeve, nothing of a blue-stocking, and having the gift of tears to exaggeration." In addition to this she is the best pupil of Victor Hugo. Mme. Yver occupies a unique place in French journalism as a reporter of police cases.

Dr. William's Pink Pills are a specific for troubles arising from overwork, mental worry or excesses of any kind. G. A. Pelletier, Montreal, writes:—I am more than pleased with the results of the use of Dr. Williams' Pink Pills. I was suffering from a loss of mental faculties, and they have completely restored me. Sold by all dealers, or postpaid on receipt of 50 cents, or six boxes for $2 50. Address Dr. Williams' Med. Co., Brockville, Ont., or Morristown, N. Y.

DEEMING HAS A PEER.

The Fatal Guillotine Will End Hadelt's Checquered Criminal Career.

PARIS, May 5.—In the Department of the Drome Mathias Hadelt was sentenced to death for killing, last October, Pere Ildifonze, Bursar in the Trappist Monastery at Aigne-Belle on the Arc.

In the course of the trial Mathias was revealed as a wretch of little less versatility than Deeming. For the last 15 years he has passed from place to place on the Continent, killing, robbing and blackmailing, without rest. He speaks all Continental languages and confesses to at least 60 crimes.

Began as a Pickpocket.

He began his criminal career in Copenhagen as a pickpocket. He tried to burglarize a bank, was suspected and fled to Switzerland. To escape detection he entered a monastery near Berne, where he earned a reputation for exceptional piety. At the end of six months he stole part of the Communion service, rifled the treasury of 5000 francs and fled to Italy.

Rifled Many Italian Monasteries.

After squandering the money in Rome she entered another monastery, from which he disappeared shortly with several hundred francs' worth of silver plate. This robbery was committed near Florence.

Thence he went through Southern Italy and Sicily alternately as highwayman and monk.

Near Palermo he is said to have killed a man who resisted his attempt at robbery in the street.

From Italy Hadelt went to Bosnia, where he robbed a convent and a church.

In Berlin he passed a few weeks in spending about 12,000 francs, which he had realized from his monastic life, and then proceeded to Hanover, where he joined an infantry regiment. He stole 300 marks from the officer at whose personal service he was placed, and deserted before the theft was discovered. He was captured while making his way toward the French border. He was then disguised as a monk and had the money concealed in the skirts of his habit. To avoid suspicion he was begging his way from door to door. He was tried and sentenced to two years' imprisonment in the fortress at Mayvereee, but escaped by letting himself over the wall at night.

He Appears In Paris.

He went directly to Paris, where for a few months he was the most expert of the city's confidence men. With the money obtained in this period he set up a flashy establishment, introducing himself as a foreign count who had adopted France as his country. On the strength of his military experience in Hanover he posed as a military man and eventually joined the French army. He served some time in the French Legion of Honor.

When his funds began to dwindle he again put on the garb of a monk, and after numerous robberies and attempted murders in French monasteries he brought up one year ago as a Trappist brother in Aigne-Belle. He affected the utmost piety and gave to the order 200 or 300 francs which he had with him when he entered it.

Murder the Culmination.

One night in the sixth month of his residence there he entered the room of Pere Ildifonze, bursar, killed him and fled with 12,135 francs in notes and securities belonging to the order.

During his trial Hadelt behaved with the utmost callousness, alternately laughing at the testimony against him and glorifying in the narrative of some exceptionally atrocious bit of crime.

The police of Italian, Swiss, German, Austrian and Danish cities were active in securing evidence as to his past life and the testimony sent in writing fills hundreds of pages.

Hadelt will be guillotined at the end of this month.

TOM HOBLER DEAD.

An Opera Singer's Marriage with the Duchess of Newcastle Recalled.

MONTE CARLO, May 5.—Thomas Hobler, formerly a prominent English opera singer, who married the Dowager Duchess of Newcastle, is dead.

The marriage of the Duchess and Hobler was solemnized in 1879, shortly after the death of the Duke of Newcastle. For some time prior to the death of the Duke the relations of the Duchess and Hobler had been such as to excite public scandal. During the closing years of his life the Duke was relegated to a back seat in his own household, while "Tommie" was treated both by the Duchess and her servants as master of the establishment. The scandal following this condition of affairs was in a measure terminated a few months after the Duke's death, when the Duchess became the singer's wife.

LONDON, May 5.—It is announced that the convention as to the modus vivendi in the Behring Sea affair will be formally ratified to-day.

GLASGOW, May .—The seamen and firemen of steamships plying between here and America have refused to accede to the reduction of wages by the companies and will strike to-morrow.

LIEGE, May 5.—A policeman climbing to the loft of a vacant house on the outskirts of Liege this morning found a man printing copies of the Anarchist newspaper Misery. The location of this paper had long puzzled the authorities.

SLICED IN SECTIONS.

A Species of Slow Torture Executed Upon a Chinese Rebel.

SHANGHAI, May 5.—It is reported that the viceroy at Wiechang has received secret instructions to arrest Taotai Chouhan, the author of the anti-foreign placards. One of the chiefs who took a prominent part in the Choyang rebellion was recently captured and brought to Tien-Tsin, where he was tried, found guilty and, as a warning to all rebels, was sentenced to be slowly sliced to death, which sentence was carried out.

Accidentally Shoots a Farmer.

WINNIPEG, May 5.—South of Indian Head Monday afternoon Nathan White, a new settler from Portageville, Ont., was going for a load of hay in company with a man named William Spreadborough, who is employed by the Dominion Government collecting specimens of wild birds. Spreadborough jumped off the wagon to shoot a hawk, and in attempting to again get into the wagon the gun discharged. The charge entered White's spinal column. Death was instantaneous.

Deceased leaves a wife and two small children in Ontario.

C. P. R. Superintendent Injured.

NORTH BAY, Ont., May 5.—Mr. Bury, superintendent of the C.P.R., was riding up to inspect a bridge on Monday afternoon on the track velocipede, and ran over a fog signal, which unfortunately exploded, the fragments striking him on the left leg, inflicting some severe cuts between the knee and ankle.

MURDERERS' FOUL WORK

THE SUPERINTENDENT IS A SHINING MARK.

Michael Cain in Cold Blood Kills a Man With Whom He Had Some Words Recently—Death of One of Dr. Cronin's Assassins.

LAMONT, Ill., May 6.—Superintendent William Wells of Tillinger's Stone Company, a well-known and highly respected citizen of this village, was murdered in cold blood by Michael Cain, one of the employes of the Western Stone Company. The men had words a few days ago.

GONE TO A HIGHER COURT.

Death of One of the Assassins—He Makes No Confession.

CHICAGO, May 5.—Patrick O'Sullivan, one of the Cronin assassins, died at 7.40 o'clock this evening at Joliet Prison. He made no confession.

Horrible Charge Against Henry Weimer of Dayton, Ohio.

MASSILON, Ohio, May 6.—Ada Ebersole of Dalton last March inherited a little property, which was to go to her stepfather, Henry E. Weimer, in the event of the daughter's death. Miss Ebersole died suddenly, and the extraordinary haste which the stepfather used in burying the girl excited the suspicion of the community. Relatives caused the body to be exhumed and found traces of arsenic. Weimer accused the girl's physician of malpractice and the latter met the charge by swearing out a warrant under which Weimer has been arrested for murder.

Railway Items From Montreal.

MONTREAL, May 6.—J. H. Morley, the new general passenger agent of the Richelieu & Ontario Navigation Co., has arrived in the city and will at once assume his duties. It is rumored that some further changes are to take place among the officials of the company, particularly in the freight department.

Shortly after the annual meeting of the C.P.R. directors, which takes place on the 11th inst., Mr. VanHorne, the president, will take his annual tour of inspection to the Pacific Coast.

Philip Hebert, the Canadian sculptor, is on his way to Montreal to complete the arrangements for the erection of the Maisonneuve monument.

Mgr. Emard, Bishop-elect of Valleyfield, has written to Rome asking that the date of his consecration, which was to have been June 8, be postponed for some weeks later. The papal bull confirming Mgr. Emard's election has not yet been received.

Cattle for Britain.

MONTREAL, May 6.—The first shipment of live stock to the Old Country went yesterday on the Lake Superior, consisting of 545 cattle for Liverpool, and the Warwick takes 458 head to Glasgow. Cable advices from the other side state that the prospects are much improved and prices are advancing. About 2000 head will be shipped this week.

No Proof She Murdered Her Child.

COBOURG, May 6.—Last fall a young woman named Malvina J. Hearn was tried here at the assizes for the murder of her illegitimate child and the jury disagreed. She was sent back to jail to await the spring assizes, which took place yesterday before Judge Rose. When addressing the jury His Lordship said that on the medical evidence he felt bound to advise them that she could not be convicted, because it had not been proven that she was the cause of the child's death. The prisoner was discharged after the jury considered her case for about 30 minutes.

Suicide in Wawanosh.

KINCARDINE, May 6.—A distressing case of suicide took place on lot 22, concession 5, West Wawanosh, where William Leddy, sr., a respected farmer of that township, hanged himself. Deceased had tied himself to the harrows and was dragged through the field for some time, but finding this would not accomplish his purpose he completed his insane act by hanging to a small tree in the field. Temporary insanity brought on by financial troubles was the cause.

Horrible Death on the Railway.

QUEBEC, May 6.—A man boarded the C.P.R. train for Montreal last night, and as he had no money to pay his fare the conductor told him he would put him off at Mile End. As the train was nearing Hochelaga the man, who was under the influence of liquor, rose and went out on the platform, from where he tried to jump off, but missing his aim he rolled under the cars and his body was cut in two.

Lost an Eye.

KINCARDINE, May 6.—A young son of John McCallum, Ethel, met with a painful accident recently. He had a strong piece of elastic cord hooked in a button hook, which his brother held. Drawing suddenly on the cord the strength of the elastic pulled the hook from the brother's hand. It flew into one of his eyes, piercing it through and destroying it utterly.

Found Dead On the Track.

HARRISTON, Ont., May 6.—John McLean, an old resident of the township of Minto, was found dead yesterday on the Canadian Pacific Railway track about two miles from town. He is supposed to have been struck by the night express while on his way home. An inquest will be held.

The New Bishop of Chicoutimi.

HALIFAX, May 6.—The consecration of Mgr. Labrecque, the new Bishop of Chicoutimi, has been definitely fixed for Sunday, May 22. His Eminence Cardinal Taschereau will perform the consecration, assisted by the Bishops of Cyrene and Rimouski.

The Last of This Season.

HALIFAX, May 6.—The Dominion line steamer Labrador, the last weekly boat from this port this season, left last evening for Liverpool. She has a full passenger list.

Killed While at Work.

LEAMINGTON, Ont., May 6.—Eli Eede, a son of Jacob Eede, a farmer in Colchester, was killed yesterday by a large stone falling upon him.

A Fireman Injured.

BRANTFORD, Ont., May 6.—Last evening Brakeman Williams on the gravel travel was seriously crushed and had his arm badly broken when coupling two flat cars near the Colborne-street Station.

With Her Shaft Broken.

QUEBEC, May 6.—The signal service reports the steamship Miramichi disabled at Cape Rosier. She has broken her shafts.

BUDGET FROM OTTAWA

NEWS FROM POLITICAL AND OTHER QUARTERS.

The Majority Larger Than Had Been Estimated—A Calm Follows the Political Storm—A Quiet Day's Work—Reformers Will Hold a Caucus.

OTTAWA, May 6.—The talk of the corridors yesterday was the Government majority rolled up at 3.30 a.m. yesterday, when 125 stalwart Conservatives rejected on Sir Richard Cartwright's amendment to Hon. Mr. Bowell's amendment in the Crown charges, while only 53 Liberals voted for it. There were 7 pairs and 5 Conservatives and 4 Liberals absent.

After Wednesday's storm came a calm and yesterday proceedings in the House have been very dull and uninteresting, the whole session being taken up discussing Hon. Mr. Tupper's Lobster Bill.

The sub-committee on the bill consolidating the criminal law is working its way through the thousand and odd clauses of that ponderous tome. A meeting was held yesterday, at which about a hundred clauses were passed, and another meeting will be held to-day. The mode of procedure has been to pass the unopposed clauses and let those to which exception is taken stand over. There is getting to be quite a number of these which will be taken up and discussed after the bill has been run through.

The summary report of the Geological Department was laid on the table.

Local Chit-Chat.

OTTAWA, May 5.—It is understood that when the Commons starts the re-distribution discussion the Senate will make a long adjournment.

Mr. A. Geddes, secretary of the Ottawa Kennel Club, has received a letter from Mr. N. Awrey, M.L.A., the Ontario Commissioner to the World's Columbian Exposition, asking for an exhibit of Ottawa dogs at the big dog show in connection with the Exposition, which will be held from June 12 to 17, 1893. The Dominion Government, he points out, will defray the cost of transportation and maintenance of all dogs sent, while the Ontario Government will pay for a caretaker, thus rendering it unnecessary for owners to accompany the dogs. Mr. Geddes says he expects a number of Ottawa dogs will be sent.

The houses of Mr. Brown and Mr. Pownhall in Somerset-street were damaged by fire yesterday. The damage, $600, is covered by insurance.

Mrs. Fry's house in Slater-street took fire yesterday, but the brigade extinguished the flames with buckets of water.

Hon. Frank Smith of Toronto gave a dinner party last night in the Senate restaurant.

Speaking of the condition of business in New Brunswick Hon. Senator Snowball, one of the principal lumber manufacturers and exporters and railway managers of that province, said that matters were in anything but a satisfactory state. The McKinley tariff has crippled the business of exporting fresh fish, as the dealers are now obliged to pay freight charges and duty in advance upon consignments of fresh fish shipped from points in New Brunswick for Boston and New York markets, and if a consignment happens to spoil the exporter loses first cost, freight, duty and all. Many business men who were considered in excellent circumstances a year ago had been obliged to assign, while others were hard pressed. Mr. Snowball exports large quantities of lumber to the Continent of Europe, and speaking of his recent experience on the other side of the Atlantic Mr. Snowball said that when in France he made contracts for the sale of large consignments of lumber. When making the contracts, he and the other parties thereto believed that the "Favored Nation" arrangement under which British goods are admitted into France at reduced rates also applied to colonial products, but a doubt having arisen about it Mr. Snowball wrote to the High Commissioner in London for information. He soon ascertained that no "Favored Nation" treaty exists between Britain and France. British goods are admitted into France at reduced rates in accordance with a special provision of the French Tariff Act, but the concession does not apply to colonial products. In consequence of this discovery Mr. Snowball lost some valuable contracts for deals and other lumber.

Mr. Justice Gwynne in chambers at the Supreme Court yesterday heard application by Mr. Christie, Q.C., representing Mr. Belleau of Montreal, to set aside the appeal of Mr. Choquette, M.P., against the decision of the lower court in the Montmagny election case. The application was refused and Oct. 4 fixed for hearing.

OTTAWA, May 6.—W. B. McMurrich, B. Cleveland, P. H. Burton, A. Morine, G. McMurrich, J. G. Bailey, Toronto, and James Watson, R. A. Lucas and B. Young of Hamilton arrived here yesterday and waited on the Premier and Minister of Railways yesterday asking for a subsidy for the St. James Bay Railway, which runs from Nipissing to St. James Bay.

Prince Louis Clovis Bonaparte.

LONDON, May 6.—In the Queen's Bench Division, the case of Threlfall and another v. Bonaparte came before Mr. Justice Cave. This was an action brought by a firm of stockbrokers against the gentleman describing himself as Prince Louis Clovis Bonaparte to recover $410 as balance due on certain stock exchange transactions. Defendant, who had pleaded that the stocks and shares were not actually bought and sold, did not appear. His lordship gave judgment for the plaintiff for the amount claimed, with costs.

The Canadian Apple Trade.

LONDON, May 6.—Mr. Woodall of Liverpool, reviewing the Canadian apple trade for the season just closing, says the shipments have been the largest on record, the receipts at Liverpool alone reaching nearly 1,000,000 barrels, including American. During almost the entire period the prices were much higher than in previous years.

Arrested for Duelling.

LONDON, May 6.—Mr. Milbrok, one of the great Yorkshire landlords, an eminent sportsman and extensive traveler, is reported to be under arrest in Belgium for duelling.

Almy Must Hang.

PLYMOUTH, N.H., May 6.—Almy has been denied a new trial and was sentenced yesterday by Judge Doe to be hanged on the second Tuesday in May, 1893. He was convicted for the murder of Christie Warden.

DOWN INTO DEATH'S JAW

THROUGH THE WEAK BRIDGE THE TRAIN SMASHED.

How the Accident Happened—Only Meagre Details of the Extent of the Calamity—Partial List of the Dead—Many Were Seriously Injured.

CHICAGO, May 6.—Meagre details have been received by the Atchison, Topeka and Santa Fe Railroad officials of a horrible wreck at Medill, Mo. The Chicago limited express, direct from the coast and San Francisco, was thrown from a bridge near that point at 8 a.m. yesterday. So far as known all the cars of the magnificent train, loaded as they were with transcontinental passengers eastward bound, were buried in the waters of a flooded ravine. It is already known that many were crushed and drowned and more injured. The best information so far obtained is that seven persons were killed outright and 23 injured. None of the names of the killed or injured have yet been obtained. Medill is a small town about 25 miles beyond the Mississippi. Within a few miles of the place is a deep ravine, usually dry. It is spanned by a 50-foot arch, which it is supposed the heavy rains weakened and finally displaced. The wrecked train was due in this city this evening. Being an overland and limited train it is usually well filled with the best class of passengers. All the Santa Fe wires are down. The engineer and firemen were among the killed.

Some of The Dead.

The following is a partial list of the killed;
William Hynes, Oklahoma City.
O. T. Lanmarkel, or Lanmarkee, Kansas City.
La Cornelius, Kirksville, Mo.
S. E. Verkler, Westport, Mo.
John C. Groves, Macon, Mo.
Lady and child, names unknown.

Superintendent Ives started for the wreck, but was confronted with three feet of water on the track at Lockport. The wires were down for miles. The eastbound Denver express which followed the transcontinental express attempted to run around the wreck on the Keokuk and Western branch of the Burlington, but was stopped by a landslide a few miles out. No trains have arrived in Chicago on the Atchison since 8 o'clock a.m. yesterday. No trains were sent out yesterday.

THE FIRE FIEND.

An Elevator and Several Stores Destroyed Yesterday Morning.

BELLEVILLE, Ont., May 6.—A fire took place about 4 a.m. yesterday in Mr. King Maybee's elevator, Trenton, and dock, back of police station, which spread rapidly to the adjoining shed of R. M. Mowat's hardware store and Jeff's elevator. Soon Mead's and two other stores in the block took fire, and then Ireland's grocery, the G.N.W. telegraph office, J. H. Dickson, druggist, and R. M. Mowat's hardware.

A dynamite explosion in the latter store sent oils, paints, etc., flying in all directions. The shock was a terrific one and broke most of the plate glass windows in the town and all the windows near the fire.

The loss is from $30,000 to $40,000. There were about 20,000 bushels of grain in the elevator.

THE HOPE TRAGEDY.

The Jury Yesterday Acquitted Forsyth on the Capital Charge.

COBOURG, May 6.—The trial of Thomas Forsyth for the murder of John McCann of the Township of Hope on March 6 took place yesterday at the assizes. The evidence showed that Thomas McCann, brother of John McCann, went to the prisoner's house at 2 a.m. and raised a row with the prisoner; that John followed Thomas to the prisoner's house to act the part of peacemaker, and in the confusion which followed the prisoner, in defending himself, shot John instead of Thomas, the wound proving fatal 24 hours later. The prisoner was acquitted.

An Imposing Ecclesiastical Ceremony In A Catholic Church.

ALBANY, N.Y., May 6.—Thirty bishops and archbishops and 500 clergy assisted in the consecration of Bishop Gabriels, who succeeds the late Right Rev. Bishop Wadham of the Ogdensburg diocese. The ceremony took place in the Cathedral of the Immaculate Conception, which was beautifully adorned with flowers. Every available inch of room was taken in the vast edifice and hundreds were unable to gain admittance. The sermon was preached by Bishop McQuade. Bishops and high notables, besides those already mentioned, were present from Kingston, Ont., Ottawa, Ont., Montreal, Que., Three Rivers, Que., and Pembroke, Ont. At the close of the ceremony an elaborate banquet was served to the clergy in Union Hall. The presents received by the new prelate were costly and beautiful.

He Breathed Gas Without Injury.

OSWEGO, May 6.—Deputy United States Marshal W. J. McCaffrey, who was on his way to Lockport with Mc Mow, the Chinaman whom he is taking to San Francisco, passed through Oswego. There the Chinaman had an experience which would seem to demonstrate that the heathens can breathe illuminating gas without injury. Mr. McCaffrey desired to visit some friends in this city and was not anxious to lug his Celestial companion about with him. So he hired a room, without a transom, in the upper story of the Lake Shore Hotel and therein locked his prisoner. The Chinaman, when taken into the room, sat down on a corner of the bed. The gas was lighted. The marshal went away and when he came back this morning the prisoner apparently had not budged an inch, but the light was out and enough gas filled the room to have asphyxiated a regiment of Christians. The heathen, however, did not seem to be in the least degree affected. He was led down stairs and called for a cigaret, which he puffed with as much composure as if he had never breathed anything but the purest air.

The Boodle Crop Not Over.

The Government is making a bad record for itself this season. New instances of boodling are coming to light every day. An investigation into the grave charges made by Mr. Edgar against Sir Adolphe Caron has been refused. It is intimated that the charges against Judge Elliott will also be dashed. A gerrymander bill, worse if possible than that of 1882, has been introduced, and the people of East York will have the first opportunity of condemning it. It is evident that the morality of the Government has suffered by the increase of its majority, and nothing will more tend to bring it back to a wholesome frame of mind and conscience than a few checks like that administered in Welland the other day. A defeat in East York will be as good for the Government as a dose of spring medicine.

More Gerrymander Injustice.

The real work of redistribution has been as badly neglected in Quebec as in Ontario. In the city of Quebec there is a glaring case of inequality. Quebec East, with 36,200 electors, is left with the same representation as Quebec West, with only 9,241. Quebec West, is Tory; Quebec East, with four times the population, is Liberal, having elected Mr. Laurier by nearly 2,000 majority in 1887 and by acclamation in 1891. Quebec Centre, also Liberal, has a population of 17,049, nearly twice that of Quebec East. The city has 63,000 inhabitants, and could easily have been divided into three constituencies of 21,000 each. But they would all have been Liberal. The County of Quebec has only 10 504 inhabitants, and Soulanges has only 9,612.

Honest Government.

The Ottawa *Journal* (Independent) says:—"If the Mowat Government has one cause for satisfaction greater than another at its victory in Toronto last week, it is that the victory was won in spite of an honest declaration that it had no bribe to offer to the electors. The announcement was made by the Liberals during the campaign that, win or lose, Toronto would be treated just the same by the Provincial Government. A strong contrast to recent Dominion elections."

Consumption and Lung Difficulties Always arise from particles of corrupt matter deposited in the air cells by impure blood. Purify that stream of life and it will very soon carry off and destroy the poisonous matter, and like a crystal river flowing through a desert will bring with it and leave throughout the body the elements of health and strength. As the river, leaving the elements of fertility in its course, causes the before barren waste to bloom with flowers and fruit, so pure blood causes the frame to rejoice in strength and health, and bloom with unfading beauty. Monday evening the young people of the Presbyterian Sabbath school gathered together at Mr. Merrill's to spend a few pleasant hours of enjoyment. After supper the Sunday school scholars presented Mr. Merrill with a writing desk and the following address:—

MR. MERRILL, Superintendent of the Presbyterian Sunday school:

DEAR SIR,—It was with deep regret that we learned of your intended departure from our midst and we wish to use the occasion for giving expression of our hearty appreciation of your faithful and devoted services here. With great pleasure we recall the fidelity with which you have attended to your duties and the efforts you have put forth, in season and out of season, for the promotion of the interests of the school and it gives us even greater pleasure to testify to the influence for good which your consistent Christian walk and conversation have exercised upon our lives. Though we may not always have profited to the full extent of our opportunities by the efforts you have put forth on our behalf, yet we hold them in fond remembrance and we esteem it a great favour to have the privilege of giving tangible token of our respect, esteem and good will, by asking your acceptance of this writing desk. That you and Mrs. Merill may long be spared to live of usefulness and happiness is the prayer of your devoted friends.

Signed on behalf of the Sunday school.

Old Methodist Cemetery Again.

To the Editor of the Examiner:

DEAR SIR:—I saw two weeks ago a communication from a plot owner enquiring if the Committee appointed by the property owners had met the Trustees of the George street church yet, or if anything had been done towards a settlement of the claims of said owners. I had waited myself thinking it was high time something was done. Now Sir, allow me to say that the Rev. Mr. Locke very courteously called a meeting of the Trustee Board of the said church, and invited the committee of the cemetery to attend, some time last winter. It was called at 3 o'clock p.m. There assembled five or six of the trustees and five of the committee. The chairman not being present, Mr. D. W. Dumble was called to the chair. He opened the meeting by saying the trustees were there to receive any proposals the committee had to make. Mr. Bell, as chairman of committee, rose to his feet, and said he was under a great disadvantage, not having the writings at his disposal, but he saw by all the deeds he had seen that there was an associate committee appointed at the time the lots were disposed of the same number as the trustees of the Methodist church so that it would be undenominational. He claimed that those present were that committee and he thought the trustees were the proper parties to make proposals, having received the price of the lots and appropriated it to the use of the church to the amount of nearly $400, which should have been applied to keeping the cemetery. However after some discussion Mr. Deane said the majority of the plot owners were willing to give up to the hospital authorities providing they put up a good fence and kept the property enclosed and take the care that was necessary to keep it as a cemetery should be kept. Others were willing to leave it in the hands of the trustees provided they paid the lot owners their first cost with interest and they would remove their dead. Another proposal was that the trustees purchase lots in the Little Lake Cemetery and give them in lieu of the lots they hold in the Methodist cemetery. By this time the Rev. Mr. Locke came and took the chair and seemed very anxious something should be done but the evening was short and it was getting dark and Mr. Clegg moved, having heard the proposals of the Associate Committee, that the meeting adjourn—"We can decide at a future meeting." When I heard the "we," I couldn't help thinking of the message a certain King of Israel sent to the King of Judah. Now Sir, Mr. Dumble claims the Associate Committee is not legal, and being asked what they were appointed for he said to please the people. Shame, Mr. Dumble, to impeach men of such sterling abilities as a Millburn, a Sheridan, a Rutherford, a Robinson, and a Bell, who travelled over 1700 miles by water and on foot to preach Christ to their fellowmen free of charge. These, all lie in the said cemetery with a great number of others whose names I could mention. Peace to their memory, who gave themselves and their substance to build and maintain a cause that the present trustees are not likely to maintain by the course they are pursuing at present, while the three-fourths of the plot owners are Methodist and are nearly all in favour of a change concerning the cemetery, and the associate committee are Methodist, with the exception of three, who are anxious to do right. Now sir, is it not strange that the parties that were most anxious to have the council close the burying ground belong to the church? and I maintain that if the church used its influence yet, that bylaw would be rescinded, as sure is no necessity to have it closed, as the hospital ground is on the south and Smith on the north, park lots on the west and the corporation on the east. All the other cemeteries have the corporation on one side. And I am told that the present mayor, James Kendry, Esq., is anxious it should remain a burying ground as Mrs. Kendry's friends are mostly there. Mr. Dumble tells us the trustees cannot sell it as it is only committed to them on trust; if it is committed to them in trust then these worldly wise men who sell us the amount of money they spent is not out of date and it will be looked after. Now Mr. Editor I think I answer "Inquirers" questions and let me say in consolation that there is not a lot owner who will allow the ground to be put to any other use by the church, and they can dispose of it by speaking to conference if it really belongs to them. Certainly they are bound to fulfil their engagements, but the children of this world are wiser in their generation than the children of light.

Thanking you, Mr. Editor for your space, I remain,

Yours, etc.,

Hood's Sarsaparilla absolutely cures where other preparations fail. Its peculiar combination of vegetable remedies is peculiar to itself.

Their really grand curative and good effect on the system really make them a perfect little pill. They please those who use them. Carter's Little Liver Pills may well be termed "Perfection." dw

From Our Own Correspondent.

The fire of last Friday night has been the all-absorbing conversation, and many theories and opinions have been prevalent as to the cause of the conflagration. The citizens wanted the village council to offer a liberal reward for information that would lead to the conviction of the guilty party. The council, however, have decided to hold a court of investigation, and Coroner Poole, of Lindsay, has been asked to institute a legal enquiry into the crime at once. This will have a tendency possibly to fix the crime where it belongs.

The adjusters of the insurance companies have been here and have filed their reports at head quarters. The amount of the policies was merely a fraction of the losses sustained.

The *Recorder* will be issued as usual this week.

J. T. Patterson has his stock in the Opera House and will do business there for the present. He is the only party that is likely to rebuild.

The young man who passed a Confederate $20 bill to an innocent party, has been brought to time, and will probably be more careful in the future.

Isaac McNeely, who has been confined to his bed for the past two months, is not showing any signs of improvement.

Miss Minnie Davidson, who has been home on a visit, returned to the Peterborough Commercial College this morning.

The Redpath foundry building is the only vacant property on Main street.

And Then He Sat Right Down.

Principal of Grammar School—William Flint, stand up! What were you laughing at?"

William—I—I don't like to tell, Mr. Luskinson.

Principal—I insist in knowing.

William—I was laughing at Ben Parrott. He whispered to me that he saw you kissing Miss Boomseven on the stairway 'fore school took up.

Unfortunate Hankiness.

Mr. Hankinson—Here are some chocolate creams, Johnny. Do you think Miss Irene will be down soon?

Johnny (after stowing them away securely)—Yes, sis 'll be down purty soon, I reckon. I wish it was you, Mr. Hankinson, sis was goin' to marry instead of that stingy old Snagsford.

A Satisfactory Conclusion.

Mrs. Younghusband—And you'll let me spend the money for that purpose, dear?

Mr. Younghusband—Why need you ask? Isn't all my money yours, dear?

Mrs. Younghusband—But I don't help you earn it, dearest.

Mr. Younghusband (tenderly)—No—er—but you help me spend it, darling.

Up and Doing.

The advice to be up and doing
Is all very well in its way,
If we are the right pursuing
And our deeds bear the light of day!
A better precept we cannot keep
If we are busy with honest labor,
But 'tis better, far, to be fast asleep
Than be up and doing your neighbor.

Possibly So.

Little Fanny—Mamma, what is hereditary.

Mamma—It is something you get from your father and mother.

Little Fanny—Then I suppose spanking is hereditary?

The Best in the World.

The oil of the Norwegian Cod Liver is nature's grand restorative, and is only found in its entirety and purity in Miller's Emulsion. It is the most palatable and wholesome preparation of Cod Liver Oil in the world, and is now being taken by invalids—particularly those afflicted with consumption—with the most astonishing success. It is the greatest blood and flesh maker in existence, and is a life-saver to consumptives. In big bottles, 50c. and $1 00, at Peterborough drug stores. dw

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Turn the Rascals Out.

We refer to such rascals as dyspepsia, bad blood, biliousness, constipation, sick headache, etc., infesting the human system. Turn them out and keep them out by using Burdock Blood Bitters, the natural foe to disease, which invigorates, tones and strengthens the entire system. dw

A Great Surprise

is in store for all who use Kemp's Balsam for the throat and lungs, the great guaranteed remedy. Would you believe that it is sold on its merits and that any druggist is authorized by the proprietor of this wonderful remedy to give you a sample bottle free? It never fails to cure acute or chronic coughs. All druggists sell Kemp's Balsam. Large bottles 50 cents and $1. dw

There are many forms of nervous debility in men that yield to the use of Carter's Iron Pills. They not only relieve present distress but strengthen the stomach and digestive apparatus. dw

Derangement of the liver, with constipation, injures the complexion, induces pimples, sallow skin. Remove the cause by using Carter's Little Liver Pills. One a dose. Try them. dw

His motto is true reports with correct instruments.

Big Fire at Trenton.

Trenton had a $50,000 fire early yesterday morning. It first broke out in Mr. King Maybee's elevator along the river and spread until the hardware store of Mowat & Co. took fire. A great explosion took place when large quantities of dynamite and oils in the rear of the store took fire. The shock was felt all over the town.

A Highly Enjoyable Evening.

The Epworth League of Christian Endeavour of George street Methodist church held an entertainment last evening at the large and handsome residence of Miss Maggie Richardson, corner of Sheridan Terrace and Hunter street. About a hundred and fifty young people, completely filling every part of the house were present, some to enjoy and others to participate in the events of the evening. Mr. Geo. S. Bean presided in an agreeable manner. After the singing of the doxology and prayer by Rev. J. H. Locke, Master Willie Nicholls opened the first number with a splendid recitation. Miss Jessie Moyse sang, "Sleeping," in a fine clear voice, and was accorded applause. Miss Adeline Amet rendered an excellent reading, and Mr. W. Watts Walton sang in good tenor voice "Nancy Lee." Both numbers were well received. Miss Eva Goldie graced the evening with a reading, while Miss Abbie Robinson favoured with a well executed piano solo. The evening's programme was brought to a reluctant close with two solos on the harmonica by Mr. Garnet Green, whose renditions pleased and delighted. Afterwards refreshments, savoury and appetising, were served and duly partaken. Games and other amusements helped to pass all too swiftly by an evening of social intercourse, entertainment and song.

A Brace of Accidents.

A few days ago while Mr. Davis, who resides on Ware street, was working in a saw mill at Keene, he had the misfortune to lose a finger of his right hand which struck the saw while in motion.

On Wednesday a boy throwing stones struck the three year old child of Mr. Enos Dunsford, corner of Rubidge and Sherbrooke streets with a stone. The missile struck the child over the mouth, on the right side of the nose, inflicting a deep and ugly gash.

Died from His Wounds.

Mr. and Mrs. David Kelly, of Dummer, the Norwood *Register* says, have the sympathy of the entire community in the sad loss sustained by the death of their young son, David, whom we mentioned last week as having accidentally received a severe wound from a pitchfork in the hands of his cousin. The unfortunate young fellow died on Friday and was interred in the R.C. cemetery on Monday, the funeral being largely attended. He was a student at the High School here, where he was deservedly popular.

Early Closing at Norwood.

The village clerk has issued posters calling for the observance of the Early Closing By-law, passed by the council at its last meeting, commencing on Monday next. It includes dry goods, grocery, hardware, clothing, harness and tin shops and provides that those shops shall be closed at 7 o'clock, p.m., on Monday, Tuesday, Thursday and Friday of each week, during the months of May, June, July, August and September, except when any of these days precede a legal holiday. The village constable is also enjoined to enforce the observance of the same.

An Injunction Applied For.

The Peterborough Water Company have made application to the County Judge for power to erect a new dam between Nassau and Hilliard's on the site of the old one, which was swept away in 1870, which dam, it is held, would back water upon the farms of Messrs. Carnegie, Geo. Harvey and J. M. Irwin. The company as well as the townships of Douro and Smith have been served through Mr. E. B. Edwards with a notice of an application for injunction to restrain the company from erecting the said dam. The case came up before Judge Weller on Monday last and was enlarged for two weeks.

The Lakefield Charge Abandoned.

County Police Magistrate Edmison, held court in the village hall, Lakefield, this morning, when a charge, was preferred against a citizens, of the criminal seduction of a girl, also of the village, between the ages of 12 and 16 years. Mr. J. Hampden Burnham, secretary of the Peterborough Society for the Prevention of Cruelty to Children, was present to watch the case in the interest of the society, and Mr. Pousette, Q. C., appeared for the accused, who pleaded not guilty by his counsel and elected to be tried summarily. However an investigation into the nature of the evidence available showed that it was insufficient to establish the charge which accordingly collapsed.

No More Dirty Carpets.

The Peterborough Steam Laundry and Shirt Co. have secured the right for several counties for the great "Renove Process" of cleaning carpets, etc., on the floor without removing them, or causing the least inconvenience or annoyance to the occupants of the house. The "Renove Process" also restores old and faded carpets to their original color making them look like new. It also makes the carpet moth proof. Over two thousand five hundred of the leading families of Montreal claim that this is the only method of cleaning carpets thoroughly. A sample of the work will be done any where free of charge. Further particulars can be obtained and samples of the work seen at the office of the PETERBOROUGH STEAM LAUNDRY and SHIRT CO., Simcoe street. Telephone No. 65. dtf

Baseball Enthusiasts.

The Peterborough Baseball club will play the first match of the season with an outside team to-morrow afternoon. They will leave here at 11.50 a.m. to-morrow going by way of Millbrook to Lindsay, where they will give that town's team a brush. Following is a list of the players who will compose the team as correctly as they could be learned:

Pitcher	D. McCabe
Catcher	W. O'Brien
1st baseman	A. Lipsett
2nd baseman	W. Evans
3rd baseman	P. Goldsmith
Short stop	Fred Heap
Left field	W. F. Ritchie
Centre field	W. J. Drope
Right field	M. Lyle

May success be theirs!

News Nuggets.

—J. C. Turnbull's window resembles a miniature horticultural garden.

—A dog unconcernedly entered the police court this morning without a tag.

—The Murray street Baptist Y.P.S.C.E. intend holding a social in the near future.

—The Y.P.S.C.E. of St. Paul's church, will hold a social in the church this evening.

—The bicyclists could not have their weekly spin last night on account of the rain and mud.

—Peterborough Lodge, No. 111, I.O.O.F., took on the initiatory degree last night. Four propositions for membership were received.

—The annual meeting of the Ontario Canoe Club will be held in the store of Mr. A. Clegg to-night. There should be a large attendance.

—The Kingston city council have granted $200 to the bicycle club to defray the expenses of the big meet of wheelmen in that city on Dominion Day.

—Mr. Plant of Norwood, has manufactured a number of school seats as samples. Some are in mahogany finish, and others in hard oil. The work is very creditable.

—The illuminated certificate executed by Mr. A. Blanchard of the Peterborough Business College, for Mrs. Keane, teacher of dress cutting, is an example of artistic taste and finish.

—The local fish dealers were greatly disappointed to-day at not receiving their regular consignments of fish, which were ordered from Toronto dealers, thus disappointing their customers.

—The Norwood and Hasting junior lacrosse clubs crossed sticks in a friendly match at the latter place on Saturday. The Norwood boys defeated their opponents by six straight games.—Norwood *Register*.

—Miss Harriet Tandy, one of the oldest teachers in the employ of the Kingston Public School Board, died suddenly afternoon. She was a sister of the late William Tandy and of Reuben Tandy, the well known tenor.

—There has not been a tramp in the Kingston police cells for over a week—an unusual thing. Ald. Curtis' scheme to make them break stone for the corporation on two meals a day is evidently doing the good work.

—Henry, a fifteen year old son of Mr. Leadrum, George street, died this morning from inflammation. The deceased youth had only been ill a week. He was a bright, cheerful boy, and was greatly respected by all who knew him.

—The Rifle Association held a short practice at the ranges yesterday afternoon. A dozen members turned out, but one range, 200 yards, was shot on account of the rain. The regular monthly match will be shot the latter part of next week.

—The total receipts of the Cannington Mechanics Institute for the past year were $453 02, expenditure $349 84, leaving balance in hand of $103 18. Dr. Bingham was re-elected, president; Mr. L. Netting, secretary; and Geo. Smith, treasurer.

—Mr. Oldfield, the new "pro." for the Cricket Club, having arrived in town, the club will hold its first practice to morrow afternoon on the P.A.A.A. grounds at 2.30 o'clock, weather permitting. There should be a large attendance of members.

—The Beaver Lacrosse Club of Cobourg have organized for the year. W. DeLuag, is manager, B. Sutherland, captain, and A. Murray, secretary. The Beaver's would like to hear from other clubs whose average age is not over 15. Address the secretary.

—The work on the new Roman Catholic church, St. Joseph's, in the sixth concession of Douro, is progressing favourably. Mr. John Hayes has the foundation laid and the walls are now being erected. When completed it will be a model edifice of neatness and finish.

—Last night a couple of policemen were hauling to the pen a drunk, whose wobbly gait indicated a severe attack of locomotor ataxie, when a jocular limbo of the law encountered the procession, and jocularly demanded of the cops—"Has he got a tag on?" "No, begorra, but he's got a jag on!"

—The district meeting of the Peterborough district will be held in the George street Methodist church on May 17 and 18. The ministers of the district and an equal number of laymen will be present, when the work of the year will be reviewed and plans prepared for the Bay of Quinte conference, which meets at Port Hope on June 2nd.

—The Kingston *Whig* says:—"The secretary of the lacrosse club received a letter from A. E. Brough, secretary of the eastern district of O.L.A. council, lately organized, and which includes Peterborough, Madoc and Kingston, asking for a delegate to attend a meeting to be held there on the 14th inst., to arrange a series of games for the season. The clubs will consider the matter." It is likely that the eastern district will finish out. As stated before Peterborough has already withdrawn from the Canadian Lacrosse Association, and will not therefore send a delegate to Madoc on May 14th.

Personal.

Mr. Wm. Montgomery leaves to-night on an extended trip to the Pacific Coast.

Mr. Ed. Donald, private secretary for Mr. John Bell, Q.C., G.T.R. solicitor, Belleville, is in town to-day.

Miss M. Boddy, late assistant in the High School, Norwood, has successfully passed her Easter exams. at Queen's University, Kingston.

The Norwood *Register* says:—Miss Millie Ray, of Peterborough, spent a few days here this week visiting friends. She was the guest of Mrs. J. A. Harper.

Mr. Daniel McKinty, extra foreman for the C.P.R. for a number of years, will leave this week for Calgary, N.W.T. He will go by way of steamers as far as Port Arthur.

Mr. McMicken, agent for the Rathban Company, arrived in Peterborough last night from Queenstown, Ireland. The passage home was made in a week on the steamer "Teutonic." This is an unusual record.

Miss Emma Hall, Miss Flora Collins, and Miss Laura Davidson have very creditably passed the higher religious instruction examination in connection with the Presbyterian church, the latter having secured the medal.

Miss Annie Hall and Miss Flora Davidson returned home last night from Toronto, where they have been attending the annual meeting of the Women's Foreign Board of Missions in connection with the Presbyterian church.

In the report of the examination results of the School of Science, Toronto, we notice the name of Mr. R. J. Boswell, formerly a student at the Peterborough Collegiate Institute. Mr. Boswell passed creditably all the examinations in the first year course of Civil Engineering.

In connection with an At Home held in the Sunday School room of the church, on Monday evening, Rev. H. V. Mountcer, of Grafton, was presented by his people with a very kindly worded and flattering address, together with a fine new set of harness, a whip and a buggy spread.

Home from the Queen City.

The delegates from the Murray street Baptist church, who have been attending the Baptist Young Peoples' Union at Toronto, returned home last night. Mr. B. J. Colville conducted a conference on "Methods of Work," Rev. Mr. Trotter took part in the discussion. Miss Barker was elected a member of the Board of Management. The delegates report the convention one of great blessing and profit.

For the Bicyclers' Eye.

The committee of the Peterborough Bicycle club met and adopted blue and white as the colors of the club. The members will wear navy blue uniforms, tunics and knickerbockers. It was decided not to lay a board track as the expense would mount up to some $300 which the club are yet unable to afford. The boys will use the track in the P.A.A.A. grounds which will be put in a first class condition. The membership of the club still continues to roll on. It is now sixty-five.

Wounded at Gettysburg

"C. I. Hood & Co., Lowell, Mass.:

"I was in the Army of the Potomac and in the great battle of Gettysburg was struck in the ankle by a minnie ball, which smashed the bone. My leg was amputated in the field hospital, and after a long time it healed. I was discharged and went home. After 8 years

afresh. Dr. Pease amputated an inch of the bone, and it healed. Four years later it once more opened, and for eight years how I suffered! I do not believe it possible for a human being to suffer worse agony. During this time I had to go on crutches, being unable to wear a wooden leg. Whenever possible I relieved my sufferings by taking opiate, but when I was obliged to go without it, I suffered fearfully and thought I should go crazy. I tried every thing I could get with my limited means. Physicians said I would never be any better. Finally my

and it broke out all over my face and on some parts of my body so that my face is all covered with scars now. One day I read of what Hood's Sarsaparilla would do. The first dollar I got I sent and bought a bottle and began taking it. A week or two later, my wife in dressing my leg, said it seemed to be improving, and after taking

a few months, thank God (and I say it reverently), the sores all over my body had healed, and now, four years later, have never shown any sign of reappearing." GEORGE M. HAMMOND, 219 Magnolia Street, Syracuse, N. Y.

NECKWEAR!

Our Neckwear has become noted. It commends itself to the buyer who is in search of originality and good taste.

We call attention to our New Scarf for Spring wear, in a variety of quiet, good shades. It is quite different from any Scarf made, on account of the new and unique arrangement of the pleats.

In Silk Neckwear we show many new combinations that are a symphony in color. Also, some very choice weaves that are duplicates of novelties, fashionable in London and Paris.

Attention is also directed to our new assortment of Fancy Braces, in Silk, Figured and Embroidered, which are unsurpassed for elasticity, comfort and originality of design in Buckles and Mountings.

In the art of Watch Repairing, there are many elements which go to make successful work. The cleaning and regulating is easily performed, but the replacing of any broken parts is far more difficult and it takes a workman of long experience and first class practical ability to make a new piece which is as well finished and fitted as the original was. MUNCASTER invariably finishes his work equal to new. The New Store is next to the "Examiner" Office.

The Moulding Shop of the Carbon Works Rebuilt and Enlarged—New Machinery Added and the Various Departments Separated—Better Facilities Afforded for Turning out all Kinds of Carbons for Electric Light Purposes.

On the 17th of March last the moulding department of the Brooks Manufacturing Company's Works was completely destroyed by fire, but to-day is entirely reconstructed and running again in full blast. Several additions and alterations have been made. The new building has been greatly enlarged, giving room for the various departments to be separated and affording increased facilities for the manufacture of carbons. The new building is now two stories high, having been raised fifteen feet. It is 66 feet long by 61 feet wide, with a new wing on the east side, where the old cupola house formerly stood, 15x16, two stories high. On the ground floor of the main building are situated the carbon making, press work and retort departments. The large retorts, injured in the recent fire, have been replaced by new castings and brick work. The work of burning the crude oil in these have commenced. The oven for heating the moulds has also received attention and is now in full working order. Ascending to the second floor, which has been added, the melting, pulverising and cooling room is reached. This part of the work was formerly done on the ground floor. This room is well lighted by rows of windows on the north and east sides. The old lantern-shaped roof has been replaced by a flat iron roof, with two large ventilators, one over the stairway and the other about the center of the building, allowing a flood of light to enter this new department. A new silk bolter, new bar mills and grinders purchased in the United States have been placed upon this floor. Entering the second flat of the wing are the mixing machines. Here a new patented heavy iron mixer has been placed in solid brick work. The downstairs department of this wing is used as the scraping and inspecting room. The repairs and alterations are all completed and the work of manufacturing carbon was begun yesterday. The new additions, machinery, etc., have cost close on to $12,000, and Peterborough has now an industry which she has every reason to be proud of, as numerous orders for carbons are being received daily from all parts of Canada. Mr. Wm. Fitzgerald did the woodwork in the new building and Mr. J. J. Hartley the brick work. The Wm. Hamilton Manufacturing Company furnished the heavy iron pillars in the building and other castings. The new shafting, beaming and machinery were placed in position by machinists employed in the works and under the direction of the superintendent.

Over 4,000 Invalids Registering.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5.00 per month*, and furnish medicines free of cost. A more liberal offer it would be difficult to make. No extra charge for anything: *$5.00 per month and medicines free.*

These eminent doctors treat every variety of disease and *deformity*, and perform all surgical operations, viz: The removal of cancer, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

Catarrh, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by express, but at least one personal interview is preferable.

All correspondence should be addressed to Mr. John Murray, Manager, 271 Jarvis street, Toronto

Mrs. P. H. Green Kindly Remembered by Her Sunday School Pupils in the Woodbine Avenue Mission Church on Tuesday Night.

On Tuesday evening after the regular prayer meeting held in the Woodbine Avenue Mission Sunday School, Mrs. P. H. Green, who has for several months been an efficient and faithful teacher in the Sunday School, was presented by the members of her large class with the following address, accompanied by a handsome and costly leather album and the cabinet photographs of the various members of her class. Master Willie McCarthy read the address, and Master Robt. Howland made the presentation:

MRS. GREEN,

DEAR TEACHER AND FRIEND.—We, the scholars of your class in the Woodbine Avenue Mission Sunday School, desire to thank you most heartily for the great interest you manifest in our temporal and spiritual welfare.

We thank you for the very patient and earnest manner in which you present God's Word to us, and we trust that your labour may not be in vain, and that you may be God's honoured instrument in leading many to His fold.

And now, on behalf of the class, we would ask you to please accept this album and our cabinet photographs, as a very slight token of our respect and affection for you, not that we feel that we could ever repay you for your service to us, but to show our gratitude to you.

In the future, when perhaps your class is scattered to different parts of the world, we trust you shall be able to look upon each photograph, not with any feeling of sadness, but with pleasure, having an assurance that each of your pupils is anchored firmly on the Rock of Ages.

We thank you again for your earnest Christian efforts on our behalf, and we feel that you are working with an eye single to God's glory, and we trust that you may have many stars in your crown.

Signed on behalf of the class.

WILLIE MCCARTY,
ROBERT HOWLAND,
JAMES FOWLER.

Mrs. Green who was taken entirely by surprise, made a feeling reply, thanking the young members of her class for the many kind words contained therein and the sentiments expressed. She expressed her pleasure at receiving the gift and said that their kindness would never be forgotten, not while memory lasted. Her efforts as teacher have been appreciated, and she attributed all the good results to Him from whom cometh every good and perfect gift.

T. Kelly's Great Shop Improvement Clearing Sale.

Extensive Improvements to His Shop—And a Great Clearing Sale.

Last spring the EXAMINER announced extensive improvements and remodelling in Mr. T. Kelly's dry goods shop buildings, corner of George and Simcoe streets. The announcement was made in good faith but owing to inability of the parties concerned to make satisfactory arrangements, the improvements were postponed. But now arrangements have been definitely made and the improvement and enlargement of Mr. Kelly's shop premises will be begun as soon as the stock can be sufficiently reduced; for the alterations are so extensive that the shop will have to be practically abandoned while the work is going on. The whole interior of the shop is to be changed, modernized and extended about ten feet westward. Two new plate glass windows are to be placed on the Simcoe street front, and also an entrance on this street, giving the shop a double front. The present plate glass windows on George street are to be remodelled and modernized, and the change will be such as to transform T. Kelly's well-known dry-goods shop into one of the finest in the town or district. To enable the improvements to be made it will be necessary to clear out the whole of the present extensive and select stock of drygoods, and to effect this the goods will be offered at the very lowest prices, regardless of values. This alteration sale will be a splendid opportunity to secure choice goods at the most reasonable prices. Kindly scan Mr. Kelly's advertisement in another column.

Police Court.

FRIDAY, May 6th.

Police Magistrate Dumble still being absent in Cobourg, Mayor Kendry and R. S. Davidson, J.P., presided on the bench this morning. The green-goods case against W. J. Young and Wm. Looper, of Percy township, which was enlarged a week on last Friday, was resumed this morning. The evidence of only one witness was taken. Mr. Wm. Cross, son of Mr. Henry Cross, post master at Manilla, stated that he saw Looper register a letter at Manilla post office on April 19th. Witness took the letter from Looper and marked the No. 119 on it. The envelope was produced and Cross identified it. At the time of registering the letter Looper told witness that he wanted to register, although the amount, he said, was hardly worth the while registering. The letter was addressed to "F. O. Austin, Peterborough."

Mr. STONE.—Did Looper try to conceal the letter or its contents in any way while stating that he wished to register it.

WITNESS.—No.

The case was further adjourned until Friday, May 10th, Young and Looper being again admitted to bail, themselves at $1,000 each, and two sureties of $500 each.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,068 in amount. Of these, 186 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,583, upon 2,871 lives; which were accepted by the directors, 204 for $414,502 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,-191.06.

At 31st December last there were in force $56,218,318.08 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,-124.87, having being increased during the year by $1,041.684 78.

The death claims for the year were upon 192 lives under 243 policies for $511,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized,

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M. G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq., New York State.

(Signed), A. G. RAMSAY, President,
R. HILLS, Secretary

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting, I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,-255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,213,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the companys assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,184.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 32 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperity as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen.—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of careful management in the interest of the company I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest, I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Fairrie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C.M.G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

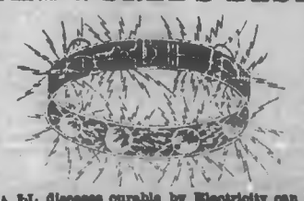
THE WORLD'S BEST.



All diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. The new business up to the present date far exceed that of any previous Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE, and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and contains the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Life of Misery

Burdock BLOOD BITTERS

CURES DYSPEPSIA

By acting upon the liver, stomach and bowels and purifying the blood, it removes every particle of the foul, impure or morbid matters which obstruct the proper working of the digestive organs and cause dyspepsia. This explains why B.B.B. succeeds in curing even the most obstinate cases.

Burdock BLOOD BITTERS

CURES CONSTIPATION

By regulating the bowels and removing all foul accumulations, it promptly and permanently cures this disease no matter of how long standing the case may be. B.B.B. acts in a natural, thorough and pleasant manner, never causing nausea or griping.

Burdock BLOOD BITTERS

CURES BILIOUSNESS

By regulating and toning the liver and removing excess of bile, this distressing disease, which is the frequent cause of sick headache, dizziness, etc., is cured without fail. No remedy has ever performed so many permanent cures in the same space of time as has B.B.B.

Burdock BLOOD BITTERS

CURES SCROFULA.

This scourge of humanity arises chiefly from bad blood, for which B.B.B. has proved itself the most successful remedy of modern times. It completely frees the blood of every impurity, from a common pimple to the worst scrofulous sore. POINTS FOR BUTTERMAKERS.

How to Make Butter to Suit the English Taste.

OTTAWA, May 5.—At a meeting of the Agriculture and Colonization Committee Prof. Robertson, dairy commissioner, continued his evidence. During his examination he said that the second shipment of butter from Woodstock creamery to England sold at 124 shillings per 112 lbs., or 26 cents per lb. Deducting commissions, freight, cost of production, etc., this gave the farmer a little over 20 cents per lb. delivered at the railway station at Ingersoll. Butter shipped from Australia sold in England at one shilling per pound. He then turned to the result of experiments at the experimental farm in dairying, feeding, etc. One result had been to discover the cure for the fault found with the first shipment of butter, namely, the lack of rosy flavor to be found in English butter. They ascertained that the cure was to mix the milk from one freshly-calved cow with that of several other cows. By this means the flavor desired was obtained. City milkmen, he said, were losing in the quantities of milk obtained by feeding 10 pounds per day when they would get a larger supply by feeding 6 to 8 pounds. Over-feeding deranged the digestive organs and prevented an increase in beef as well as milk supply.

NEW YORK, May 5.—Two years ago Erskine Henderson was ruled off at Saratoga on the last day of the meeting for the pulling of the horse Young Duke. Since that time he has made strenuous efforts to get reinstated, but until lately he was not successful. Now, however, Colonel Nutt, who was presiding judge at the time, thinks he has been punished enough and has consented to his reinstatement. The new Saratoga officials have endorsed Colonel Nutt's action in the matter and Mr. Henderson is once more in good standing entitled to all the privileges of any race track.

OTTAWA, May 5.—The Capital Lacrosse Club players commenced active practice on Metropolitan grounds last evening. Fifteen of the best stick-handlers of the two old clubs turned out and did some light running, among them being Bissonnette, McConaghy, Hugh Carsen, George Carson, Patterson, Kehoe, Redmond, Kent, Carleton, Thomas and Taylor. Arrangements will be made during the week so that Crown, Devine, Quinn, Barry and Murphy will be able to put in a little work at least three nights a week. It has been decided that the new suits for the club will consist of a red jersey and grey suit.

The remains were taken to Belmont, Ont., for burial.

On the Threshold.

Standing at womanhood's door is she.
Clad in her virginal purity,
A creature fair as the lilies be.
And like the lilies, alas, how frail;
They are borne to earth when the storms prevail,
And her life goes out in the summer gale.

When we see a frail and lovely creature, standing on the threshold between girlhood and womanhood, we shiver with a fear of what may be, because we have seen so many succumb at this critical period of life. What is needed at this time is a tonic and invigorant—something that will promote proper functional action of the female organs. The only remedy to be depended on is Dr. Pierce's Favorite Prescription. This unequaled remedy, which cures diseases peculiar to women, is especially valuable at the period when the girl crosses the threshold of womanhood. Used at this time it never fails to produce a most beneficial result, and many a young girl has been tided over one of life's most trying periods by it. h

A big Job on Hand.—Cleverton—What's your hurry, old man? Dashaway—I haven't a moment to spare. I've got to attend a reception this evening, and I'm going around to my laundryman to see if I can borrow one of my collars.—Clother and Furnisher.

Mrs. Morton (angrily)—Tommy Horton, what made you hit my little Jimmy? Tommy Horton—He struck me wid a brick. Mrs. Morton (more angrily)—Well, never let me hear of your hitting him again. If he hits you come and tell me. Tommy Horton (sneeringly)—Yes, and what would you do? Mrs. Morton—Why, I'd whip him! Tommy Horton (in disgust)—What! he hits me wid a brick, and you have the fun of lickin' him for it? Not much!—Puck.

Dr. William's Pink Pills are a specific for troubles arising from overwork, mental worry or excesses of any kind. G. A. The Head Surgeon

Of the Lisbon Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to men. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, skip beats, hot flashes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. Lisbon, 24 Macdonell ave., Toronto, Canada.

Cure for A Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package.

Stubborn children readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

WHERE THERE IS BITTERNESS.

The Contest in Manitoba Waxeth Hot—Separate Schools the Issue.

WINNIPEG, May 6.—The provincial election fight is waxing warmer every day and considerable bitterness is manifested. The Conservatives have opened central headquarters here and are making a rough canvass of the province. Premier Greenway and his Ministers are all out stumping in various constituencies, and insist on making the Roman Catholic separate school question the principal issue of the contest. Several candidates were nominated yesterday, among them being S. J. Thompson, Mr. Greenway for Carberry, Robert Rodgers as the Premier's opponent in Mountain, J. H. Hartney, Opposition, for Avondale; J. Greenwood, Opposition, for North Brandon, and B. G. O'Malley, Opposition, for Lorne.

Members of all Protestant denominations here have passed resolutions favoring the closing of the Canadian exhibit at the World's Fair on Sundays. It is proposed to petition the authorities at Ottawa to take action.

President Elliot of Harvard College visited Winnipeg yesterday and expressed himself as greatly pleased with the educational facilities of this young city.

Yesterday was Arbor Day in Manitoba and was generally observed as a public holiday.

DRINK'S FEARFUL DOINGS.

"I'll Murder Somebody"—How Hopkins Carried Out His Threat.

ROCHESTER, N.Y., May 6.—After a vain attempt to murder his wife last night Thomas Hopkins, a cartman, killed himself. Hopkins had been away from home all day. He did not return to dinner, and the wife, well acquainted with his ways, knew that this meant that he would appear intoxicated when he came home. The wife and a step-daughter, aged 15, were at the supper table when Hopkins, grumbling and swearing, came into the house. "I'll murder somebody," he said, "if I have to kill all of you to do it." Bertha, the daughter, went into the room adjoining, leaving her mother and stepfather together. Soon Mrs. Hopkins was heard to cry for help. Rushing into the room, Bertha saw the drunken husband chasing her mother and brandishing a hatchet. Twice did he hit the woman before the girl could interfere, inflicting ugly wounds on her forehead and the side of her head. Young Bertha, at the risk of her own life, seized the crazed drunkard from behind and succeeded in holding him while the mother, staggering and bleeding from the ugly wounds, escaped from the house crying "murder." Then Bertha, also with a wound from the hatchet, too escaped. Hopkins then went to a neighboring doorstep, where he deliberately drew a razor across his throat, severing the throat from ear to ear. He died almost instantly. It is not known whether the wife will recover or not.

STRONGER THAN LIFE.

Rejected By a Pretty Widow He Cuts His Throat With a Carving Knife.

BUFFALO, May 6.—He loved and would have wedded a widow, but the widow would have none of him, and after she had refused him for the third time last night he went out in the hallway of the house, 385 William-street, and cut his throat. He was Henry Pfeiffer, an employe of the Wagner car shops, and she was Minnie Weber, his landlady. Last night Pfeiffer slept the sleep that knows no waking on a slab in the morgue.

Pfeiffer is described as having been a shiftless and dissipated good fellow, but very much enamored of Minnie, who, it is said, had promised to marry him if he would "straighten up," which he failed to do. Minnie took boarders and kept a little grocery at the place indicated above. She is described as pretty, and has been a widow six years. Immediately after she refused him for the last time last night Pfeiffer left her suddenly, walked back to the kitchen of the house, picked up a carving knife, sharpened it on his bootleg, walked from the room into the hall, drew the knife across his throat and died for love. Coroner Fauson was at once notified. Pfeiffer's mother and stepfather live in Monroe-street, near Broadway.

Threw a Bomb in an Open Window.

LOS ANGELES, Cal., May 6.—A dozen persons were injured yesterday by an explosion of a bomb in a house in the foreign quarter of the city. The occupants of the house were Italian and Russian families. The bomb was thrown in through an open window by an unknown man who wore a slouch hat drawn down to his eyes, and a large cape. No trace of him can be found. The interior of the house was wrecked. An Italian fruit vendor named Paoli asserts that the perpetrator was a discarded lover of a married woman in the house, and that he had followed her here from New York to accomplish his revenge.

Mrs. Harrison Convalescent.

WASHINGTON, D.C., May 6.—Mrs. Harrison is slowly gaining in health, and will probably be able to leave her room in a few days, when it is expected she will go to Fort Monroe on Virginia Beach during next week for recuperation, in which event she will be accompanied by the President and Mrs. Dimmick.

UNEASY LIES HIS HEAD.

Discovery of Bombs at Rustchuk—Fifteen Arrests—A Serious Conspiracy.

SOFIA, May 6.—Fifteen arrests have been made in connection with an important discovery of bombs made by the police last Friday at Rustchuk, in the house of an Armenian, who had incurred the suspicion of the authorities. The inquiry which has been instituted shows beyond doubt that the authorities have nipped in the bud a most serious conspiracy, directed not only against the Bulgarian Government, but also against the person of the Sultan. It appears that the owner of the house in which the bombs were found was in correspondence with two Bulgarian emigrants, and that part of the bombs were destined for an attempt on the life of the Sultan at Constantinople, while the remainder were employed in perpetrating a similar design against Prince Ferdinand and his ministers. On examination the bombs were found to be fully charged with explosives and pieces of scrap iron. The police are still actively engaged in investigating the matter, and domiciliary visits are being daily made by them at the houses of suspected persons at Varna and the towns of the Danube.

Terrible Fire In St. Petersburg.

BERLIN, May 6.—From particulars received here of the fatal fire which occurred in a three-story house in St. Petersburg on the 20th ult., it appears that seven persons were burnt to death, most of them being charred almost beyond recognition. Three others were suffocated, and a child of 4½ years, which was saved by the firemen, afterwards succumbed to its injuries. The fire broke out at three in the morning in a restaurant situated on the second floor, the supposed cause being the upsetting of a lamp by a maid servant who was the first victim. The flames spread rapidly to the third floor, tenanted by a large number of poor people, whose first intimation of the danger was the cry of "fire" and the smell of smoke rapidly invading the rooms. A terribles scene followed. Some of the terror-stricken inmates finding escape by the stairs cut off, rushed to the windows and threw themselves into the street, while others, as the flames advanced, were suffocated by the smoke or burnt to death. One old woman who had 30,000 roubles in a box was burned together with her son in attempting to rescue her treasure.

Wife Murder Through Jealousy.

LEEDS, May 6.—A shocking case of wife murder has occurred at Czar-street, Holbeck, Leeds. The victim was Jane Pickering, aged 23, who had been married only three months. She and her husband resided with the parents of the latter, and the young couple were in their bedroom, when some words took place. The man's father went into the room, which was dark at the time, and deceased ran past and ran downstairs. Father and son followed, the latter going into the street and taking refuge, after a chase, in an outhouse, where he was arrested by the police. In the meantime the woman was found on the floor of the house with a terrible gash in her throat, and died shortly after the doctor arrived. The husband, when charged, said, "It's all through jealousy. She kept saying she would go and leave me, but now no one else can have her." After signing this statement, he said, "I ought to have cut my own throat." Prisoner had been out of work for some weeks, and, in fact, was not working at the time of his marriage.

The Distress in Russia.

ST. PETERSBURG, May 6.—The Novoe Vremya, in an article expresses the deep gratitude of the people of Russia to the Society of Friends of Great Britain, whose representatives, Messrs. Brooks, Fox and John, have, says the journal, helped the starving peasantry so abundantly, intelligently and charitably, without distinction of religion or race.

Buffalo Bill in London.

LONDON, May 6.—Buffalo Bill, with his American and Chilian Indians and a large number of horses, arrived yesterday. He expressed himself as delighted with the fact that he had not lost an animal on the voyage. He gave a private exhibition yesterday afternoon.

EXTENSIVE CHANGES IN

THOMAS KELLY'S

DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated, and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PROFIT WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

INCITING TO MURDER.

TWO ALLEGED ANARCHISTS ON THEIR TRIAL.

Citizen Mowbray and Journalist Nicholl Charged With Conspiracy to Murder English Officers of State—Mowbray Acquitted — Nicholl Gets Eighteen Months Hard Labor.

LONDON, Eng., May 7.—Charles Wilfred Mowbray, tailor, and David John Nicholl, journalist, were yesterday on trial at the Old Bailey on an indictment charging that "they on the 9th of April, at No. 145, City-road, did unlawfully and maliciously, in a certain newspaper called The Commonweal, solicit and encourage certain persons unknown to murder certain other persons, to wit: The Right Hon. Henry Matthews, Secretary of State for the Home Department; Sir Henry Hawkins, one of the justices of the High Court of Justice; and William Melville, an inspector in the Metropolitan Police Court."

In behalf of Mowbray it was argued that he had no part in writing the article complained of, and he disapproved of it. Nicholl, it was shown, had avowed responsibility for the article.

Mowbray was found not guilty and was discharged. Nicholl was found guilty and sentenced to 18 months' hard labor.

A SHINING MARK.

Close of An Eventful Career—The Doctor Succumbs to Smallpox.

BERLIN, May 7.—Eugene Wolff, special correspondent of The Berliner Tagblatt for the German colonies in Africa, telegraphed last evening that Arabs arriving at Zanzibar say that Dr. Emin is dead. The report, Wolff says, lacks confirmation, although it was undoubtedly true, as Wolff telegraphed on May 3 that Dr. Emin was stricken with smallpox while following his advance force from Wadelai to Bukoba. This force was under Dr. Stuhlman and reached Bukoba on Feb. 15. No later reports from Stuhlman have been received. Whether Dr. Emin is supposed to have died of the smallpox or from violent causes the despatch fails to state.

The French in Dahomey.

LONDON, May 7.—Advices from Lagos, West Africa, state that the French expedition in Dahomey is concentrating at Kotonou, near which place the Dahomeyan warriors recently built entrenchments, and which was threatened with an attack by the natives. Reinforcements have been arriving at the garrison at Kotonou lately and the French force there is estimated to be 3000 strong. The force is greatly strengthened by a gunboat which recently arrived. The French were to commence active operations against King Behanins on April 30.

Suicide of a Banker.

BERLIN, May 7.—The head of the Hammerstein banking house of this city committed suicide Friday by shooting himself with a revolver.

One More Victim.

PARIS, May 7.—Paul Hamond, a printer, who was terribly injured in the explosion at Very's restaurant, died yesterday.

Nihilists on the Czar's Track.

PARIS, May 7.—The police have notified the St. Petersburg police of the departure from Paris of a party of Nihilists, who are plotting against the Czar.

Proposed Recall of Bismarck.

BERLIN, May 7.—According to the latest political gossip, the speedy appointment of Count Herbert Bismarck to an important official position is probable.

A Dull Day in The House.

OTTAWA, May 7.—Yesterday was another nice, quiet, easy-going day in the House. Hon. Mr. Tupper's Lobster Fisheries Bill was further considered in committee but not finally disposed of, and the House then got into supply, passed a number of items for railway department, and adjourned at 10.15.

Two small discussions sprang up on the order of the day being called, one on the copyright question and the other on the abolition of the Legislative Council of Prince Edward Island.

On the copyright question Mr. Edgar called attention to the fact that the three years had expired during which the bill could be vetoed, and the act would, therefore, become law on proclamation, and asked when the proclamation would be issued.

Sir John Thompson said that when the provision for a proclamation was put in the bill it was on the understanding that it would not be issued except on an understanding with the British Government, and that understanding had not yet been arrived at.

In the Exchequer Court to-day the claim of Mr. Henry Bulmer of Montreal against the Crown for damages sustained by the transfer of the disputed territory to the Ontario Government, as well as of the right to grant licenses, thereby resulting in heavy loss to the claimants, was concluded. Messrs. Henry Bulmer, T. J. Bulmer and T. R. Monaghan of Winnipeg gave evidence. Mr. P. Larmouth of Ottawa testified to the amount of business done by the Bulmer company, as shown by their books. In the afternoon argument took place, Messrs. McCarthy, Q.C., M.P., and A. Ferguson for the claimants and Messrs. Robinson, Q.C., and Hogg for the Crown. Judgment reserved.

The statement of revenue and expenditure for April shows the revenue for the month $3,168,234, and the expenditure $2,315,280. For the 10 months of the fiscal year the revenue is $29,901,180, and the expenditure $27,696,848, showing a surplus of $4,202,332.

The public debt on April 30 was: Gross debt, $290,403,720; assets, $54,961,609; net debt, $235,442,057, which is a reduction of the debt of $2,365,973 since June 30 last.

These two statements make a most satisfactory showing.

More Royal Alliances.

BERLIN, May 6.—In court circles it is whispered that the expected visit of the Czar is connected with a projected betrothal of Princess Margaret of Prussia to a member of the Russian imperial family. The Czar, however, has not yet made up his mind to assent to the alliance.

Burned in a Feather Factory.

BERLIN, May 6.—The Straussa feather factory at Cannstadt, Wurtemberg, caught fire yesterday afternoon, and the flames spread with such rapidity that several of the employes were burned to death.

WILL CAUSE CIVIL WAR.

BRITAIN'S PREMIER MAKES A GREAT SPEECH.

Great Political Struggle Impending—Will Maintain the Integrity of the Empire—No Catholic Despotism—Would Rend Society in Twain—Home Rule a Message of Civil War.

LONDON, May 7.—Lord Salisbury presided at a meeting of the Grand Habitation of the Primrose League, held at the Covent Garden Theatre yesterday.

Lord Salisbury delivered an address in which he declared that a great political struggle was impending. "We have," he said, "to deal with a proposal for a great organic change. The conflicts of classes are shutting out from men's eyes the great issue—the integrity of the empire."

Lord Salisbury also said the opinion of the Loyalists in Ireland had not changed. The condition with which Ulster had to struggle appeared clearer every day. He had been accused of attacking the Catholic religion, but nothing was further from his thoughts. What Ulster had to dread was being submitted to the despotism of her foes. While Parliament had the right to govern Ulster it had no right to sell the province into slavery. Any attempt to use the English military to subject Ulster to Archbishop Walsh would rend society in two. Home Rule was not a message of peace, but of civil and religious war.

His Lordship concluded by declaring that unless Conservatives and Liberal-Unionists exerted themselves to prevent that hideous picture from becoming a reality they would produce a result which would not secure Home Rule, but a state of things which would destroy the credit and enfeeble the power of England in every quarter of the world.

MISTRESS OF THE SEAS.

Lord Salisbury's Solicitor-General Eulogizes the Premier's Action.

LONDON, May 7.—Sir Edward George Clarke, M.P., Solicitor-General, delighted a Tory meeting at Bermondsey last night by attacking the attitude of the United States on the Behring Sea question.

Lord Salisbury, he said, had shown himself eager and able to protect British subjects thousand of miles away against the presumptions of American statesmen, and for this all Englishmen at home and abroad owed him a debt of gratitude.

"There is no sea in the world," he continued, "where British ships may not sail. Wherever the open sea ebbs and flows the flag of Great Britain may wave over her sailors. For refusing to recognise the contention of the United States that any sea could be closed to British ships Lord Salisbury merits the admiration of all loyal Englishmen."

The audience rose, shouting and cheering. Men waved their hats and women their handkerchiefs, while singing: "For He's a Jolly Good Fellow."

MARY'S TRAGIC FATE.

Her Little Friend Rushes From a Fire With a Revolver.

CHATHAM, May 7.—A fatal shooting accident occurred on the River Thames, near Prairie Siding, Dover township, yesterday afternoon. The victim was Mary Drago, a 14-year-old girl. A fire was in progress in the house of William Trudell, a neighbor living next to the Dragos, and Mary was present. A young girl came out of the house with a loaded revolver which she was saving, and which in handling was discharged. The bullet struck her playmate and produced instant death.

The Defeat of the Italian Ministry.

NEW YORK, May 7.—The Herald's Paris special says: The Italian Ministry has been overthrown by the Chambers. Since the first day of the session, Italy, overburdened by the army expenditures, has had no further use for the Triple Alliance. King Humbert, who is bound by the terms he has made to Germany, has not been able to see his way out of a really inextricable position unless he has the courage to break off the Triple Alliance. The Italian crisis is very sudden, and throws the politicians of all Europe into excitement, as they understand the position is growing more and more strained. At the time of the last Italian crisis Emperor William asked King Humbert to hold to the Triple Alliance only to the end of summer. The return of M. Crispi to power is impossible in any case.

Death From Furious Driving.

MONTREAL, May 7.—Another death from alleged furious driving occurred in this city yesterday. Felias Bernier, driving an ice wagon, drove over Jules Leclair, killing him instantly. The latter was driving a wagon for the Dominion Barbed Wire Company, and was running alongside his wagon. Bernier came up behind him. The wheels of the latter's cart passed over Leclair's head, crushing it in. Bernier was arrested pending the result of the inquest.

Shot Down by a Woman.

SAN ANTONIO, May 7.—In June last J. T. Wilson of Sherwood, Irion county, was arrested and jailed for slandering Mrs. Lennie Taylor, the wife of Sherwood Taylor. Yesterday Mrs. Taylor went to the jail armed with a pistol, and as Jailer Williams was taking dinner to the prisoners she slipped in behind him and sent a bullet through Wilson's brain. Mrs. Taylor has not been arrested.

Third race, 1 mile, handicap—My fellow 1, Margherite 2, Count 3. Time 1.44½.

Fourth race, 1 mile—Can Can 1, Maid of Screen 2, Sam Morse 3. Time 1.50.

Fifth race, hurdle, ¾ mile—Dalgrina 1, Ella 2, Hemet 3. Time 1.08½ and 1.09¼.

Harvard Defeats Cornell.

CAMBRIDGE, Mass., May 7.—The Cornell team tried its luck against the crimson yesterday, and it was a soft game for Harvard. Highland started in to pitch, but realizing that it would be an easy win, Captain Frothingham put Harry Bates in the box that Highland might be saved for Saturday's struggle with Princeton. Bates did very well and "Chauncey" Moore caught a superb game. Calthrop pitched a fair game. Priest was unable to pitch or the result might have been different:

OUTRAGED IN A TRAIN.

DESTARDLY OUTRAGE ON A YORKSHIRE RAILWAY.

The Victim Hurled From the Car and Probably Fatally Injured—Found Helpless On the Track—The Police In Quest of the Dressmaker's Assailant — Amy Faulkner is Her Name.

LONDON, Eng., May 7.—Another railway outrage is reported. The victim is a dressmaker named Amy Faulkner, and from present indications her assailant, if arrested, will have to answer a charge of murder. Some men walking along the railway near Leeds found a woman lying near the rails. Her clothing was disarranged and she was terribly injured. She was just able to state that she had been assaulted in the compartment of a railway carriage and that after her assailant had outraged her he had thrown her headlong from the carriage. The train was running at full speed and her injuries were sustained by her being thrown from the train. The police are looking for the assailant.

HE NOW IS A SOLDIER.

The Crown Prince is Given a Commission —Grand Ceremonial.

BERLIN, May 7.—Yesterday was the 10th birthday of the young Crown Prince William. According to the tradition of the reigning House of Prussia he becomes Second Lieutenant of the First Foot Guards, a Potsdam regiment. He is the first Crown Prince to enter the Prussian army since 1805. His father, grandfather and great-grandfather entered the army as ordinary Prussian princes and not as Crown princes. Potsdam to-day was full of representatives of the house of Hohenzollern and other ruling houses of Germany. Besides the Emperor there were present at the parade grounds his brothers, Prince Heinrich of Prussia, Prince Albrecht, Regent of Brunswick, and the three sons of Prince Albrecht, viz., Frederick Heinrich, Joachim Albrecht and Frederick Wilhelm, the three young princes being already members of the officers' corps of the 1st Regiment of the Guards. The young Grand Duke of Hesse was also present, and many members of the general staff, as well as Gen. Von Kaltenborn, Minister of War. The regiment and all the garrison of Potsdam were assembled on the great parade ground.

The Kaiser made an address to the regiment, in which he alluded feelingly to their historical relations to the House of Hohenzollern. The Kaiser gave the Crown Prince the decoration of the Black Eagle.

The Crown Prince with a grave and dignified military salute to his Imperial and paternal war lord took his place in the regiment. Then the guards marched past the Kaiser, the Crown Prince, who wore the uniform of a lieutenant, marching in the rear file.

This evening Potsdam is splendidly illuminated and the palace is a scene of activity.

RAILWAY STATION BURNED.

The Lord Warden Hotel and the Postoffice Narrowly Escape the Same Fate.

LONDON, May 7.—The railway station at Dover was burned almost to the ground yesterday. The fire originated in the lamp room and spread rapidly to the oil tanks.

The firemen could do nothing except try to save the large Lord Warden Hotel but a few steps from the station. At first it was thought that the hotel would be burned down, and the postoffice was also threatened, but the wind shifted and drove the flames away.

The fire burned for four hours. The general buildings of the railway company and the buffet were almost completely wiped out, only the walls having been left standing.

THE KING USES STRATEGY.

He Makes Many Prisoners and Has Four Officers' Heads In His Camp.

LONDON, May 7.—A despatch from Sierra Leone says: "A messenger from the interior reports that King Samadou, as a piece of strategy, allowed the French to capture three native towns, and afterwards recaptured two of them, the French losing heavily in the engagements.

The messenger says he saw 81 French prisoners and Senegalese and the heads of four French officers in King Samadou's camp.

King Samadou commands 20,000 warriors, 9000 of whom are armed with chassepots.

On Trial For Their Lives.

LONDON, Ont., May 7.—The trial of William Wilson and John Fitzpatrick, for the murder of Edward Upton of St. Mary on Oct. 2 last, was taken up yesterday. Fitzpatrick is a very youthful looking prisoner and both of them appeared easy and composed. The prosecution was conducted by Mr. W. Lount, Q.C., of Toronto, the prisoners being defended by Mr. H. Meredith, Q.C., and Mr. Folinsbee, Strathroy. Several witnesses were examined during the afternoon.

War Preparations In Russia.

LONDON, May 7.—The Sebastopol correspondent of The Standard sends the following dispatch to his paper: "The preparations for war in Russia have never been more active than now. There is a continuous movement of troops to the western frontier of the country and the calling out of the successive categories of reserves in the interior has commenced."

Sudden Death of a Reeve.

PARRY, Ont., May 7.—Mr. William Bradley, reeve of Grenock township, died suddenly of apoplexy here yesterday. He was in town on business and while at the Royal Hotel met his sudden end. He has been reeve of Grenock for many years and will be sadly missed among his many friends.

SATTRDAY, MAY 7, 1892.

Will it be Darkness or Light?

Light or Death?

Life with some is a thick and murky vapor, spreading darkness, obscurity, fear and dread around the walks of business, pleasure and home. Men and women can make life or destroy it—they can make home and the world joyous, or they can assist in making this world more miserable than it now is.

As free agents in this world, what a vast responsibility rests upon us. We can throw sunshine and joy around us; we can make our homes Edens and our circle of friends can be made to feel our influences for good. Are we trying to do this work? Some are, but unfortunately for our country thousands cannot do it.

Circumstances—events—which men and women could have avoided if they had followed Nature's kind and gentle laws, have brought on a condition of misery and suffering, of grief and sorrow which has a wide-spread effect on society. We have men and women around us who are victims of nervous complaints; they are sleepless, despondent, weak, dyspeptic, rheumatic and broken down. These are the men and women who are spreading darkness around instead of sunshine, and filling the air with hideous scenes of suffering.

There is, amidst this afflicted class, a host who look for another chance to live anew for family and friend—who have an earnest desire to live as a kind providence would have them live—so as to shed joy, pleasure and sunshine in dark places.

Reader, are you one of this class, earnestly longing for this new life and extended years? If you are, you can have what the heart craves for and desires. There are no hard, harsh and expensive terms to meet. The remedy—the cure—is simple and almost within your grasp. It merely calls for the use of that agent that has brought new life, joy and happiness to so many thousands of Canadians who once suffered like you. Paine's Celery Compound, the all-powerful and never-failing remedy of our day is the agent. You have heard sufficient of its worth and merit; you know that your friends have used it and have been cured. With Celery Compound to aid you, your future is clear and bright; without it all is darkness.

If you would live, cast off at once the enemies of you very life—doubt and unbelief—then, and only then, will gentle hope show you how to act.

Will the C. O. R. be Extended.

Mr. Alex. McLaren, the newly-appointed manager of the C. O. railway, and Mr. J. Lyons Biggar, of Belleville, one of the directors, were in town on Tuesday. They were on a tour of inspection along the line of the road, with a view, of possibly inaugurating some changes. The question of extending the line to the dock, was talked of, and the advisability of such a step carefully considered. They were shown over the ground by the Mayor and some of the councillors, and the obstacles to be surmounted were carefully pointed out. The propriety is the event of this being done, to extend the line to the Gaudaur's, will it is understood, be carefully considered. No action of course will be taken until the necessary information is obtained, and the matter laid before the board of directors for their careful consideration.—*Picton Gazette.*

Dangerous and Prevalent.

The fact cannot be concealed that suffering and disease is terribly prevalent in our land, owing to a disordered condition of the kidneys and liver. From an inactive condition of the kidneys and sluggish liver, the blood becomes impure and clogged, and proper digestive vigor is out of the question.

The secretory system must be in perfect order if health and strength are looked for. To bring about desired results, one sensible course of treatment is recommended—the use of Kidney-Wort. This great kidney remedy is one of the oldest and best tested medicines ever given to sufferers, and in thousands of obstinate cases it has effected permanent cures.

Kidney-Wort is now recognized by the medical profession as a standard remedy. Do not suffer longer, reader, while such a curative power is near.

If your druggist does not sell Kidney-Wort, send one dollar, and a large package, put up in dry vegetable form, will be sent by mail.

Kidney-Wort is also sold in concentrated liquid form; this, however, cannot be sent by mail.

Lakefield's Mechanics' Institute.

The first annual meeting of the Lakefield Mechanics' Institute was held at their hall on Monday, 2nd of May, when the following officers were elected for the ensuing year:

PRESIDENT.—Mr. Crickmore.

SEC.-TREAS. AND LIBRARIAN.—Mr. Blomfield.

DIRECTORS.—Mr. Blomfield, Mr. Griffin, Rev. Geo. Warren, Rev. J. McEwen, Mr. Casement, Dr. Burgess, Rev. W. A. Paltreman, Dr. J. R. Fraser.

Since the establishment of the Institute, Oct. 30th, 1891, 53 members had joined; $27 had been expended in papers and magazines. The library, valued at $105 comprises 183 volumes, for many of which the Institute is indebted to its members, Messrs. Crickmore, Gheldrake, Blomfield, Warren, Tate, Major Belcain and others. These, together with an excellent selection recently purchased, provide literary matter for every class of reader. The M. I. is doing a good work and is growing in popularity as its advantages are becoming better known. The new room at the town hall offered them by the council will be open to members after the 15th inst.

Consumption and Lung Difficulties

Always arise from particles of corrupt matter deposited in the air cells by impure blood. Purify that stream of life and it will very soon carry off and destroy the poisonous matter, and like a crystal river flowing through a desert will bring with it and leave throughout the body the elements of health and strength. As the river, leaving the elements of fertility in its course, causes the before barren waste to bloom with flowers and fruit, so pure blood causes the frame to rejoice in strength and health, and bloom with unfading beauty. All medicine dealers sell Dr. Morse's Indian Root Pills. dw

Pimples disappear immediately by using the Persian Lotion which is sold by all druggists at 50 cts. a bottle.

Another Battle Fought.

The Victorious Banner of Paine's Celery Compound Lifted on High!

IT DRAWS THE MULTITUDES!

A Serious and Critical Case—Was not Able to Get Out of Bed Without Help—Captain Neal, of the Northwest Mounted Police, Recommends the Great Cure—The Grand Results.

As far as Paine's Celery Compound is concerned, it can be positively stated, that to-day, the doubters and skeptics are silent. They are mute—dumb—and look on with wonder, awe and astonishment. Their jeers and uncultured remarks are not heard now; their predictions are not fulfilled, and the wise, prudent and discerning men and women treat them with contempt and indifference.

Why this mighty change? What has occurred to silence the scoffers, the mockers, the gibers, and the contemptuous? Simply the fact that Paine's Celery Compound has achieved great and glorious victories, grand conquests over disease and death, and now is elevated to a pinnacle of fame never reached by any remedy that the world ever heard of. This accounts for the silence and utter discomfiture of all skeptics, doubters and mockers.

Thrilling and wonderful accounts come in every week of cures and rescues from death; indeed these letters are so numerous, that it is found difficult to bring them all before the public. The letters and testimonials that are given to the newspaper readers of Canada, are however, so full of truths and facts—so pregnant with deep interest to men and women everywhere who suffer—that they immediately convince, and prove quickly and clearly how new life and freedom from disease is to be found.

We have a message to-day for Canada's suffering thousands—words of comfort and cheer for those who are bowed down and crippled with disease. We have just received from a gentleman, well known in Lethbridge, Northwest Territories, a testimonial in favor of Paine's Celery Compound which must impress every reader of this paper with the magnificent and marvellous powers of this king of medicines. Read the letter carefully, and if you have friends in similar distress (it matters not how sad their condition), speak to them about this cure and advise them to try Paine's Celery Compound. In this way you may be the means of saving some precious life.

Mr. M. E. Roy says:—

"Permit me to say a word in favor of your excellent preparation known as Paine's Celery Compound. I was taken sick last winter with inflammatory rheumatism; my case was a very bad one. First, there came red blotches on my arms and legs, and these would be followed by large swellings in the knees and arms. I was so bad for three months that I could not get out of bed without help. I was advised by Captain Neal of the Northwest Mounted Police, to try Paine's Celery Compound, which I did; and, after using five bottles, I was completely restored to health; and to-day I feel as well as I ever did. I can walk and attend to my business every day without any trouble.

I can cheerfully recommend your Compound to any sufferer from rheumatism, as I am confident it will cure.

M. E. ROY."

The Best in the World.

The oil of the Norwegian Cod Liver is nature's grand restorative, and is only found in its entirety and purity in Miller's Emulsion. It is the most palatable and wholesome preparation of Cod Liver Oil in the world, and is now being taken by invalids—particularly those afflicted with consumption—with the most astonishing success. It is the great nerve and blood and flesh maker in existence, and is a life-saver to consumptives. In big bottles, 50c. and $1 00, at Peterborough drug stores. dw

Home Manufacture of Copper Carbonate.

As the precipitated form of carbonate of copper is not always obtainable from druggists, directions are herewith appended for the easy preparation of this material at a cost much less than the usual wholesale price.

In a vessel capable of holding two or three gallons, dissolve 1½ pounds of copper sulphate (blue vitriol) in 2 quarts of hot water. This will be entirely dissolved in fifteen or twenty minutes, using the crystallized form. In another vessel dissolve 1½ pounds of sal soda (washing soda) also in 2 quarts of hot water. When completely dissolved pour the second solution into the first, stirring briskly. When effervescence has ceased fill the vessel with water and stir thoroughly; then allow it to stand five or six hours, when the sediment will have settled to the bottom. Pour off the clear liquid without disturbing the precipitate, fill with water again and stir as before; then allow it to stand until the sediment has settled again, which will take place in a few hours. Pour the clear liquid off carefully as before, and the residue is *carbonate of copper*. Using the above quantities of copper sulphate and sal soda, there will be formed 12 ounces of copper carbonate.

Instead of drying this, which is a tedious operation, add four quarts of strong ammonia, stirring in well, then add sufficient water to bring the whole quantity up to 6 quarts. This can be kept in an ordinary two gallon stone jar, which should be closely corked.

FORMULA.

Each quart will contain two ounces of the carbonate of copper, which when added to 25 gallons of water will furnish a solution for spraying of the same strength and character as that obtained by the use of the dried carbonate, and one which can be prepared with little labour, and kept ready for use through the season.

CARBONATE OF COPPER IN SUSPENSION.

When the carbonate is to be used in suspension, instead of adding the ammonia to the sediment, add water until the whole quantity is made up to six quarts. Stir this thoroughly until the sediment is completely suspended (entirely mixed throughout) and pour the thick liquid into a suitable jar, when it will be ready for use.

Before using shake the contents thoroughly, so that all the sediment may be evenly distributed in the water. Pour out a quart of the thick fluid and mix with 25 gallons of water.—JOHN CRAIG, Horticulturist, Experimental Farm.

The success of Hood's Sarsaparilla is because it possesses true merit, and no claims made for it which is not fully supported.

Their really gentle action and good effect on the system really make them a perfect little pill. They please those who use them. Carter's Little Liver Pills may well be termed "Perfection." dw

A sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Turn the Rascals Out.

We refer to such rascals as dyspepsia, bad blood, biliousness, constipation, sick headache, etc., infesting the human system. Turn them out and keep them out by using Burdock Blood Bitters, the natural foe to disease, which invigorates, tones and strengthens the entire system. dw

A Great Surprise

is in store for all who use Kemp's Balsam for the throat and lungs, the great guaranteed remedy. Would you believe that it is sold on its merits and that any druggist is authorized by the proprietor of this wonderful remedy to give you a sample bottle free. It never fails to cure acute or chronic coughs. All druggists sell Kemp's Balsam. Large bottles 50 cents and $1. dw

There are many forms of nervous debility in men that yield to the use of Carter's Iron Pills. They not only relieve present distress but strengthen the stomach and digestive apparatus. dw

No More Bother.

GENTLEMEN,—I have used Hagyard's Yellow Oil for my children, and it cured them—I have never been bothered with them since.

Following are the number of doors found open and articles found outside of doors: Front doors found open 8, back doors 29. Number of articles, 5 brushes, 6 brushes, 1 leg of lamb, 5 brushes, 4 brushes, 4 fox skins, 1 iron pump, 1 lacrosse stick.

No More Dirty Carpets.

The Peterborough Steam Laundry and Shirt Co. have secured the right for several counties for the great "Renovo Process" of cleaning carpets, etc., on the floor without removing them, or causing the least inconvenience or annoyance to the occupants of the house. The "Renovo Process" also restores old and faded carpets to their original color making them look like new. It also makes the carpet moth proof. Over two thousand five hundred of the leading families of Montreal claim that this is the only method of cleaning carpets thoroughly. A sample of the work will be done any where free of charge. Further particulars can be obtained and samples of the work seen at the office of the PETERBOROUGH STEAM LAUNDRY and SHIRT Co., Simcoe street. Telephone No. 65. dtf

A Short Talk to Men Only.

How would you like to wear a suit of clothes 12 years old? We remember looking through a Bankrupt Stock of Ready-made Clothing, and were so impressed with the difference between the old, shop worn, dusty and out of style stuff, and the bright, new dressy suits, coming from our own manufactory, that we determined there and then never to handle any bankrupt clothing. If there is one thing in the world you men shouldn't buy bankrupt, it's a suit of clothes. The very smell of the rubbish reminds one of plague and fever. No! you'll never get any bankrupt clothing pawned off on you in our store. But you CAN get get genuine, new and fashionably made clothing at prices even much lower than what is asked for bankrupt stuff. Now, gentlemen, if you want a suit or any part of a suit, it won't cost you anything but a little of your time to come to our store and make an inspection of our stock. If we cannot please you, no tailor can. Are you willing to try us? GRAFTON & Co., 393 George street, opposite McKee & Davidson's. 1d1w

A Highly Enjoyable Evening.

The young People's Society of Christian Endeavour of St. Paul's Presbyterian church held a "question and answer" social in the Sunday school rooms of the church last night. About two hundred and fifty availed themselves of the opportunity of being present. Mr. J. H. Connal occupied the chair and in a few well chosen remarks opened the evenings proceedings. The first number on the programme was a recitation by Master Bertie Dawson which was well received. Then followed a solo rendered in fine voice by Mr. W. F. Nelson. Miss E. Carey favoured with a splendid recitation; as also did Mrs. (Dr.) Stephenson. Both numbers were loudly applauded. The programme was brought to a close by a solo contributed by Mrs. W. A. Sanderson with fine effect. Afterwards refreshments were served to all present and duly relished. Social intercourse helped to fill in a very pleasant time until ten o'clock. During the evening there was a question and answer drawer. Each one as he or each entered was provided with a card, some of these cards bearing questions and others answers. The card bearing the question and the one bearing the answer were numbered the same. Much amusement as well as instruction was afforded by some one, at the call of the chairman, reading the question aloud to all present, and the partner holding the same number reading the answer to that question.

An Art School for Peterborough.

With a population of 12,000, Peterborough, with the æsthetic tastes of its citizens as shown by the beautiful adornments of its streets—the number of shade trees on our streets is greater than in those of any other town in Canada—should be necessarily an art centre. Two excessive green houses have more than they can easily do, in supplying the popular demand for flowers. All this argues the possession of a large popular æsthetic taste and it is, therefore, not surprising that an effort—with encouraging prospects of success—is being made for the establishment of an Art School in Peterborough, similar to that now in Toronto. If the names of fifty art students, in the several branches taught in the parent school in Toronto—drawing, painting, modelling, sculpture, etc.—can be secured a school will be opened and equipped with a staff of five graduates of the Toronto Art School, and most thoroughly equipped otherwise. If these conditions are met, the Parent School gives permission to the Peterborough Art School to confer diplomas and have the full powers exercised by such an institution, which will it is expected, also receive the usual government grant. It is pretty certain that the material in the shape of students with sufficient artistic talent, abounds in Peterborough. And is only needs those to come forward promptly and assist the project. Any persons desirous of becoming students of the proposed art school, may leave their names with Mr. G. B. Sproule, or at the EXAMINER office.

Confirmed.

The favorable impression produced on the first appearance of the agreeable liquid fruit remedy, Syrup of Figs, a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufacturers, the California Fig Syrup Company.

News Nuggets.

—There was a very large crowd in town to-day.

—The Fire, Water and Light Committee will meet to-night.

—More money letters have been stolen at the Kingston post office.

—Petrie's saw mill, Bobcaygeon, has resumed operations for the season.

—"Joe" Daly, of Lindsay, takes his string of trotters to London next week.

—Bobcaygeon's Mechanics' Institute library has 917 volumes—257 added the past year.

—Mr. J. B. McWilliams, the Bobcaygeon *Independent* says, was in that village on Thursday looking after Government returns of logs cut in the district.

—Dr. A. R. Stephenson this week sold a bright bay horse, four years old, standing 16 hands high, and weighing 1200 pounds to Col. Carnell, Cobourg. The price paid was $300.

—The adjourned annual meeting of the Otonabee Canoe Club, which was called for last night at Mr. A. Clegg's store did not materialize. There was not a quorum present.

—Peterborough must contain a hot-headed community, during the last five weeks sixteen fire alarms have been given and there has been only three fires.—*Port Hope Guide.*

—The lacrosse club, of Lindsay, are discussing ways and means of holding a grand celebration on the 24th, seeing that no other organization is taken the subject under consideration.

—A car load of cheese, the first of the season was shipped from here last Friday. It was purchased by Mr. M. Bird for Hodgson Bros. The price ranged from 9 to 10c.—Belleville *Ontario.*

—The Property Committee of the County Council met at the Court House this morning and decided to put new office furnishings in the county treasurer's and the sheriff's office. They were badly needed.

—A dozen members of the cricket club held their first practice on the P.A.A.A. grounds yesterday afternoon from 4 to 6 o'clock. The new coach, Mr. Oldfield, was on hand to give the boys instructions.

—George Hagerman, a young man of 26 years of age, was drowned on Saturday last in a creek near Stirling. The young man was subject to fits, and it is supposed he was in one of them when the accident occured.

—The form of a former moulder in the Wm. Hamilton Works was suspended in effigy from a telegraph pole of the G. T. R. crossing on Reid street this morning. It remained in mid air several hours and was then taken down.

—The Market Committee of the Town Council met last night and decided to erect a new office for the market clerk, over the public weigh scales. The Finance Committee also met, and recommended the payment of a number of accounts.

—Some idea of the business boom in Lindsay is afforded by the fact that the market square is to be used for a baseball match to-day. Peterborough market square is so crowded on Saturdays that a fakir has hardly room to stretch the truth.

—There was a meeting of the directors of the Peterborough Central Exhibition at the Morgan House this afternoon. The time of the board was chiefly occupied in completing the revision of the prize list, which will be larger this year than ever.

—The Government requiring an answer by the 7th inst. from the local authorities as to the necessary appropriation for the brigade camp, the committee met to-day and passed the required appropriation. Belleville will therefore have the cavalry camp.—*Intelligencer.*

—On Saturday, Sunday and Monday next Brigadier Margetts, of Toronto, will conduct a series of special meetings in Lindsay. Officers from Peterborough and the surrounding corps will be present Monday evening, when a number of recruits will be enrolled.

—Messrs. Jas. Ross, Alex Ross and Frank Phelan, who were brought up before the mayor this week and sentenced to a fine of $10 each or 20 days in gaol, were liberated from custody yesterday. They each spent three days in gaol and yesterday paid their fines to Gaoler Nesbitt and were duly allowed their freedom.

—The Kingston bicycle club, the *Whig* says, has arranged all the necessary committees for the reception and proper entertainment of the visiting bicyclers who will be here to the meet on Dominion Day. The race officials have been named and everything is now in ship shape. Over a thousand riders are expected to attend.

Police Court.

SATURDAY, May 7th.

At the police court this morning His Worship Mayor Kendry and Councillor Cahill presided on the bench. Jas. Hutchison, was arraigned on a charge of vagrancy. He pleaded guilty but nevertheless the evidence was taken. It was shown that he had used insulting language to several residents on Aylmer streets on Wednesday night whilst begging from door to door. He also used vile epithets when ordered to leave a certain hotel yesterday. The mayor asked him where he came from and he said that he worked on the C. P. R. up around Woodstock, St. Thomas and other places, but that he had got his right leg hurt and could not work. He was allowed to go, on promising to leave the city. The court told him that he could do this or take six months. He jumped at the former privilege, and with a polite "thank you sir" hurriedly hobbled out of the court room

"One more unfortunate" was charged with being without home, without friends, without money, and having no visible means of support, contrary to the statute in that behalf. He pleaded guilty and was sentenced to six months in the county gaol.

Dr. Ryerson's Visit Postponed.

The visit of Dr. Ryerson, specialist in diseases of the Eye, Ear and Throat, announced for April 30th, has been postponed to Saturday, May 28th, at the Grand Central Hotel.

Personal.

We notice among the names of the undertakers who attended Professor F. S. Sullivan's School of Embalming in Toronto this week, that of Mr. A. Clegg, who was the only undertaker attending from this district, though the school was of such importance as to attract the leading undertakers from Montreal, Ottawa, and places at a greater distance to take advantage of it. Professor Sullivan's methods are in advance, and a decided improvement on anything heretofore taught in the schools, insuring success in the most difficult cases, without the use of the knife, or any mutilation or exposure of the body whatever. Mr. A. Clegg has a diploma from the "Rochester School of Embalming," and Mr. A. Clegg a diploma from the "Oriental School of Embalming." These are the only diplomas held in Peterborough or vicinity, and are another evidence of the enterprise of our business men. Mr. Clegg is evidently determined to lead in this branch of the business, as he now does in all the other branches.

A Strange Freak of Nature.

On Friday last Mr. Geo. Fife, of the 5th concession of Otonabee, while cutting down a tree, came upon a nest of young raccoons which had not their eyes open yet. He took two of them to the house. A cat owned by him, had just produced a litter of young kittens, and two of them were removed from their mother. The cat took the two young coons to the barn and put them in the nest with the kittens. The mother cat now, strange to say, now claims the whole brood as her own.

At The Opera House To-Night.

The Hattie Bernard Chase Company are in town, registered at the Grand Central hotel. The street parade of the company at noon to-day was a creditable one. Headed by a fine brass band of twelve pieces and followed by all the trained dogs and young cubs of the company, and with the rear brought up by the trained team of reindeers, owned by Miss Chase, the unique procession was viewed by hundreds. The company will produce "Uncle's Darling" at the Opera House to-night.

Queen's Birthday Celebration.

Captain Mason will meet the non-commissioned officers of the 57th Battalion and the members of the band to-night to make further arrangements for the celebration of the 24th in Peterborough. Two first-class regiments have written and are anxious to come to Peterborough that day, but it is not yet decided which one is coming. Games and sports will be held under the auspices of the sports committee, and the 24th will not pass by unnoticed in Peterborough.

A Grand Rush for Bargains.

Come right along now to Thos. Dolan & Co's. corner clothing store, and let us show you what a reduction sale means. Prices for artistically cut, fashionably made, well lined clothing will astonish closest buyers every time. Nobody thought it possible to make garments to order at our prices and at the same time give good material, good workmanship and good trimmings. It is enough, however, that we are doing it—and doing it honestly and squarely. Our superior stock of tweeds and fashionable cloths are all being sacrificed for the ready cash. Have you heard how we are slaughtering shirts, socks, gloves, collars, cuffs and ties? Oh! this is a gala sale for everybody! Fancy selling a good 10c heavy goods cotton, yard wide, for only 5 cents. But this is only a sample of the reductions throughout our whole store. Grasp the bargains for they are bound to fly. Townspeople will please call early in the day. A Serious Morning Accident.

At eight o'clock this morning as Mrs. Porter and her son, who reside on the boundary line between Cavan and Monaghan townships, were driving into town on the gravel road, while crossing the G.T.R. track at the Charlotte street crossing, their horse took fright at an engine taking water at the station stand pipe. The animal made a bolt, throwing the occupants of the rig out, but happily beyond a bad shaking up, they escaped unscathed. Mr. R. W. Errett, music dealer, Hunter street, who had been to the station to see a friend off, was returning up street when the accident occurred. In making an effort to check the beast, Mr. Errett was knocked down. The end of one of the shafts struck him on the back part of his head, inflicting a deep, serious wound, from which the blood flowed freely. The wheels of the vehicle also passed over Mr. Errett's body, injuring, but not seriously, his arms and legs. Dr. Pigeon attended to the injuries of Mr. Errett, who is progressing as favourably as could be expected under the circumstances.

Mr. S. G. Derry
Of Providence, R. I.,

Widely known as proprietor of Derry's Waterproof Harness Oil, tells below of his terrible sufferings from Eczema and his cure by

HOOD'S
Sarsaparilla

"Gentlemen: Fifteen years ago I had an attack of inflammatory rheumatism, which was followed by eczema or salt rheum, breaking out on my right leg. The humor spread all over my legs, back and arms,

A Foul Mass of Sores,

swollen and itching terribly, causing intense pain if the skin was broken by scratching, and discharging constantly. It is impossible to describe my suffering in those years of agony and torture. I spent

Thousands of Dollars

in futile efforts to get well, and was discouraged and ready to die. At this time I was unable to lie down in bed, had to sit up all the time, and was unable to walk without crutches. I had to hold my arms away from my body, and had to have my arms, back and legs bandaged by my faithful wife twice a day.

"Finally a friend who was visiting at our house, urged me to take Hood's Sarsaparilla. I began by taking half a teaspoonful. My

Stomach Was All Out of Order

But the medicine soon corrected this, and in six weeks I could see a change in the condition of the humor which nearly covered my body. It was driven to the surface by the Sarsaparilla, the sores soon healed, and the scales fell off. I was soon able to give up bandages and crutches, and a happy man I was. I had been taking Hood's Sarsaparilla for seven months; and since that time, nearly two years, I have worn no bandages whatever and my legs and arms are sound and well.

The Delight

of myself and wife at my recovery it is impossible to tell. To all my business friends in Boston and over the country, I recommend

from personal experience." S. G. Derry, 46 Bradford street, Providence, R. I.

In the art of Watch Repairing, there are many elements which go to make successful work. The cleaning and regulating is easily performed, but the replacing of any broken parts is far more difficult and it takes a workman of long experience and first class practical ability to make a new piece which is as well finished and fitted as the original was. Ashburnham's Arbour Day.

How it was Observed by the School Children of Peterborough's Beautiful Suburb.

Yesterday, being the day set apart by the Education Department as Arbour day, was duly observed by the pupils of Ashburnham public school. At the usual hour the pupils assembled and were detailed in committees on the several departments of the work to be done. The boys, under the direction of the principal, cleared the desk for action, by removing the rubbish accumulated during the winter, prepared flower beds, raked and carried off the grounds a large quantity of stones, which had previously interfered with the playing of games in the yard, as well as detracted from its appearance. Inside the school house the busy and housewifely hands of the girls, under the direction of Miss Burt, Miss McCleary and Miss Clark, went through the usual routine of house cleaning —cleaned the desks, windows, black boards, took down and cleaned pictures and maps, polished the stoves, and

WAGED THE USUAL SPRING WARFARE

against dirt which is characteristic of the mania that seizes upon womankind with the advent of spring. The boys and girls contributed a large number of plants in pots for decorating the windows of the rooms and the teachers desks, and these were placed in position. Some of the pupils brought a few pictures which were duly hung. Meanwhile the boys had not been idle, but had prepared two large oblong flower beds in front of the school buildings, in which the girls planted seeds, space being left for bedding plants which will be planted as soon as the danger of frost seems over. Very much credit is due to the pupils, who without distinction of size or sex, worked heartily to the extent of their ability, to decorate the school grounds and building, and the result was very creditable to their skill and taste. At 2.30 the work-weary, yet beaming and happy boys and girls were dismissed to enjoy the rest and play which they had so richly earned during the earlier part of the day.

Personal.

Mr. Chas. Fairbairn, M.P., Peterboro, is in town to-day.

Mr. J. B. Ormond, of North Bay, is in town, on his way home from New York.

Mr. T. J. Anderson, son of Mr. Duncan Anderson, Apsley, who has passed the last five weeks, in the Nicholls Hospital, seriously ill, is convalescent and starts to-day for a visit to his home.

Mr. James McCreary, principal of the West Ward school, who has been confined to his room with illness the past few days, is recovering and will it is expected, be able to resume his duties on Monday.

At the grand session of the Emerald Benefical Association, held in London, Mr. Wm. Hogan, town, was elected grand secretary, and Mr. G. H. Giroux, town, was elected an organizer for Peterborough district, and a member of the grand executive committee.

Rev. A. W. Mallett, son of Mr. John Mallett, of Lindsay, Methodist student, passed the final examinations at Colborne last week, making the highest record before the conference. This is all the more creditable as Mr. Mallett took two years work—the third and fourth—in one, Mr. Mallett's fine student record gives promise of a very creditable future. He is now stationed at Apsley, in Peterborough county.

Rev. J. Hughes Jones, who has for some time been a resident of the town and was for some time also, curate of St. Lukes, Ashburnham, has received a letter from the Lord Bishop, of the diocese of Toronto, notifying him of his appointment to the incumbency, with sole charge, of the Minden Mission. The appointment dates from the first of May. Rev. Mr. Jones was at Minden last Sunday, and leaves to-day to enter upon the duties of his pastorate.

The *Telegram*, of Victoria B.C., contains an account of the earliest shipping of Fraser river salmon made from that port. A carload of them was sent in a refrigerator car to New York city the other day by Messrs. Port & Winch. The *Telegram* says that the enterprise and energy shown by this firm is commendable. Mr. R. V. Winch, who is referred to in this enterprising business, is a son of Mr. R. J Winch of this town. He is succeeding well on the Pacific coast.

From the beginning of its manufacture until now not a single ounce of any but pure Virginia leaf of the finest quality has been used in the "Myrtle Navy" tobacco. The manufacturers of it have a settled belief that the public cannot be misled on this point, and that any tampering with the quality of the brand would be a monetary loss to them. Thousands of dollars a year saved by mixing with an inferior leaf, would not repay them for a doubt on the part of the public as to the quality of their tobacco.

Gun Club Jottings.

The Meeting Held Last Night A Great Success—Election of Officers—Practice Yesterday Afternoon — Prospective Matches.

The Peterborough Gun Club held an excellent practice at Riverside Park yesterday afternoon. There was no strong wind blowing such as has effected good scoring at previous matches. Following are the names of the crack shots, and the scores made yesterday:—

R. Tivey	8	out of 15 shots
H. Neil	10	" "
J. Collins	9	" "
T. Rutherford	5	" "
S. Ray	8	" "
L. H. Terrill	4	" "
A. H. Webb	10	" "
S. Strange	6	" "
Bert Giroux	4	" "
J. B Larcque	6	" "
Bert R berts	8	" "

Last night a well attended meeting of the club was held at Mackleston & Co's hardware store. Mr. R Tivey occupied the chair. The following gentlemen interested in the success and prosperity of the club were present:—R. Tivey, J. Collins, S. Ray, T. Rutherford, A. H. Webb, E Hartley, W. Logan, L. H. Terrill, J Larcque, C. James, Bert Roberts, Harry Neil, J Strange, E B. Loucks, A. Patterson, R Bigley, C. Amys, W. Dayman, A Sawers, Bert Giroux, R. Smith, and others.

The chairman in his opening remarks stated the meeting had been called to put the club on a better basis and reorganize for the coming season. He thought that there should be regulation matches and regulation traps should be used. The election of officers was then proceeded with and resulted as follows:—

PRESIDENT—Henry Calcutt.
VICE PRESIDENT —J. D. Collins.
CAPTAIN—R. Tivey.
SECRETARY TREASURER—E B. Loucks.

The entrance fee was placed at 50c a member and 1 cent for each bird used in the practice matches. It was decided to have two practices each week, one on Friday at 4 o'clock p.m. and the other on Saturday at 5.30 p.m. The secretary was authorized to buy a regulation trap and 1,000 birds. No persons except members of the club will be allowed to shoot at traps. Messrs H. Neil, W. Logan and R. Tivey were appointed a property committee to look after the traps of the clubs.

The President, Vice-President and Secretary were appointed a committee to draft a constitution and rules for the members of the club, to be submitted at the next meeting. It was resolved that when the new trap arrives for President Calcutt and Vice-President Collins to chose sides and shoot a match. The return match with the Port Hope Gun Club will be shot at Port Hope on the 25th inst. The meeting then adjourned.

Could Not Get a Team.

The Peterborough Baseball team did not go to Lindsay to-day as a nine could not be secured. At 11.50 o'clock, the time set for leaving, only five baseballists turned up at the G. T. R. station. There were Messrs. Fred Heap. D. McCabe, P. Goldsmith, L King and W. J. Dropo. W. O'Brien went to Lindsay last night to be ready for to-day's match. The boys returned up town rather discouraged and disheartened at not being able to get a nine together.

THE CANADA LIFE ASSURANCE CO'Y.

Forty-Fifth Annual Meeting of the Great Institution.

Remarkable Record for the Past Year—The Annual Report—Election of Directors.

The 45th annual meeting of the greatest of Canadian insurance institutions, the Canada Life Assurance Company, was held to-day in the board room of the Company's head office in Hamilton. There were present a gathering of the representative men of Canada, men whose names are known all over the country for solidity and business ability, with Mr. G. A. Ramsay, president of the company, presiding over the deliberations. The meeting was a most harmonious and eminently satisfactory one.

Mr. Ramsay took the chair shortly after 12 o'clock, with Mr. Roland Hills as secretary of the meeting.

President Ramsay submitted the following:

REPORT BY THE BOARD OF DIRECTORS OF THE CANADA LIFE ASSURANCE COMPANY, SUBMITTED TO THE ANNUAL GENERAL MEETING OF SHAREHOLDERS, HELD AT HAMILTON ON THE 5TH OF APRIL, 1892:

The business of 1891, being the company's 45th year, was again highly favourable. The new assurances applied for were 2,507 in number, and $5,929,088 in amount. Of these, 186 for $259,500 were declined, the lives not appearing to reach that standard of eligibility which it is in the best interest of our assurers should be maintained. Of the balance of $5,669,588, upon 2,871 lives, which were accepted by the directors, 204 for $414,562 were not carried out, leaving the actual new assurances of the year $5,255,021 under 2,167 policies, with a new annual income premium of $178,-191.06.

At 31st December last there were in force $56,218,318.08 of assurances and bonus additions, upon 19,563 lives, under 26,484 policies.

The statement of receipts and payments, and the abstract of assets and liabilities, herewith submitted, show that the income of the year was $2,213,096.27, and that the assets amounted to $12,074,-124.87, having being increased during the year by $1,041,684 78.

The death claims for the year were upon 192 lives under 243 policies for $511,879.11, including profits, a sum considerably under that of the previous year, 1890, when the amount was a good deal affected by the epidemic of la grippe which then prevailed, and its results.

The business at the various branches has been generally well sustained, and having last year alluded to anticipations of successful progress at the Michigan branch, it may be mentioned that these have been largely realized.

In compliance with the company's charter the following directors retire by rotation, but are eligible for re-election: The Hon. Sir Alexander Campbell, K. C. M. G., Toronto; Andrew Allan, Esq., Montreal, and Thomas Swinyard, Esq., New York State.

PRESIDENT RAMSAY'S REMARKS.

Mr. A. G. Ramsay moved the adoption of the annual report. In so doing he reviewed carefully and ably, the business of the year. He said:—

I beg to move the adoption of the directors report now before you, and although the statements which it, and the published accounts, which have been in your hands for some days, so clearly indicate the success of the past year's business, and the sound position of the company, that I need take up but little of the time of this annual meeting in adverting to them, it may be interesting, I dare say, that I draw your attention shortly to some of the features which these documents disclose. The new business of the past year amounted, you will see to $5,-255,021, a sum so nearly approaching the best year we have ever had that I think we may well congratulate you upon it. It has happily been our good fortune each year for so long to be able to make a somewhat similar statement that I fear it may appear a somewhat monotonous one, for which, however, I need offer no apology. You will have noticed that the total assurances in force at the close of 1891 were $56,218,318, an amount which suggests a very large measure of public support and confidence in the company. The income continues to largely increase, and it amounted last year to $2,218,096, more than twice as much as it was ten years ago, and nearly seven times what it was twenty years ago. With the possibility of a corresponding progress in the future we may well be encouraged to continue that caution and care in the direction and in the management of the company's affairs, which in the past have made the Canada Life's name synonymous with that of integrity, liberality and stability. The large addition of over $1,000,000 was added to the company's assets last year, making them $12,074,124, or about twice what they were only seven years ago. While difficulty in obtaining satisfactory investments as they were wanted was experienced during the year, every effort and the best judgment of the board were exercised so as to make that difficulty as little felt as possible.

As you are well aware, there has of late years been a gradual reduction in the rate of interest obtainable on the best class of securities, and while our Company is of course affected by that, in common with all others, every exertion is made to diminish as far as we can any loss in that way.

The death claims during 1891 were $511,873, being a lower amount than they had been in 1890, when, largely by the grippe epidemic, they reached $603,184.

The statment of receipts and payments shows that during 1891, $316,370 was paid to policy-holders as profits, a return of nearly 20 per cent. of the year's premiums paid to the Company, a percentage of profits on premiums paid so rarely reached by other companies as to lead us to press upon intending assurers the advantages which our Company offers in that respect. In alluding to that I am very glad indeed to have the opportunity of saying that by the courtesy of the Superintendent of Insurance we were yesterday favoured with the result of the Government's quinquennial valuation of our Company's affairs. It shows that over and above the full reserve we are required by the Government of Canada to hold, and all liabilities, we have on hand a large profit surplus such as indicates no diminution in the Company's profit-making powers. You have been informed by the Director's Report of the generally favourable progress of the Company's various branches, and the efforts of our Managers and Agents are well deserving of our thanks and encouragement. Special allusion has been made to the branch established by the Company, in Michigan in 1890. Because it being somewhat of an experiment, you would naturally desire to hear specially as to it. I am very pleased to be able to say that the progress of the branch is so satisfactory as to have last year placed the Company in the fourteenth position, in point of new assurances, out of 32 companies doing business in the State. For a great deal of our success in Michigan, we are indebted to the support of the prominent and influential gentlemen who have been good enough to aid us by acting upon our Board of Reference. I am glad to tell you that we have entered upon the year 1892 with the most encouraging prospects. The new business up to the present date far exceed that of any previous year, and I trust that at our next meeting we may be able to again record a continuance of such prosperity as has already been so satisfactory to you and to our various policy-holders.

VICE-PRESIDENT GATES' REMARKS.

Mr. F. W. Gates, Vice-President of the Company, seconded the adoption of the report. In doing so he said:—

Mr. Chairman and gentlemen,—When it is borne in mind that there has been no perceptible improvement in business generally throughout the country during the past year, I think we must be compelled to admit that the statement which has been presented to-day ought to be considered highly satisfactory. It is true that the company might have done a much larger amount of business than has been done if we had been less scrupulously careful in the acceptance of risks which have been applied for. As the report shows, and as the president has pointed out, many applications have been rejected. We have exercised the greatest care in this matter in order that the company and the insured alike might be fully protected. We did not indulge in the extravagances which some companies have in order to increase our business, but have rather followed a policy of carefnl management in the interest of the company. I well remember some years ago that the president in his address referred with a good deal of pleasure to the fact that we had an income of $1,000 a day; now it is $7,000 a day, and it was easy then to invest $1,000 a day. It is not so easy to invest $7,000 now, even with the lower rate of interest. I may again refer to the remarkably small losses, and again congratulate the company upon that state of affairs. I have much pleasure, gentlemen, in seconding the motion for the adoption of the report.

President Ramsay put the motion, which was carried unanimously.

THANKS TO PRESIDENT AND DIRECTORS.

Mr. Byron E. Walker moved a vote of thanks to the President and Directors for their attention to the interests of the company during the year.

In offering the motion Mr. Walker said:—It gives me very great pleasure indeed to propose the thanks of the shareholders to our President and Directors. Reference has been made to the growth and success of the Canada Life in the past, and I consider that they are largely due to the excellent management. The big companies in the United States are beginning to realize that it may be possible to do too much business, but I am sure that if the policy which has been pursued by the Canada Life in the past is adhered to, another ten years of our career will show corresponding prosperity. I hope that our President may long be spared to direct the affairs of the company, and that he may have the advice and co-operation of such men as now constitute the directorate.

Mr. Henry McLaren—Mr. President and gentlemen, I have very much pleasure in seconding the motion.

The motion was put and carried unanimously, amid applause.

President Ramsay replied:—I expect that I shall have to reply to the motion you have just passed. I thank you very much indeed for the resolution and for the kind expressions made use of. I believe I can confidently say that every one of the Directors has done all that was in his power to further the interests of the company.

THREE DIRECTORS ELECTED.

The Hon. Mr. Justice Burton moved the appointment of Messrs. W. F. Findlay and Campbell Fairie as scrutineers of votes for the election of Directors in the room of the three retiring, and that the poll shall now be opened, and closed upon five minutes elapsing without a vote being tendered.

Mr. Matthew Leggat seconded the motion, which was carried.

The voting took a good deal of time, and while the ballots were being counted other business was proceeded with. The election resulted in the choice of Hon. Sir Alexander Campbell, K.C. M. G., of Toronto, Mr. Andrew Allan, of Montreal, and Mr. Geo. A. Cox, of Toronto. The last named gentlemen will take the place of Mr. Thomas Swinyard on the Board, the other two gentlemen being re-elected.

The usual votes of thanks were passed, and at a meeting of the directors subsequently held, Mr. A. G. Ramsay was re-elected President, and Mr. F. W. Gates, Vice-President.

"German Syrup"

A Farmer at Edom, Texas, Says:

"We are six in family. We live in a place where we are subject to violent Colds and Lung Troubles. I have used German Syrup for six years successfully for Sore Throat, Cough, Cold, Hoarseness, Pains in the Chest and Lungs, and spitting-up of Blood. I have tried many different kinds of cough Syrups in my time, but let me say to anyone wanting such medicine—German Syrup is the best. That has been my experience. If you use it once, you will go back to it whenever you need it. It gives total relief and is a quick cure. My advice to everyone suffering with Lung Troubles is —Try it. You will soon be convinced. In all the families where your German Syrup is used we have no trouble with the Lungs at all. It is the medicine for this country. John Franklin Jones.

Burdock Blood Bitters

CURES DYSPEPSIA

By acting upon the liver, stomach and bowels and purifying the blood, it removes every particle of the foul, impure or morbid matters which obstruct the proper working of the digestive organs and cause dyspepsia. This explains why B.B.B. succeeds in curing even the most obstinate cases.

Burdock Blood Bitters

CURES CONSTIPATION

By regulating the bowels and removing all foul accumulations, it promptly and permanently cures this disease no matter of how long standing the case may be. B.B.B. acts in a natural, thorough and pleasant manner, never causing nausea or griping.

Burdock Blood Bitters

CURES BILIOUSNESS

By regulating and toning the liver and removing excess of bile, this distressing disease, which is the frequent cause of sick headache, dizziness, etc., is cured without fail. No remedy has ever performed so many permanent cures in the same space of time as has B.B.B.

Burdock Blood Bitters

CURES SCROFULA.

This scourge of humanity arises chiefly from bad blood, for which B.B.B. has proved itself the most successful remedy of modern times. It completely frees the blood of every impurity, from a common pimple to the worst scrofulous sore. Pimples, blotches, boils, rashes, eruptions, sores, etc., vanish at once before the wonderful purifying powers of B.B.B.

CHEESE MAKING.

Some of the Mistakes of Makers and Their Remedy.

The usual method of the cheese maker is to rush the process of making, and in far too many cases, attempt a big yield at the expense of quality. In many factories the night's milk is held over until morning, and the morning's milk then added. The night's milk is usually warmed up in advance, the new milk added as it arrives, and when the last can goes in, the milk is ready to set. The rennet is quickly introduced, and then the curd is heated up to 96° or 98° as soon as possible. The haste to cook, salt, and get to press is observed as in the first process, and the result is cheese of all grades of texture, quality and "behavior," and often final disaster. Is there no remedy?

If our cheese makers, to begin with, will insist upon taking in no milk that is not up to standard, and then go slower themselves, a great gain would be made. Let this heating up wait until all the milk is received and then gradually heat up the mixed milk, keeping it well stirred until ripened. It will then work evenly and uniformly, and give a sound curd at the end. Milk is not worked down smooth enough, as a rule, before the rennet is introduced. The method of adding the rennet needs a little reform. It should be made more dilute. The small amount is not sufficient to be thoroughly mixed with the milk. If the same amount of rennet is diluted with at least three volumes of warm water and then added, better coagulation will result. The cooking or scalding is often done too hastily. The heat should be raised very slowly, and at intervals it should be held steady for a short time and then steam again turned on. What is the object of cooking curd?—to scald it, or is it a method of promoting rennet action? It is questionable whether, taking one day from another, milk is not set too warm, and later on scalded at least 10° too high. Some late developments seem to indicate that 80° is warm enough for milk when set, and 86° to scald, rather than 96° or 98°, the usual temperature. The operation of cheese making should be to make a good cheese, and retain all of the butter fats possible. But the moment milk or curd is warmed up to 88°, the oil in them tends to liquify, and escapes with the fluids, being lost as food. Of course it will take longer to cook a curd—twice as long—but some Canadian experimenters are finding that they thus get as fine cheese as they ever did, with a pound less of milk for a pound of cheese.

The acid needs to be developed in our curds in a dryer way, after they have been taken out of the whey, and the curds kept warm for this development to take place. The sink or drainers of our factories should be made double, so that a little live steam can be introduced under the jacket, and the curds kept uniformly warm, until they will pull the threads of the requisite length. Then it should be broken up, cooled and salted by some curd mill process, or otherwise. This should be a painstaking operation, so that the curd shall not be lacerated, allowing the fats, in part, to escape on the least provocation.

Much good curd is injured by allowing it to remain too long in the whey after the acid is developed. On the other hand, some curds are put to press before they have taken on acid enough, or been properly worked and aerated, and then dumped into the hoops too warm. Definite rules should be observed on this point, when, and at what temperature the salt shall be added, and at what stage of acidity and temperature the curd shall be put to press. Many curds are hooped too warm, and the after performance of the cheese is largely due to this cause.—American Agriculturist.

"Love and smoke are unable to conceal themselves," and so it is with catarrh. No man suffering from this loathsome disease can conceal the fact from the world. No matter how cultured, learned, social or brilliant he is—while his friends may be polite enough to dissemble their real feelings—his very company is loathsome. What a blessing it would be to humanity if every person afflicted with catarrh in the head could only know that Dr. Sage's Catarrh Remedy will positively and permanently cure the worst case. The manufacturers guarantee to cure every case, or forfeit $500. The remedy is pleasant to use and only costs 50c. o

Seven Years' Suffering.

Gentlemen,—I had suffered very much from inflammatory rheumatism, which through wrong treatment left ugly running sores on my hands and feet. With these I suffered for seven years, during which time I had neither shoe nor stocking on. I commenced using B. B. B. externally and internally, using the Pills also, and I can say now that the sores are entirely cured, and have been for some time. I believe the bitters were the means of saving my life.

INTENSE SUFFERING!

Mr. William Buchanan, 24 years engineer in the Cunard Steamship Company's service, 8 St. John's Road, Kirkdale, Liverpool, Eng., writes: "I suffered two years of agony from an affection in the head which six physicians pronounced incurable.

Earl Stamford's Hottentot Widow.

London, May 6.—The House of Lords Committee, in accepting William Gray as the rightful heir to the Earldom of Stamford, has escaped the awful possibilities of a Hottentot Earl, but has not succeeded in setting aside a dowager Countess who is a full-blooded negress. The late Earl of Stamford, who died at the Cape of Good Hope a year ago, married his third and surviving partner at Wynborg, South Africa. The coal black dowager Countess of Stamford is a daughter of a Hottentot named Solomon. She first attracted the favor of the late Earl by acting as a servant in his household. It was the Earl's mulatto son by this woman who sought to inherit his father's title and seat in the House of Lords. The dowager Countess is in London under the guidance of a Capetown lawyer, and it is feared she may demand to be presented at one of the drawing rooms held by the Queen. Being a Peer's widow, she is entitled to access to royalty.

Atrocious Murder in Russia.

St. Petersburg, May 6.—Russian society, which only the other day was shocked by the murder committed by Prince Vladimir Djoavitch, has again been horrified by a domestic tragedy of a peculiarly atrocious character. The choirmaster of the private chapel attached to the Imperial Palace at Peterhof, in a fit of delirium, murdered his wife, chopped the body into small pieces, and placed the remains in the stove, in which he kindled a fire. He then seized his three children, took them outside the house, and drowned them.

The Newmarket Races.

London, May 5.—This was the second day of the Newmarket first spring meeting. The event of the card was the Two Thousand Guineas Stakes, which was won by Bonavista, an outsider.

Mr. Henry Milner's b c St. Angelo, by Clarvaux or Galopin—Agusta.....2
Prince Soltykoff's bl c Curio, by Thurio—Light of Other Days.....3

Bonavista is a chestnut colt and started three times as a two-year-old. At Epsom on May 26 last he won the Woodcote Stakes of £950 in a field of eight. Like Curio, he was a long shot in the betting at Newmarket. St. Angelo was quoted at 20 to 1 against.

Last year the race was won by the great Common.

Angel Makers.

St. Petersburg, May 6.—At Vilna six Hebrews were convicted of murdering babies that had been entrusted to their charge, and were sentenced to from 6 to 20 years' penal servitude. In many cases the murders were committed with the connivance of the mothers of the little victims. The prisoners had gained the name of "angel makers" from their practice of killing children whose expense was inconvenient or distasteful to parents.

Favorites of Fashion.

The favorite hats for spring seem to be the large round chip affairs, which are stylish and exceedingly becoming. A very pretty one, which is much admired, has the crown trimmed with a white silk scarf laid in folds, pierced here and there with jewelled pins. A soft white silk butterfly bow trims one side of the hat. Towards the back and falling over the hair is a bunch of white ostrich tips; the tiniest of white curly tips cover the brim as a trimming.

The Beauty of the Royal Family.

The beauty of the royal family of England is said to be Princess Marie, eldest daughter of the Duke and Duchess of Edinburgh. The young lady will be present at the first drawing room of the season.

Dr. William's Pink Pills are a specific for troubles arising from overwork, mental worry or excesses of any kind. G. A. GEORGE STREET.

NO COMMON CURS ARE THEY.

Big Crowds of Doggy People Throng the Hall all Day.

TORONTO, May 7.—Yesterday all day long prize dogs yelped and barked in the hall at the corner of Yonge and Shuter-street. It was the annual spring show of the Toronto Kennel Club. Only canines belonging to Toronto and suburbs were eligible for competition. There was a grand lot of valuable dogs. And that the throng filled the building all day long shows that this is quite a doggy city. Indeed, the affair was a complete success, both from a dog and attendance standpoint. Ladies there were many present. Many of the dear creatures were among the exhibitors. Some took first prizes, and the others thought they were also entitled to them. George Bell's $1500 Fascination was on exhibition, as was also the I.X.L. Kennel's valuable Samson. Both being challenge dubs were ineligible for competition.

The judges were Messrs. T. G. Davey, London (Pointers, Foxhounds and Setters); S. F. Glass, London (St. Bernards and Mastiffs); and J. F. Kirk, Toronto (all the rest). The judging was finished by 8.30 and the show closed at 11 o'clock last night. Here is the complete prize list:

THE FIRE FIEND.

Freight Sheds Destroyed—Great Damage—The Cremone's Danger.

MONTREAL, Que., May 7.—The explosion of a lamp last night on the wharf caused a conflagration that at one time threatened all the shipping in the port of Montreal and did serious damage before it was got under control. During the evening a large body of men were employed in loading steamship Cremone of the old Hansa Line. The vessel arrived a few days ago with a miscellaneous cargo, which was unloaded and stowed in the sheds. The vessel was being loaded this evening with cattle. While the men were at work on the vessel they were startled by an alarm of fire, and in an instant the sheds were discovered to be in flames. The fire spread with lightning rapidity, and when the firemen arrived the sheds were a blaze from end to end. The Cremone, which lay alongside, was in serious danger and the sheds of the Allan and Black Diamond Lines, which were adjacent to the Hansa Line, were also threatened with destruction. The whole brigade was called to the spot and the firemen set to work to fight the fire. It was a difficult and dangerous task owing to the close proximity of the sheds to the water and the terrific heat. To add to the danger the temporary cattle decks on the Cremone caught fire, and at one time the vessel was threatened with destruction. Several tugs were called to her assistance and finally succeeded in towing her out of danger. The burning sheds were stored with a large quantity of drygoods and other inflammable material, which added fuel to the flames, and it was found impossible to save them. The efforts of the firemen were therefore confined to preventing the flames from spreading to the other sheds and shipping. By means of the fire engines, which were supplied from the river, they succeeded in doing this and after about an hour's struggle the fire was under control. The sheds, which were owned by the old Hansa Line, now controlled by the Hamburgh-American Company, were completely destroyed. The agents of the line state that a good part of the cargo has been removed.

DIED FOR HIS LOVE.

A Married Man Killed Himself for a Young Lover.

HARTFORD, Conn., May 7.—Charles Sherwood of Boston came to this city last November and began business as a photographer. He became infatuated with Miss Minnie Marshall, a handsome young woman, and his attentions were accepted. Everything ran smoothly until about three weeks ago, when Minnie's parents learned that Sherwood had a wife and family in Boston, and forbade him the house. Sherwood became desperate, and, after ineffectual efforts to see Minnie, he told a friend that he would kill himself. Early yesterday morning, when Minnie happened to glance from her chamber window, she saw Sherwood standing in a vacant lot adjoining the house. He fixed upon her an awful stare. A moment later he raised a vial of poison to his lips and drank it. Then there was a flash of a revolver and a sharp report. Sherwood was dead before passers-by could reach him. In his pockets were found Minnie's photograph, a lock of her hair and a few letters which bore traces of having been read and re-read. The body will be forwarded to his widow in Boston.

NOT MAY WEATHER.

A Party Lost on the Prairie — Killing Horses For Food.

WINNIPEG, May 7.—According to Calgary papers the storm of last week was quite as severe in Alberta as in Manitoba. The MacLeod mail, which started from that town on Monday, had not yet been heard from on Saturday. The driver did not reach the first stopping place, which is 50 miles from MacLeod, and it is supposed that he has been lost on the prairie. Dr. Lovingheart and party, who left on April 18, for the Knee Hill coal mines, 60 miles away, and who it was thought had perished in the storm on Monday last, were found by the mounted police yesterday. They had run out of provisions and were killing horses when found.

MORTAR-SPOTTED SKIN

Covered with Scales. Awful Spectacle. Cured in Five Weeks by the Cuticura Remedies.

About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers accompanied with itching. I would scratch every night until I was raw, then the next night the scales being formed meanwhile were scratched off again. In vain did I consult all the doctors in the county, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your CUTICURA REMEDIES, and purchased them from my druggist, and obtained almost immediate relief. I began to notice that the scaly eruptions gradually dropped off and disappeared one by one, until I had been fully cured. I had the disease thirteen months before I began taking the REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I know of a great many who have taken the REMEDIES, and thank me for the knowledge of them, especially mothers who have babes with scaly eruptions on their heads and bodies. I cannot express my thanks to you. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as clear as a baby's.

EXTENSIVE CHANGES IN

THOMAS KELLY'S

DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated, and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS IN EVERYTHING!

Come and buy NOW, if you want to reap the great benefit of the enormous reductions which must be made during the Positive Alteration Sale.

Ladies' Blouses!

No need to tell the ladies how very economical and serviceable a Blouse Waist can be made. At no time of the year are they more convenient and comfortable than at the present season. We have arranged a Blouse counter on which we are showing a nice display of these waists in different fabrics, such as English and French Regattas, Black Muslins, Heavy Cotton Twills in Navy, &c., &c., and can offer a good quality as low as 50c. Also jaunty Ties, made to wear with the Blouses, very pretty and cheap.

Another seasonable novelty which ladies should arrange to see is our new selection of Ladies' Vassar Shirts, with stand-up and lay-down collars, and a lot of attractive Ties to wear with same. Very effective and very taking.

LAWN TENNIS JACKETS.

We have just received a large variety of Lawn Tennis Jackets, made from the latest effects in Tennis Stripe Cloths. These are the very newest designs and are the correct thing for tennis players.

We are also in receipt of new lines in Printed French Cambrics, Delicate Striped Oxfords, and Navy effects for Blouse Waists, well worth the inspection of ladies.

BIG FIRE IN FAIRVILLE.

EIGHTY FAMILIES RENDERED HOMELESS BY THE FLAMES.

Starts From a Spark and Is Soon Beyond Control—Many Fire Engines, But No Water—The Wind Carries the Flames—Eighty Families Homeless.

ST. JOHN, N.B., May 9.—Yesterday one of the most disastrous fires in this vicinity for many years occurred in Fairville, a village of 3000 people situated about one mile beyond the city limits. It started on the roof of the school house from a spark, it is supposed, from a C.P.R. locomotive. The wind was blowing over 50 miles an hour at the time, and before the neighborhood really were aware of the fire the building was all in flames. Big pieces of timber were carried in various directions, and in less than half an hour some dozen or more buildings were ingulfed in the flames. The city fire alarm was sounded and apparatus and men sent to the scene, but there being little water there these were of no use. Some few houses were saved by people keeping the roofs wet by buckets of water and the fire was virtually stopped by Director of Public Works Smith bringing into requisition city horses and tearing down the buildings. Included in burnt district is the Methodist Church, Temperance Hall, Fairville foundry and Masson's carriage factory. Altogether about 45 dwellings are in ruins, nearly all the occupants being poor people and in many cases having no insurance. It is estimated that 80 families are homeless, and as there are very few vacant houses in the village, shelter will have to be provided for them. To-night mattresses have been put in the Episcopal Church and Sunday school room, and all who have not found homes among friends are quartered there. They were all provided with food and made as comfortable as possible.

The loss is variously estimated at from $75,000 to $100,000, and insurance about $30,000.

STRANGLED A 3 MONTHS OLD BABY

A Young Father Does the Deed This Time.

BROOKLYN, N.Y., May 9.—Peter Schultz 18 years old, and Adam Haas, 25 years old were held without bail Saturday in the Lee avenue Police Court on the charge of strangling to death a three months' old baby boy. The child was a son of Miss Mary Wertheimer and Schultz is reported to be the father.

Miss Wertheimer was also arrested and held. Schultz has made a full confession of the crime. He says they took the child to Newton Creek, where they strangled it and then held it under water and finally dug a hole in the mud on the bank of the creek and buried it. The police made an attempt to find the body where Shultz said it was buried this morning, but did not discover it. They believe the prisoners dug it up before their arrest and hid it some other place.

MURDERED HIS BABE.

And Tried to Kill a Woman Who Interfered.

CINCINNATI, O., May 9.—At Erlanger, Ky., a village on the Southern Railway, 8 miles south of here, Major Hendricks, a negro from Tennessee, murdered his babe, only five months old, and dangerously beat Mrs. Gilmore, a colored woman, who tried to prevent the murder. A posse is pursuing Hendricks. Judge Lynch is likely to dispose of him if captured.

For the Shoemen.

NEW YORK, May 9.—Prominent tradesmen representing large producers of leather in all parts of the country are in session here to consider a proposition not to wet hides for 60 or 90 days.

The object of this meeting is to determine the pulse of the operators regarding curtailment of production. The price of leather is at the present time very low, no profit resulting for the tanners or dealers. Until recent years a shut-down has taken place during the summer months, but owing to improved processes of tanning this is not now necessary, and there is a tendency to glut the market.

The Spring Rains.

GOSHEN, Ind., May 9.—The Elkhart River is higher than ever before known and it is still rising. The Michigan branch of the Lake Shore is in such condition that no trains will be run for three or four days. The lower floors of many factories are flooded.

All the factories are shut down on account of the high water, throwing a large number of men out of employment.

At Hammond the rains have swollen the waters of the Grand Calumet to such an extent that the flats are completely inundated. The farming country in the neighborhood of the Little Calument is also under water.

An Interesting Arrangement of Louisiana Sporting Men.

NEW ORLEANS, La., May 9.—The Olympic Club has yielded to the requests of railroads and others and will fix its three big fights for three successive nights.

The first affair will be Fitzsimmons and Pritchard on Monday night, Sept. 5. McAuliffe and Myer will meet Tuesday night and Sullivan and Corbett Wednesday.

The Metropolitan Club has matched Siddons and VanHeest for a return fight at 123 pounds on the 17th inst. for a $1200 purse.

The New Major.

OTTAWA, May 9.—It is understood that Major Mason has been offered the vacant majority in the 10th Royal Grenadiers and will accept it. The Major was formerly connected with the regiment, but retired. It is stated here that this is not the solution of the difficulty which is favored by the Major-General commanding.

The Demoines River Breaking Its Banks.

WARSAW, Ill., May 9.—Alexandria, located just opposite here, has been flooded by the breaking of the Egyptian levee which skirts the Demoines river.

Actors Make Piles of Money.

NEW YORK, May 9.—The actors' fund fair closed last night, and the management claim to have cleared $200,000, of which $150,000 is clear profit.

INUNDATED BY FLOODS.

RAGING RIVERS OVERFLOWING THEIR BANKS—HEAVY LOSSES.

Farms Washed Out for Miles—Whole Counties Inundated—Railroads at a Standstill—Roads Washed Out and Bridges Swept Away.

PEORIA, Ills., May 9.—Thousands of people Saturday visited the inundated districts surrounding this city. The river is still a raging torrent, with a roar that can be heard for a long distance. The measurement was taken this morning and it registered 21 feet 7 inches, which is a rise of seven inches in 24 hours. Since then the water has been so rough that no measurement can be made. The waves are rolling high and the greatest danger is to be feared. It is believed that the river will not rise much more, but the strong wind which prevails is dashing water so furiously against the bank that many bridges are liable to be washed out. The railroad companies have large forces at work guarding against this. The cattle pens of the lower sugar works, in which thousands of head are fed daily, are a foot under water, and unless it subsides soon they must be removed. The dam at Henry, 40 miles above here, threatens to go out, and should it do so the devastation along the river will be appalling. In the Lamarsh district the destruction continues. Many houses have been floated off or dashed to pieces by the driftwood, and by the time the water goes out nothing will be left except debris. The residents have lost everything they had and are in a destitute condition. Several warehouses here are surrounded by water and threaten every minute to be carried away.

Missouri Floods.

KANSAS CITY, May 9.—The past 24 hours have furnished the climax for the rainy weather. A heavy downpour of water has been falling all day and since midnight Saturday night so that the already soaked ground has been giving off the water in the smaller creeks. The result is that accounts of floods have been coming in from all over Western Missouri and Eastern Kansas telling of flooded rivers overflowing creeks and streams. Growing crops have been badly damaged.

In Saline County, Mo., all the streams are reported out of their banks and the whole county has been turned into a lake along the Platte River and the whole county has been inundated and houses and barns have been destroyed. All the crops have been washed out for miles throughout the Grand River valley and much stock has been lost. All the railroads in the district have been damaged and traffic is greatly delayed. The Wabash bridge has been strained out of line so that no trains can pass over.

Floods in Oklahoma.

In Oklahoma Territory a steady pouring rain has been falling for 24 hours and half the streams in the territory are out of their banks. Many bridges have been washed away. The Santa Fe has suffered several washouts and all the trains are badly delayed. A small cyclone accompanied the rain north of Guthrie and did considerable damage. There was no loss of life so far as known. All trains from every direction, with the exception of the Rock Island and Union Pacific from the west, are delayed by unsafe bridges, landslides or washouts.

The rain is still falling. The Missouri River is rising rapidly, and there is much apprehension lest the steady pour of water into it from its tributaries will cause to go on the rampage and increase the already heavy damages by floods.

THE LONDON MURDER CASE.

Wilson and Fitzpatrick Discharged—Hodges' Case Postponed.

LONDON, Ont., May 9.—The Queen v. Charles Hodges for the murder of Benjamin Hubbard was postponed till the fall assizes on application of E. Meredith, Q.C., counsel for defence, who read doctor's certificate as to critical state of Hodges' health.

Verdict of "not guilty" was rendered at assizes here yesterday in the case of William Wilson and John Fitzpatrick, charged with the murder of Edward Uptou at Strathroy. They were discharged.

MEXICAN CROPS A FAILURE.

Suffering on Account of Drought.

DURANGO, Mex., May 9.—The condition of affairs in this part of the Republic on account of the drought is most deplorable.

There will be another failure of crops this year, except where there are oases. Rivers are drying up, rendering navigation impossible. Still the people are not in as bad a condition as has been reported, by reason of Government aid. So far 300,000 bushels of grain have been distributed free to the poor and at cost to those able to pay for it.

Trying to Starve Himself to Death.

CONCORD, N.H., May 9.—John Burnell, a French-Canadian confined in the State prison here for the murder of John G. Wheeler at Rindge on Christmas Day last, is trying to starve himself to death. He has not eaten food of any kind in the past three weeks. He was sentenced to 30 years' imprisonment for his crime.

No Trace of Them Yet.

FORT WILLIAM, May 9.—The steamer Glengary, after searching all day for her consorts, Glenora and Gaskin, returned here last night without having seen anything of them. The tow broke up in Friday's snowstorm.

Jay Gould in Good Health.

NEW YORK, May 9.—A despatch from Jay Gould at Albuquerque says he is well.

A Welsh Tax-collector.

CORINGTON, Ky., May 9.—Two weeks ago tax-collector P. J. Brecker reached the end of his term and retired to private life. A committee which has just finished an investigation finds him short over $31,000. His friends claim that overcharges and bad tax bills will greatly reduce this amount.

Railway Tracks Wrecked.

ROCK ISLAND, Ill., May 9.—Rock Island has not seen a passenger or freight train from the east on the Rock Island Railway since Wednesday night. This is all on account of the washouts between here and Bureau.

A Great Musician Dead.

PARIS, May 9.—M. Guirand, a composer, and one of the greatest authorities on music in France, is dead. He was born in New Orleans in 1837.

A LETTER FROM CHINA.

How a Missive Went Astray—Wanted a Bank Deposit.

CHATHAM, May 9.—Alexander Jamieson was arrested yesterday on two charges, one of stealing a letter from the postoffice and the other of unlawfully detaining a post letter. The prisoner was brought up this morning, but the case was adjourned till Monday. The particulars are briefly as follows: On Nov. 21 a letter was received at the Chatham postoffice addressed to Mrs. A. C. S. Jamieson. The "Mrs." was not very legible, and it was handed out to Alexander Jamieson, the young man in question. This letter, it appears, came from Amoy, China, and contained notification that between $400 and $500 was in a bank in that city to the credit of Mrs. A. C. S. Jamieson. In December, it is alleged, Jamieson wrote to the bank at Amoy ordering them to send the money on to him. But the order was not obeyed.

It was discovered that the letter from China had not reached its proper destination and the postoffice inspector was notified of the case. He worked it up and his discoveries led to the arrest of young Jamieson. Mrs. A. C. S. Jamieson to whom the bank deposit in China belongs lives in this city and will be present at court on Monday. The accused was released on bail.

WIRED FROM WINNIPEG.

Two Hundred English Emigrants Arrive—Candidates for the General Election.

WINNIPEG, May 9.—Another party of English emigrants, numbering over 200, reached here Saturday. Nearly all of them will settle in Manitoba.

Winnipeg aldermen and citizens are taking steps for the purchase of tracts of land in various parts of the city for public parks. Electors will soon be called upon to choose Board of Park Commissioners.

A number of Austrians who have been west on a prospecting tour have returned to the city gratified and highly pleased with what they have seen. They return to their native land in a few days, intending to return shortly accompanied by their families and friends. They will be forerunner of large immigration from Austria.

Rev. Father Lacombe went east last evening to meet the Bishop of Quebec and other church dignitaries who are coming west on a visit to His Grace Archbishop Tache, then to continue their journey to the coast. They will leave Montreal on the 16th and will arrive here on the 19th. His Grace will accompany them west as far as Kamloops. They will be given a reception by Winnipeg Catholics.

Report is current here that the Canadian Pacific has purchased the Galt Railway to the coal mines at Lethbridge. C.P.R. officials here know nothing of it.

There were four political conventions held yesterday in connection with approaching general election, candidates selected being Colcleugh (Government) for St. Andrews; Huston (Oppositionist) for Manitou, and Shaffner (Opposition) and Hettle (Government) for Turtle Mountain.

HE SPELT OUT HIS MIDDLE NAME.

A Modern Adage Again Verified.

LONDON, May 9.—A warrant has been issued for the arrest of one H. Stanley Brown, an American, who came over on the steamer Servia three weeks ago.

His name, with the exception of the first initial, is the same as that of the late President Garfield's son-in-law, and many passengers supposed him to be that gentleman. He became very popular on board, particularly so with T. V. Walter, a Tacoma banker.

A few days ago Brown stole from Walter's overcoat pocket a letter of credit for $2500, a number of railroad passes and other valuable papers.

The thief, who had previously made himself known at Gaze's Tourist office under the name of Walter, called there on Monday, presented the stolen letter of credit, and showed Walter's railroad passes as guarantee of genuineness.

He procured a first-class ticket to Ireland and received $125 in cash. The fellow has disappeared.

The First Dominion Liner Arrives.

MONTREAL, May 9.—The Oregon, Captain Gibson, the first of the Dominion line passenger steamships to arrive in port this season, docked at the company's wharf at 2.30 o'clock Saturday afternoon. She brought 24 saloon, 42 intermediate and 120 steerage passengers. When she sailed from Liverpool, April 23, she had on board 681 passengers, but when she landed some 500 at Quebec on Thursday the original number had increased by one, as a Polish woman gave birth to a child when the ship was two days out. Shortly after the Oregon reached Quebec, a girl baby died on board. Captain Gibson reports a very fine passage and no ice. The officers are the same as last year, with the exception of Chief Steward Latimer, who has been promoted to the Oregon from the Sarnia.

The Mate Blown Overboard.

OWEN SOUND, Ont., May 9.—A telegram was received here late last night from Port Arthur saying William Rixon, second mate of the steamship Athabasca, was blown overboard on Saturday morning while near the Findlay Island, Lake Superior, during a blinding snowstorm. Mr. Rixon is a young man of about 25 years, son of Mr. H. Rixon of the firm of Maitland, Rixon & Co. of this town.

An American Financier Dead.

PHILADELPHIA, Pa., May 9.—Daniel B. Cummins, President of the Girard National Bank, died suddenly last night.

Mr. Cummins was an ardent supporter of the Government during the rebellion, and in the darkest financial period he united with other bankers in taking Government bonds to an extent that exceeds the amount of their combined capital. He leaves a large fortune.

Actress Suicide Brought to New York.

NEW YORK, May 9.—The remains of Mr. William Foster, who died suddenly in Paris on April 2 of heart failure, arrived in this city at 8 o'clock this morning on the French line steamer La Bourgogne.

Dead from Calamity City.

ST. THOMAS, Ont., May 9.—Mack McArthur, M.C.R. switchman, had his right leg broken at the thigh, right toe crushed and left foot terribly lacerated yesterday by his foot catching in a split switch while coupling cars. He was taken to the railroad hospital. His recovery is doubtful.

MRS. [illegible], old lady of 80 belonging to Drummondville, was killed at the road crossing 1½ miles west of Stamford Saturday night. She was crossing the G.T.R. track in a sleigh, when the vehicle was struck by a freight train.

LAKE ONTARIO TROUBLED.

A Toronto Tug at the Waves' Mercy—Two Scows Washed Ashore.

HAMILTON, May 7.—The tug St. George had a rough time of it on Lake Ontario yesterday. She left Toronto for Hamilton with two dump scows in tow. The sea was heavy and the water washed over the tug and quenched her fires. The two scows broke loose and were washed ashore on Hamilton Beach and the tug was at the mercy of the waves for some hours. Finally, when about to be dashed against the piers at the Beach, a line was thrown out from the lighthouse and the tug was brought in with all hands safe. The tug's scows will be used by Mr. McNamee, who has the contract to dredge the bay at the foot of James-street.

MET HIS DESERTS.

A Tramp Captured by a Virginia Crowd and Tortured!

WASHINGTON, May 7.—Bower Robinson, a tramp, was taken from an officer and swung up to the limb of a tree on the road between Alexandria and Fairfax county jail by masked men on Wednesday. On Friday last Robinson assaulted Mrs. Caton and Mrs. Lackey on the Little River turnpike. He knocked both the ladies down, and was only prevented from accomplishing his fiendish purpose by their outcries. He was kept hanging from the limb till his face was black and his tongue protruded from his mouth. He was then lowered to the ground, but as soon as he regained consciousness he was again swung up and kept up for three minutes. Before life was extinct, however, Robinson was let down a second time. He lay on the ground gasping for breath. "Don't torture me any longer. Take a pistol and blow out my brains," he gasped, as soon as he was able to speak. The appeal touched his persecutors, and, still suffering from the fearful torture he had just undergone, he was lifted back into the buggy and driven to the jail.

THE ROYAL GRENS.

Rumored Solution of Existing Difficulties in the Regiment.

OTTAWA, May 7.—The attention of the militia authorities and especially of Major-General Herbert has been a good deal engaged during the past few weeks with matters in connection with the Royal Grenadiers of Toronto. Strange disclosures have been made, if rumor can be relied on. Although absolutely definite information cannot be obtained, it is stated on pretty good authority that a solution of the difficulties existing in the regiment has been arrived at satisfactory to all who have the interest of the corps at heart.

LACROSSE EVERYWHERE.

A New Association in the Maritime Provinces—A Series of Games.

HALIFAX, May 7.—The Maritime Provinces Lacrosse Association was formed at Truro last evening. The Wanderers, Crescents, Springhills and Pictous will probably comprise the Nova Scotia Association. New Brunswick members will be St. John A.A.A., Shamrocks, Y.M.C.A.'s and probably Moncton and Fredericton. A series of games will take place in which each club plays each other two games, taking in each province first. Then the championship team of each province plays off for pennant.

Hamilton's Lacrosse Club.

HAMILTON, May 7.—At a meeting of the Y.M.C.A. Lacrosse Club last night the following officers were elected: Henry McLaren, honorary president; B. Loring, president; J. Robertson, vice-president; J. Wilson, treasurer, and Fred Mills, secretary. R. Watson and C. McKay, with the officers, will compose the Executive Committee. The team will practice three nights a week.

Short in His Accounts.

CLINTON, May 7.—Customs Inspector McMichael is here investigating the accounts of the late collector of Customs, John Irwin, who died so suddenly a few weeks ago, and reports that irregularities amounting to about $1000 exist. These have been going on for some time. The amount will have to be made good by his bondsmen.

A Million Fire.

NEW YORK, May 7.—The slaughter house of Schwartzchild & Sulzberger, at Fortieth-street and East River, was burned this morning. It is believed that the fire was the work of incendiaries, as a strike has been going on at that place. The loss is estimated at $1,000,000.

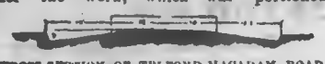
The New Jersey Legislature passed a law in 1839 empowering the board of freeholders in any county to set aside certain roads as county roads and take charge of them, the cost of maintenance to be borne by the county. The boards were empowered by this act to issue county bonds to raise money to put the roads in condition as first-class highways. The freeholders' board of Union County were the first to take advantage of this law. They selected thirty-five miles of road, the main highways through the county, set them aside as county roads and voted to issue bonds to the amount of $300,000, to pay the cost of macadamizing. At this action, a wail went up from the farmers. Such unprecedented extravagance would plunge the county hopelessly in debt, raise the taxes above boiling point, and ruin them all; such expenditure might be wise in a county like Essex, including large cities, but to entail such a debt upon Union was rank idiocy. Nevertheless, the freeholders pushed the preliminary work steadily forward, sent the engineers over the ground and took bids for the work, which was portioned



CROSS SECTION OF TELFORD-MACADAM ROAD.

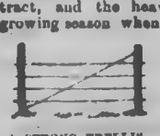
into sections. After the work was under way the board was confronted with the fact that $300,000 would not complete the work undertaken. The dilemma had the usual two horns—leave the work incomplete, or raise more money. The opposition was strong, but they concluded to raise the money and finish the work as originally planned, so additional bonds for $50,000 were issued, making a total of $350,000. At the extra issue of bonds the dissenters settled down in silent despair and waited for the result.

It is now nearly a year since the completion of the roads that give Union County the finest highways in the country. From Elizabeth, the county seat, they branch out in fan-shape through the county, to Rahway, to Plainfield, to Summit. At Elizabeth and Springfield they join with the Essex County system, that goes through Newark and the famous Oranges, giving fifty miles of first-class road between the extreme points, from Pine Brook in Essex County through Montclair, Orange, Newark, Elizabeth and Plainfield to Dunellen in Union County. Then the intersecting roads from Elizabeth to Rahway, Rahway to Westfield, Westfield to Fanwood and Scotch Plains on the west, and Springfield and Summit on the east, all combined, render any part of the counties accessible at all times of the year. The roads are always in good condition, mud has no terrors for the teamster or coachman, and the weight of the load is only limited by the strength of the team.

Now that the roads are built and have been in use nearly a year, it is difficult to find a farmer who opposed them. When you do find one who admits it, he blushes to acknowledge it. At all seasons and at all times, the markets have been accessible to him. If he had anything to take to market, he was not compelled to hurry it thither in poor condition before the winter storms made the roads impassable, or to hold it until spring, when there was no demand for it. For the same reason the farmers were not compelled to rush all their produce into market at the same time, overstock the market, and consequently run down prices. The supply has not overrun the demand, and for all kinds of produce sold by the Union County farmers in the markets of New York, Newark, Elizabeth and Rahway prices have been steadier and the general average higher the past year than before. This statement is not made off-hand, but is based upon actual investigation. Then, the farmer has been benefitted again in the rise in the value of property. The good roads have proved an attraction to a class of residents who do not look to the farm for a livelihood, but are ready customers for farm products. A man doing business in the city can live two and three miles away from the depot, when he knows that at all times of the year he has a good, solid road from his door to the depot. What is three miles to an ordinary horse on a macadamized road? These roads have made every part of the county desirable as a place of residence for business men. Land, that before these roads were constructed, went begging for a purchaser at $100 an acre, finds a ready sale at $175 and $200 an acre, and there is not much offered even at that figure. Farming is profitable now where it was a losing business before. The increase in land value alone would pay the cost of the road many times over. Taxes are a trifle higher, but no reasonable man would object to paying a few dollars more tax when his property has been doubled in value. I have yet to find the man who says the roads of Union County are not the best investment the county ever made. The roads themselves are, strictly speaking, Telford-macadam, the foundation being according to Telford, and the finishing Macadam. In laying the bed an excavation was made eighteen inches deep and twelve feet wide. In this trench the foundation stone was carefully placed by hand by experienced workmen. Closely and compactly over this a layer of coarse crushed stone and a sprinkling of earth was placed, and the mass rolled sufficiently, the topdressing of fine stone was scattered on the road, rounded up and rolled solid. This road withstands the action of frost, and is always dry. After it is laid, the cost of keeping it in repair is nominal, fine crushed stone being put on the low and wornout parts and then rolled. There is not so much exaggeration in the statement of the old farmer, that "every one of Union County's macadamized roads is worth more than a railroad."—Edwin Ralph Collins, in the American Agriculturist.

Strengthening the Grape Trellis.

The constant change of temperature causes the trellis wires to expand and contract, and the heavy winds during the growing season when the vines are heavily laden with foliage and fruit, all conspire to loosen the end posts of the trellis line; hence, the posts need to be set deep and firm and otherwise braced to stand the strain upon them, and to this end the plan shown in the illustration is practiced by many vineyardists. At each end a wire is attached to the first post, near the ground, and to the top of the second post, as shown in the sketch. Where the trellis line is a long and heavy one, a wire is attached near the bottom of the second post and near the top of the third post. Of course by either plan the first post is not braced but, if firmly set, it will readily stand all the strain of the first space.



A STRONG TRELLIS.

Women suffering from the ills peculiar to their sex should use Dr. Williams' Pink Pills. W. B. Hogsbocm, Osgoode Station, Ont., writes:—My wife was run down and weak, and has been so for six years. I decided to get Pink Pills, and must say they have given great satisfaction. My wife is now on the second box, and is able to go to church now for the first time in two years. All dealers, or by post on receipt of 50 cents or $2 50 for six boxes. Dr. Williams Med Co., Brockville, Ont., or Morristown, N. Y. dw

Turn the Rascals Out.

We refer to such rascals as dyspepsia, bad blood, biliousness, constipation, sick headache, etc., infesting the human system. Turn them out and keep them out by using Burdock Blood Bitters, the natural foe to disease, which invigorates, tones and strengthens the entire system dw

An Enterprising Hotel Man.

It is stated that an hotel man in Toronto has posted up a notice stating that all diners at his hotel who use Burdock Blood Bitters to tone up their appetite and strength will be charged 20 per cent. extra. We do not know how true this is, but B.B.B. undoubtedly does the work and does it quickly and well. dw

Milburn's Cod Liver Oil Emulsion with Wild Cherry and Hypophosphites is the surest and best cure for coughs, colds, hoarseness, bronchitis and asthma. Price 50c. and $1 per bottle. dw

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

The Goat a Butt for Fun.

The appearance of a goat with the Oddfellows at Tweed, on their recent visit, the Kingston *Whig* says, was the occasion for much amusement. Crowds of people gathered around the animal and passed funny remarks. One old man ran up, wringing his hands with glee, and said: "I have often heard the Odd'fellows had a goat, but I never saw it." He then laughed heartily.

Peterborough Matters in Montreal.

The Montreal *Herald* of Friday, under the heading of "News for Montrealers," has the following: "Ald. A. V. R. Young, J. P., of Peterborough was in the city yesterday. Speaking to a *Herald* reporter, he said that the case of the Standard Agency Company, of Montreal, vs. the Dickson Lumber Company, of Peterborough, had been tried in Peterborough. A change of venue had been obtained, however, and the hearing of the case is now going on in Cobourg. He did not believe the report that the Edison General Electric Company, of Peterborough, had joined the Thompson-Houston syndicate as had been reported. A new company is being formed, consisting of several Edison people and some outsiders. They intend taking over the Edison works and doing business under the name of the Canadian General Electric Company."

A Grand Knock for Bargains.

Prices for artistically cut, fashionably made, well lined clothing will astonish closest buyers every time. Nobody thought it possible to make garments to order at our prices and at the same time give good material, good workmanship and good trimmings. It is enough, however that we are doing it—and doing it honestly and squarely. Our superior stock of tweeds and fashionable cloths are all being sacrificed for the ready cash. Have you heard how we are slaughtering shirts, socks, gloves, collars, cuffs and ties? Oh! this is a gala sale for everybody! Fancy selling a good 10c heavy gray cotton, yard wide, for only 5 cents. But this is only a sample of the reductions throughout our whole store. Grasp the bargains for they are bound to fly. Townspeople will please call early in the day. The Late Mrs. Joseph Redmond.

The EXAMINER records with deep regret the death on Sunday night at 11 p. m., of Mrs. Joseph Redmond, of "Elm Grove," Otonabee, a long illness borne with Christian fortitude, closing her earthly career. The deceased was an old resident of Otonabee, and by her many excellent qualities won a wide circle of friends, who sympathize deeply with the family who have suffered a severe loss in the removal of a faithful wife and loving mother.

The Fourteenth Coming on the 24th.

Word was received by the officers of the 57th Battalion this morning stating that the 13th Battalion of Hamilton, who were some time ago asking to come here on May 24th, would be unable to keep their engagement on account of not being able to secure transport on that date. The 14th Battalion of Kingston, one of the best drilled and equipped city battalions in the Dominion, have accepted the invitation of the 57th to spend the Queen's Birthday in in Peterborough and to celebrate it here in a fitting manner. The battalion sports committee met on Saturday evening and decided to have sports and games on the P.A.A.A. grounds, which will consist of a baseball match and various other entertaining sports. The people of Peterborough may look forward to a gala day on the 24th as the battalion have in all past occasions made everything which they have undertaken a grand success. The 57th Battalion officers and men will pay the return visit to Kingston on July 1st.

Tenders for Street Watering Awarded.

The Fire, Water and Light Committee met on Saturday night and awarded the tenders, which they advertised for to Michael O'Donnell for the northern district for five months for $250. George Henry for southern district for $275. The committee will recommend these tenders, which were the lowest of any tender to the council Saturday night. The town teams as provided by the new fire hall regulations will water the central portion of the town. Following are the tenders received by the committee up to four o'clock on Saturday afternoon. The list is a large one considering the limited time advertisements were out:—Mr. O'Donnell, southern district, $315, or $2 65 per day; Wm. Brooksbridge & Son, north or south, for $325; J. Learmonth, southern district, $2 50 per day; George Henry, for southern district, $275; Michael Rolton, for southern district, $300; William Renwick, for northern district, $350, or $2 50 per day; Terrence Smith, for northern and southern districts, $590; Terrence Smith, northern district, $295, or $2 50 per day; John Parnell; northern district, $297, or $2 10 per day; Daniel Hennessy, northern district, $330, or $2.75 per day; Michael O'Donnell, northern district, $250, or $2.75 per day; Michael Cadigan, southern district, $312, or $2.50 per day.

News Nuggets.

—No arrests have been made since Friday night.

—Notices of church services are crowded out of to-day's issue.

—The first dog of the season was impounded by the police this afternoon.

—A special meeting of town council will be held in the council chamber to-night.

—A customer broke a large coloured glass in Mr. F. S. Scheneider's jewelry store on Saturday.

—The Spring Chancery Sittings for the County of Peterborough will open on May 31st before Hon. Chancellor Boyd.

—The first battalion parade of the 57th for this year will take place to-morrow night. The boys will be headed by their first-class band. A large turnout of the men is requested.

—Mr. Joe Sharpe, the Belleville cricketer, formerly of the Queen's Hotel, has arrived in town and will remain during the summer. His duties are to instruct the members of the club.—*Picton Gazette.*

—Complaints have been made to the police by residents of bicyclists using the sidewalks for navigation instead of the street proper. The law that bicyling riding must be done on the road, the Chief wishes to make known is to be strictly enforced.

—The Cricket Club are fast getting into shape. The practice on Saturday was largely attended. On Saturday afternoon next an eleven from the banks, with the assistance of the "pro," Mr. Oldfield, will play the crack team eleven. An interesting match is anticipated.

—Posters have been issued, the Lindsay *Post* says, calling for tenders for excavating the foundation of the new opera house building, and contractors are doing some close figuring. Mr. Blackwell, architect of Peterborough, came to town Tuesday with the contemplated plans of the building.

—Wm. Bell and James Barry, the two youths of Lindsay, who were charged with breaking into Adam Doran's liquor store and stealing a quantity of liquor, cigars and postage stamps, pleaded guilty last week before Magistrate O'Leary, and were sentenced to one year each in the Central Prison.

—The water in the Bay of Quinte is lower now than has ever been before known. The water in the harbor at Trenton had reached such a low level Wednesday that the steamer Varuna, which has a comparatively light draught ran aground and did not make her regular trip to Picton. She was got off that night. Similar reports come from different points on the bay which this year will be navigated by boats of large draught with difficulty.

—Mr. J. E. Hodgson, M. A., Senior Inspector of High Schools, completed the work of inspection in the Collegiate Institute here on Friday afternoon. Mr. Hodgson, who returned to Toronto, on Saturday, stated he was highly pleased with the work done in all the departments of the institution. He will submit his report to the Educational Department, who will forward it to the School Board. It is some time since Inspector Hodgson visited the Peterborough Collegiate Institute.

—A runaway occurred on Water street on Sunday afternoon. A horse from Hendron's livery, Lakefield, while being driven by two young men started down the street at a furious pace. As the buggy was coming out of the Cardwell hotel yard, the wheels caught in the platform leading from the sidewalk to the road. This caused the animal to become frightened, and succeeding in wrenching the shafts from the vehicle, it dashed down Water street at a breakneck pace. In turning the corner onto Charlotte street the horse fell on the sidewalk in front of the Belmoral Hotel and came near smashing the office windows.

—The Lindsay *Post* says:—"The sequel to the fulminations at recent council meetings was the arrival of Mr. Freeman Saturday morning clothed with full power to sign the contract on behalf of Messrs. Moffat, Hodgins & Clarke, of Watertown, N. Y. This was done, a $500 marked cheque deposited as a guarantee for the due fulfillment of the contract, and the official sanction was given by the council Monday evening. The general impression among the ratepayers is that the contract is the best that could be obtained. Work on the waterworks will be commenced at once, and the expenditure of such a large sum of money in the town will be felt in every branch of trade, and will give employment to our labouring population.

Personal.

Miss Edith Bannan, of Flesherton, who has been the guest of Mrs. Nesbitt for a few days, returned home on Saturday.

Mr. Harry Dredge, son of Mr. George Dredge, left on Friday night for Beaver Mountain, B. C., where he will make his future home.

At the meeting of the Emerald Beneficial Association in London Mr. Wm. Hogan was elected Grand Vice-President—not Grand Secretary-Treasurer as stated—the next step to the Grand President's seat.

Mr. Geo. J. Blackstill for some time past in the law office of John Burnham, Q.C., has accepted the lucrative position of assistant deputy clerk of the Crown at Walkerton. He leaves this week to assume his duties.

E. B. Edwards and A. P. Poussette, left this morning for Cobourg on business in connection with the Standard Agency Co., of Montreal, vs. Dickson Co., of Peterborough, which comes up at the assizes there to-day.

Messrs Chas. Burnham, R. B. Lundy, and Fred Winch have returned from a fishing expedition to Lake Ketchikum. They had the misfortune to lose their tent on the way out and did not find it very pleasant sleeping outdoors in the cool midnight air.

Police Court,

MONDAY, May 9th.

Mayor Kendry and Councillor Cahill again presided at the court this morning. William Cummings, charged with peddling meat on the market without a license, took out the necessary papers and the case was dismissed.

A young man was brought up on two charges, that of furious driving and cruelty to animals. The offence occurred on Saturday last, when he was using George street for a race track. In the former charge the evidence of three witnesses were taken, but as conflicting were the testimonies that the case was enlarged until Wednesday. In the case of cruelty to animals only one witness was examined, and was also enlarged till Wednesday.

Installation of Forester Officers.

The officers of the several courts of the Canadian Order of Foresters in town and county were installed during the past week by D.D.H.C.R.'s Nesbitt and Danah, assisted by prominent members of the local courts. At the close of the ceremonies on all the occasions, the newly installed officers extended the usual graceful hospitalities to the visiting officers and the members present.

Y. M. C. A. Notes.

The young men's meeting Saturday was addressed by Messrs. Ashdown, Chisnge, and Harry Kennedy, which were practical and impressive, and a helpful after-meeting was held. The singing was bright and taking, being led by Orchestra.

Mr. Thos. Dodds conducted the Bible Study and Consecration Service yesterday morning, and much profit was received from the study of God's Word by all present.

The Personal Purity meeting Sabbath afternoon was a bright and helpful service, the singing was particularly good, being led by the Orchestra. The Secretary gave short talk on Rev. 19 14.

Last evening the hall was crowded by an attentive and interested people who listened with profit to an impressive address given by Mr. George Tovey. It was good to be there.

The Good Derived from

HOOD'S

Sarsaparilla

All Run Down With **Dyspepsia**

The peculiar combination of stomach tonics and alterative remedies in Hood's Sarsaparilla cannot be equalled, and this superiority explains the wonderful success of

This Great Medicine

in cases of Dyspepsia, Indigestion and similar troubles. Mr. T. A. Wheelock, a well known citizen of Burlington, Vt., writes:

"Six months ago I was badly run down and unable to attend to business. The principal trouble seemed to be due to indigestion and aggravated dyspepsia. I had no appetite,

Nothing Tasted Good

and what I did eat distressed me. Added to this was a nervous disturbance. Physicians that I employed failed to reach my case. I grew worse, *lost flesh* and almost hope. One day I ran across a testimonial for Hood's Sarsaparilla stating what it had done in what seemed to be a case similar to mine. I got a bottle and in three or four days saw that I felt better. Before I had finished the first bottle, was greatly improved. Rested better, felt better, and knew I was

Better All Over

I continued with the medicine, and have taken two bottles and now feel better than at any time for the past five years. Feel as hearty as when a boy. Have regained my flesh, have good appetite, can sleep well, and my nerves are in excellent condition. I would not value a thousand dollars for what it did for me." T. A. WHEELOCK, Burlington, Vt.

Fully Indorsed

"We have sold Mr. T. A. Wheelock several bottles of Hood's Sarsaparilla and have heard him tell in high terms of commendation what it has done for him. I know that he has recommended

Hood's Sarsaparilla

to many others here. Our customers generally speak well of it." F. L. TAFT & Co., Pharmacists, Burlington, Vt.

A GREAT CONFLAGRATION.

The Ontario Canoe Company's Factory Goes up in Smoke.

At an Early Hour This Morning—The Building and Contents are Uninsured—$25,000 Worth of Damage Done by the Destroying Element—One of Ashburnham's Principal Manufactories a Total Loss—The Work of Destruction Evidently That of an Incendiary—A Sad Spectacle viewed by Hundreds.

Another disastrous fire has taken place, this time in Ashburnham. The Ontario Canoe Company's factory on Elizabeth street was burned to the ground this morning at two o'clock, and $25,000 went up in smoke. This makes the third great conflagration which the firemen have had to battle with during the last seven weeks. On March 27th, the moulder's department of the Carbon Works was destroyed by fire, and afterwards the large woolen mills of Mann Bros., situated on the river bank met a like fate. The fire was first discovered at a few minutes before two o'clock this morning by Mr. Sidney Martin who resides on Mark street in close proximity to the Ontario Canoe Company's factory. He immediately ran and aroused Mr. Samuel Mulligan, who is employed in the factory, and lives close by. Mr. Harry Morgan who also works in the factory, and a couple of other employees who reside in the neighborhood, were the first to see the flames and arrive on the scene.

THE FIRE WAS FIRST DISCOVERED

in the room where the the shavings and other refuse were kept. This room is in a lean-to adjoining the engine room, on the north-east side, and was soon in a mass of flames. The men made desperate efforts to extinguish the blaze by means of throwing pails of water upon the devouring element, but all to no avail. They also brought three of the eight chemical engines scattered throughout the building in the different parts, to play upon the flames, but their efforts were rendered futile by the inflammable nature of the material and the gentle northeast wind which helped the elements somewhat in their mad career. But the fire was too far advanced, and a general alarm was sounded. The firemen were quickly on hand considering the distance the steamer had to be brought. It and the hose wagon were brought over first. The engine was stationed first at the Mark street tank. Two streams were applied, but the supply of water was exhausted after a few minutes use. The engine was then moved to the Stewart street tank at the foot of Cumming's hill. The water in both of these tanks held out until five minutes to three. In the meantime the hook and ladder wagon arrived from the hall together with more hose. In the meantime the flames continued their advancing career unchecked, the streams thrown having very little effect in reducing them. The bucket brigade continued to throw water on the surrounding buildings and lumber piles the positions of which were not at all enviable. A few minutes were lost in the transfer from the Stewart street tank to the Dickson raceway, owing to the distance, the laying of the hose to the scene of the disaster being all up grade. Only one stream was able to be thrown on the flames, which by this time had done their deadly work. The inside of the building which had been gutted first was all burned out before the outside walls fell in one great crumbling mass. Meanwhile the neighbouring lumber piles and the adjoining sheds in which the mouldings and dressed lumber of the company were kept had become ignited and the firemen were powerless to save them. Some of the sheds were burning shortly after the building first caught fire. A large number of

PILES OF HEMLOCK SLABS

used for firewood, also caught fire and burned brilliantly creating an intense heat. Water was thrown upon the smouldering ruins until nearly eight o'clock this morning. Considering the disadvantage and difficulties under which they laboured and the appliances at their disposal the firemen did good and effective work. The remains which present a sad and dreary spectacle are still burning and smoking.

The Ontario Canoe Company's factory was a large pilastered building, four stories high. It was sixty-five feet long by thirty feet wide, and sixty feet high. It was built in the year 1884, and has been used ever since for the manufacture of canoes, which have been celebrated all over the world. The company, from the first day they established in business, have always done a large and increasing trade. The fire occurred at the worst possible time, as the firm had just a large stock of lumber and had received numbers of orders from all over the Dominion for their famous canoes. The firm also manufactured window sashes, doors, blinds, etc., a large amount of planing and such like work. There was a lean-to in the north side of the building of some thirty feet, which had recently been added. On the south-east side in a lean-to was situated the boiler and engine room, and in another small building adjoining was the shavings room, mentioned before as the place where the fire started. A new engine had been placed in only four months ago. It was a Corvan manufacture of Galt, 30 horse power, and cost, when placed in position, $1000. On the first floor of the building was the machinery department, where all the planing and dressed lumber work was done. The stickers, cleaners, saws, mortises, etc., together with the large drying kilns on the first and second floors are a total ruin. The other floors were used for the manufacture and putting together of the canoes. The top story was the painting and varnishing departments. The storeroom and office, situated in the large frame building to the north

ESCAPED UNINJURED.

Some of the men saved their tools from the burning building, but the most of them were lost. Only one mould and a canoe were saved, while thirty basswood and cedar canoes went up in smoke. A shed to the rear of the factory, containing $600 worth of moulds, which in the excitement were not removed, was suffered to burn. A considerable amount of lumber was in the building at the time of the fire, besides several hundred dollars worth of pine, butternut, basswood cherry and birch lumber and mouldings, was consumed on the yards and in the various kilns. Twenty five men were employed in the factory. Mr. Joseph Heffman was foreman of the manufacturing departments upstairs, and Mr. Thos. McKee of the machinery department on the first floor. Mr. Samuel Mulligan kept general oversight of the building. In conversation with an EXAMINER reporter this morning, Col. J. Z. Rogers, one of the principal stockholders, stated the fire was no doubt the work of an incendiary. He said he had gone through the building at nine o'clock last night and found everything all right. No fire has been in the building or in the engine room since five o'clock on Saturday night. Mr. Rogers stated the first he knew of the fire was at two o'clock this morning, when he was aroused from his bed. In answer to a question as to the total loss on the buildings, machinery, lumber and general contents, he stated that it would take $25,000 to cover the entire destruction of the flames. There was not a cent of insurance on anything. The insurance companies required a premium of 8½ and 9 per cent., which Mr Rogers was unable to bear. He stated that the buildings and contents had never been insured, and that there was

NO TRUTH IN THE RUMOUR

that the insurance policies had run out two weeks ago. Mr. Rogers said he could not at present say whether the company would rebuild or not, the loss being so heavy. The destruction of this large and important manufactory was no doubt the work of some desperate fire-fiend, as the time of the fire, the place of the building where it first caught, and the circumstances generally, point too clearly and unmistakably to that conclusion.

NOTES.

All the canoes stored in the repository north of the factory were removed and carried across the road during the fire.

The company's stable was also badly burned and water had to be applied continuously.

The residence of Mr. Samuel Mulligan managed to escape unscathed.

The residences and stables of Mr. George Peters and Mrs. Brownlee, to the east of the burning building, had a narrow escape. The roofs and west sides of the stables were severely charred. They were only saved by the strenuous efforts of the neighbours and firemen. Mr. Peters and Mrs. Brownlee were compelled to move all the contents from their houses.

It was rumoured this morning that Mr. Sidney Martin, who was the first to observe the flames, saw a man running at full pace down the railway track away from the burning building.

The fire was very hot and was witnessed by a large crowd. The town for a great distance around was illuminated.

While the inside of the building went up like a cinder, the walls, which were very strong and well built, stood like towering battlements against the fiery furnace. The whole inside was gutted before they fell. The factory had a shingle roof and the engine room a galvanized covering.

The steamer and the hose wagon were taken over first. Return trips were then made to the fire hall for the hook and ladder wagon and more hose. The engine ran out of coal twice, and they had to send to the hall each time.

Some two months ago the roof of the building took fire but no damage was done.

The women of Ashburnham seem readier to help the firemen in their work than the men of the village.

A Staff of Skilful Men.

In order to prove the superiority of their skill the staff of eminent physicians and surgeons, now permanently located at No. 271 Jarvis Street, Toronto, will, until further notice treat all curable complaints for *$5.00 per month*, and furnish medicines free of cost. A more liberal offer it would be difficult to make. No extra charge for anything: *$5.00 per month and medicines free.*

These eminent doctors treat every variety of disease and deformity, and perform all surgical operations, viz: The removal of cancers, tumors, cataract, polypi, etc. All diseases of the eye, ear, throat, lungs, heart, stomach, liver, kidneys, bladder, and all female difficulties arising from whatever cause, all nervous prostrations, failing vitality, and diseases originating from impure blood, are treated with the greatest success.

CATARRH, in all its various forms, cured by their new method, which consists in breaking up of the cold-catching tendency, to which every person suffering from catarrh is susceptible.

Invalids will please not take offence if they are rejected as incurable. The physicians will examine you thoroughly, free of charge, and if incurable they will positively tell you so. Also caution you against spending more money for useless medicine.

Invalids who cannot visit these eminent doctors in person can write, and be treated by express, but at least one personal interview is preferable.

Bobcaygeon's New Steamer.

The Bobcaygeon *Independent* thus refers to the new lake steamer now being built. Progress is being made on the new boat under construction by Dr. McCamus, and general approval is expressed with her appearance. The design is new to these waters, and conceded to be far more suitable than the designs hitherto used. The bottom of the body of the boat is perfectly flat, though the lines of the bow and stern are finely flowing, and symmetrical. The ribs are not naturally curved knees, but are two straight pieces bolted and braced at the elbow. Her planking is half an inch thicker than is customary, and she is being most stoutly and securely put together. Mr. Turcotte, the foreman in charge, is accustomed to building for the large lakes, and will allow nothing but thoroughly substantial work. A sketch of the compound double expansion engine has been received, and the makers of machinery are pushing their part of the contract.

Gough Bros. in Lindsay.

Lindsay is taken—Gough Bros. have captured it. The last issue of the *Post* says:—"Our readers will have noticed, no doubt, Gough Bros. startling announcement on our first page. Their's is a business-like statement; our rigorous climate and several other reasons compel men to wear clothes, and Gough Bros. mission is to supply their wants well and cheaply. They have reduced the buying and selling of clothing to a science, and intend giving the public of Victoria and Haliburton counties the benefit of their shrewdness. The firm will open in S. S Ritchie's old stand, a few doors east of the Benson house, early next week." Lindsay is in luck. The citizens naturally desire to wear good clothing, and if they could never afford to do so before, they will have a chance to do so now. They will find that Gough Bros. will give them the run of the best clothing in Canada at prices that will delight the heart of of the Lindsayites.

Christianity, Freemasonry and Eastern Philosophy.

BY S.

Reserving esoterics for adepts, and dealing out exoterics only to the vulgar.—*Sear A.*

Eastern philosophers had two distinct methods of teaching. One, the exoteric, for the public, which was principally in the form of parable. The other, the esoteric, or secret teaching, which was reserved for their chosen disciples or initiates. Jesus Christ pre-eminently taught His disciples esoterically, as many passages of Scripture show.

It is the inability of the Western mind to apprehend this that causes so much dissent among Christians, and for the same reason many Masons cease to take an interest in Freemasonry, after they have reached a certain standing in the craft, thinking, perhaps, that their work is ended—that they have no more to learn.

The discussions on religious subjects which have lately occupied so much space in our newspapers and periodicals, the existence of "The Society for Physical Research," and of "The Theosophical Society," point more unmistakably to the fact that not only is the spirit of enquiry, with regard to spiritual matters, widely awakened, but that the teachings of the various churches fail utterly, in many cases, to satisfy the cravings of thinking men and women for more knowledge—more light.

The fact is further emphasized by the existence of so many different Christian denominations, which clearly proves that although men may have equal intellectual and educational advantages, the spiritual teaching which appeals more strongly to the mind of one man may not only fail to touch, but may be positively repulsive to that of another.

I think it is Professor Wilson who says in "Caliban the Missing Link:" "The doctrine of transubstantiation or the real presence appears to thousands

NOT ONLY UNTENABLE BUT ABSURD;

to thousands more its denial is blasphemy and sheer atheism." This applies equally to all church dogmas.

The tendency of the present day is to clear away obstructions. "What a picturesque old ruin!" exclaims the sentimentalist, pointing to the old ivy clad pile. "What a useless heap of stones and rubbish!" says the practical man. "Pull it down, clear away the rubbish, and put the ground, on which it stands, to some useful purpose." And the practical man carries the day, because the spirit of the age is a practical one.

And so, church dogma is met now at every point by the awkward question, "By what authority?"

The following story is told of one of the prominent leaders of thought of the present day:—

Her mind was filled with religious doubt, and she determined to seek advice, and perhaps consolation from an eminent divine. She was seeking for truth. "It is not your duty to ascertain the truth," she was sternly informed. "I will not believe until I am sure," she said. And she was met with, "I forbid you to speak of your unbelief." That was all the dogmatist had for her, "I forbid." She naturally asked herself the question "By what authority?" And failing to find a satisfactory answer, she was driven to atheism, from which miserable state she has since been rescued. By the Church? No, by Theosophy. Some day she may find that true Christianity, stripped of the parasitical growth of centuries, is perfectly compatible with Theosophy.

There are many who are perfectly contented to follow the old beaten tracks, apparently careless whither the road may lead.

THEY PERFORM THEIR RELIGIOUS DUTIES

in a perfunctory way, they pay their church dues, and attend her services regularly, they lead a perfectly respectable life, and, having thus gained the approbation of the particular pastor who has charge of their souls' welfare, they seek for nothing more, they blow neither hot nor cold. It is written of such, "I will spue thee out."

There are others who are diligently seeking the truth. They may be groping in darkness like a man in a dismal vault, nevertheless they feel that if they faithfully persevere, at last, a ray of light, be it ever so feeble, will be vouchsafed them, to aid them in their search. Such men are not contented with the mere outward forms and observances of religion. They utterly refuse to render up their intellectual freedom their highest individuality, into the hands of a priest, no matter of what denomination he may be. Fortunately these earnest seekers lack no encouragement. The great Master has said, "Seek and ye shall find, knock, and it shall be opened unto you." To such, I offer the following lines of thought, earnestly hoping that in so doing, I may be enabled to render myself useful to my fellowmen, and especially to my Masonic brethren. Too exacting critics may complain that I do not adhere strictly to my subject, but it is one, which, from its very nature, requires to be covered, and I shall endeavor, as far as possible to make the covering interesting alike to those who are not Masons, and to the craft; for the right interpretation of the Scriptures is of vital importance to all. The only firm basis, I believe, on which Christian Unity will ever rest. Most, if not all, of the knowledge that we possess has come from the East, and it is quite probable that in the East, there

STILL EXIST AS HIDDEN STORE OF WISDOM.

There are, in fact, many indications that the world is about to receive further light from that quarter.

We, of the western world, are largely indebted to the Theosophical Society, for placing within our reach, literature bearing upon Eastern philosophy. We must bear in mind, that children acquire knowledge by slow degrees, as they are able to receive it. You, my brother, did not learn all that you know, in a day, and I doubt, notwithstanding our pride in the nineteenth century discoveries, if it has pleased the Most High to raise the world to the supreme degree of the knowledge that is in store for it. Nay, I doubt if it has yet attained to anything like an intermediate stage, although it is undoubtedly making very rapid strides. And so I say confidently, let us keep our eyes steadily turned towards the East.

In addressing freemasons, I appeal to men whose minds ought to be free from pride of race or religious prejudice, who should not allow themselves to be swayed by the tenets of any particular religious institution, as to their feelings toward their fellow men are concerned. We have in fact learned to look upon all humanity as a vast brotherhood. We do well, therefore, to remember that about five hundred millions of our fellow men are Buddhists, and that they are not all by any means the ignorant heathens, that until quite recently they have been given credit for being. We know now, or at least each of us as have taken the trouble to investigate the matter, know, that the highly educated Buddhists does not

* * * In his blindness,
Bow down to wood and stone.

It is true that

ESOTERIC OF THE EASTERN RELIGIONS

may be, like the Roman Catholic or High Church Episcopalian, largely symbolical. But to the one sect as to the other, none but the most grossly ignorant ever dream of converting the symbol into the idol. The author of "Greenland's Icy Mountains" was probably not aware that the Hindoos possess the original of that religious literature to the world, which has been learned about the East since

that somewhat unjust hymn was composed; much more remains to be learned.

It may not be out of place here to give the following list of the leading religious bodies of the world, which I take from Mr. Lilly's "Ancient Religion and Modern Thought":—Christians, 327,000,000; Mahommedans, 185,000,000; Hindus, 160 000 000; Buddhists, 500 000 000. The 327 000,000 Christians are sub-divided as follows:—Catholics, 152 000,000; Greek church, 75 000,000; other denominations, 100,000 000, and this 300,000,000, which includes Methodists, Presbyterians and Episcopalians, is still largely subdivided. This shows that there is a wide divergence of religious thought not only among the world's inhabitants, but also among Christians themselves, who represent, according to Mr. Lilly's estimation, not more than 30 7 per cent. of the world's population. In addition to all these, there are the Jews, and many other smaller religious bodies, which have not been mentioned. And is it not a strange thing that many, if not all, of these separate Christian denominations annually spend large sums of money in sending (often very imperfectly qualified) missionaries to convert these outside millions of (in some cases) educated heathen? although it is obvious that the work of the missionary of one sect must necessarily paralyze and be paralyzed by the efforts of the missionaries of each of the other sects? When will Christians realize the fact that

UNTIL THERE IS CHRISTIAN UNION

all missionary labour must be, to a very large extent, unsuccessful? But I am not writing an essay on missionary work. What I wish to impress upon my readers is this, that through all these different religions, religious denominations, races and colors, runs, and has run, as far as we know, from the earliest history of man, the golden thread of Freemasonry.

The real origin of Freemasonry is lost in the mist of antiquity. The science was probably introduced into Egypt by the Greeks, who got it from the Egyptians, who in their turn received it from the Hindus of India. I do not mean to assert that modern Freemasonry is the same in all respects as the ancient mysteries from which it is derived. It is certain that the Egyptians, if not the Greeks, possessed much knowledge which has since been lost to, or perhaps hidden from the world, but which may, at no very distant time, be regained. Those who are watching the East, believe that the time has come when many secrets of nature are about to be revealed to such as are prepared to receive them. It is probable that modern Freemasonry has so much in common with the ancient mysteries, that a master Mason of to-day could have made himself known, as a brother, to an Epopt of ancient Greece, who in his turn, could have done the same with a priest of ancient Egypt. It is therefore reasonable to suppose that Freemasonry, like Christianity, has been largely influenced by an Eastern philosophy, which even in the days of the Pharaoh's was probably so old that its origin, like that of the Freemasonry of to-day, was lost in antiquity.

Following this line of thought, we might easily be led to believe—as many Masons do believe—that this philosophy was

THE OUTCOME OF AN EARLY DIVINE REVELATION

made to man long before the days of the flood, coeval in fact, with the time of the Eden of the Bible, when God Himself is said to have walked and talked with man.

Referring to the ancient mysteries, I now quote from Mackey's Encyclopedia of Freemasonry: "The most important of these mysteries were the Osiric, in Egypt; the Mithraic, in Persia; the Cabiric, in Thrace: the Adonisian, in Syria; the Dionysiac and Eleusinian, in Greece; the Scandinavian, among the Gothic nations, and the Druidical, among the Celts. In all these mysteries we find a singular unity of design, clearly indicating a common origin, and a purity of doctrine, as evidently proving that this common origin was not to be sought for in the popular theology of the Pagan world."

The initiation to these mysteries was a very severe test of the candidate's fortitude, and powers of self control. In cultivating the latter, indeed, a long probationary period was spent. Perfect purity of life, and a complete resignation of all that renders life most enjoyable, was first required of one who would become a master of that hidden wisdom, by which the secrets of nature, it was believed, could be controlled and utilized. Selfish ambition, and even, it would appear, love of kindred, when allowed to become a dominant passion, were to be sternly repressed.

We find something of this in the teaching of Christ Himself, as in Matthew 10 v. 37. "He that loveth father or mother more than Me, is not worthy of Me; and he that loveth son or daughter more than Me, is not worthy of Me." There are many other texts of a similiar character, and it is worth remarking that in all probability Jesus himself

RECEIVED HIS WORLDLY INSTRUCTION

from the Essenes, who were the mystics or Freemasons of his time. Such was the stringent course that a candidate of that time had to pursue, (and such it is still in the east, where, I believe I am right in stating that the candidate has to spend at least seven years in careful preparation, during which time his life and conduct are subjected to the most searching investigation.) One of the most principal lessons he had to learn was the control of his thoughts.

The subject of thought is one with which the Bible deals extensively, although it is unfortunately passed over by the general reader, as of little consequence. There are numerous references made to thoughts, both in the Old and in the New Testament, and there is little doubt that for those to whom the teaching on this subject was addressed, it had a significance which is almost unknown to the western world. This was almost certainly the case with the disciples of Jesus, to whom he said, "Unto you it is given to know the mystery of the kingdom of God; but unto them that are without all these things are done in parables."—Mark iv, 2. Which clearly proves that Jesus, like all philosophers of that time, had an esoteric teaching for his chosen disciples, and an exoteric one for the rest of the world, an indisputable fact, which the Church seems to have overlooked or forgotten. Thoughts, the Bible teaches us, proceeded out of the heart. "Out of the heart of man proceed evil thoughts, murders, adulteries"; and it is a significant fact, that in the enumeration of these evils, thought is given the first place.

The heart being the seat of thought, it becomes necessary that a man should learn

HOW BEST TO RULE HIS HEART.

And his first precaution should be to see that it is carefully closed against all unwelcome intruders, in the shape of evil thoughts. It is probably the heart which, in the Bible is so often alluded to as the palace, the house, the chamber, etc. "When ye pray, enter into your chamber, and when ye have shut the door, pray to your father which is in secret." But the heart must be pure, free from evil thoughts, worldly ambitions, and selfish affections, if one would "see God." And not only must it be closed and guarded against intruders from without, but that which is within must be carefully scrutinized, and that which will not bear the test must be expelled, which is the second necessary precaution. And then, the heart being purged from all impure thoughts from within, and their entrance from without being rendered impossible by closed doors, and the sword of the spirit, turning every way to guard the entrance to the way of life, the spirit itself can hold communion, and work in love and harmony with its great Master. I believe that this is the true though unconscious of that with which every Mason is familiar. As freemasonry is spread over the whole habitable globe, we, in common, should not disdain the opinions of others who are as ignorant of our Western ideas, as we are of those of the East. Let us examine the Eastern teaching with regard to this all-important subject, thought. However much the alchemists and astrologers of the 13th, 14th and 15th centuries may have been ridiculed, it cannot be denied that modern science is indebted to them for many valuable discoveries.

It is possible therefore, that, as they discovered

MANY PRICELESS SECRETS OF NATURE,

they may also have acquired some important knowledge with regard to spiritual matters. Time, however, to the maxim of all philosophers of that age, and especially to that of the countries from which they derived much, if not all, of their knowledge, they "gave not that which was holy to the dogs."

We find that many of these men, when they commenced their search for the Philosopher's Stone, and the Elixir of Life—which terms may have been largely used in a symbolical sense as a blind to the uninitiated—spent much of their time in the East, studying at the feet of Arabian and Persian sages. Perhaps some of them were suffered to pass through the severe initiations which have been alluded to above, and to gain an entrance to the arcana. Thenceforward their lips would be sealed, to the outside world, with regard to the secrets which were then communicated to them.

They might, it is true, use their knowledge to alleviate suffering, and for the benefit of their fellowmen, but they could not give that which was holy to the dogs. Such men were the Rosicrucians. They guarded their secrets as jealously, and probably in much the same manner as the Freemasons of to-day, guard theirs, from all but those whom they, in their turn, found worthy of initiation. But as time went on, the original brotherhood was broken up and dispersed, partly as we know by persecution, and partly by the unsettled state of the various countries in which they had established themselves. And it is possible that at that time, some of their esoteric doctrine may have leaked out, although it is certain that even under the most excruciating torments, they refused to reveal any important secrets.

Be that as it may, it is probable that

THE OCCULTISTS OF TO-DAY

are to a great extent indebted to them, among other things, for their ideas concerning thought, which I believe are almost, if not quite identical with those of the East, on the same subject, at the present time. I have read somewhere that the whole of creation is but the manifest thought of the Creator. According to occult science, when a man thinks he creates. His thoughts become living entities, endowed with powers of good or evil, which may affect himself or others; and with life in proportion to the intensity with which they have been dwelt upon. For instance, a mere passing thought may have but a brief existence, whilst one long, dwelt upon and cherished, may become our invisible companion through life's journey, and may even survive us. If this be indeed the case it lends an additional emphasis to the prayer that we "may keep a careful watch over our thoughts and affections."

If thoughts of our own creation are to be our companions through life, and stand face to face with us after death, we should indeed keep a careful watch over them. We should see that none but worthy ones are admitted into the inner chamber of the heart. It is on their account that the outer guardian should exercise indefatigable vigilance. Good thoughts should be allowed to enter, and they should be cherished by dwelling upon them, while the evil ones should be expelled and put to death as remorselessly as the intruders upon the ancient mysteries were slain. As to the mode of their death, some adepts teach that thoughts may be destroyed at once by a powerful effort of will, or allowed to die for want of sustenance, i. e, for want of encouragement.

Now, however untenable and absurd these ideas may appear to us of the Western world of to-day, they are

PROBABLY HELD BY THOUSANDS

of Masonic brethern in Eastern lands, and on that account, we should guard them with the cloak of Masonic charity, from ridicule. It is, moreover, also extremely probable that they were accepted as a matter of course, in the East, two thousand years ago, and long anterior to that. And as a philosopher of that time, in addressing his hearers, and especially his immediate followers, on the subject of thought, would convey to their minds a widely different meaning to that which a preacher of to-day would convey to a nineteenth century congregation.

There are doubtless numerous passages in the Bible, and especially in the gospels, which have been completely misunderstood on account of this ignorance of Eastern teaching. The doctrine of Reincarnation and of Karma makes perfectly clear, at once, the meaning of the text which divines and commentators have tortured and twisted into every conceivable shape, either to serve their own ends, or in honest endeavours to arrive at their true signification. Take for example the case of the man that was born blind. The disciples ask, "Lord who did sin, this man or his parents, that he was born blind?" Now, in the Western mind, this seems an absurdity, for "How could a man sin before he was born?" would be a very natural and apparently unanswerable question. To the Eastern mind, however, it would be clear enough. The belief in Reincarnation would answer the question as to how he could have sinned. The belief in Karma would explain why he had been born blind. In this case both Reincarnation and Karma seem to have been accepted as a matter of course, a subject of every day thought, and there is little doubt that some of the early church fathers held the former, if not the latter doctrine. But if a clergyman of to-day were to offer this simple explanation of the text, he would

LOSE HIS CONGREGATION,

and perhaps his gown. And yet every master Mason ought to be prepared for, and ready to accept such an explanation. Referring to the subject of reincarnation, regeneration, or rebirth, in another place, our Lord asks, "Art though a master in Israel, and understandest not these things"? There are many masters of the present day who do not understand these things. Some because they do not seek, some because they are laboring in insufficient light, or perhaps the light that they have strikes their work from the wrong quarter, casting a veil of dark and bewildering shadows. If the desire to discern the light has been awakened in the heart, we have been taught, as our ancient brethren were taught, thousands of years ago, how we should come prepared as candidates for enlightenment. Above all things, we must not suffer ourselves to be biased or influenced by any of the hundreds of conflicting doctrines of the age. We may learn a lesson from the parable of the woman who lost a piece of silver; she lighted a candle, and swept the house, and searched diligently until she found it. Let us diligently search the Scriptures, by the light that comes from the East, and the Great Master himself will enter us in our search and prosper our earnest endeavours.

"August Flower"

What is it For? This is the query perpetually on your little boy's lips. And he is no worse than the bigger, older, balder-headed boys. Life is an interrogation point. "What is it for?" we continually cry from the cradle to the grave. So with this little introductory sermon we turn and ask: "What is AUGUST FLOWER FOR?" As easily answered as asked: It is for Dyspepsia. It is a special remedy for the Stomach and Liver. Nothing more than this; but this brimful. We believe *August Flower* cures Dyspepsia. We know it will. We have reasons for knowing it. Twenty years ago it started in a small country town. To-day it has an honored place in every city and country store, possesses one of the largest manufacturing plants in the country and sells everywhere. Why is this? The reason is as simple as a child's thought. It is honest, does one thing, and does it right along—it cures Dyspepsia. ●

WONDER IN WELLAND!

A Representative Farmer Speaks.

MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best d[illegible] obtaining permanent relief, [illegible] ually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cumines, Esq., a leading druggist of Welland, Ont., speaks for itself:

Messrs. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMINES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured; attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.

The Czar's New Grief.

The Czar is reported to have been plunged into the deepest affliction by the sudden death of his valet and confidential servant, Dimitri Varkoff, who had never been absent from him for a single day during a period of more than thirty years. Varkoff always slept in the room next the emperor's, and within the last ten years he three times saved his majesty from assassination; but these attempts on the emperor's life were hushed up and the exact details have remained a secret. Varkoff trained the ferocious mastiffs which always guard the Czar wherever he is, and when the emperor was travelling or when there was reason to fear treachery in the imperial kitchen, Varkoff cooked all his master's food. He was a man of dauntless courage and a Hercules in physique.—Detroit Free Press.

More Charity, More Human Kindness.

We need more charity, more human kindness in the world. We need it in our churches, in our society, in our homes. We need it towards those who are bound closest to us by [illegible]ties of this world, towards our neighbor, towards our servant; towards the street vagabond, who may never have had a kind word to remind him of a better way of living. There are men and women about us who have forgotten how to smile, if they ever knew. Do you know what you might do for these? It wouldn't cost much to bestow some little kindness. Some of them will never ask it; they would expect a refusal, perhaps a harsh refusal, and there is so much human feeling left for them to be indifferent to that.

Depilatory Powders.

Dr. Classen, says (*Monatshefte f. prakt. Dermat*, 1889, ix. 541) that among the best depilatory powders are sulphohydrate of sodium and sulphide of barium. As to the sulphohydrate of sodium, he says that used as a paste, one part to eight of water, and allowed to remain on for a short time, it acts well. But it deteriorates very rapidly and is dangerous to give to a patient, as it is quite capable of producing scars. The sulphide of barium is a safer powder for the purpose. It may be used by mixing 50 parts of it with 25 parts each of starch and oxide of zinc. This is mixed with water so as to form a soft paste and spread upon the face. After ten minutes it is scraped off, and leaves a smooth skin. —Medical Tribune.

The Republican Mace.

Like the British house of commons, the lower house of the United States congress at Washington possesses a symbol of its authority in the form of a mace. It looks like the fasces which were borne by the lictors before the Roman tribunes and consuls, and consists of a bundle of thirteen ebony rods entwined and bound together with silver bands. The thirteen ebony sticks represent the thirteen original states of the union. They are surmounted by a globe of silver, upon which the hemispheres are traced, while a silver eagle with outstretched wings is perched upon the summit of the globe. It was made in 1844, weighs twenty pounds, and is entrusted to the custody of the sergeant-at-arms.

Across the Continent.

Wm. Renwick, M. D., M.R.C.S.E., Victoria, B. C., writes:—"I have used Miller's Emulsion of Cod Liver Oil in cases of indigent patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the preference, being perfectly satisfied with its therapeutic efficacy." In my endorsement of Anti Dandruff I can say something that I never could before, which is that this preparation is a perfect remover of Dandruff, not only in the first stages, but even where the plague has become chronic and has merged itself into a disease. Years of experience of a hairdresser, during which time I have experimented with every recommended preparation, not one has (nor, I might say, even all put together) given the satisfaction that Anti-Dandruff has.

It positively removes Dandruff. It stops falling of the hair. It cools the head. It makes an elegant hair-dressing without leaving a trace of its use. I use it daily in my hair-dressing place, at Balmoral Hotel, and have yet to find the first customer who was not pleased with it.

Seven Years' Suffering.

GENTLEMEN,—I had suffered very much from inflammatory rheumatism, which through wrong treatment left ugly running sores on my hands and feet. With these I suffered for seven years, during which time I had neither shoe nor stocking on. I commenced using B. B. B. externally and internally, using the Pills also, and I can say now that the sores are entirely cured, and have been for some time. I believe the bitters were the means of saving my life.

RHEUMATISM.—Col. DAVID WYLIE, Brockville, Ont., says: "I suffered intensely with rheumatism in my ankles. Could not stand; rubbed them with St. Jacobs Oil. In the morning I walked without pain."

NEURALGIA.—Mr. JAMES BONNER, 156 Yonge St., Toronto, Ont., writes: "St. Jacobs Oil is the only remedy that relieved me of neuralgia, and it effectually cured me."

BACKACHE.—"I can highly recommend St. Jacobs Oil as being the best medicine in existence; it promptly cured me of severe backache." G. N. BOYER, Carillon, Quebec.

SPRAINS.—"My mother received a very severe sprain and bruise by falling down stairs. St. Jacobs Oil cured her in a couple of days." E. BURNAND, 124 Tecumseth St., Toronto, Ont.

BRUISES.—Mr. AITCHISON, Hamilton, Ont., Fire Department, says he met with a serious accident and his back and shoulders were terribly bruised, but by the use of St. Jacobs Oil he was completely restored.

JUST TO SEE BABY.

A Man Who Broke Jail Just to See Him to See a Sick Child.

Early Monday morning a timid knock was heard at the big, heavy door of the Fulton County, Ga., jail.

Jailer Miller opened the door and a strong, rugged man came in.

There was a haggard look of sadness on the poor fellow's face.

It was Jim Wesson, the moonshiner, who escaped from the Fulton County jail a week ago to go home and see his sick baby.

"I'm sorry, Mr. Miller," the poor fellow said in a broken voice. "I hope you and Cap'n Morrow don't care, but I heard the baby"——

He brushed a tear away and stopped a moment until his lips quit quivering so, and went on:

"I heard the baby was sick, and I thought about wife watchin' of it at home, and I just had to go. I was sorry, an' I wrote you I'd come back. An' I done it. They done buried the baby an' I come back, an' hope you ain't mad."

Capt. Miller did not—he could not utter a word of reproach to the heart-broken fellow. There was a touch of human nature about it that made the big, strong jailer feel more like weeping than scolding.

"I'm glad you have come back, Jim," said he.—Atlanta Constitution.

Stinginess vs. Saving.

Someone has said that the French people would be shocked to witness the wastefulness and extravagance of the American housewives; however this may be, we know that much is thrown away, or left carelessly standing, until unfit for use, in many pantries and storerooms. We have been informed that the French housekeepers are models of careful economy in the kitchen, not so much being thrown away as the crumbs which scatter in cutting a slice of bread; they are saved, and made to form a part of some one of their savory dishes; the same of a cabbage leaf or slice of potato.

Many people appear to think that there is something small and stingy about this saving, but they mistake. If we but stop to consider the matter rightly, we shall see the error which we have fallen into. Every large number is made up of the little "ones." Then why throw away one, whether a potato, a scrap of meat or a handful of crumbs?

There is a vast difference in the significance of the words stingy and saving. Stinginess is a mean disposition to hoard up what we actually need to use, while saving is merely a disposition to keep for future use what we do not need for immediate use. There can be nothing stingy nor mean in a studied course of economy, and no woman is capable of ordering the work in her home until she has become thoroughly conversant with at least the first rudiments of this study.—The Housekeeper.

Her Papa Liked the Play.

A young miss who has been to the theater but two or three times, and then to see pieces in which there was no ballet, was taken the other afternoon to a performance where the ballet was one of the principal features. She was accompanied by her father and an elder sister, and when she came home her mother asked her how she liked the performance. Her reply was well received by the mother, but not so much appreciated by the father.

"I liked it pretty well," she said, "but I couldn't see the people through the glasses, for papa was using them all the time. There was a lot of girls who didn't have any clothes on but a little ruching around their waists, and they kicked up awfully. Oh, you ought to have seen papa laugh. He is going to take me again, mamma, for he said he would."

Papa remained silent.—Boston Herald.

Consumption and Lung Difficulties

Always arise from particles of corrupt matter deposited in the air cells by impure blood. Purify that stream of life and it will very soon carry off and destroy the poisonous matter, and like a crystal river flowing through a desert will bring with it and leave throughout the body the elements of health and strength. As the river, leaving the elements of fertility in its course, causes the before barren waste to bloom with flowers and fruit, so pure blood causes the frame to rejoice in strength and health, and bloom with unfading beauty. The Head Surgeon

Of the Luben Medical Company is now at Toronto, Canada, and may be consulted either in person or by letter on all chronic diseases peculiar to men. Men, young, old or middle-aged, who find themselves nervous, weak and run-out, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of memory, bad dreams, diseases of sight, palpitation of the heart, confusion, lack of energy, pain in the kidneys, headache, pimples on the face or body, itching or peculiar sensations about the scrotum, wasting of the organs, dimness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dullness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes surrounded with leaden circle, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity and death unless cured. The spring or vital force having lost its tension, every function wears in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on all diseases peculiar to men. Books sent free sealed. Heart disease, the symptoms of which are faint spells, purple lips, numbness, palpitation, chip hands, hot flushes, rush of blood to the head, dull pain in the heart with beats strong, rapid and irregular, the second heart beat quicker than the first, pain about the breast bone, etc., can positively be cured. No cure, no pay. Send for book. Address M. V. LUBEN, 24 Macdonnel ave., Toronto, Canada.

JUMPED OUT HERSELF.

And Was Not Thrown from the Compartment as She Said.

LONDON, May 9.—It has transpired that the story told by Amy Faulkner, the dressmaker, who was found Friday in a terribly injured condition beside the railway near Leeds and who said she had been assaulted by a man in the compartment of a railway carriage and then thrown out, is without truth. The woman yesterday confessed that the story was concocted by herself, and that, instead of a man throwing her from the train, she jumped out herself. She gave no reason either for jumping from the train or for telling the story that she had been assaulted.

FLASHES FROM PARIS.

How France is Watching the Approaching Presidential Campaign.

PARIS, May 9.—The approach of the presidential campaign in the United States attracts much attention in France. M. Pressensg, the well-known foreign editor of The Temps, said to an Associated Press representative Saturday: "We follow closely American, national and municipal politics, because French Republicans want to see just what democracy is when left to develop freely. Next we are studying the possible effect of the presidential election on international commerce. France wants a modification of the McKinley law, but she would not like to see a free coinage law. If an international monetary conference will end the dispute nothing will please us better. Nothing can be done without England's co-operation. Mr. Goschen after flirting with bi-metallism seems to have dropped it.

MUCH ADO ABOUT NOTHING

This is What M. Zola Thinks of the Anarchist Troubles.

PARIS May 9.—M. Zola, referring to the Anarchist scare, said: "This excitement is much ado about nothing. My verdict is that the Anarchists are few in number, that they have no organization and that the most they can do is to blow up a few houses. Then public opinion will support summary justice dealt in the streets. Lynch law will speedily silence the advocates of anarchy."

The Pope's Answer.

LONDON, May 9.—The Chronicle's Rome correspondent says: The Vatican is preparing a negative reply to the petition of foreign Catholics in America for national priests. It is stated that the Pope will send an address later to the American episcopacy approving Archbishop's Ireland's educational policy. The Vatican argues that the Irish although very numerous in America have never made a similar demand.

SNOW IN THE TYROL.

The May Vintage and Fruit Crop Enormously Damaged.

VIENNA, May 9.—A snow storm set in yesterday morning in Hungary and the Tyrol and continued throughout the day and night. The mountain passes are blocked.

On the level the snow is a foot deep. Enormous damage has been done to the orchards in Corinthia, where the trees were all in bud.

ANTI-TEUTON MEASURES.

Russia Endeavoring to Suppress the German Language Along the Baltic.

BERLIN, May 9.—The repression of the German element in the Baltic provinces is more severe than ever. The use of the Russian language has been made compulsory in the schools of the country, which have hitherto been exempt from that obligation. The students' clubs at the Dorpat University, which are made up largely of Germans, have been placed under the ban. Russian professors are taking the places of German. Russian students who obtain scholarships are sent to Dorpat with the view of strengthening the Russian and outweighing the German element.

Dynamiters in Austria.

VIENNA, May 9.—The residence of a district notary named Papp, in Versecz, Hungary, was wrecked by a dynamite explosion. The roof of the notary's dwelling was blown bodily into the air and the windows of all buildings in its vicinity were shattered. It is supposed that the motive of the perpetrator or perpetrators was revenge. A Roumanian has been arrested on suspicion of being connected with the affair.

Like a Rushing Sea.

NEW ORLEANS, La., May. 9.—The Mississippi to-day is one vast rushing sea. The levees throughout this state and Mississippi are being thoroughly guarded and every precaution has been taken against crevasses. At Greenville the river is higher than ever before and is still rising. Patrols have been organized to watch the levees. The marine sectional dock has been wrecked by the flood.

Hattie Adams Convicted.

NEW YORK, May 9.—Hattie Adams, whose house was made famous by the Parkhurst inquiry, was convicted in the Court of General Sessions yesterday. The punishment prescribed by law is one year's imprisonment or $500 fine or both. It is expected that the prisoner will get the full penalty. Dr Parkhurst was present at the trial and politely listened to Lawyer Howe's thunderous abuse of him.

JAEGER IN PERIL.

Rothschild's Absconding Cashier Will be Brought Back.

BERLIN, May 9.—Herr Jaeger, who recently embezzled about $400,000 in cold cash from the Frankfort Rothschilds, has not yet been captured.

His late employers, however, have a clue. At least they think they have.

It seems that some months ago Jaeger prated to a female acquaintance about a land of flowers and perennial bloom, and asked her if she would like to accompany him to such a paradise. She thought it a joke and declined. Now she has communicated the facts to the police, who have come to the conclusion that Jaeger meant the Orient, and that he has fled in that direction.

The suicide threat made by the defaulter is regarded now as a blind, because he would not want to kill himself while in the undisputed possession of cash to the amount of $300,000.

Lines of travel to the Azores, the West Indies, Ceylon and other points usually associated with perpetual flowers have been carefully scanned. Jaeger has been, at length, traced in an easterly direction, and it appears that he has taken a vessel which is due to arrive in Colombo, the chief sea-

WAS IT O'SULLIVAN?

An Anonymous Letter Says That It Was Not.

CHICAGO, May 9.—A morning paper in an article upon the death of O'Sullivan, the late Cronin case convict, states that an anonymous letter was received by its editor last night, which questions the authority for the report of O'Sullivan's death at Joliet prison. The letter refers to "the sympathetic attitude of Warden Dement and the mass of cunning revealed in the Cronin conspiracy," and asks: "Is is not worth while to fully investigate this rumor while O'Sullivan's body is lying in Wells-street, and before it is hurried off to Wisconsin for interment? Make sure that it is not a plaster cast of the face and features of the convict No. 47 that has reached Chicago and not the former iceman of Lake View and ex-member of camp 20."

HANGED IN THE STILLY NIGHT.

Thomas Lawton, Murderer and Train-Robber, Meets His Doom.

DENVER, Col., May 9.—A despatch to The Republican from Canon City, Col., says: "Thomas Lawton was hanged inside the penitentiary walls at 10.20 o'clock Saturday, there being present only those persons allowed by the law. The crime for which Lawton was executed was the killing of John Hemming, and the story of the crime is as follows: On the night of Aug. 17, 1891, two men held up a car of the Rapid Transit Railroad in Colorado Springs. They first attacked Conductor Ward, and the motorman, John Hemming, hurried to his assistance. When Hemming came up one of the robbers shot him, and he died the next day. The robbers escaped without injury, and would probably still be at liberty had not one of them, a young ranchman, named Alfred Russell, confessed that he and Thomas Lawton had committed the crime, but that Lawton was the man that killed Hemming.

A MURDER MYSTERY.

The Brooklyn Police Trying to Unravel a Strange Case.

BROOKLYN, May 9.—The police are trying to unravel the circumstances in an alleged murder which is said to have been committed by Peter Schultz, a youth of 18 years, and Adam Haass, 25 years of age. The victim is a 3-year-old child of Mary Wertheimer, a single woman who resides in Williamsburg. The mother of the child has been arrested as an accessory. The story is that the two men went to the house of Mary Wertheimer Monday night and strangled the child, afterward throwing it into a pond. Being afraid of discovery, it is alleged they took the body out and burned it. The police are searching for the body.

EXTENSIVE CHANGES IN

THOMAS KELLY'S

DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated, and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

CARPETS AND CURTAINS!

We have placed in this department an excellent stock of the following lines:—

REMPS at 10, 12½, 15, 20, and 25c. a yard. All good value.

JAPANESE MATTINGS—The advantage these goods have over other Carpets, is they do not retain the dust; can be washed off and are excellent to wear. The prices range from 20c. to 40c. per yard.

UNION AND WOOL CARPETS are worthy of every housekeeper's attention. The patterns are new—for the spring trade. Prices range from 40c. to $1.15.

TAPESTRY CARPETS—We show Light and Dark Tapestry, ranging in prices from 25c. a yard up. In these goods we have a great many ends, suitable for bedrooms, which we will job out cheap.

LACE CURTAINS, CURTAIN NETS, AND ART MUSLINS—Our stock of these goods is so varied, we can only give them a passing glance. Beautiful Curtains only $1.50 a pair. Good wide Curtain Nets at 15 and 20c. a yard. Also Swiss Lace Curtains, the newest thing in the market, just received. Every department is loaded with new goods for the spring trade, at closest prices.
